## THIRTEEN HOURS.

### Fierce Battle Between Marines, Spanish Guerrillas and Regulars at Guanatanamo.

### ENGAGEMENT ALMOST CONTINUOUS.

It commenced at Three O'clock Saturday Afternoon and Ended at Six O'clock Sunday Morning.

Four of Our Men Killed and One Wounded—Advances Planned Encouraged. The Spanish East Taborment Not Yet Probably Routed.

ON BOARD THE DISPATCH BOAT DAUNTLESS, OFF GUANTANAMO, Sunday, June 13.—MR. S. NICHOLAS, Harry, June 13.—Lieut. Col. W. Huntington's battalion marines, which landed from the transport Panther on Friday afternoon, were engaged in the advanced cable station at the entrance to the outer harbor of Guanatanamo, has been engaged in beating off a bush attack by Spanish guerrillas and regulars since 6 o'clock Saturday afternoon. The fighting was almost continuous for 12 hours until 6 o'clock Sunday morning, when reinforcements were landed from the Maribled. Four of our men were killed and one wounded. The advance pickets under Lewis, Neagle and Shaw are unaccounted for. Among the killed is Assistant Surgeon John Blair Gibbs, son of Maj. Gibbs, of the regular army, who fell in the "Custer massacre." His home was at Elizabeth, N. Y., and he has been practicing law in New York. He entered the service since the war began. He was a very capable officer.

var, and they, turning and finding themselves without support, ran rather slowly down the reverse side of the hill. It was during this assault that Assistant Surgeon Gibbs was killed. He was shot in the head in front of his own tent, some 200 yards from the hill. He fell into the arms of Private Sullivan and both dropped. A second bullet threw dust in their eyes, but they were not killed, but did not regain consciousness. The surgeons of the hospital corps then removed their quarters to the trenches about the Spanish blockade north of the camp. The attacks were continued at intervals throughout the rest of the night, with firing from small squads in various directions.

Down is the favorite time for attack, and, as the pickets were lying on their guns were aroused. Some were actually asleep, as they had no rest for 48 hours and stood tired but none longer than the third. Not an attack came. The Spanish were Three new 12-pound field guns, which could not be used during the night for fear of hitting our own ships, were landed on Saturday afternoon. They do into the bushes like prairie dogs into burrows as the shells broke over them in the gray dawn. As the corresponding talk with Maj. Crockett, who is in charge of the outposts, word came of the landing of the Spanish regulars. It was reported as having been killed at five o'clock on the previous day, but it appears that he had been seen alive at five o'clock in the evening. When and how he was killed no one knows at this writing. Neither had the men been mustered nor had the reports of the killed been received.

Lieut. Col. Huntington and Maj. Crockett gave high praise to the nerve and steadiness of officers and men, and to the courage of the regulars. The engagement was a baptism of fire for a large majority. The men were in darkness and in a strange land, but they stood up to the attack. The marines, though very much exhausted, were eager for more fighting, promising to inflict heavy punishment. They complimented the daring of the Spaniards with characteristic camp profanity.

Sunday the simplest precautions were taken and as the Dauntless left reinforcements were landing from the Maribled. A stormy time was expected. Estimates vary as to the attacking force, some say 700 and the figures range from 400 to 1,200. Col. Campaña, the Cuban guide, said the Spaniards were mostly irregulars, but they report of the discharge of Musher rifles would indicate that they were regulars. As most of the guerrillas came from the Cuban guerrillas, a rifle here would more dash and courage than the regulars.

The new campaign uniforms proved satisfactory and are almost invisible at a distance of 500 yards. The Lee rifles and several accidents in drawing cartridges. Corporal Glass shattered his hand.

Despite the loss of the men, which is keenly regretted, the officers rejoice that they have been engaged in their first fight on Cuban soil. They were sent from New York the day war was declared and expected to land within a week at Havana. Since then, until landed on the shore of Guanatanamo, they had been cooped up on the Panther and they had begun to fear that the troops would beat them after all.

In controlling the outer harbor of Guanatanamo, where Lieut. Col. Huntington's battalion of marines landed on Friday, Mr. Adm. Sampson secured possession of the Cuban terminus of the French cable by the Tanager. The apparatus in the water side by the mouth was wrecked by a shell but the cable steamer Adria has instruments and operators aboard, and the distance communication system will soon be established. The dispatch overland to Santiago around the bay is about sixty miles and the roads have been rendered impassable by the Cubans under Pedro Perez. The first division of the Cuban army claims to have 4,000 men, but these figures are probably over estimated. The Spanish army before that there are about 3,500 soldiers in the vicinity of Caimanera, which lies at the entrance to the inner harbor. (Guanatanamo City is inland about 12 miles.) The two harbors are connected by a narrow channel, 1 1/2 miles in length. The two harbors are connected by a narrow channel, 1 1/2 miles in length. The two harbors are connected by a narrow channel, 1 1/2 miles in length.

