J. E. HOUK J. T. ADAMS

The above are fair likenesses of J. E. Houk and J. T. Adams, the members of the firm of Houk & Adams, which has, until recently, been doing business under the firm name of Houk & Son. After the death of L. M. Houk in November, 1899, Mr. Adams moved from Garrard county here and bought an interest in the stock, and from the very day, which he came, it has been his purpose to build up the town and community, as well as his own business.  
 The first act of the firm was to build a large two-story brick store room, which would be an honor to any town. They stand for a corporation for themselves, Mr. Adams having been at one time a director on the Nicholasville, Lexington and Lancaster strip, and for a general improvement in every way.

Belov. Dear Editor: A Happy New Year to you. May the blessing of the Great God upon you and your dear paper this year through out, and I trust that He will add much strength to you to carry on your good work, and before the close of the year the subscription to the Signal will reach the millions.

G. T. JOHNSON

The above is a fair picture of that bustling merchant and industrious business man, George T. Johnson, of Orlando. When Mr. John W. Baker first came to Mt. Vernon and put up a general store Mr. Johnson came with him as a clerk. Finally he went into business for himself at Wildie and four years ago moved to his present stand at Orlando. From a clerk at a very small salary he has risen to be one of the wealthiest merchants in our county, and he has accomplished it by paying close attention to his business. He has built a large store room and yet has not sufficient room for his large stock of goods. He is particularly accommodating and generous in his dealings. We are a very young man of this county, and would like to see some of the old boys here than to see some of the new boys here. I have a few lines of poetry that I would like to see some of the old boys here than to see some of the new boys here. I have a few lines of poetry that I would like to see some of the old boys here than to see some of the new boys here.

The experience of the last two months ought to convince the people of Mt. Vernon and vicinity of the wisdom of maintaining a healthy supporting a municipal corporation. It is with the people whether or not they will breathe the health of life into her almost lifeless body and put her on wheels again.

The Signal is for the selection of good, business-like, property holding trustees who have brains enough and business capacity to run our city government on a sound and economic basis consistent with public improvement. Levy a reasonable poll, property and occupation tax; do away with militia duty on our streets; clean them up and keep them clean by contract; macadamize them as they should be; bid can be built good sidewalks; through-out our town keep an accurate account of every cent collected and paid out and make a statement to the public every six months of the financial condition of the corporation and there will be no trouble at all.

The business and professional men should be willing as good citizens to give a small part of their time toward promoting the general welfare of our town. In other words are in some local patriotism. The business and most business like citizens of our town should control its municipal affairs. Let our people meet and consult together for the common good. This is the way to success.

But will the close of the 19th century witness an improvement in the morals of the people, or will they, like the people of Greece and Rome, become so far lost to other things that their morals will be sadly neglected?

Let that be as it may, it is more clearly demonstrated that man is a wonderful being, and notwithstanding, God gives credit that he made man because of his sinfulness. He could not surely admire him for his intelligence.

The Interior Journal has put in nomination to succeed Senator Jones as chairman of the National Democratic committee, Gov. James B. McCreary and we now arise to second the nomination. To our mind no better selection can be made. The way in which he conducted our late State campaign is enough to show to the world that he is a born fighter, and in every way suited to the position. Of course we will elect him to the United States Senate, but that doesn't prevent his being selected for National chairman and we are for him first last and all the time.

Gov. MOODY of Indiana, we are informed, will return to his farm, where he undoubtedly should have been all this time. He has been trying to get as Governor, if he has any better ideas about farming, than running the affairs of a State. And if he is as near a blank in the former as the latter, we drop a tear of pity for the poor old man, and regret that mankind judge him not as being a very bad man, but rather as one whom the Almighty endowed with only a limited amount of intelligence.

His friends of the other candidates for the Collectorship in the Eleventh, are causing a little delay and confusion about the appointment of Judge Mentzer by telling the President that he had failed on several occasions with his mail contracts. A compromise, which is more than likely to take place, will probably result in the appointment of some one of Gov. Bradley's friends.

There has been a great deal said about whether Grover Cleveland would be voted for by Bryan, or whether he voted at all. It seems to us that it is a matter of little importance how he voted. His vote only counts one and his influence, present, less than one. So let us rest, fish and hunt ducks.

WILLIAMS FILES NOTICE OF CONTEST.

Charles E. Held, representing Dr. John Mason Williams, of Mt. Vernon, yesterday served notice of contest on the Hon. George G. Gilbert, of the Eighth Kentucky Congressional district. The contest comes in the nature of a surprise, as it was understood among Kentucky Republicans and so announced that Dr. Williams would not carry the result of the election to Congress. The grounds of contest are similar to those advanced in the present Congress against Mr. Gilbert by Judge George M. Davison, viz., the alleged unlawful act of the Kentucky Legislature in gerrymandering the county of Jackson from the Eighth to the Eleventh Congressional district. At the recent election Mr. Gilbert received 2,044 majority. The county of Jackson, in the Eleventh district, gave a Republican majority of 1,825, and Dr. Williams claims that he is entitled to this, which would increase his vote from 10,602 to 12,427, or 460 majority over Mr. Gilbert.

That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

SCOTT'S EMULSION

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.
