

KENTUCKY LEGISLATURE

Regular Session.
FRIDAY, March 19.—The legislative session of 1898 is the first of the past. The session has opened with the most auspicious of omens. At 10 o'clock Monday morning, the speaker of the house and house to notify the governor that they were ready to convene. The speaker of the house and the governor and he informed them that he had no further communication to transmit. The house adjourned at 7:30 and at 7:45 o'clock Senator Johnston moved that the session adjourn sine die, and when Chairman Cooper put the question everybody voted yes, except Mr. Taylor. Mr. Taylor, who voted "no" in a loud voice, said he emphasized the report over the very thing of his own plan. The legislature adjourned sine die, and the latter number of which are still in the governor's hands, and he may approve or veto them at his leisure in the next few days. The session's work can not be properly judged till the governor signs the numerous bills which have passed. A number of important bills have passed.

THE AMAZONS

To Be Transferred to the United States Government.—The Will take the ship Amazonas, built for Brazil but purchased by the United States, will be formally transferred to the United States government Friday. The ship will be sent to the United States naval attaché here, will receive the ship from the Brazilian commander. A copy of the contract from the San Francisco will then be marched on board; the Brazilian flag will be hauled down, and the Brazilian sailors will be landed.

The executive officer of the San Francisco will probably take command of the Amazonas and sail for the United States as speedily as possible, under sealed orders. It is supposed she is going to the American station, where her crew can be reinforced. The Amazonas had just been provisioned and coaled for her trip to Brazil. The United States government purchased all these supplies.

THE AMAZONS

Recently Purchased from the Brazilian Government. Will Visit the United States.

WASHINGTON, March 23.—Secretary Ross issued an order Monday that the Amazonas, the cruiser recently purchased at Newcastle-on-Tyne from the Brazilian government, and carrying the name of New Orleans in honor of the principal city of Louisiana. Telegraphic instructions were sent to the naval attaché at Rio de Janeiro, the vessel, which will take immediate steps to carry them into effect. The Amazonas was acquired from the sister republic of South America for the reason that Louisiana is one of the few states of the union not represented in the navy at this time. There was quite a contest among several other cities to have the new warship named in their honor. Albany, N. Y., Providence, R. I., and Buffalo, N. Y., advancing their claims quite strenuously.

RAPID FIRE GUNS.

Two Ordered From the Armstrongs.—Part Payment on the Brazilian War Vessel.

WASHINGTON, March 18.—The first disbursement under the recent act of congress appropriating \$30,000,000 for the national defense has been made by the treasury department on an executive order for \$5,000,000. It is for \$145,995 to be paid to London to the credit of Sir William Armstrong in part payment for 13 rapid fire guns, including mounts and ammunition. The purchase price including mounts etc. is \$1,190,000 for each gun, or \$15,670,000 for the lot. In addition to this payment the treasury department Friday will make Rothschilds at London \$1,000,000 in full payment for the Brazilian cruiser Amazonas, and in part payment for the Abreuhl. The 13 rapid fire guns are for the use of the war department.

BROWN PRISMATIC POWDER.

Eighty Eight Order Ever Given by the Government on the Pacific Coast.

SANTA CRUZ, Cal., March 19.—The California powder works received orders from the navy department on Wednesday for 3,000,000 pounds of brown prismatic powder. Thursday 300,000 pounds of the same kind of powder for immediate delivery. These, together, make the largest single order for powder ever given by the United States government on this coast. About six months will be required to fill these orders, even with the additional machinery now in course of construction. Previous orders for smaller powder will keep the works running at their full capacity for a year.

The Lusitania's Fast Run.

QUEENSTOWN, Ireland, March 19.—The Canada line steamer Lusitania, Capt. McKay, which sailed from New York on March 12 for Liverpool via this port, arrived here at 1:30 o'clock. On March 13 she steamed 381 knots and on the following day she made 380 knots, beating her previous record of 361 knots. Her previous best record for a day's run eastward was 255 knots, but she has made 362 knots in a day's run going westward.

Electric Plant at Ripley.

RIPEY, O., March 18.—The Ripley Gas Light and Coke Co. will put in a electric plant. Local and foreign companies have competed to secure franchises, but the 10-year lease-righting contract held by the company has been the stumbling block to investors.

THE BOARD'S REPORT.

A Copy Will Be Laid Before the Spanish Government.—Also a Copy Will Be Sent to Congress by the President.

