A BACHELOR'S MISFORTUNE

Dear Mr. Editor:—I am obliged to tell you that you have played—the devil—I was going to say something stronger. For heaven's sake keep all this letter out of your columns. Let me receive my late of woe. I went to a party last night and some girl, young lady, or old maid, I don't know which, invaded me into a remote corner of the house. I was rather surprised at her antics. I believe she tried to kiss me. Now I am satisfied that was her object. After a little while I thought your mister trunk exploded, for she broke forth in a passionate appeal of "Honey, Sweetheart, Darling," and every other affectionate name. "Won't you, won't you? Ah, please the good!" Oh, Mr. Editor! What did I do to be compelled to go through all this? All I could say was, "This is so sudden." I am so overcome with emotion that I can not write more. Please print this as a warning to the good young men of your town.

Sorrowfully, ALFRED G. COODS CAUSE PNEUMONIA.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude K. Penner, Martha, Ind., who was entirely cured by the use of Dr. King's Great Peppermint Cure. "The coughing and sneezing so weakened me that I ran down in weight from 145 to 95 pounds. I tried a number of remedies to no avail until I used Dr. King's Great Peppermint Cure. Four bottles cured me. The coughing and sneezing, my lungs and respiratory system were entirely healed and I feel as well as ever." Sold by Dr. J. C. Davis, 100 West Third Street, Cincinnati, Ohio.

NEWS ITEMS.

Prince Henry, the youngest son of Prince Henry of Prussia, is dead. The arbitration treaty between Spain and Great Britain has been signed. A treaty of arbitration between France and Spain was signed in Paris. The winter in New York has been in every respect a record breaker. In London England the schools are so crowded that 60 pupils per teacher is the average. The Wisconsin State Capitol at Madison was practically destroyed by fire, involving a loss of \$800,000. After eight days hard work, a jury has been secured to try Mrs. Annie Oppenheimer for the murder of her child in Cincinnati. The retrial of the Dreyfus case, which is a formality to satisfy the Dreyfusards by publicly establishing the innocence of Dreyfus, began in Paris last week. The financial advancement of Canada rises on its own. In 1867 the Dominion banks had less than \$50,000,000 of assets. They now have over \$600,000,000. Machen, Diller B. Croff and Lorenz, convicted in the postal conspiracy cases, were sentenced to two years imprisonment and fines of \$10,000 each. The bodies of Arthur W. Pressel and wife, of Huntington, Ind. were found in a Chicago hotel. The man had been shot and the woman had taken poison. Apparently they had committed suicide by agreement. The World's typewriter record is held by a woman who has accomplished the remarkable feat of writing 20,000 lines in six hours. She had only ten minutes' rest and refreshment on pickles and chocolate ruffs. Fire in the retail dry goods district of Rochester, N. Y. Wiped out three of that city's biggest department stores and several other large buildings. The aggregate loss is estimated at \$3,000,000. Sheriff Ed Callahan, of Breathitt County, gave bond at Cynthiana to answer to the indictment charging him with subornation of perjury. A jury was secured in the case of Jasper King, who is to be tried on the charge of perjury. The Senate Committee on Public Buildings and Grounds has ordered a favorable report on the bill appropriating two million dollars for a post-office site in New York City in connection with the Pennsylvania railroad station. Mrs. Abrelia Marcom, widow of James B. Marcom, has filed a suit for \$20,000 damages at Winchester against James and Alex Hargis Ed Callahan and B. F. French, whom she charges with conspiring with Curt Jett and Tom White for the murder of her husband. Mr. Vernon, the home of George Washington, has been saved by a clever engineering expedient from more than possible destruction. At a cost of nearly \$7,000 a tunnel is being driven through the hill on which the mansion stands to carry off the waters of an underground stream that has been causing serious landslides. Sooner or later if the precaution had not been taken, the historic dwelling might have fallen into the "Potomac." The income of Mt. Vernon amounts to something like \$20,000 a year and is derived from the admission fee of twenty-five cents paid by from 70,000 to 80,000 people who visit the place annually. Some of the money is expended judiciously in repairs in order that the old mansion may not deteriorate.

