will be made. Why it is that the good citizens and sinners do not clean up this cess-pool I can not see as this is the second murder charged in this town in the last six months. Perhaps before my next letter you will hear something drap.

REFLECTIONS OF A CITIZEN OF THE WANTS OF ROCKCASTLE COUNTY. While reflecting a bit on the needs of Rockcastle county, it occurred to us that there are many ways in which we could make improvements.

We have no ill feeling toward any for the way deviated on the question, but after every one in the county has ample time for mature deliberation, it should be re-submitted, and the sense of the people again taken as to whether they desire better roads.

We want to say now that it is only a matter of time till something will be done along that line. Rockcastle can't withstand much longer.

There is no on-going harvest in good roads will not prove more beneficial to us than anything else that could take place, and we honestly believe when the matter is rightly understood it will carry by an overwhelming majority.

Let's not quit till we see a pile extending from Lincoln to Pike and from Madison to Pulaski. It will be done and we had as well be enjoying it. But that's not all.

This county is no doubt adapted to the raising of tobacco and tomatoes, and we want to see in the near future a tobacco manufacturing and a canning factory erected in this county at some convenient place.

We understand that the people of Brodhead contemplate entering into the manufacturing of tobacco, and the canning of tomatoes, etc. Of course we don't expect Mt. Vernon to do anything of this kind, but there are places in the county progressive enough to take hold and make both a success, and we would not be at all surprised if Brodhead gets right down to business and makes the matter to an early completion.

It is immaterial with us, what place does this, but we do think the county next night at least try to keep space with other towns in the county. In our next letter we will make more suggestions and deal more in detail on these matters, for we are 'Enlightened for three years or during the war.'

A Citizen. What would you do if taken with colic or cholera morbus when your physician is away from home and the drug stores are closed? After one such emergency you will always keep Chamberlain's Colic, Cholera and Diarrhoea Remedy in your home, but why wait until the horse is stolen before you lock the stable? For sale by Theo. Wesley Druggist.

We received an introduction to Prof. Morrison, of Virginia, on last Sunday evening. He is in our town for the purpose of giving lessons in practical arithmetic. Prof. asserts that he would not give a postage stamp for all the arithmetics that has been printed to teach the people mathematics, although he is an author of two works himself. He uses no book, no maps, no charts in his teaching. But introduces every principle in a common sense system. He comes well recommended by T. J. Danger of Colds and La Grippe.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that is a certain preventive of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Theo Wesley Druggist.