WASHINGTON, March 23.—The president in connection with the submission of the report of the Malintin court of inquiry by the president to congress is now clearly outlined, and a cabinet officer explained the general line of action at present intended to be pursued upon receipt of the report, which is expected to reach Washington Thursday. A copy will be laid before the Spanish government very early, and as soon as can be consistently done the report will be sent to congress. It is stated positively that no part of the report and

PRESS CENSORSHIP.

All Foreign and Domestic Newspapers.—Containing News Unpalatable to Spain.

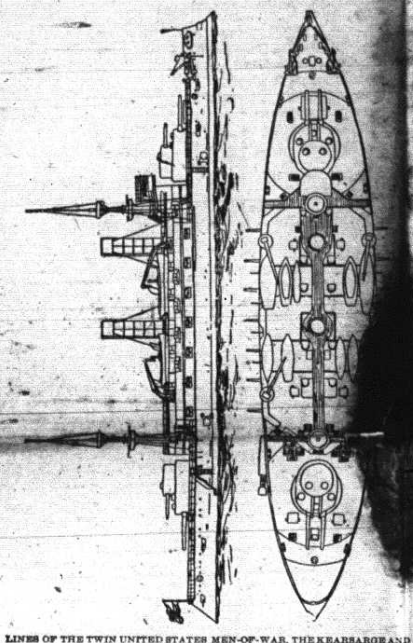

New York, March 23.—A dispatch from the World from Madrid says:—
 Instructions have been given tonight by the press censor to stop all foreign and domestic press telegrams—and even telephone messages—containing news unpalatable to the government. Unauthorized details of naval and military preparations, the movements of war vessels, particularly of the flying squadron of the purchase of vessels of war and stores abroad are especially interdicted. It is stated that no step has been taken to prevent the Madrid press from publishing frequent and abundant information. The same press censor will also stop telegrams sent from Madrid to newspapers in America, England and France when they contain news which is deemed likely to excite alarm. Therefore the people now who are

GAINED 23 POUNDS IN 5 WEEKS.

From the St. Standard, Macomb, Ill.
 Alderson Louis W. Camp, of our city, has gained 23 pounds in five weeks, by a remarkable gain in weight. He has gained 23 pounds in five weeks. Those who are interested in the facts of his success will read with interest the following:—
 "I was troubled days ago and entirely miserable," said Mr. Camp in our reporter. "I could not sleep a wink and was so badly afflicted with a form of stomach trouble that life was a veritable nightmare. I tried various remedies, but during the six months of my sickness I obtained no relief. I was always kept in bed, healthy men and sickness bore heavily upon me. About two years ago I was advised to try Dr. Williams' Pink Pills for Pale People. I purchased one box and received so much benefit that I used five more and was entirely cured. I gained twenty-two pounds in five weeks. I have stopped taking any other medicine and I have scarcely had an ache or pain since."

Interviewing the Aldermen.
 "Dr. Williams' Pink Pills restored me to health," said Mr. Camp. "I used five more and was entirely cured. I gained twenty-two pounds in five weeks. I have scarcely had an ache or pain since."

W. C. Camp said with a smile that the foregoing statement is true.
W. W. MELDAN, Notary Public.
 Following is the changing certificate as to Mr. Camp's present condition:—
 "I am a family history physician of Macomb, McDonough County, Ill. I have very recently examined Mr. Camp, and find the same to be all that could be desired. His condition is now good, and he has all the evidences of being in a good physical condition."
SAMUEL RUSSELL, M. D.

reached the assentive authorities in Washington on Saturday. It is a notable fact that the current of official opinion is beginning to follow that of the unofficial opinion expressed so positively and persistently at Havana and Key West that the cause of the explosion was external. The report of the court of inquiry stated Monday that while they were wholly without exact information as to the development of the court of inquiry they found themselves sharing in the apparently intangible conviction that the cause of the explosion was not accidental. Opinions expressed by the Maine survivors who reached here last Saturday doubtless has contributed largely to this view in official circles. In this connection it is understood that one of the officers who arrived on Saturday stated, not as opinion, but as his personal observation on the night of the disaster, that the report of the court of inquiry of the explosion was followed by a second official opinion.