THE NAME WHICH HAZEL. The name which Hazel is much abused, R. C. DeWitt, Jr. of Chicago, and the inventor of the "Hazel" eye medicine, has been found to be a fraud. The name is a common one and is used by many other people.

WILLIAMSBURG.

Hon. John D. White is here taking depositions to be used in his contest for a seat in Congress. Judge Stout, of Tennessee, is here to see his brother, Judge S. V. Stout, who has been very ill for several weeks. Mr. and Mrs. H. H. Tye are visiting the family of Mrs. Tye in Florida. They will be gone one or two months. George P. Johnson and J. L. Manning are in Frankfort lobbying for the passage of a bill to make the new county "Flourish," which is proposed to be made of parts of Whitley, Putland and Wayne, making Pine Knot the county seat. Judge S. V. D. Stout, who has been in bad health for some time, was adjudged a lunatic yesterday and will be taken to the asylum at Lexington. It is believed here that his excessive use of Peruna is what caused the loss of his mind. This is the second case of the kind in this county. Miss Gertrude Lester will begin her Spring term of Kindergarten here next Monday. Miss Gertrude is a most excellent Kindergarten teacher and her whole heart and soul seems to be in her work. I believe that all children are brought up through good course of training of this kind there would be less crime and fewer people looking through prison bars to day.

JOHN D. CARROLL.

A CANDIDATE FOR APPELLATE JUDGE OF THIS DISTRICT. Hon. John D. Carroll, of New Castle, one of the best known lawyers in the State, has announced as a candidate for Appellate Judge in this District, subject to the action of the Democratic party. Mr. Carroll's friends—especially in the legal profession—have for a long time desired to see him on the bench of the highest court in the State. He has held several offices of trust and honor, and in all of them acquitted himself with credit. When quite young he served two terms in the Legislature, was a member of the Constitutional Convention and one of the three commissioners appointed by the Governor to revise the statute laws of the State to conform to the changes made by the constitution, and was for three years chairman of the Democratic State Central Committee. He is the editor of Carroll's Kentucky Codes and Statutes, law books that are in general use and that may be found in the office of every lawyer in the State. A man of high integrity, great industry, with an extensive and accurate knowledge of the law, and in the prime of life, his large circle of friends believe he would make a splendid judge. (Trimble Democrat.)

DO YOU WANT STRENGTH?

DO YOU WANT STRENGTH? If you want to increase your strength you must add to and not take from the physical. In other words, the food that you eat must be digested, assimilate and appropriated by the nervous blood and tissue before being expelled by the intestines. I KODOL DIPEPSIA Cure adds to the physical. It gives strength to build up strength in the human system. It is pleasant to the taste and palatable, and the only combination of ingredients that will digest the food and enable the system to appropriate all of its health and strength-giving qualities Sold by Chas. NEW SCHOOL BOOK COMMISSION HOLDS ITS FIRST MEETING.

The following special was sent from Frankfort dated Feb 1st: Gov. Beckham this afternoon issued a call for a meeting of the State School Book Commission provided for in the new uniform text book law to be held in the office of the Superintendent of Public Instruction on Friday afternoon of this week, (to-day.) The meeting is for the purpose of organizing and putting the new law into effect, it requiring that the organization shall be organized within thirty days after the measure becomes a law. The action of the new law providing for the organization of the State Commission and its first duties, reads as follows: The State School Book Commission shall meet within thirty days after this act shall take effect, at a time which the Governor shall designate in writing to the several members of said commission, and shall advertise in such manner and form as they may deem best, that at a time to be fixed by said commission stated in said advertisement not later than Aug. 1, 1904 said commission will receive at the office of the Superintendent of Public Instruction in the city of Frankfort, sealed bids or proposals from the publishers of school books for furnishing text books on the branches required to be taught in the common schools of the Commonwealth. Said bids or proposals shall be for furnishing such books or any of them for a period of five years and no longer; shall state specifically and clearly and in contract prices at which such books or books will be furnished to the Commonwealth of Kentucky or to any Board of Education, city or county, or to their lawful agents.

