TEST OF COUNTY PATRIOTISM.

Handsome two-hundred dollar Sterling silver plate to be awarded the Kentucky County whose exhibitors receive the largest number of ribbons at the 1907 Kentucky State Fair.

The counties of Kentucky are to have an opportunity of contesting with each other for a handsome prize at the Kentucky State Fair to be held in Louisville under the auspices of the State Board of Agriculture, Sept. 16-21. Commissioner of Agriculture HUBERT VREELAND has tendered to the State Board an appropriation to cover the purchase of a two-hundred dollar Sterling Silver plate to be awarded to that county whose exhibitors at the forthcoming exhibition, carry off the largest number of ribbons in all classifications.

This is something unique in the history of State Fairs, and it is expected to attract a great deal of attention. It is possible for every county in the State to have a good chance of winning this award. A ribbon received in any department will count for as much as the ribbon that goes with the premium where hundreds of dollars are involved, therefore the county which exhibits much fruit, will line up with the county that has the greatest live stock display, while the county which makes a good showing in field seed and grain, with vegetables and melons will stand as good a chance as the county that shows most poultry and pigeons or the greatest amount of woman's work and table luxuries.

It is to be free for all, with an even chance for every county in the State.

The Silver plate will be handsomely engraved, framed in gold with a background of velvet, and for the first three months after the fair will be placed in the custody of the County Judge of the county which wins it, to be hung upon the walls of the courthouse; to be removed on January 1st. and

placed in the Capitol at Frankfort. The three months display in the county will enable every citizen of the county to examine it, while after it is hung on the walls of the Capitol, every visitor to the Capitol will see the trophy and be impressed with the importance of the county winning it. When the new Capitol is completed, the silver plate will be removed to it, and as succeeding Fairs are held, the trophies won by other counties will be placed alongside the first. Full information will be furnished to any citizen of the State who will address the Secretary, R. E. HUGHES at Louisville.

MAMMOTH FIRE WORKS SPECTACLE.

The State Board of Agriculture, under whose auspices the Kentucky State Fair will be given at Louisville September 16-21, has just closed one of the biggest contracts in the history of state fairs. Realizing that visitors to the State Fair come with the expectation of seeing; not only live stock exhibits that excel, but desiring to have all forms of attractive amusements added to the program, arrangement has been made with the Pain Pyrotechnic Co., to bring to Louisville during the State Fair week, its famous reproduction of the eruption of Vesuvius. This is acknowledged to be the greatest of all fire works spectacles. It faithfully depicts the awe inspiring calamity that came with the rain of fire from the great volcano near Naples a little more than a year ago.

Rowe gave bond for his appearance at Circuit Court. On Wednesday Ben Cummins was also arrested by sheriffs Nicely and Livesay with a similar amount in his possession and he is also out on bond to await the action of the Circuit Court.—Rowe and Cummins says they were simply accom dating their friends and were not bringing it in for the purpose of selling. We are always thankful to any one who will report such items of news as you may know. It is impossible for the news gather to get all items, and if some one is left out, the kick comes, yet the very person left out had half dozen or more opportunities to tell the editor about it. The kind of news we don't want are items two, three and four weeks old.

If there has ever been a time when we were in job work up to our ears, it has been for the past three weeks, and three weeks ago we would have said, it impossible for our regular force to do the amount of work which has been done. Besides printing an ordinary two week's run of letter heads, envelopes, posters, etc., we have put out two catalogues, one of forty-four pages, one thousand copies, and another of forty pages, five hundred copies. Those that don't think it took hustling to do it, had better not try it, especially this hot weather.

The difference between "cemetery" and "seminary" to W. F. Dorsey and W. A. Peffer, two proof readers of the Government printing office in Washington means a loss of just \$34.25 each. Both passes the proof, a work for the Bureau of Education, in which the word "seminary" appears as "cemetery". Part of the books had to be reprinted. The two men were compelled by Public Printer Stilling to bear the cost of correction. The position of proof-reader is the most exacting on a newspaper. If those who smile at occasional small errors, will come around to this office and try to catch them for a while, we will guarantee they will soon take back a lot of mean things they have said in this line.

"Delays Have Dangerous Ends"

We have all heard of times when a delayed train rushed out of a station where there was no telegraph office, with the engineer thinking he could reach the next station and get on a sidetrack to let the "Fast Mail" go by. Every thing moved along smoothly until they reached the fatal curve, here the engineer saw the headlight of the "Fast Mail" within a few feet of his own engine. It was too late then to reverse the throttle. Too late for everything but the awful "Crash."

Compare the two trains to your feet. Maybe you have been wearing shoes that have been ruining your feet and hesitate about buying another kind, saying, "I will try another pair of these shoes." And you go ahead and get the same kind, with the same hurt, wear them a few days, yet they hurt your feet all the time. Each day you think they are being broken in. It's your feet that are being broken in, not your shoes. You are nearing the the curve. You wear them awhile and they hurt you more and more. You start for a long walk and the "crash" comes, your feet have gone the limit. They have been wrecked.