WASHINGTON, March 23.—It can be stated positively and authoritatively that the report of the court of inquiry on the Maine disaster had not been received up to noon Monday. From the same authoritative source it can be stated that the present official information is that the report of the court of inquiry is that the explosion was followed by a second official opinion. It is a material change from the expectation prior to this that the report of the court of inquiry will not be sold at all. Spain, it is confidently asserted, will not be able to present a case which will not be as good as those of the United States.

mercy of rumors propagated by word of mouth or the post, which is almost worse.
 The Liberal says that on Saturday several hundred telegraph and telephone messages were stopped by the press censor in Madrid.
 The government's action has caused a profound sensation and only in Madrid, but throughout the provinces. Even ministerial newspapers, the Liberal, sides with the majority of the press in censuring rigorously a measure which it says is calculated to increase the national anxiety, because most people surmise that the relations between Spain and the United States have got into a very critical stage indeed when a liberal cabinet decides to be more rigorous with the press than was Canovas and worse than the reactionary cabinets of 1884 and 1885.
New York, March 23.—A boat load of powder and supplies which was ascertained to have come from Fort Schuyler up the Sound had been landed on the pier at Governor's Island. Barrels and boxes and cans, evidently containing various kinds of explosives, were placed on the end of the wharf and carefully covered with tarpaulins. No information was given as to what is to be done with them.
 Four ten-inch rifles and two eight-inch rifles, which have been tested at the Sandy Hook proving grounds, will be carried by the schooner Daisy, which will sail for Key West some time this week.
 Workmen are busy at the pier on East river preparing to place the guns and anchor them to the deck of the schooner. The larger pieces weigh six tons each. The smaller ones, each and the utmost care will be exercised in placing them so that they will not prove too heavy for the ship should a storm strike it.
 While it is stated that these guns are to be landed at Key West for the first time, it is believed here, however, that they will find their way to Dry Tortugas, which is being fortified for an advanced naval station.
 Other guns are soon to be sent ashore from the Waterworks arsenal, and for the first time strategic value by the well known inland water route will be tested.

MT. VERNON has good citizens. She has benevolent citizens, out what she lacks is enterprising citizens. What we need is to open our eyes—shake the dust from off the seat of our pants—roll up our sleeves and go to work—work not only to help ourselves but a benefit to the public. We have a Board of Town Trustees of most excellent gentlemen. They have made a splendid beginning by ordering certain sidewalks to be put down, but they have not gone far enough. You men are the guardians of the town, the streets, the sidewalks, street lamps, &c. You have absolute power to order, and absolute power to enforce the order when made. Richmond street is entirely too narrow. The citizens on that street are all willing to move back their fences, but one is waiting for the other. We want children, young ladies and gentlemen to come here and go to the College. Yet, if they come, we force them to wade in the mud, up to their knees to get to the College building. Spring is here and lets put out houses, clean up our property, put down sidewalks, widen and clean our streets, take more pride in ourselves, our families, our property and our town and we will look, do, and feel much better.

LIVINGSTON.

Sol. Elmore, of Corbin, is visiting his brother, C. S. Elmore.
L. M. Westerfield, J. A. Mudd, dispatchers, and Chief W. F. Sheridan were up from Rowland taking a view of this place where they will be located in the near future.
Miss Daisy Patton, of Manchester and Miss Fannie Ridd, of Crab Orchard were the guests of Mrs. Dr. Cooper last week.
R. C. Wade, of Mitchellburg, has bought the stock of Jake Sanbrook. We gladly welcome Mr. Wade and wife with us.
Mr. and Mrs. C. Mullins who have been to French Lick Springs, Ind., in search of Mr. Mullins' health, have returned.
D. R. Stucky has moved from Roundstone heights to rooms in Jun Mullins' house.
P. W. Starks, former supervisor of this division, but now located at LaGrange, was here with friends and relatives last week.
Dr. E. J. Brown and Ed. Walton, of Stanford, were here last week.
Jno Meadows and Jno. Graves and Miss Mary Tyrce, visited Mr. Meadows' parents at Pine Hill, Sunday. Miss Meadows returned with them, and is now the guest of Mrs. M. J. Goodin.
Miss Jedd Owens has returned from a trip to Broadhead.
W. R. Dillon gave the young people a fine Saturday night. All report a nice time.
Mrs. Joseph Coffey and Miss Ella May Saunders have returned from Louisville.
Mr. and Mrs. L. M. Scroggs were here Sunday with friends.
Gill White of Manchester was here Sunday.
C. P. Mann, the barber, has sold his shop and fixtures to Shannon McKinley, of Lincoln county, who will continue the business at the same stand.
Sam Ward, Jr., is visiting his parents here this week.
Miss Mary Tyrce is visiting her parents in Pittsburg.
Mrs. Coffey has rented a room of Matt Hicks where she will open up a complete stock of millinery.
The Literary Society met again Friday night as usual, and dis-

crussed the question: "That a drunken man creates more disturbance in a community than a tattling woman." J. R. Tankersley and W. W. Saunders for the affirmative and Col. Bentley and Jno. Pope for the negative. The judges Mr. Dishon, Robt. Brown and Harry Dillon decided in the negative. The educational address of Mr. Tankersley was highly appreciated. We hope Mr. T. will come often.

