Mrs. Mollie Woodall died last Monday, with cholera morbus. She was only sick a few days, and leaves a husband and seven children to mourn her loss. And a great loss it is, as there were but few better mothers in this locality. The entire family have our sincere sympathy.

There is much talk of a telephone line being extended from Berea to Wildie, making an office at this place, something that we badly need as we are five miles from Wildie and seven miles from Berea, and if a fellow gets very bad off, it is almost death in every case before we can summon a doctor. Every man, woman and child, should help secure this line as we are to receive the benefit.

G. S. Griffin, candidate for sheriff was in our place last Friday. He was in fine spirits, and thinks he will have no trouble in winning his race, but as Mr. Tate is a good roadster and a fine racer, we think if George wins at all it will be on the home stretch.

Mrs. Bell Hart, the lady that A. C. Stapp swindled out of, her property in Louisville, by trading her the Sigman farm that was incumbered in a way that she was robbed, and the plow taken from her, left Brodhead Tuesday night for Louisville, she hopes to be able to regain her home in the city as she was deceived and swindled in the transaction.

Mr. George Reynolds, of Brodhead, who has been in the Philippine Islands for the last two years, fighting the Insurgents and helping Uncle Sam put down the insurrection over in that country, returned to his old widowed mother in Brodhead a few weeks ago. George is looking somewhat worsted over the fight. A good republican, who hates all rebels, and who would not fight at all himself, said that George had been in a good cause, fighting rebels, for all rebels ought to be whipped. I will say that George has been fighting Insurgents and probably not rebels, for there may be quite a difference between a rebel and an insurgent. The insurgent is one who opposes the execution of a particular law, or laws; a rebel is one who attempts to overthrow or change the government; or one who revolts, and attempts to place his country under another jurisdiction. Therefore all rebels are insurgents, but all insurgents are not rebels, and if this

brother could learn this fact, he would not hate the poor Filipino so much.

Mrs. Shivel is reported quite sick.—Mrs. VanHook is no better.—So Editor, you can see that our report this wee is not so favorable as we would like to have it. Just think of our condition, with the scarlet fever among our babies, the candidates calling every hour in the day, and the mercury in the thermometers playing around the one hundred notch and our streets covered with dust, two or three inches deep, and our gardens as dry as a bone and no sign of rain. And now since Buck Varnon said what he did about rain, &c, we could not get our people to do as the Governor of Missouri did. His people set apart a day, to fast and pray for rain, and we will just have to wait until the fixed laws in nature bring us relief. But the good Lord, that made these laws, commands us to pray for daily bread, and as it takes rain to make daily bread, I think we ought to pray for rain, for God never said he would not hear sinners when they pray. But he did say, "all things, whatsoever ye shall ask in prayer, believing, ye shall receive." And again, He said, if his people would "hearken unto His commandments," and love and serve Him with all their heart and soul. That He would "give rain in his due season," the first rain and the latter rain, that thou mayest gather in thy corn, thy wine and thine oil," and that He would "send grass in the fields for the cattle, that thou mayest eat and be full." And then He said, "take heed to yourselves, that your heart be not deceived, and ye turn aside and serve other gods, and worship them." If so, "the Lord's wrath be kindled against you, and he shut up the heavens, that there be no rain, and that the land yield not her fruit, and ye perish quickly from off the land; which the Lord giveth you." And He said, "to lay up these words in your hearts, and in your soul, and bind them for a sign upon your hand, that they might be as frontlets between your eyes; ye shall teach them your children, when thou sittest in thy house, and when thou walkest by the way, when thou liest down, and when thou risest up." Now if the Lord has turned away from us, what is the cause? Sin. What shall we do? repent and turn to the Lord and pray him to forgive us, and restore his salvation, and his rain, and the grass and grain, that he says he withdrew for our disobedience. I think this to be the proper course for us to pursue.

CURE FOR CHOLERA INFANTUM NEVER KNOWN TO FAIL.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—MRS. CURTIS BAKER, Bookwalter, Ohio. ANNOUNCEMENTS

We are authorized to announce Chesley Payne,

as a candidate for Magistrate in the Second district, subject to the action of the Republican party.