An expedition of three steam launches, offered by Lieut. Norman, Embury, brother of Mr. James B. Eustis, former United States ambassador to France, and Cadet G. Van Orden, under the general command of Lieut. Anderson, of the cruiser, was bleached, Saturday night, dragged for miles, but found none. Lieut. Anderson, who distinguished himself at Cienfuegos, pulled a dinky within 20 yards of the fort without being discovered. He found the fort to consist of masonry, with three guns mounted seaward.

Judging from the panic in which the Spaniards fled from the village at Fisherman's Point, they will scatter at the first approach. They left at Fisherman's Point, three antiquated, shell and canister, some Mauer rifles and a regimental flag of the Regimiento del Principe No. 3. Every precaution has been taken to guard the men from disease. All hats in the locality have been razed, large cases of Spanish wine have been smashed, two wells have been bored up and all the drinking water used is supplied from the fleet. The marines are well equipped for the campaign. The camp will probably be named Camp McCalla, after the commander of the Maribled, who is indisposed, and has not removed his clothing since the bombardment.

Sunday morning the British steamer Newfoundland, of Montreal, with general cargo from Halifax steamed into the harbor. Her commander was greatly surprised at the presence of the Americans, but he retained enough composure to dip his flag and at times and then started to put about. A shot across the bows from the Maribled stopped him, and the vessel was boarded by our troops, which was bound for Jamaica. The captain explained that he had run up to see if he could get a return cargo of sugar. He was informed that he could not and was then allowed to proceed.

Two dismounted squadrons of four troops each from the 2d, 6th, 8th, 9th and 10th cavalry and two dismounted squadrons of four troops each from the 1st United States volunteer cavalry. Total organized cavalry 120 officers, 2,875 enlisted men.

Artillery—Light batteries E and K, 1st Artillery 4 and F, 2d Artillery, 14 officers and 252 enlisted men. Batteries G and H, 4th Artillery, 2 officers and 132 enlisted men.

Engineers—Companies C and E, 6 officers and 252 enlisted men. Signal Corps—One detachment, 2 officers and 4 enlisted men. Hospital detachments are included in the foregoing figures.

The staff corps numbers 15 officers. The grand total of the expedition is 2,900 officers and 14,694 enlisted men.

Gen. Shafter in his report indicates the great obstacle that had to be overcome in order to embark his force on Fort Tampaque. It is not likely, if his report is correct, carries weight, that the effort will be made to again embark so large a number of troops from the port without considerably enlarging the shipping facilities.

The President Attached His Name to the War Revenue Bill and is to Now a Law of the Land. WASHINGTON, June 14.—The war revenue bill was brought to the white house by a house messenger at 2:45 Monday and was signed by the president at 3:00 and is now a law. Immediately upon receipt of information from the white house that the war revenue bill had been signed by the president, Secretary Case issued a circular, explaining to the public the proposed bond issue.

**DESTRUCTIVE FLAMES.** Gen. Shafter's Power House, Detroit, Mich., a Total Loss—Fire From Battery Burned.

DETROIT, Mich., June 13.—G. F. Case's immense power building on Congress street, west, was discovered on fire at 3 o'clock Saturday morning. The building was a very large seven-story structure, occupied by many light manufacturing concerns. It was completed a year ago and the site formerly occupied by a large livery stable, which had burned, causing the death of five men. The power building is already a total loss.

A four-story annex to the Buell office building facing on Congress street, west, was set fire on top by falling of building debris from the Case building. The annex was badly gutted. Part of spire of St. Paul's Episcopal church was burned. Two women were badly burned and three were injured by falling walls.

Several incipient fires started by the Wayne county bank building and other office structures in the vicinity of the Case building, and other inflammable materials were consumed. Several little fires caught in the 11-story building. The building, which was directly to leeward of the burning power building but further serious spread of flames was checked by old six-story wooden structure west of the Case building, which was crushed by a portion of the tottering wall falling upon it. The front walls of the Case building leaned outward, menacingly and finally fell in the street, portions at a time. Nothing of the Case building was saved. The Case building was valued at \$60,000. It was insured for \$60,000. The contents are roughly estimated at \$100,000, but may reach about that amount.

