WILLIAMSBURG.

It is reported that another new bank will be established here in the near future.

Dr. J. W. McGarvey, of Lexington, will preach at the Christian church here next Sunday.

Last Friday a three-year-old child of Mr. and Mrs. Ben Taylor climbed up to the mantle and took a slip of sulphuric acid from a bottle it found there; then told its mother that it had taken a dose of medicine, but it never spoke afterwards and died the next day in great agony.

Last Saturday the Republicans of this county held mass meetings in every voting precinct to elect precinct chairman. A hot contest was waged in most of the precincts and was freely said to be really a Hunter and Edwards contest. It is said that a great deal of money was sent here from London.

B. F. Steely and Geo. W. Parker, who have been attending a medical school in Louisville, are now at home for the spring and summer. There are about twenty young men of this county who are studying either medicine or dentistry.

So there will be no deficit in having teeth and graves filled on short notice.

About ten o'clock Monday night the depot at this place burned with nearly all its contents. A few things in the express office were saved. The origin of the fire is a mystery, as it began on the back part of the freight room where there was no stove, but it is believed that some one had dropped a live cigar stub or cigarette.

Nellie, aged five, had her photo graph taken recently. And when the photo was sent home, her mother said she looked too solemn, and asked why she did not smile.

"I did smile, mamma," said Nellie, "but I guess the man forgot to put it down."

There is more CATARRH in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a hopeless and incurable disease, and by constantly failing to cure with local treatments, pronounced it incurable. Science has now discovered a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only remedial cure for any case it falls under. One hundred bottles for \$10.00. Sold by all Druggists, Grocers, and Hall's Family Pills are the best.

LEVEL GREEN

Much fruit is estimated to be the peach crop which had promised to be so abundant, only now and then we get a crop, but apples are the best outlook.

Well, I see "Thorne County" is dead, and all such should die in the shell, and "Beckham county" should be relegated to the shades of "eternal silence" by the Supreme Court. Such empty honors cost too much. Our law-makers too often "strin out the gnats and swallow whole camels," in order to pile up figures in some one's more desecrating than hundreds of others who are never thought about all but taxpaying. It indeed makes much difference as to whose "fox is gored" and whose "hoss cuts at the public crib." This largely reminds me of an eccentric uncle I once had. "Trend called on him at midnight. He lived in town and finding him alone said: "Where is your wife, uncle Billy?" "She has gone down to the church where preachers and everybody else have to meet to pray for the President. Congress and other rulers and big men of earth, but never a d—nt word will they pray for a poor old fellow like me!"

Although we are professed Christians, principals, in Kentucky, yet lots of Phariseism remains in the world yet.

It does seem that is our party is not badly gone disorganized in national issues that such men as Watterpu, Ryan, John Whelan and others will soon fix it. Now if the newspapers and the "big men" of our party will "shut up" until after the St. Louis convention is over, and let the "great common people" nominate a candidate, harmony will prevail throughout and we will nominate and elect a good man and well-liked one as our champion. If we could only get out a large number of candidates for Congress in 10 of the 11 districts at an early day this would help mightily also in the way of harmony. Ain't the republicans having a big time in the West with one exception? Politely for Parker, Edwards and White to shake down the simmons and then he'll step in, pick it up and quietly tote it off. Three of these will run the race to a finish, and the 4th will also run if it is thought and believed that his candidacy will help. Hunger—just wait and note my prediction. Why sir, you had as well try to stop the waves of the deep blue sea as to try to beat Gummy. He'll get the nomination. Didn't John D. Bust a big bomb in the camp at Somerset tho? Flag in more, Johnny.

We are indeed pleased to see a bulletin from the pen of the chamber brilliant writer from Crab Orchard. We hope he will contribute regularly for we spent many pleasant days in that little city, and formed many acquaintances of whom we love to think and hear, and especially among the children; but many of those whom I knew and loved to be with, yet many indeed both old and young, in the short space of four years have crossed the dark threshold. How sad it makes me feel to think this over.

But death has done a powerful work in this part since then also. There is but one man living near us who was born here that has lived on the allotted "three score and ten." How fast the population of our cemeteries does increase.

We should also remember that "but one thing is necessary and that Mary chose the better part."

Very respectfully,
BUCK VARNOR

April was named from ARREAR (the open) the seasons when buds open and waters into life, all that makes the world beautiful.

JOHN D. CARROLL, JUDGE OF THIS DISTRICT.

A CANDIDATE FOR APPELLATE.

Hon. John D. Carroll, of New Castle, one of the best known lawyers in the State, has announced as a candidate for Appellate Judge in this District. Subject to the action of the Democratic party, Mr. Carroll's friends—especially in the legal profession—have for a long time desired to see him on the bench of the highest court in the State. He has laid several offices of trust and honor, and in all of them acquitted himself with credit. When quite young he served two terms in the Legislature; was a member of the Constitutional Convention, and one of the three commissioners appointed by the Governor to revise the statute laws of the State to conform to the changes made by the constitution, and was for three years chairman of the Democratic State Central Committee. He is the editor of Carroll's Kentucky Codes of Practice, and Carroll's Kentucky Statutes, law books that are in general use and that may be found in the office of every lawyer in the State. A man of high integrity, great industry, with an extensive and accurate knowledge of the law, and in the prime of life, his large circle of friends believe he would make a splendid judge.

