## BLOWN TO ATOMS

Only one at all Druggists drug store.

## TOBACCO.

This question, which has been agitated more or less in this county for the past two years seems to have but little weight with the farmers. For what reason, we can not say. It is an evident fact that the land of Rockcastle is not best adapted to the raising of corn or wheat, but by a comparison of the soil here to a similar kind in other county where they raise large quantities of tobacco, it is reasonable to suppose that it would be a good tobacco country.

Take and compare what is made each year on corn with what the farmers elsewhere make on tobacco. The poor hillside land will make from one and a half to two barrels per acre, while the bottoms will go twelve to fifteen barrels per acre, or take the whole county of average, it will go five barrels. At \$2 per barrel, the way corn is selling now, much money is to be made? On ten acres hillside land, we can count on about \$40 and on the same amount of bottom land, about \$400. Now let us see what would be the result if this same land was in tobacco. The following are some tobacco sales made in Louisville last week:

J. H. Keese, of near Keese, sold his crop of tobacco, consisting of about 11,000 pounds, at \$6.75.

James Ward, of Sharpshooter, has sold a crop of 6,000 pounds of tobacco to the Continental Company for 8 1/2 cts. The same company has bought a number of crops in the same section of both for 8 cts.

Those who have raised tobacco say, that the seed which we speak of as producing white and fifteen acres of crop, will produce 800 pounds of tobacco and the hillside and worn out fields, will give one fertilizer go to 400 or 500 pounds per acre. On the tobacco sales we find where one kind sells for 6 1/2 cts., another for 8 1/2 cts. and another for 8 cts. But suppose you could only sell your tobacco for 5 cts. per pound. Then, what would be the result? Ten acres in tobacco and 800 pounds at gets per pound of \$400, a difference there of \$160 between what the corn would bring and the tobacco.

Tobacco is no worse on land than corn and the time for working it comes when it does not interfere materially with the other crops.

Very Respt.

A friend advised me to try Chamberlain's Cough Remedy and I found it was indeed to take me it relieved me in ten days. The quarterly statement of the Mt. Vernon Deposit Bank appears in this issue. It is most certainly encouraging to see what splendid progress this institution has made since it started Oct. 2, 1900. The sworn statement, which appears in another column, shows the deposits and loans to be exceedingly large for the time it has been running and the financial condition of the bank to be good.

POPULATION.—The first magisterial district of Rockcastle county including the town of Mt. Vernon has a population of 3,200. Mt. Vernon has 1,272. The second magisterial district has 2,444.

The third district including the town of Livingston has 3,042. The town of Livingston has 705. The fourth district including Brodhead has a population of 3,109, and the town of Brodhead 337. The population of Rockcastle in 1890 was 9,547 and in 1900, 12,416.

The corporation, which has caused considerable comment for the past few weeks, has again ceased to be topic of discussion and as of yet it will remain so, until the boys get some more large fire crackers and begin to throw them promiscuously around over the streets.

There is only about one time in the year, when a corporation is in demand and that is about Christmas time, so about the only way we see to have a good corporation, is to have Christmas every day, until it is started.

The Masons, of Brodhead, had a public installation of officers, last Saturday night, and a banquet at the Frith Hotel, which was a feast that even the gods would have appreciated. Brodhead doesn't do things by halves and those from Mt. Vernon who attended wish there would be an installation of officers at Brodhead every month, especially if the supper was part of the programme. The officers for the ensuing year are, J. R. Cass, W. M. Percy Benton, S. W. J. Wood, J. W. J. P. Watson, S. W. J. Wood, J. S. Martin, Texas, J. T. Cherry, S. D. A. K. McClary, J. D. and Joe Vance, Tyler.

EM. L. MYERS, DENTIST, Mt. Vernon, Ky. OFFICE—At the Rice property. PRIZE No. 35.

When You Read This, And need anything done, Come and see me at WESLEY'S DRUGSTORE, MT. VERNON, KY. I have withdrawn from the SIGNAL office on account of the close confinement and a long needed rest. I will run a first-class Watchmaking shop, do work in workman like manner, and in all cases, try to deliver work the same day it is brought to me. Hereafter, I have been laboring under disadvantages by having to work on the paper in SIGNAL OFFICE through the day and on Watchwork at night, consequently, could not turn out work very fast. I learned my trade under a German Watchmaker, one of the best in the country.

My Shop is Equipped With Improved Machinery To do all kinds of work, and will add more. I do all kinds of Jeweling, pivoting, put in balance staffs, gold and silver soldering; repair spectacles, umbrellas, parasols, &c.

OPTICAL GOODS.—I have made a study of fitting the eye properly with glasses. I have the latest appliances for testing, and will visit, at leisure times, every town and postoffice in the county, to do what work is to be done, get better acquainted with the people and work up my business. Whether you want anything or not come and see me at WESLEY'S DRUGSTORE, Mt. Vernon, Ky. Yours with the greatest of respect,

S. C. FRANKLIN.
