### BRADLEY MEANS BUSINESS.

The Governor is Determined to Restore Peace in Clay County Regarding Issue of Cost.

FRANKFORT, Ky., June 18.—Gov. Bradley has not the power to declare martial law in the county of Clay, where a reign of terror exists as the result of the assassination of Tom Baker last Saturday, but he intends to restore order there, regardless of cost. The governor received a letter Friday afternoon from Circuit Judge Eversole denying that he had, as reported, adjourned court at Manchester because of the fear of persons. He says that he will hold a special session in Clay within the next few weeks. The troops will probably be sent back to their quarters.

If order can not be restored and the situation is such as to require the session of the legislature would be the only remedy. Under the present Kentucky law the governor can not even appoint a special judge until the regular judge has refused to sit and the circuit clerk notifies him that the members of the bar have failed to elect. In Clay county the circuit clerk is a member of the White faction, and if Judge Eversole should decline to sit, he would practically lay the selection of his successor. If an election were held the county of Clay would either be abolished and divided up among adjoining counties, or the governor would be given power to appoint special judges at will and special grand juries from other counties to go to a lawless county and investigate and find the indictments.

The governor Friday declared he would take the special dispatch sent out from Lexington Thursday that he was equipping soldiers in Eastern Kentucky to go to Hartsville in a quarrel in that condition is much better than it is in Clay county.

### MRS. TOM BAKER.

She Will Take Her Children and Settle in the Indian Territory—A Peaceful Outlook in Clay County.

LOUISVILLE, Ky., June 20.—R. B. Lucas, of Manchester, who is here as a delegate to the democratic convention, says the Baker-Howard feud is at an end. He says that Mrs. Tom Baker has decided to go to her father, who is a prominent farmer in Indian territory. She will take her children with her. Dr. Lucas declares that the men who have been killed and armed in the mountains have laid down their weapons and returned to their homes and to their work. A better and more secure feeling prevails throughout the terror-stricken section. Everybody now appears to be satisfied to let the law take its course, and the members of the factions are disposed to have peace.

Leading citizens, who have taken no part in the feud, are now endeavoring to get the Whites, Howards, Bakers, Philpots and others involved in the fighting to agree that they will do all in their power to prevent further bloodshed. These men are said to take kindly to this idea and when each faction is assured that no one of its side will receive harm at the hands of the enemy, it is thought peace will be permanently restored.

### A CAR HELD UP BY A MOB.

Another Serious Blow at Cleveland. The Women Assailed the Strikers—Dispersed by the Police.

CLEVELAND, O., June 20.—Up to 4 o'clock Monday afternoon this promised to be the most uneventful day in the big street railway strike. At that hour another serious riot broke out in an entirely new quarter and one non-union man was sent to the hospital in consequence.

The company began Monday the operation of two new lines—those of Scoville and Central avenues. The cars were protected by policemen, and until afternoon no trouble occurred. Just before 4 o'clock two of the Scoville cars approached the crossing of the Pennsylvania railroad. There they were met by a mob of more than 3,000 men and women. One of the cars was taken across the railroad tracks, but the other was held up by the mob. A perfect shower of paving bricks and stones fell about the car and crashed against the vestibule at the front and behind which the motorman was concealed. Women threw bricks and handed them to the men who were in the front of the crowd. The windows of the car had been lowered and the bricks crashed against the seats and fell upon the floor of the car, but the motorman, A. J. McGraw, of St. Louis, was struck on the head with a brick and rendered unconscious. He was taken to a hospital. The patrolman on the car was also hit with a brick, but was not seriously hurt. A call was made for the police, but when a detachment of officers arrived the mob had dispersed and no arrests were made.

During the riot several persons were injured, and a number of the cars were damaged. The police were unable to disperse the mob, and the riot continued for some time. The city authorities are expected to take steps to prevent a recurrence of such a riot.

COL. D. B. HENDERSON, Prospective Speaker of the House of Representatives.

### THE CONGRESSIONAL MEDALS

Every Man Attached to Dewey's Fleet During the Battle of Manila Will Receive One Regardless of Rank.

WASHINGTON, June 20.—It is stated at the navy department that every man attached to the Olympia, Boston, Baltimore, Concord, Raleigh, Petrel and McCulloch during the battle in Manila harbor, regardless of rank or station, will receive a medal of honor. The McCulloch was used as a revenue cutter at the outbreak of the war, and was transferred to the naval service and added to Adm. Dewey's fleet. She was an efficient support in the brilliant engagement which culminated in the annihilation of the Spanish fleet, and also carried the first official news of our victory in Manila to Hong Kong. In view of these facts it was deemed proper that the officers and men of the McCulloch should share equally with the others in the distributing of the congressional medals, notwithstanding the fact that the McCulloch has since resumed her regular duties in the revenue cutter service under the treasury department.

ST. PETERSBURG, June 20.—Gen. Brooke's quarters is already on the move to El Vedado to the palace, formerly occupied by Marshal Blanco, in Havana province. The removal will be completed in a few days. It is expected, before the close of the first week in July, to mean a loss to El Vedado of many who now reside there, as well as to be near headquarters. City residents are gratified by the removal of the quarters of the incontinent train service between Havana and El Vedado, and because, at this season, the city is apt to be caught by the typhoid fever.

Maximo Gomez has instructed Gen. Rafael Rodriguez, his chief of staff, to open an office at Quintrala de los Rios, and to begin the preparation of new lists. The work was begun Monday. Gen. Rodriguez mailed personal addresses and published in all newspapers of the island in Spanish and English, the names of the divisions, corps, brigades, and company organizations, and sent as soon as possible, to the headquarters of all the military commands with the dates of enlistment and the periods of their regular expiration of the lists. The lists were forwarded with all speed, and are now being distributed to the various military divisions. The lists are being distributed to the various military divisions. ### GANG OF MASKED ROBBERS.

They Hold Up the Receiver and Five Employees at Fairmont Park Station Office.—Secured About \$4,000.

PHILADELPHIA, June 20.—A gang of masked robbers, probable ten in number, early Monday morning raided the receiving office of the Fairmont Park Transportation Co. at Belmont, in Fairmont Park, and after holding up the receiver and five other employees of the railway, blew open the safe, securing \$4,000. The company's receipts for two days. Frank Leach, receiver, Frank Watson and Henry B. Whitehouse, conductors; James Cavanaugh, fireman, of the power-house; Philip Eaves, electrician, and William Coker, laborer, were bound hand and foot with wire. In addition to the men who actually committed the robbery, others operated miles away from the scene by destroying telegraph and telephone wires connecting with the trolley company's main office.

The Fairmont Park Transportation Co. operates various lines of trolley cars through the park for pleasure riders. The traffic being unusually heavy on Saturdays and Sundays, the robbers evidently decided upon Monday morning as being a good time to make a big haul.

The men above named were all in the office when the burglars made their appearance. Each intruder was armed with two revolvers and they took the employees completely by surprise. It was the work of a few moments for the robbers to pinion the workmen, who were rolled over to one side of the room, with their faces to the wall. Ten minutes later the safe had been cracked and the gang disappeared.