A GREAT SENSATION.

There was a big sensation in Louisville, Indiana, when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured infernal agony from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of consumption, pneumonia, bronchitis and grip, are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed with all druggists. Trial bottles free.

Quite a High Priced Man.

"I'll give you a position as clerk, to start with," said the merchant "and pay you what you are worth. Is that satisfactory?"

"Oh! perfectly," replied the college graduate, "but—er—do you make the firm, can afford it?"

MAKES A CLEAN SWEEP.

There's nothing like doing a thing thoroughly. Of all the Salves you ever heard of, DeWitt's Anus Salve is the best. It stops itching, cures hemorrhoids, piles, and all other ailments of the rectum. It's only one of the many wonderful cures that DeWitt's Anus Salve is the best.

THE BEST FAMILY SALVE.

DeWitt's Family Salve gives instant relief from burns; cuts; eruptions; sores; eczema; teeter and eruptions of the skin. In buying DeWitt's Family Salve it is only necessary to see that you get the genuine DeWitt's and a cure is certain. There are many cheap counterfeits on the market, all of which are worthless, and quite a few are dangerous, while DeWitt's Family Salve is perfectly harmless and safe. Sold by Chem. C. Davis.

QUAIL

J. L. Davis is improving Quails from his butt received some weeks ago.

John Cross was in this section last week hunting quail and purchased two of Tart Proctor.

The storm of Friday night blew the roof from Lee & Broughton's sawmill together with the "smoke stack."

Corn is worth \$3.00, in this part; hogs from \$3.00 to 4.00, and plenty for sale; cattle low, several to sell and few buyers.

G. W. Owens sold a mare at \$45—Lee Morris sold a horse to Larcus Hicks for \$30.—Wm. Dowell sold to George Hicks a 10-lb. hog at 35c cents.

Winifred Sweeney arrived Monday from Indiana. We expect to have more to tell about him next week, as he has been expected in our section for some time.

Gillis Craig is numbered with the sick.—T. C. Hamm is in the sick list.—Mrs. John Craig is unprovingly sick.—Mrs. G. W. Brown is now reported very low.—Mr. Willis Sowler continues to grow weak. This report shows a great deal of sickness in the vicinity of Quail.

John Stringer, Jr. and Elmer Logsdon, both about 10 years old, left their homes a few days ago and went into the mountains. Young Stringer has returned but Logsdon has not made his appearance up to this time. We think the boys would do well to settle down at home and cease running about for a while at least.

Well, we see there is to be a very hard examination this year and that that be followed up in years to come together with the 6 months term, the common schools undoubtedly will be placed on a higher degree. All the schools of this section are under promise for the year, which, we think, is a wise act upon the part of the trustees, as they are relieved of the burden of being harassed by teachers and the teachers know just what to depend upon so you see its best for all.

Young Plants

Every farmer knows that some plants grow better than others. Soil may be the same and seed may seem the same and some plants are weak and others strong.

And that's the way with children. They are like young plants. Some food, some home, some care, but some grow big and strong while others stay small and weak.

Scott's Emulsion offers an easy way out of the difficulty. Child weakness often means starvation, not because of lack of food, but because the food does not feed.

Scott's Emulsion really feeds and gives the child growing strength.

Whatever the cause of weakness and failure to grow, Scott's Emulsion seems to find it and set the matter right.

Scott's Emulsion is made from the purest cod liver oil, and is the best food for children.

The prices of mules are holding up well and there seems to be a constant upward tendency in the markets, the prices ranging all the way from \$15 to \$175 for good ones. Owing to the demand from Russia and Japan and the additional demand growing out of the construction of the Panama canal by the United States, this would seem to be a fine time to raise mules for the market.

With the closing out of a line of 20,000 bushels of May wheat Wednesday, at Chicago, the Armon people brought to the market the most remarkable wheat deal on record. It is estimated the deal netted those interested between \$1,000,000 and \$5,000,000. Pres. J. J. Valentine, of the Armon, Kentucky, is authority for the statement that he and his partners cleared \$500,000 on his line. The deal had been on since last November when the prices of May and July were in the 70's. The price of May advanced to \$1.09 1/2, and the price of July to 93 1/2, an advance of 30 cents on May and 25 cents on July. It is estimated that the profits on the entire line of 20,000,000 bushels was about 20 cents. For a long time it seemed a permanent advance was impossible, but the bull power held on, and all at once came the report of scarcity, war in the East, increase and activity in the flour business and consequent speculation.

Mr. Sterling Court. The Advertiser says "About 9000 cattle are on the market. The quality with one or two exceptions was common. Trade was fairly brisk and there was a good many buyers here wanting cattle; but there was no stock to supply the demand. April court will likewise see a big demand for cattle and we think our friends in the mountains who have cattle to sell will do well to bring them here for sale on that day. The best 1,000-lb. cattle sold \$4.75, but they were good; lighter weight steers at \$3.75 to \$4; yearlings at \$3.75 to \$4; heifers at \$3.00 to \$3.50; fat cows at \$3 to \$3.50; bulls at \$2 to \$2.75. There is shade higher than last court. There was a few 36-head miles of good weight; owners were asking \$200 and buyers were offering \$175 to \$180; a few sold 175; hand-milked at \$125; small males at \$75 to \$100. A good many sold during the day.
