The word, Mr. Editor, "Marula" in the Q. and A. column for last week was "Koo-hog-or-die."

This style of writing is the one which the Bible was originally written in—no space between words, no capitals, no punctuation, no chapters or versification, just one long string of letters.

Did you ever notice what a difference in meaning in a whole sense just simply moving a comma would make? For instance: "I say unto thee, this day shalt thou be with me in Paradise."

But as I am no infidel nor like to teach scripture, I'll say the weather is clear and cool but no frost. At least one 4th of July without rain has past in this life of ours.

Corn chests, oats headed, well and will soon ripen. Farmers will round up their corn this week, then comes oats harvest, hay harvest and berry harvest.

The blackberry crop is nearly in days late but will yield well. One apple crop is short and rather inferior, plenty of peaches, a few plums and a beautiful crop of grapes.

Our Bible school at this place is in a flourishing condition, but it is not what it might be if parents would take a "big part."

le, O, how little is the Bible understood, and how less it is obeyed. The Institute, a something to put teachers together and, I can't tell what else it is good for, will soon convene at Rockcastle's capitol where a week will be spent in the exchange of ideas.

We understand that the debt lock in the convention at Shelbyville had to be adjourned lock and all. Not a four party boss will only give a primary (the only right fair way of selecting candidates)

There was a day back in the '90's when Middleboro was upon every lip; lots sold at six hundred dollars per front foot, and people were as anxious for them as a pickin' man for a slice of watermelon; when elegant mansions and modern business houses went up as if by magic.

But her old, dry bones have been shaken up; life has been breathed into her nostrils and her body again trained to active service.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fag into mental power.

A DELIGHTFUL TRIP.

ways of Pioneer immigration and during the civil war was recovered by many a brave and rugged army. Close to the Gap is a rocky reaching Pinnacle, and only a short distance away, is found the wonderful recesses of King Solomon's cave.

There is nothing so essential to the prosperity of any community as a first-class hotel. The founders of the "Stage City" fully realized this and erected a handsome inn of two rooms and called it "The Middle's Orough."

Flux is threatening this vicinity. Hog Cholera has made its appearance. W. B. Myers, of Pineville, is here on business. John Arthur, who has spent two months at the World's Fair, returned home Sunday.

BRUTALLY TORTURED. A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick, of Colton, Calif., writes: "For 15 years I endured insupportable pain from Rheumatism and nothing relieved me though I tried every thing known."

Hyden is now connected by telephone to other parts of the world.

It is reported that an oil drilling outfit has been shipped to Broadhead to work on a tract 3 miles out.

Berea now has a telephone line into McClure, Jackson county, which gives our people two gates into that place.

The Signal would be glad to hear from the former Rockcastle citizens who are living in other counties or States. Tell us when you are in the county and in what you are engaged at present.

Perks' mother's father, while here in Paris, was taken sick and was taken back to Berea where he is now in the hospital.

Dwight C. Campbell from Berea is in the city the wife of William C. Campbell has been in Berea for some years. She has been in Berea for some years. She has been in Berea for some years.

It is said the Standard Oil Co. is looking leases in this county. It is doubtful as to whether our people get anything out of it. The company's history shows up to the disadvantage of the citizens. It took 20 years before a drill is started if ever where lands are leased by said company.

The Crab Orchard Fair and Racing Association will hold its annual meeting, July 27, 28 and 29th 1904. Show Ring in the forenoon and Running Trotting and Pacing races in the afternoon. Many outside attractions. Reduced railroad rates.

R. H. BEANBUGH, Pres.
 W. D. WALLEN, Sec'y.
 July 8-31.

On Saturday July 30th 1904, competitive examination will be held in the office of Supt. G. M. Ballard, for scholarships to State College, Lexington. This county is entitled to two, to the college proper and four to the normal department. We urge upon the young people of the county, who are striving to get an education, to take advantage of this splendid opportunity.

Many persons from this section will visit St. Louis during the World's Fair, and one important matter is hotel accommodations. This paper can heartily recommend the American Hotel because it is the best located, gives the best services and charges the most reasonable rates of any in the World's Fair district. The American Hotel is situated immediately opposite the main entrance of the fair. The Olive street car line terminal is at the entrance to the hotel, while several cars within fifty feet of the hotel. The Washburne street depot is within one minute walk of the American. Mr. David Leuber, the manager, is an experienced hotel man and every detail in the care of guests is admirably carried out under direction. This hotel is nearest to the Pike, and here is where you will spend your evenings. Winding up the day tired and ready for bed, you are right at your hotel without rush or scramble for crowded street cars. The rates are most reasonable—on the European plan \$1.00 or each person per day; while on the American rate, \$1.00 per day, including two excellent meals. We give this hotel information for the benefit of our patrons. It is certain that there will be no exception if you stop at the American Hotel.