CONWAY

Harvey Chennutt was in Richmond this week. Some plowing has been done in this section. J. H. Sigman has his store filled up with fresh and new goods. The lumber on the ground is about the new depot at this place. D. C. Pollins has been sworn in as deputy Post Master at the place. T. B. Hayes is smiling behind the counter of J. J. Wood & Hayes' store. Rev. Dan Phelps will hold a protracted meeting here in about two weeks. Tom Huff, who has been troubled all the winter with rheumatism is improving. The express office is open and ready for business with clever Jim Wood as agent. John Gou sold one week more to B. Riddle for \$75.00. But Vireo sold ten head of sheep to B. A. Riddle at \$3.50 per head. The cross the dealers say there have been more ties put on at this place in the last month than has been put on in any one month in the last ten years.

LAND, STOCK AND CROP.

Parkie Scott has purchased of Mr. Legg a farm near Clifton for which he paid \$1000. The Chemist Commercial Tribune in commenting on the present price of wheat said: "The dollar mark was reached two weeks ago and since that time the price has been continually advancing, scoring from a half to a point a cent with each sale. Good No. 2 red winter wheat is scarce and wild, who buy in the local market are expecting to pay even higher prices, unless receipts become heavier. While our wheat is now considered a high price, it is not even in the neighborhood of the highest price what has sold in this market. Superintendent Murray of the Chamber of Commerce, yesterday looked up the records covering the fifty nine years to 1844, and found record price was reached May 1867, when choice white wheat sold at \$3.75 per bushel and No. 1 red at \$3.50 a bushel. On that day gold was at a premium of thirty-seven cents, making the price of wheat for the choice white approximately \$5.74 a bushel in gold. A Simpson county farmer boasts of a sow that has given birth to four litters of pigs within two years—forty-eight in all. He has received \$240 for the produce of this one sow in that time, and claims it to be a record breaker. The Winchester Democrat reports the following sales: Four short yearling steers \$17 each, 1 milch cow \$35, 2 dry cows \$45 and \$20 each, 3 small pigs, to farrow in April \$3.75 to \$5.75, a good mare \$110.

TRAGEDY AVERTED.

"Just in the nick of time our little boy was saved!" writes Mrs. W. W. Wain, of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in beside. Doctors treated him but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well! Every body ought to know, its the only sure cure for Coughs and Colds and all Lung diseases. Guaranteed by all Druggists. Price 50c and \$1.00. Trial bottles free.

HON. D. L. MOORE. Of more credit is considered for the country. A reference to Booker Washington dining at the White House brought responses from several members on the Republican side.

Senator Hendricks has kicked over the heels and doesn't pull with the administration. He has traveled to Pennsylvania and declares that the people are deeply moved and that the people are deeply moved and that the people are deeply moved.

Why should not the Porto Ricans have either the statehood or the independence which they demand. They enjoyed under despotic Spanish rule.

The anti-positivist grafters in Washington have been convicted and sentenced to State prison. This is highly satisfactory but it casts the shadow of dark suspicion that there are several other bureaus in Washington in exactly the same state.

Continued peace and harmony have broken out again in the Philippines and a force of three thousand United States troops is being sent by Gen. Wood's machine guns.

The President says he doesn't want office holders to be made delegates to the Republican National Convention who are out in office.

At the election in Cuba last Sunday the Liberals gained several members of Congress, giving them a two-thirds majority.

At the election in London Wednesday it decided to call a primary for August 20 to nominate a candidate for Congress from the Eleventh district.

A person writes to us to inquire if Russia has good right to China as England has to India. Not at all, England committed the robbery long ago that the crime was justified—perhaps even sanctified.

DEX JOH WHEELER says that either Jack Russell will come out ahead. And he calls on every body to remember the prediction.

POLITICS AND POLITICIANS The President signed the Proclamation putting the Panama Canal treaty into effect.