A Washington dispatch says that the Monocle has been ordered, to go to Hawaii with a transport carrying a large number of marines, raise the American flag there and establish a base of supplies.

We are authorized to announce

JAMES B. MCCREARY,

a candidate for nomination for Representative in Congress subject to the action of the Democratic party.

It is said, it is said, will attack Havana immediately with 40,000 men.

It is to be hoped that Admiral Sampson will arrange for a giant fire works' performance before Havana on the 4th of July.

If Spain will hold out long enough the spectacle of American cannon booming away at the Escorial Palace itself may excite the wonder and awe of the world.

The flying squadron forming at Newport News is good for over 20 knots an hour. Spain will not be able to run away from this formidable collection of fighting ships.

Spain collects a revenue of about \$173,000,000. Of this \$80,000,000 is paid out as interest on the public debt, \$8,500,000 is paid to the clergy, and the schools get about \$2,500,000.

In the case of Portwood that Lexington jury decided that hanging is the best disposition to make of a "lunatic" who harbored malice for years and finally slew in cold blood a cripple pleading for his life.

WHAT nation can compare with us when we shall have arranged for domestic supplies of cholera and typhoid plague from the Philippines, yellow fever from Cuba and Porto Rico and leprosy from Hawaii?

The appearance of a few more Spanish-speakers in Cuban waters will make the prolongation of the war until after the Congressional elections a certainty. What, pay two millions a day war expenses, and think of prolonging a war until the result of the fall elections are known.

OUT in Missouri they have introduced hugging societies to swell the paper treasury, and a Missouri church gives the following scale of prices: 614 under sixteen, 15c a hug of two minutes, or 10c for a short squeeze; from sixteen to twenty-five, 75c; school marns, 40c; another man's wife, \$1; widows, from 10c to \$3; old maids, 3c a piece or two for nickel. No limit to time.

The price of wheat has gone down and Europe has begun to buy again in tremendous quantities. Exports last week reached nearly five million bushels against less than two millions for the same week last year. The old stocks are being cleaned up to the last bushel and when threshing is over the new grain will come upon the market. If now it should happen that Europe should reap only moderate crops, we shall soon see dollar wheat again.

Cool shade, cold water, fine music, everything good to eat and drink, delightful time, at Adams' Grove Picnic, July 4th. Meet your friends there.

M. C. Miller, of Austin, Texas, arrived here from Oxford, Ohio, where he had gone for treatment for nervous prostration. He is but little better.

Miss Ida May Adams will be Mt. Vernon's representative in the elocutionary contest at Stanford to-night. Judge R. C. Williams will be the chairman.

WANTED.—At once, one four-horse or mule team and wagon to haul logs. Address, H. Blazer & Co., Wildie, Ky., or STONAL office, Mt. Vernon, Ky.

Mrs. Jones, of this place has a large rooster which has been a great crower, but has lost his voice. He yet flaps his wings and goes through his crowing evolutions but utters not a sound.

WANTED.—Bids for furnishing 300 telephone poles between Mt. Vernon and Livingston. To be 20 feet long, 4 inches at top, chestnut peeled, and distributed along the line over the county road.

A. E. Albright, Sec'y, Brodhead, Ky.

S. W. Davis had some large stone slabs sawed at Langford quarry for use in his tannery. Mr. Davis is adding to his facilities and by next fall will have a splendid tannery. He is an enterprising man and deserves success.

The French and American Governments may go ahead with the love-making to their hearts' content. The French people are bitterly hostile towards us, the American people know it, and the American people will properly resent it.

Do you want to buy or sell, a Rockcastle farm, timber land, town lots, business houses or dwellings? Address, SIGNAL, Mt. Vernon, Ky.

Henry Brannaman was in from Wildie, Monday and lays the claim that Wildie has an uglier man than any preacher in the county.

The Rockcastle Lime Company is busy putting in their plant. When finished it will be the best in the State. In its arrangements it will be as near perfect as can be made.

The coal they will use will be mined from a hill about four hundred yards from the kiln. The work will be on an extensive scale.

Uncle John Smith was here Tuesday. He says Livingston allowed a man from Ireland to be the first to fly the stars and stripes in that place since war began. He has old old glory floating high and proudly in the mountain breezes.