ADMIRALS Sampson and Schley, heroes of the Santiago fight, are losing many valuable hours of rest, over the fact, as to which one is the real hero of the battle. While Schley was not as high in rank as Sampson, and all orders from headquarters were given Sampson and transferred by him to Schley, yet, to the latter, by a majority of people, the credit is given for the splendid victory. Many severe attacks have been made on Admiral Schley by Sampson and his friends, and especially by historian McClay, in which he calls Schley "a traitor and a coward" as a result of which Secretary Long has been asked to appoint an investigation committee, of which Rear Admiral Dewey will be chairman, to inquire into the facts, hear the evidence, and make a decision that it is hoped will bring to a close, this detestable wrangle.

PROF Brouardel, of Paris, read a paper before the British Congress Wednesday, in which he said, consumption was a curable disease and that the most important factor in stamping out this horrible disease, was proper legislation. The statements of Dr. Brouardel are in perfect accord with Dr. Koch, the celebrated German specialist, who said, "that heredity was an unimportant factor in the transmission of tuberculosis but that the great danger lay in the spectrum of consumptive patients and that a remedy was to be found in a law preventing the consumptive from strewing contagion about him. May the day soon come, when proper steps will be taken, and if possible, rid this country of that, most feared and most destructive of all diseases, to human life.

THE Governor of Missouri issued a proclamation on July 15th setting apart July the 22nd as a day of prayer, when the people of the state should fall upon their knees and ask the Lord to send them rain. In 1875 Gov. Chas. H. Hardin issued a proclamation, setting aside June 3rd, as a day of Thanksgiving, fasting and prayer, for Divine deliverance from the double plague of drouth and grass hoppers. In that case, the rain soon came in abundance and in a short time the grass hoppers all disappeared. Did the prayers of those people bring about the result or not? Special occasion prayers never avail much.

A bill was introduced in the Virginia Constitutional convention Tuesday, exempting the property of confederate soldiers from taxation, to the amount of \$1000. As they can not get a pension, it is just and right, that such a step should be taken, as a small compensation for doing what they thought to be as much their duty, as did the boys in blue.

CAPT. A. N. Bently proved himself a wise man, when he failed to put up his money and enter the primary. The Republicans of this county would not have nominated him, and his efforts for the place would have been useless. This paper would liked to have seen him made judge, as he has moral standing and ability enough to make a good one.

STOCK AND STABLE.

STUDY OF VENTILATION OF INTEREST TO STOCKMEN.

Necessity of Cleanliness, Fresh Air and Sunlight to Produce the Best Results—System to Be Used at Pan-American Exposition.

The Pan-American Exposition will prove to be of more genuine benefit to those interested in the proper care of live stock than any previous effort in this direction. Stable construction is a question that appeals with great force to every farmer who is anxious to secure good results. The question of expense is a great barrier to the proper building of this necessity. Unfortunately some of the early examples of good stables were built by men of large means, regardless of what the cost might be. As a result practical farmers were slow to take the matter up, as the idea of a properly constructed stable became at once associated with great expense.

One object of Mr. F. A. Converse, who has charge of the live stock and dairy products at the Exposition, in building a model stable at the Exposition is to counteract this erroneous impression.

A properly constructed stable is not necessarily an expensive one. Cleanliness, fresh air and sunlight, with a modulated temperature, may be obtained in a building of ordinary cheap construction if properly arranged.

A light, cheap framework covered with paper which is protected with a sheathing of very common boarding and covered with a good roof makes a very good start. This should stand on ground that is well drained and exposed to the sunlight, but protected from cold winds. The floor should be of cement and carefully designed to facilitate cleanliness in every particular. Double doors, fly screens and dark blinds should be provided and made to fit properly.

A system of ventilation should be provided that will ventilate. Anything will not do. By excluding the cold and the light ordinarily we also shut out the fresh air, without which no animal can thrive. Many stockmen are careful about the quality of the food, though careless about everything else in connection with the stable. In this manner they are protecting their stock in one direction while leaving them exposed in many others.

Stable air is de-vitalized by passing through the lungs, it is also being contaminated by chemical decomposition of the excrementum as well as the fumes arising from the fermentation of damp bedding, etc.

