"WHAT IS WRITTEN"

Today we want to look at the Biblical pattern for the name by which the disciples of Christ are called.

There are 3 texts that use the God given name for saints. "And when he had found him, he brought him into Antioch. And it came to pass, that a whole year they assembled themselves with the church, and taught much people. And the disciples were called Christians first in Antioch." Acts 11:26 Did it say The disciples were called Mormons? NO! The disciples were called Methodists? NO! The disciples were called Baptists? NO! The disciples were called Presbyterians? NO! The disciples were called Roman Catholics? NO! The disciples were called Pentecostals? NO! Look at what the Bible says, "And the disciples were called Christians." This word called means to speak by oracle, to command or teach from heaven. Thus God is giving this command or instruction of what the disciples are called. It only promotes human wisdom and sectarianism to wear these man-made given names "Thou Agrippa said unto Paul, Almost thou persuadest me to be a Christian." Ac. 26:28. And finally in 1 Pet. 4:16 we read, "Let every man suffer as a Christian, let him not be ashamed, but let him glorify God on this behalf." (or in this name ASV). The name Christian, is the God given name that true disciples wear, not those man-made names that promote denominationalism.

Don't let a killer get you.

Heart disease is the number one killer of men and women in the United States. In fact, about half a million people die each year from heart attacks caused by coronary artery disease. Your cholesterol level helps determine your risk of developing heart disease.

- Rockcastle Hospital and Respiratory Care Center, Inc. is offering you a free chance to learn if you are at risk.
- Throughout August, the hospital labs offering free cholesterol tests.

- This test is a \$70 value and includes a complete blood work up. No appointment is needed. Just do not eat for at least 12 hours before your test. Results will be sent to your family doctor.
- Cholesterol buildup is the most common cause of heart disease, and it happens so slowly that you may not even be aware of it. Come in for your free cholesterol test, and catch this silent killer before it strikes you.

Call 256-2195 for more information.
