The National Democratic Committee has issued a very interesting address, correcting the many misrepresentations of the republicans and giving the greatest encouragement to party followers everywhere. After a careful poll of the National States, they are enabled to predict the election of Parker and Davis, the drift of the independent vote being toward the democracy.

The democrats of Greater New York look upon the outcome of the registration as favorable, in spite of the highhanded methods of the Mill machine.

OUR POLITICS AND POLITICIANS.

Bryan's Indiana tour was a great success. It is believed he found silver men are now all in line. Bryan made six speeches in eight days, and it is estimated that 25,000 people heard him.

Democratic leaders assert that documentary evidence has been secured in Panama that the Roosevelt Administration paid in secret to former President Marroquin, of Columbia, the sum of \$250,000 as a bribe to secure his assistance in fomenting the revolution in Panama.

OUR POLITICS AND POLITICIANS.

'Young' Davis is a happy appellant for the Democratic nominee for Vice President. He is standing the rigors of a strenuous campaign without a strain, giving those of his party thirty years his junior all they can do to keep pace with him.

OUR POLITICS AND POLITICIANS.

'I have a brain in my hand which has given him a constitution of iron. With perfect physical health he has a brain equipment that makes him master over enterprises of great moment, his executive ability being one of his strongest characteristics.' The country would be fortunate indeed to have so sane and sound a man as President-elect.

OUR POLITICS AND POLITICIANS.

'Democratic prospects are very bright in the Hoosier State,' said the Senator. 'I think Mr. Bryan did more good in his whirlwind

This morning I saw Mr. Taggart and Mr. Primm at the State headquarters in Indianapolis and both registered unbounded confidence, not only in Indiana but in the rest of the country going Democratic and electing Parker and Davis.'

OUR POLITICS AND POLITICIANS.

'What have you found to be the most effective arguments on the stump this year?' he was asked. 'The increased cost of living and the extravagance of the National Government. The people are beginning to realize that they are paying from 20 to 30 per cent more for the necessities of life and are getting no more money for their labor.'—(Monday's Cincinnati Enquirer)

Skages—Will Port Arthur fall this year?
Jiggs—Oh, spring something new.

OUR POLITICS AND POLITICIANS.

Native—Oh, yes we have a good one. It's called the 'Dynamite Club' and it's the best you ever saw. It's a bar of iron.

OUR POLITICS AND POLITICIANS.

A New York manager looking for chorus girls employ six Gethsemani girls whom he found on Ellis Island. "And they're cutters," he said. "Possibly he intends to introduce them in a bottling works scene."

OUR POLITICS AND POLITICIANS.

Also another chance for the correction of that good old ad about most chorus girls being 'no workers.'
Reminiscent:—

The wood I chopped, the chores I did,
In days of long ago.

Twas then I labored in the sun
To reap the golden wheat
Twas then I drove the cattle home
Through twilight glow and sweet
I see again the upturned earth,
The furrows of the plough—
I love to think and thank my star,
I needn't do it now.

OUR POLITICS AND POLITICIANS.

Prof. Bell had a strenuous time over his invention of the telephone. He took the first working model of his instrument to John A. Logan and offered him a half interest for \$2,500, saying that it would pay for itself in a year. Logan replied: "I dare say your machine works perfectly, but who would want to talk through such things as that, anyway? I advise you to save your money, young man." Bell then offered him a tenth interest for an examiner in the patent office for \$100 in cash. It was refused. That tenth interest was worth \$1,500,000 in fifteen years.

OUR POLITICS AND POLITICIANS.

'What "Foreign Devil" Means—' It must not be supposed that the term "foreign devil," which the Chinese apply to their visitors from Europe and elsewhere, is necessarily a term of contempt. 'By devil' is meant a strange being, for to most of the inland Chinese, a European is as mysterious a creature as an inhabitant of Mars would be to us.'

OUR POLITICS AND POLITICIANS.