The lower house of the Missouri Legislature voted down a resolution to invite W. Bryan to address the Legislature.

The Seventh District Democratic Committee at Frankfort called a delegate convention to meet at Lexington, May 12 to nominate a candidate to succeed Congressman South Trimble in Congress.

Representative Gilbert of Kentucky delivered a speech of more than an hour's duration in the House in which he arraigned the Republican party severely for its failure to carry out its pledges to the country.

Uncle Henry says "It is a poor way to see money get it spend it in bigger boys."

Doctor—Well, Rastus, sick, are you? Rastus—Yes sah, ah's mouty (pointing to his mouth).

Doctor—Let's see your tongue—foul, very much speckled. Rastus (aside)—Howfin de name of goodness did dat man know ah's stole dat damn' hon' les' night?

What is the best thing one can take for a cold? asked the Mr. Auburn man. "Don't know," answered the Norwood philosopher.

Teacher—Now, Johnny, tell me some of the uses to which telephones are applied. Johnny—Dev comes in mighty handy when one guy wants to see another guy without danger of getting a tickle.

Smith—Young Green is suffering from an athletic stroke. Jones—You mean a paralytic stroke, don't you? Smith—Oh, either is proper, I suppose. He was struck by a professional boxer.

"Who lives in that big house on the corner, Dennis?" "The widdy O'Driley, sor, is dead."

"Indeed, when did she die?" "If she had lived until next Sunday she would have been dead a year."

Said a modest young man from Watessing. Who insisted on turkey with dressing—"I may be a brute, but to serve the bird made Would to me be intensely distressing."

"Chills and fever must be a disagreeable disease." "I dunno, stanger. You see in the summer we has chills part of the time, and that keeps us cool, and in this weather we has fever part of the time, and that keeps us warm."

Nell—He has been very attentive to me, and last night he tried to kiss me. Belle—Well, it's all right to be attentive, but that was overdoing it. Nell—Oh, no, he wouldn't. He only succeeded in kissing me on the chin.

"And was the Money-titled wedding success, judged from the latest standards?" "Yes, indeed. It is seventy-five dollars to keep a man from turning down the exterior decorations as souvenirs."

"That's only a second-hand trunk. I don't see why you charge so much for it."

"This," remarked the medical student, as the echo of the branding-house gong resounded through the corridors, "is where we get our boys and sines."

"I would like to know," said the parent, who had a son in the text of some other education. "What is the concert your college?" "The usual half-mile course of cankers, and all that sort of thing, you know."

Mrs. Epeuck—Do you believe that nonsense about there being a man in the moon? Epeuck—No, but I believe there is a woman in the sun, all right.

Providence Made That Coal Will Be Supplanted in Time—Question of Damper a Most Serious One.

The new British battleship fleet and the fleet of the United States are to be fitted for storage of oil as fuel in large quantities. The announcement has raised a question whether coal firing will not be altogether obsolete in the three latest additions to the King Edward VII. class of battleships.

MARK HILL, N. C., Feb. 23, 1904. Dear Editor: I am glad of this opportunity to express my feelings to you and my friends of Rockcastle concerning my native State.

I was seated at a window at the residence of my father, S. B. Edwards, where I can look out on the hills and bottoms which vividly recall to me my mind many recollections of childhood joy and laborious toils.

I have been gone from N. C. eleven years and to my surprise many of my closest friends had not time many changes that have taken place since I left the country. For instance, the farmers have torn down their old buildings and have built greater ones, and these steep hill sides, that were worn out and so many deep gullies had been formed by the water which was on it.

On my rounds I met a sad spectacle, which occurred at Holcombe, N. C., Feb. 27, 1904. Tom Kesterson, a painter, committed suicide after an attempt to kill the whole family. As we live it, Sol Hensley and Lige Kesterson, who were married against her father's will but on returning home he invited the newly married couple to come back home.

Mules are high and good demand. Corn is scarce so cents per bushel. Wheat at \$1.10. The new crop of wheat can hardly be seen, in fact, in many localities it has entirely disappeared.