Then you have tried the new kind. But why wait until your feet are ruined before you try the new kind? Don't you think it is worth your while to save your feet by wearing "Star Brand" shoes, the shoes that do not hurt? Come and see.

How to Cure Liver Trouble

There are usually several ways to do a given thing, but it is the aim with all of us to find the best and shortest way. It is just so in the cure of disease. People suffering from liver trouble imagine that all they have to do is to take something that will "physic" them. There is more than that in the cure of so serious a disorder as liver trouble.

When that drowsy, clogged up feeling comes on you go to a drug store and ask for a 50 cent or \$1 bottle of Dr. Caldwell's Syrup Pepsin. Take a dose or two and watch results. It will not only clear out the bowels and stimulate the liver, but it will get the blood circulating so that you feel active again, and arouse the functions of the stomach so that your appetite returns and you feel like your old self again. A simple laxative or purgative could not do that. Dr. Caldwell's Syrup Pepsin is not only a wonderful laxative, but it is also a tonic, so that it builds up and restores the system, instead of leaving you weak and drawn it builds you up and strengthens you.

It does not gripe—is not smooth, oily and the intestines so that the passage is smooth and the taste and pure in quality. It is an excellent, economical home cure, and its results are permanent. It is absolutely guaranteed to do what is claimed for it.

Use it for occasional or chronic constipation, dyspepsia, indigestion, biliousness, sour stomach, bloated stomach, flatulency, diarrhea, and liver, and one other ills of the stomach, liver and bowels. It is the greatest of household remedies and no family should be without it because in a family someone at any moment may need such a laxative and then you will appreciate having Dr. Caldwell's Syrup Pepsin in the house.

Ed Stokes, formerly of this county, had his back broke in a mine at Packard June 24 and has been living ever since. Several doctors had given him up but he is expected to recover.
John Robins the Secretary of the new Brodhead fair, besides being an all-around good fellow is somewhat of a hustler and his ability to put on a good fair, has long since been demonstrated.
Carter Moore a husky looking youngster of about 15 summers, and a son of Carter Moore of Jackson, came to town Friday last with his uncle, T. S. Branham whom he is visiting and while here paid the Signal office a most pleasant call.

The new Brodhead fair grounds will far exceed the old place and the Brodhead boys are losing no time getting ready for the coming exhibition Aug. 12 13 and 14.

The Kentucky Portland Cement and Coal Co. of Pine Hill, has closed down for about one month for repairs. The plant will be in operation again in a month or six weeks.

Be on hands at the Mt. Vernon Fair grounds tomorrow with hoe, pick, ax, shovel, hammer or any other thing you have to bring. It is clean up day.

Cox & Wheelodon, the barbers next door to post office wants your business. Satisfied customers is our motto. We invite the country boys to drop in and let us show you how nice we can fix you up.

Jerry Sams, a brother of Mrs. J. B. Livesay, was seriously hurt by falling rock at No. 4 tunnel on the K. C. R. R. last Saturday morning. Mr. Sams received several broken bones.

The MT. VERNON FAIR catalog is the largest ever issued by any fair in this county and it shows that the secretary and officers who have had it in charge have not been asleep at the switch.

R. B. Sams, employed as switchman in the Paris yards, was caught between the cars last Saturday and his hip badly mashed. For a time his injury was thought to be serious but a later report says he will recover.

Mr. and Mrs. D. C. Price who bought Sutton & McBees store room arrived in town Monday and have also bought the stock of C. B. McKenzie. We understand Mr. Price will add a first class butcher shop.

Sheriff Cam Mullins and Jailer Jim Winstead made a raid on Bob Lee's joint a few nights since and found 27 flats of "Bottled in the barn" whisky and 35 bottles of beer, which were promptly disposed of over the cliffs of Scuffle Hill.

In the hunt for the biggest man in the U.S. the Cincinnati Post has found several heavy weights but the heaviest yet is Tiny Jim Simmons, a Philadelphia negro who weighs 743 pounds. He measures 11 inches at waist, 24 inches at neck, 30 inches arms, is 5 ft 9 in and 25 years old.

On the John Adams farm of the Hiatt section, where Gill Lunce now lives, stands an apple tree which is one hundred years old and never fails to bear a full crop of the best of fruit. This tree is of the June variety, a large red apple and fine eater, but no one knows the name, as it is quite different from anything of this day. The tree is a very large one and last Sunday evening provided a most comfortable resting place for J. M. Adams, the Brodhead merchant, who spent several hours under the boughs of this old resident and enjoyed the luscious fruit which came from it. Another fact about this valuable old tree that it provides in the hollow room for four hen nests for Mrs. Lunce, who has in the last two seasons raised over 200 chickens, and in the last ten years has furnished a covering for many hundred fine springers. The old tree is still healthy and in a fine state of preservation.