The telephone line is working to Brodhead and points are being distributed between there and Mt. Vernon. It is expected to reach this point inside of the next ten days. The wire will be run on to Livingston and should get there by July 15th. An exchange will be placed at Crab Orchard and one at this place. The Livingston office will be in the Eight Gables Hotel.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness from sciatic rheumatism Chamberlain's Pain Balm was the only remedy that gave me any relief." Many others have testified to the prompt relief from pain.

A New Orleans dispatch says that Congressman E. A. Reppert shot and wounded the superintendent of the Queen and Crescent road over being dismissed. The reporter was kind enough to revive the slanders rumor that Mr. Reppert had deserted his wife when the yellow fever appeared in that city last summer, when the fact was Mr. R. came here to attend court, leaving his family all well; and upon receiving a telegram of his wife's illness he left immediately for home.

Wm. Stringer, was struck by lightning and instantly killed. Price last while sitting under a tree in his yard at Pittsburg. Clell Stringer, his brother, was paralyzed for several hours but recovered. Two dogs that were lying at Mr. Stringer's feet, were killed. Every-body knew Will Stringer. To know him was to like him. He was for a number of years a deputy U. S. Marshal and discharged the duties fearlessly and to the satisfaction of his superiors in the service.

In a row following a crop game to Langford tunnel quarry Saturday, Easter Lacey shot R. L. Jones in the right side producing a painful though not dangerous wound. Lacey who is a darky, fled and was captured at Crab Orchard and was brought back. Examining trial held Tuesday morning. Lacey acquitted. The party was out on a spree. Smith Ping, Jones and Lacey were held by the court to answer to a charge of gambling and disorderly conduct. Ping and Lacey were fined \$1 and cost for drunkenness and \$20 each for gambling. Jones, Jim White and John Rouzee \$1 and costs.

The County Judge has appointed the following road commissioners: Harry Blazer in place of J. J. Martin; R. P. Norton and C. G. Fish in place of James I. White and G. S. Hlatt, W. H. Carmical in place of J. N. Griffin; T. C. Johnson in place of John Elder; Bessie Mullins in place of Sol Griffin. There is a \$1.00 acre road tax. It has been set aside for the purchase of tools and the remainder to be divided among the districts. Judge, Williams will stand by his Commissioners and overseers in the enforcement of the road laws. The era has arrived for better roads and the outlook is flattering.

I was seriously afflicted with a cough for several years and last fall had a more severe cough than before. I have used many remedies without receiving much relief and being recommended to try a bottle of Chamberlain's Cough Remedy by a friend, who, knowing me and being a poor widow, gave it to me. I tried it and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had a cough or a cold for twenty years. Respectfully, MARY A. BEARD, Clermont, Ark. For sale by M. C. & D. N. Williams.

J. C. Childress was in town Monday.

Dan Robinson left for Laurel county this week.

The Owens store has been moved to the old Owens stand.

Frank Anderson has taken the foreman's place on Railroad at this place.

J. N. Griffin, U. S. marshal was here this week looking after witnesses.

Charley Hutton, a clever youth of this place, is very sick at this writing.

Preaching at Flat Rock was well attended Sunday. The pastor preached an excellent sermon.

F. L. Thompson, the only drummer on the road, was with our merchants a few days ago.

W. C. Hundley has gone to Clay county to go of going in business here in the near future.

The fine flock of ladies hats at Geo. Johnson's attracts the attention of the ladies and many of the gents.

J. H. Reams is shipping some sand this hot weather. The old gentleman never tires of seeing the sand run over the chute. I suppose that the cash that it brings in makes the performance more attractive to him.

Camp Adams, Clarksville, Ky., July 4th, 98.

Dear Jim—I write you a few lines from the famous battlefield. I am getting along very nicely. Harris White and myself have been transferred from the ranks to membership in the 2nd Ky. Regimental band. Harris plays 2nd alto and I the bass. The government has issued a nice cook stove to the band headquarters and we have a good cook. Have plenty to eat, such as potatoes, beans, meat light bread, beef, coffee, sugar and the venerable "hard luck." We have two tents for the band, one large and one small. I am better pleased in the band than in the ranks. We don't have to work any or go on guard duty or drill. All we have to do is practice our music and go on dress parade in the afternoon and march in front of the Regiment and furnish music. There is a creek one mile from the camp in which we have a nice time bathing almost every day. The drinking water we get is good, but rather warm after running through pipes, which are at present lying on top of the ground. If I had the old "spout spring" down here I would be perfectly at home. I have no kick coming though as it is. The 2nd Regiment has been uniformed, the band also, though not with guns yet but are expecting to get them at an early date. The Y. M. C. A. has tent here for the benefit of the 2nd Ky. Regiment. They furnish the boys stationery and a place where they can do their writing. They have service every night and preaching every Sunday. Dr. Lawrence and Geo. Pennington are getting along very nicely. Jim Thompson belongs to the band also. I guess you know old "crooked" He used to live at Mt. Vernon and Pineville. He is a good musician too. I get the SIGNAL every week and I just can't find words to express my appreciation of it. I want you to send it to me as long as I can help. Will write you again. Regards to all my friends.