I will leave for my Kentucky home on the 7th. My best wishes for the SIGNAL and its readers. I will close. H. G. HOWARD

PROVERBS

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion. It is like the penny in the milk because it works and because there is something astonishing about it.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment. We will send you the remedy, 2 1/2, a sample free.

1904 The World's Fair Line 1904. SHE MUST HAVE BEEN A KENTUCKIAN. "Where are you going, my pretty maid?"

"To the World's Fair at St. Louis," she said. "Over what line will you travel, my dear?" said he.

"Over the Henderson Route, of course," said she. "Why over that road?" you gently said.

"For free Reclining Chair Cars," she said. "And where does this Palace of Travel" said he.

YOUNG SCUNDLING'S EXPERIENCE

The fact is not probable that young Scundling ever gambled in his life before unless, perhaps, at school he played marbles for pennies. He was a well-conducted and industrious boy, and punctual in his attendance at the university. His salary was modest, but the conservatism of this made him carry his natural modesty to an extreme, and he tried within his means and even put a little aside for a rainy day. That was Scundling.

It is here that came about that Scundling, the out-of-town orler clerk, had come into possession of a one-third ticket of the Honduras Lottery government by the Honduras government. He had invested five dollars in this security, but as it was wearing the end of the week and his money went at a low rate he proposed to make up a pool of eight among his fellow employees, which would bring him in 25 cents for each of the 20 tickets, a total of \$5.00. He had the firm admitted to it.

"Of course," he wouldn't mind if he had the firm admitted to it, but he didn't want to be seen to do so. He had a plan, and it seemed to him that he could do it. He had a plan, and it seemed to him that he could do it. He had a plan, and it seemed to him that he could do it.

HIGGINS THE WRONG MAN

It is unlikely that young Mr. J. Q. Higgins will ever get a big haul of bills along with his again. He has been a victim of a swindle, and he has been a victim of a swindle. He has been a victim of a swindle, and he has been a victim of a swindle. He has been a victim of a swindle, and he has been a victim of a swindle.

WILLIAM M. OSBORNE

"Mr. Member?" went on the judge. "This man says he was at your house on the 27th of last year, and that he saw you for an hour, beginning at 10 o'clock that night."

"I haven't got on a large part of that," the judge said. "He has been a victim of a swindle, and he has been a victim of a swindle. He has been a victim of a swindle, and he has been a victim of a swindle. He has been a victim of a swindle, and he has been a victim of a swindle."

HAPPY HEALTHY CHILDREN

Any child can take little pills. Mothers with peevish children are harassed, never give or sickened and yet they are so certain in result that robust constitutions, unobscured dramatic, and they are disappointed. They cannot fail to perform their mission, and every one who sees Dr. Williams' Little Pills, they are sure to buy them.

IT SAVED HIS LEG

P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg, but after taking Dr. Williams' Little Pills, he was cured. He was cured, and he was cured. He was cured, and he was cured. He was cured, and he was cured.

TO PAY BICYCLE TAX 50 YEARS

Reference of Paris Law Means Light an Annual State of Affairs for Owners.

Enforcing the law regarding the taxation of bicycles in France has led to some curious cases. It was reported that a man who registers a bicycle he is given a plate proving that the policy tax was paid. The officer went around to a man who had a bicycle, and he had a bicycle. He had a bicycle, and he had a bicycle. He had a bicycle, and he had a bicycle.

FRENCH LICK and WEST BADEN SPRINGS

In the highlands of Indiana—a two hours ride from Louisville there flow wonderful healing waters, that you'd spend hundreds of dollars to enjoy if they were in Europe.

A recent visitor from Philadelphia, who's been to both Carlsbad every year, said: "I do not see why any one goes to Europe for medicinal waters. The water is as beneficial, and the scenery and surrounding country, the air and the opportunity for recreation are better; the hotels and all accommodations are much finer at French Lick-West Baden Springs than at the gentleman is a native of Switzerland."
