Don't let a killer get you.

Heart disease is the number one killer of men and women in the United States. In fact, about half a million people die each year from heart attacks caused by coronary artery disease. Your cholesterol level helps determine your risk of developing heart disease.  
• Rockcastle Hospital and Respiratory Care Center, Inc. is offering you a free chance to learn if you are at risk.  
Throughout August, the hospital lab is offering free cholesterol tests.

- This test is a \$70 value and includes a complete blood work up. No appointment is needed. Just do not eat for at least 12 hours before your test. Results will be sent to your family doctor.
- Cholesterol buildup is the most common cause of heart disease, and it happens so slowly that you may not even be aware of it. Come in for your free cholesterol test, and catch this silent killer before it strikes you!

Call 256-2195 for more information.
