Politics and Politicians President Roosevelt received from the C. T. a personal cable message of the New Year's greetings...

LEVEL GREEN

The new year still looks us in the face with a cold and icy stare, but it will become warmer when the days are longer.

The sale of J. F. McQuenry's was well attended Saturday and property sold well. One registered Poland-China hog of 250 lbs was sold by W. A. Brown for \$17.

A J. McKimney sold one hog for \$2.50—an enormous price, but he was a "gre w hopper". The few scattered birds will now have a rest, but the full force of Nimrod will be bro't to bear upon the Co. family, and "So mote it be."

Let us urge Bro Bill Davis to nominate himself for having a "Protective Tariff" law passed for the birds for three years; for the partridge is indeed the farmer's friend; they do us much good but no harm.

Thom Brown (our baby) Everett McQuenry, Messrs. Grover and Smith Price went to join the Sun Bennett array at London today.

Work of all sorts has been suspended, and Henry Catron is so restless that he has night mare, he is the most industrious farmer in our Hollar.

We still have no preacher here at the Campbellite meeting house, and we need one mighty bad; for the devil is making headway upon the A. N. T. among those that are effectual the devil gets in his work when the churches shut down.

THE LEGISLATURE

The Kentucky Legislature convened Tuesday. The Hon. Eli Brown, Jr., was elected Speaker of the House.

One of the warmest fights that has ever been waged for the Speakership of the Lower House of the General Assembly of Kentucky, was fought for these last night.

Mr. A. C. Dunn, that stalwart Democrat of Lincoln county, had a walkover for the "Doorkeeper" ship of the Lower House. He won the first ballot, receiving 48 votes.

James R. Stone, of Breckinridge county, was nominated for the Chief Clerkship of the House. For Assistant Clerk of the House, Mr. R. W. Eastland, formerly of Bo. 1 county, was defeated by Marion Pogue, of Crittenden county.

James Edwards, of Webster county, was nominated for Clerk of the House. Senator J. Rimby Allen, of Fayette, was nominated for President of the Senate.

W. O. Jones, of Grayson county, was nominated for Assistant Clerk of the Senate. Miss Jennie McDonald, of Frankfort, was nominated for the reading clerk of the Senate.

James Edwards, of Webster county, was nominated for Doorkeeper. James Edwards, of Webster county, was nominated for Doorkeeper.

CURED AFTER SUFFERING TEN YEARS.

B. F. Hare, Supt. Miami Canal Co. Mr. Hare writes: "I suffered for ten years with dyspepsia. He spent hundreds of dollars for medicine and with doctors without receiving any permanent benefit. He says: 'One night while feeling exceptionally bad I was about to throw down the evening paper when I saw an item in the paper regarding the merits of Kodol Dyspepsia Cure. I decided to try it and while I had no faith in it I felt better after the second dose. After using two bottles I am stronger and better than I have been in 10 years, and I recommend Kodol Dyspepsia Cure to all who are afflicted with this complaint suffering from stomach trouble.' Sold by Chas. C. Davis, druggist."

WHAT IS IN A NAME?

Everything is in the name when it comes to Witch Hazel. Silver B. C. DeWitt & Co., of Chicago, discovered some years ago, how to make a specific for hemorrhoids. It is a specific for piles. For blind, itching, itching and protruding piles, eczema, skin burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine sold by Chas. C. Davis, druggist.

THE NATIONAL DRESSMAKERS' ASSOCIATION, OF CHICAGO, CONDEMNED THE WOMAN'S SHIRT WAIST.

Fire at Columbus, O., destroyed property valued at \$150,000. At Oberlin College a young man having a scholarship valued at \$75 stole two knives from a pretty coed, and was expelled from the school, placing the value of the Oberlin knife at \$37.50 apiece. At the eleventh hour, Palmer University, at Munich, Ind., succeeded in raising \$12,000 on which depended a \$100,000 endowment. Two men were asphyxiated in Philadelphia by illuminating gas.

Dr. Southard has bought out Mal Colson in the firm of Barnes & Colson at Bee Lick and the firm now appears Barnes & Southard. Several cases of measles with more to follow in this part. Nat Wright sold his farm of 50 acres to Andrew Owens for \$450. David Elder, Jr., has bought the Gabo Hunt farm for \$250. C. K. Lewis and family will leave at once for their home in Oklahoma. We understand the proposed debate between Rider, J. L. Davis and the Mormon will begin Jan. 15th at 10:30 o'clock and be held at Providence. A G. Craig is numbered with the sick. We ate dinner with Stephen Elder the other day and found him at work as usual. Not many men of his age does the work he does. He reaps a good reward for it too. Yes! Some people are ready to give advice and some people ought always to be thankful to get advice too. For after leading the life which some people do, advice might be useful to them. But one people never take advice, until it is too late. The weather is so cold that farmers are doing scarcely anything except make fires and feed.

Supt. of Public Instruction, J. H. Fuqua, Sr., writes Supt. Ballard as follows concerning January draft for teachers.

Owing to the confusion incident to the change of administration it will be impossible to send out checks for the last 20 per cent. before the 15th.