To thoroughly understand how to properly ventilate a stable it is necessary to study the circulation of air at changing temperatures, which is governed by fixed laws and may be easily understood. Warm air is lighter than cold air. Generally speaking, foul air is heavier than fresh pure air from the outside, even at the same temperature. Starting from this well known principle, ventilation should be arranged accordingly. Fresh air should be let in at the top and the foul air taken out at the bottom.

By experimenting we find if we smoke a cigar in the middle of a room the smoke goes first to the ceiling, where it spreads in every direction until it reaches the side walls, when it will descend.

This would indicate that we should admit fresh air at or near the center of the ceiling and draw the foul air from the different sides of the room near the base. There are two systems in use in our best stables. One forces the fresh air in, the other, the King system, draws the foul air out. As Mr. Converse prefers the latter, that is the system he will demonstrate at the Exposition.

It consists of an air stack with a hood, the opening of which is turned away from the direction from which the wind is blowing. To this main air pipe are attached feeders from different parts of the stable. These feeders have slide openings to admit and carry off the foul air from near the floor at the sides of the stable. Fresh air is admitted through a central opening in the roof.

As the draft that is created by the hooded stack is sufficient to draw the bottom air from the stable, fresh air must go down through the central opening to take its place, and a change of air is a certainty. To prevent the intake from striking the animals too strong a shield is placed under the opening which assists in directing the flow of fresh air along the ceiling. In this manner it mixes with the warm air that naturally rises in the center of the stable, and all is intermingled and diffused.

With a good stable well ventilated and good feed intelligently fed the winter care of stock should be profitable as well as pleasant.

Epidemics have no bad effects on such stock, and a visit from the board of health has no unpleasant consequences for the owner.

LOCAL

W. S. Renner lost a \$125 horse by getting it over heated.

The L. & N. has reduced the freight rates 30 per ct. on coal.

Born to the wife, of Dr. M. L. Myers, on the night of the 22, a fine girl.

Manager James Maret tells us, that he will put in an exchange at Livingston in the early fall.

Remember the \$1 75 round trip excursion over the L. & N. to Cincinnati, a week from tomorrow night.

BURNED.—Mrs. Serene Parson had her house burned last Friday, however, nearly all the contents were saved.

The band boys will give an ice cream supper in the court house yard to night. Every body come and help them out.

The blackberry crop is very plentiful in this section, and the pickers are finding a ready sale for all they can furnish.

The Mt. Vernon Brass Band will play for the Columbia Fair, August 20, to 24. The boys are making good music and getting lots of work to do this season.

BANKRUPT.—Frank Jones, of this county, was adjudged a bankrupt in the Federal court at Covington last Tuesday, and the case referred, to Hon. R. W. Miller, Referee at Richmond, C. C. and R. G. Williams represented the petition and creditors.

Ephriam Mitchell, an eccentric citizen living near Kingston, Madison county, being unwilling to be buried in an ordinary wood coffin, has contracted for a huge stone coffin, which is to be made out of Rockcastle granite and will weigh one ton.

DEAD.—Davy Adams, better known as Davy Langford, from the fact that he has always lived with his Aunt Mrs. Nancy Langford, his mother having died when he quite young, died Friday, and was buried in the Cemetery here Saturday by the side of his mother.

FAIR.—The Brodhead fair will take place August 21, 22 and 23. The catalogue, which is now in print at this office, will be ready for distribution, by August 1st. The premiums are much better than ever offered before, and this promises to be the best fair, the Association has ever had. Every person in Rockcastle should try to make it a point to take some kind of an exhibit, and try to make the fair as great a success as possible. It is a county enterprise and should receive the hearty support of every citizen in Rockcastle county.

Madam rumor says, Hon. J. C. S. Blacklurn is soon to wed.

Jacob Sambrook paid this office a pleasant call, while in town Monday.

Mrs Susan VanHook died at her home in Brodhead, yesterday morning at 6 o'clock.

