In the selection of county officers, too often do the people fail to do their duty in the selection of the proper men for what they consider the minor offices or in other words, those offices which are regarded of no importance whatever, which are in reality the most beneficial for the general improvement of the county that of Magistrate. In this county especially do we need as magistrates, sober, upright, energetic and enterprising men, men who will look to the interest of the county, because from the Fiscal court must come our support, to make certain advancements which are necessary to place our county where it ought to be, can be and must be placed. If there is ever any decided improvement made in our roads, which are the greatest drawback to commercial enterprise, growth and prosperity of anything that confronts our people, upon the Fiscal court rests the burden, and if we elect a man or set of men to take charge of our county officers, whose highest ambition is to get a job of whiskey and rush behind a lumber pile to divide it, how can you good people expect your county to grow and prosper, and how can you vote for such men? Ponder well the great questions, which confront you and when you go to the polls in next November, cast your vote for that man, who will do most good for the county and its people, "and all will be well."

The election of Granville Owens, of Brodhead, as chairman of the Rockcastle Democratic County Committee, was a step taken, of which we are more than proud. We know of no better man, nor no better democrat in the county than he, and with such men at the helm, we may expect most satisfactory results. A worthy successor will be to our late chairman, R. L. Brown.

The prompt arrest and conviction of Hiram Fanning in the circuit court on the charge of shooting into a passenger coach filled with passengers should be a warning to all young men to stay sober and leave their pistols at home. It also indicates very conclusively that the railroad company will not only protect its passengers from harm but will prosecute either who injure or attempts to injure either passenger or employee.

The convention, then referred the nominations of other candidates to the county committee, which met yesterday at orion, and a report of which will be found in another column.
