The Supreme Court of the United States has decided by a vote of five to four that "The Constitution is applicable to the Territories acquired by purchase or conquest only when, and so far as congress shall direct." If this be true, Congress is greater than the power which thought it into existence. When appetite fails, it restores it. When food is a burden, it lifts the burden.

When youlose flesh it brings the plumpness of health. When work is hard and duty is heavy, it makes life

bright.

HOW often you require to paint is largely dependent upon the paint you use.