AND THEY PUT UP.—Saturday was registration and put-up day with some fifty or sixty of the republican boys, who are very much in earnest about securing a nomination, on the 15th of next month. The following is a list of the candidates for the various offices, who are now in the field, hard at work: Judge, W. A. Hammons, S. D. Lewis, Odum Gibson, and W. R. Dickerson; County Attorney, L. W. Bethurum and D. T. Lamb; Sheriff, H. L. Tate and G. S. Griffin; Jailor, J. W. Parson, Jacob Pike, Jack Abney, G. W. Gentry, J. L. Arnold, R. D. Cook, Charles Holman, J. R. Gatliff, G. W. Decker, William Baker, and H. K. Mullins; Assessor, S. B. Ramsey, W. M. Chasteen, J. W. Kirby, Isaac Todd and George Proctor; County Clerk, M. C. Miller, H. Blazer and Bogie Phillips; County school Superintendent, W. A. B. Davis and G. M. Ballard; Surveyor, S. N. Davis; Justice of the Peace: First District, J. W. Marler, S. L. Durham, Thomas Baker and B. H. Cummins; Second District, John Swinford, Joe Lambert, James Richmond, James Reynolds, Chesley Payne and Jack Scott; Third District, W. J. Kinley, John Harper and Charles Renner. Constable, First District, Harry Jones; Second District, Wyatt Allen, A. L. Shears, John L. Mullins and Robert Hines; Third District, W. J. McNabb and R. M. Nichols, and Coroner, W. H. Sims. With the large number of men, now in the race, it is readily seen, that in most of the races, only a small vote is necessary to nominate. Who will be the candidates? We trust the entire ticket will be made up of good men.

Miss Georgia McFerron started her school last Monday, with forty odd pupils. Miss McFerron is a good teacher and parents should have their children go regularly to school.

This warm weather is hard on us who have to keep in motion, but what must it be for the poor lazy people who have to keep still under the shade of some tree. The thermometer is at 98 today, and has been there about all the week. Farmers say if we don't have rain soon, their crops will all be ruined, but farmers never know when to stop complaining.

Col. and Mrs. Metesser entertained quite a number of their young friends Wednesday evening. Mrs. Metesser took the young people under the trees on the lawn, where, with her pleasing manners, she made every one feel at home. At half past nine, refreshments were served and when the time came to go home, every one wished more people here gifted with the art of entertaining, like Mrs. Metesser and would use their gifts.

ORLANDO

It looks like rain, would help.

Geo. W. Anderson was in Mt. Vernon Tuesday, on business.

Last Sunday was a record breaker in being quiet, no loud words or animated arguments during the day.

Our school began Monday with fair attendance and prospects of a good school, with Miss Mattie McFerron as teacher. She comes well recommended and the district is fortunate in getting such a good teacher.

The Sunday School at this place is progressing nicely, and many distinguished Sunday School people visit us. Among those who have been with us lately, were Rev. Ragan, of Preachersville, and Dock Stuckey, of Livingston.

Healthy Mothers

Few mothers are healthy, because their duties are so exacting. The anxiety of pregnancy, the shock of childbirth, and the care of young children, are severe trials on any woman. But with Wine of Cardui within her grasp, every mother—every woman in the land—can pay the debt of personal health she owes her loved ones. Do you want robust health with all its privileges and pleasures? Wine of Cardui will give it to you.

WINE OF CARDUI

strengthens the female organs and invigorates weakened functions. For every female ill or weakness it is the best medicine made. Ask your druggist for \$1.00 bottle Wine of Cardui, and take no substitute under any circumstances.

Mrs. Edwin Case, Gormer, Mich. "When I commenced using Wine of Cardui I was hardly able to walk across the house. Two weeks after I walked half a mile and picked strawberries. When my other child was born I suffered with labor pains 24 hours, and had to raise him on a bottle because I had no milk. After using the Wine during pregnancy this time, I gave birth last month to a baby girl, and was in labor only two hours, with but little pain, and I have plenty of milk. For this great improvement in my health I thank God and Wine of Cardui."

"CAN'T Afford TO Paint."

THE man who says that, forgets that painting properly done is economy, and the fact is he can't afford NOT to paint. HOW often you require to paint is largely dependent upon the paint you use.

The Sherman-Williams Paints

out last others. They are the most economical paints you can use, because they cover most and wear longest. Add to this their good appearance, and you have perfect paints—THE SHERMAN-WILLIAMS PAINTS.

They are made for many different kinds of painting. Whatever it is you want to paint—a house, or anything in or out of the house—we make the right paint for that particular purpose—not one slap-dash mixture for all.