The Board of Town trustees met on their regular meeting night Tuesday and passed several ordinances. One relating to the collection of taxes and another a general stock law, which will go into effect Feb. 15. The passage of a general stock law is both a very favorable and a very unfavorable law. Those who have a stock running upon the streets are very bitter in their opposition, while those who have no stock but have to be bothered with other people's, are very enthusiastic in their advocacy of it. It is the desire of the board in all instances to conform as nearly as possible with the wishes of the majority of the people and above all things do that, which is for the best interest of the town. If put to a vote there is some doubt in our mind as to which side would win, but there is no doubt if left to the reason, good sense and fairness of every citizen in the town, but that they would say it is for the best interest of the town to keep the stock off the streets. Every person in the town surely has enough pride about them that they want to see the town grow and prosper whether they are willing to lend any assistance or not. The first, requiring a prosperous town, is the furnishing of clean streets, the next, improvements are nice streets and sidewalks and a town having these things, when at all times there are good roads, all of which are necessary to the growth and prosperity of a town.

SUPT. G. M. BALLARD ON SCHOOL BOOK BILL.

I wish to advocate strongly the bill introduced by Representative Willis Calloway for a uniform system of text books throughout the State. Let us lay aside the sin that doth so easily beset us, and when a saint or sinner, Jew or Gentile, Republican, Democrat or Prohibition puts anything good or before us, we accept with thanks. I think that it would be the duty of every county superintendent in the state to lift up their hands to this bill. I speak from experience, that we have had enough changes of books in Rockcastle county for the last two years. The standard education has been lowered. We have the bill and then the people will know how, when and where to buy their books. As one, I will call upon our Hon. Representative, W. A. B. Davis, and Hon. George H. Shaodon, to use all honorable means toward the passage of this bill. Respectfully, G. M. BALLARD, Supt.

Owen Turpin is very low with pneumonia. -Granville Owens and E. J. Ham will work the part of the State -Cleve Cable has returned from Florida. -Mr. Alex Tytus is on the sick list. -W. H. Petrus, the L. & N. day man is at Pittsburg. Mr. Cass has charge of the office during Mr. Pettus' absence.

J. E. Wallin will be home the last of the week, will remain with his family a few days and will return to his work a LaFayette, Tenn. -Miss Bula Wallin, daughter of Dud Wallen, is visiting her aunt, Mrs. J. E. Wallin. -John Cross is buying hogs again, but says he does not want many. -Putting up ice is one feature of industry this week. -Logan Thompson was with our merchants Wednesday. -Horace Benson has gone to Mt. Sterling on a visit. -Geo. Reynolds was at home a short time this week. -Prof. Dickerson has a sick baby.

Uncle Fount says that the old Biddle contest was decided right but is not at all pleased with the decision for the ugliest man. He says F. L. Thompson should have been the winner. -Albert Albright, L. & N. brakeman, is in home for a few days, being a little sick. -With cattle selling at 2 to 2 1/2 c and hogs from 10 to 15 c, it is not surprising that the (?) what must the farmer do. We think it time that the farmer, mechanics, merchants and in fact all of us begin to think for ourselves. -Suppose we call your attention to a few moments to the past and the future of our field of Rockcastle. Do you believe we have have all the answer by saying we are in an oil belt. Whether there is oil here or not I do not know and I fear if we wait for some oil syndicate to develop our territory that we never will know. How easy it would be for us to form a good company, say we get 100 men at \$10 each and 10 men at \$50 each, would make a capital of \$1,500. Buy a second hand rig, hire Orus Bowers to take his boiler and engine and put down a test well. Let each man share according to what he puts in and let each share be entitled to one acre, in which the test well shall be. Some one will say what if we don't strike oil? Then we answer, we have lost but little, and in case we strike oil who can imagine the increase of value of land and property. Who would not be willing to risk a few dollars?

WILLIAMSBURG

At a meeting of the new City Council Monday night, George Davis was elected to the office of town marshal. -A fire in Corbin Wednesday night, destroying five boxes including the office of the Corbin News, and one store. Insurance \$9,000. -It is information that the school boards here are trying to have the school term extended to the month of August.

young men and women who are coming to attend, and that some students, unable to find board and lodging in the town, have returned home. This is convincing proof that Williamsburg needs more dwellings, boarding houses and accommodations in general. -Judge M. L. Jarvis, our new Circuit Judge, is here getting ready to open his first term of court next Monday. -Miss Gertrude Lester has resigned her position as principal of the Raleigh, N. C., kindergarten school and has accepted a like position with the Williamsburg Academy at this place. -Miss Gertrude is a most excellent teacher in kindergarten, and the children are fortunate who receive her instructions. I will take the opportunity to say right here that it has been demonstrated that children who have been brought up through the kindergarten school, make better citizens than those who have not had that advantage. Among the great evils now existing in Kentucky, two of them are bad children and bad roads. But who is to blame? It is not the children nor the roads. Two of the greatest blessings to the State would be good children and good roads.

It was a treat to have seen the blank look of surprise on the faces of Rev. F. P. Gates and his estimable wife on New Year's Day, as their home was rapidly filled with the good members of the Baptist church, each carrying some of the substantial of life to cheer the hearts of their pastor's family. Bro. Gates says the people of his congregation have hearts as large as the hills around this town. After an hour of happy singing and conversation they were dismissed by prayer. Each one feeling, "it is more blessed to give than to receive."

FRENCH LICK and WEST BADEN Springs

In the highlands of Indiana - a two hours ride from Louisville there flow wonderful healing waters, that you'd spend hundreds of dollars to enjoy if they were in Europe. A recent visitor from Philadelphia, who formerly went to Carlsbad every year, said: "I do not see why anyone goes to Europe for medicinal waters. The water is as beneficial, and the scenery, and surrounding country, the air and the opportunities for recreation are better; the hotels and accommodations are much finer at French Lick, West. Eastern Springs" and this gentleman is a native of Switzerland.