So says a resident of Shanghai, and gives the following illustration of his assertions: 'The more inferior parts of China, when I have shown myself friendly to the natives, they referred to me as the "worshipful devil," the "benevolent devil," and so forth.' "They look on Europeans as a kind of wild men of inferior mental powers. In some districts, indeed they regard foreigners as persons of weak intellect, to be treated as we should treat children. Sometimes foreign travelers have been astonished by the Chinese taking hold of them, stroking and caressing them as though they were half-bred animals, and addressing them in the manner that we should adopt toward a dog, or some other creature, which we desired to conciliate and be on good terms with."

Lee Tate, an old Lancaster boy well remembered by our people, is a candidate for county clerk, of Rockcastle. Lee moved to that county some years ago, and has been quite prominent in political and business circles. His Lancaster friends hope he will win a fair walk.—Central Record.

Judge Jarvis has called a special term of court for December. It will begin the first Monday in December and continue three weeks. The entire time will be devoted to civil work and it is doubtful whether they will be able to anything like a case docket, as has there-butly been a civil suit tried in the last few years.

Every few days, someone informs us that some friend or relative, told them to tell us that if they owed anything to let them know and they would pay it. To those who are kind enough to deliver themselves, we are always very thankful, but to those sending it we would suggest that it is always better to communicate direct to the office, oftentimes preventing mistakes thereby.

Mrs. James Adams died yesterday morning. For nearly twenty years Mrs. Adams has been in very poor health, but had been confined to her bed only since Friday. The husband and four children, Mrs. Charley Simpson, Charley and Abe Adams of this county and Tommy Adams, Georgiana, Ana, survive her. The burial will take place to-day at the home beside her son, Dudley, who preceded her only a few months.

John Smith, son-in-law of David Hysinger, died Wednesday night of erysipelas and pneumonia fever. His death came as quite a surprise, as but few outside of his immediate family even knew that he was sick. It was only last Saturday that he was in town and called at the drug store for medicine for his leg which he thought was due to a deep cold. Mr. Smith was formerly of Tennessee, and was a splendid citizen. His remains were laid to rest in the Mareburg burying ground.

An Education in Display of the Department of Agriculture at the World's Fair.

In the United States Government building at the World's Fair, the department of agriculture occupies a full vista of the mammoth floor space. This is in fair proportion to the importance of the industry on which the real wealth of the nation depends. For it is from the soil, from the fields and the forests, that we derive our food, our clothing, our shelter, our fuel, our raw materials, and our means of transportation. These of experimental stations and for the constant service of a small army of experts in every department of research that has bearing on the land and its possibilities. These efforts are focused, so to speak, at the World's Fair in St. Louis, where a magnificent demonstration of what the department is accomplishing is being made. The fair, under the leadership of the stock raiser, the farmer, the fruit grower, and all who derive their livelihood from the soil. If there are remedies to be found, we must be to be learned, and the experience of other nations to be drawn upon, here is the place to come to get our knowledge.

One of the chief methods adopted to facilitate trials established by the fair is the extensive use of photographs. The inventor is invited to look on this picture and on that. In this show case, for example, are apples of a particular kind grown on sandy soil, and are merely illustrative examples of the constant service of a small army of experts in every department of research that has bearing on the land and its possibilities.

Indigestion Causes Catarrh of the Stomach

For many years it has been supposed that Catarrh of the Stomach causes indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. The mucous membrane lining the stomach and exposing the nerves of the stomach, thus causes the fluids to secrete mucus instead of the juices of natural digestion. This is the cause of indigestion.

Kodi Dyspepsia Cure

Indigestion is the most common trouble men and women are afflicted with. It causes nervousness, loss of sleep, and a general feeling of weakness. It is caused by the stomach and liver being out of order. Kodi Dyspepsia Cure is a powerful medicine that cures indigestion, dyspepsia and all stomach troubles.