Magistrate T. B. Chandler, who moved out of district has been succeeded by D. T. Lamb who was appointed by County Judge Williams last Monday. Mr. Lamb is a Republican. The retiring magistrate was of that faith and the Judge thought it just to fill the office with one of same political belief.

Saturday, Sunday and Tuesday nights sulphur fell with the rain in considerable quantities throughout the county. On the rainwater barrels at the Court House the chemical was half-inch deep. On putting some of it on the fire it gave forth a strong sulphurous odor. Many of the superstitious believe it presages war, and some of them are rubbing up their old war muskets to be ready for a voyage to Cuba.

Last Saturday seven cases were tried in County Court and six convictions were secured—mostly liquor cases. It is a foregone conclusion that the Court will break up the liquor business throughout the county as well as giving its attention to all manner of offenses against the laws. The Court is not vindictive in its work but treats impartially without fear or favor every case brought before it. Old Rockcastle is climbing right out of the ruts.

LOLONNOIS, THE CRUEL

Who Was the Most Ferocious of All the Spanish Buccaneers.

Among the buccanier leaders distinguished themselves as land pirates was Francis L'Olonnois, a Frenchman. In those days it was customary to enforce servitude upon people who are not able to take care of themselves, unfortunately debtors and paupers of the day were sold to people who had need of their services. Boys and girls were sold for a term of years, sometimes as if they had been apprentices, and it is supposed that the boy L'Olonnois was sold to a master who took him to the West Indies. There he led the life of a slave until he was of age; and then, being no longer subject to ownership, he became one of the freest and most independent persons who ever walked this earth. He began his career on the island of Hispaniola, where he took up the business of hunting and butchering cattle, but he soon became a pirate and sailed as a common sailor on one of their ships. Here he gave signs of being so brave and unscrupulous that one of the sailing pirates on the island of Tortuga gave him a ship and a crew, and set him up in business. The career of L'Olonnois was such that he was the terror of the day except that he was shamefully cruel to his Spanish prisoners.

All the barbarities attributed to the pirates of the world were committed by the career of this wretch, who does not appear to be so good an example of humanity as he is generally supposed to be. He was not so brave as he was able, and it took upon him as a hero. After having attained in a short time the reputation of being the wickedest pirate of his day, L'Olonnois was unfortunately caught to be wrecked upon the coast near Campechy. He and his crew came ashore to get some provisions, not long before their presence was discovered by the people of the town, and the Spanish soldiers advanced upon them. There was a fierce fight, but the Spaniards were stronger, and the buccaniers were utterly defeated. Many were killed, some of whom were taken prisoner. Among the wounded was L'Olonnois, and when the Spaniards walked over the battle field, he was looked upon as the man who the soldiers had captured. He stealthily arose and made his way into the woods, where he stayed until his wounds were well enough for him to walk about. He divested himself of his great boots, his pistol-belt, and the rest of his practical equipment, and hid to his own shame a dagger, and a very much to his credit, he had stolen from a cottage, he boldly approached the Spaniards and entered a list of his names and the names of his crew, and then he turned to the Spaniards and said: "I am the man who has been captured by you, and I am the man who has been captured by you." Spring Medicine

These two words emphasize a necessity and indicate a remedy. Spring is the season when the blood is most impure as a result of the winter's closer confinement, higher living, slower action of the kidneys and liver, when humors of all kinds, boils, pimples and eruptions are most liable to appear, when the weak, languid condition of the whole bodily structure demands and welcomes help.

Only those who have been relieved of great suffering can fully appreciate the gratitude with which the testimonials overflow written in favor of Hood's Sarsaparilla. Just read this:

Very Much Run Down, as I had been troubled with dyspepsia. The drain on my system was so severe and my stomach was so weak I became a really listless invalid. I feared I could never regain my health. My stomach rebelled at the simplest food, and the medicine prescribed for me gave but little relief. I was for a bottle of Hood's Sarsaparilla, and I had taken this medicine three days when I began to improve. Continuing with it, I am now better and stronger than I ever expected to be. It has purified my blood and given good circulation. I have had no return of my old troubles since." Mrs. W. KANE, Medina, Pa. Hood's Sarsaparilla is

The Medicine For You Because of what it has done for others. Because you caught the spring to take that which will do you the most good.