JOHN D. MILLER, Co. I and Reg. KY Vol.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save expense and valuable time. A prudent and careful man can get a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the slightest fellow will wait until necessity compels it and ruin his horse, going for a doctor and have a big bill to pay besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer he is getting poorer. **HER EXPLANATION.**  
She Told Him How He Would Make Her and Mammas and

There are incidents of real life which constantly prove that there is more amusing as well as more strange than fiction. A sweet, gentle-hearted girl—one from whose disposition sarcasm is as far from an active volcano as the affections of a young man. It was an unintentional confession of her heart that the least consoled her. He propounded the old question and she answered it with a smile and a nod. "And you will be mine?" he asked.

"Yes, when you are good to be true, when shall the wedding take place?"  
"I don't know."  
"There is no use in putting it off."  
"No, but I think I will."  
"Very well, then."  
"I know that you will realize that you can be happier with me than without me."  
"Yes," she answered. "I do realize it now. You see, I have been looking away, mamma and myself and I have been quite alone. I've all talked the matter over, and it would be ever so much safer to have you in the house at night."—Washington (D. C.) Democrat.

**BATTLE RESUMED.**  
Firing Renewed by Spaniards on Camp of the United States—There Was One Man Killed.

OFF UNITED STATES CAMP GUARDIAN. A battle was fought June 12, noon, between the Spaniards and the United States. The Spaniards made a brave stand, but the fire was too heavy for them.

A detachment of Spanish infantry approached the "Hill." "Hill!" cried the brave commanding officer; then he knuckled at the door.

A window in the third story flew up and the face of a pretty girl appeared in the opening. "What are you doing?" she asked.

Something whizzed from a window and a Spaniard was early routed; grim attacks with doughnuts and biscuits; supply of ammunition seemed exhausted; Spanish retreat.

Gen. Otis Notified That Steamers for the Second Expedition to the Philippines Are Practically Ready.

SAN FRANCISCO, CAL. June 11.—The most important order issued from the headquarters of the Philippine expedition, notifying Maj. Gen. Otis that the steamers to comprise the second fleet of transports to go to the Philippines was practically ready for the reception of troops. Troops to the number of about 4,000, comprising the 10th Pennsylvania, under Col. Hawkins; the 1st Nebraska, under Col. Bristle; two battalions from the 18th and 23rd Infantry under Col. French; a detachment from the engineer corps and two battalions of Utah light infantry, under Capt. Young began to raise their camp, load their tents and baggage into wagons, draw their heavy marching gear and form into columns, and march to the waiting transports.

**Arms and Supplies for Troops.**  
OFF SANTIAGO, June 11.—Sunday Lieut. Commander Delehanty, with the gunboat Saganagan, armed 3,000 Cuban soldiers with rifles and cartridges. Monday he landed 3,000 rifles, 300,000 rounds of ammunition, a large consignment of cartridges, a quantity of mappin and several tons of bread and bacon.

**Days of Saganita's Ministry.**  
LONDON, June 11.—The Paris correspondent of the Morning Post states in a letter from the Sagasta cabinet that the days of the Sagasta cabinet are numbered. It is believed the cabinet is aware the torpedo boat destroyer has been lost and despite the fact that it is rumored that there is a chance that the vessel is still in the hands of the bad news from Cuba. Sagasta's resignation, leader of the President's cabinet is regarded as the coming minister. The Carlists are enrolling and starting developments are peeped.

**A FAMILY FAILING.**  
The Struggle with Heredity. The Right Side of the Color Line.

To heredity, to the transmission of traits from sire to son, we owe most of the possibilities of growth and development. It is each newly born being started out on a life of struggle. It is the struggle of the traits derived from his parents. This color line factor may be applied to any race. It is supplied by Dr. J. C. Ayer's Hair Vigor, which, by supplying the lacking elements, gives gray hair its natural color. This color factor may be applied to any race. It is supplied by Dr. J. C.
