Man's true worth is proven when two or three things are equal.

Wise is the woman who thinks large feet preferable to small, but understanding.

It is easier to love a poor girl than a rich one, because there is less competition.

When a girl accepts the hand of an aged suitor it is because there is something in it.

The unattractive woman and the efficient young man are more to be admired than the beautiful girl.

A girl may be both pretty and ignorant, but she is never ignorant of the fact that she's pretty.

If you are troubled with indigestion get a bottle of Kodol Dyspepsia Cure and see how quickly it will cure you. Geo. A. Thompson of Spencer, Pa. says: "I have had dyspepsia for twenty years. My case was almost hopeless. Kodol Dyspepsia Cure was recommended and I used a few bottles of it and it is the only thing that has relieved me. Would not be without it. Have lectured with local physicians and also at Chicago, and even went to Toronto with letters of getting samples, but Kodol Dyspepsia Cure is the only remedy that has done me any good, and I heartily recommend it. Every person suffering with indigestion or dyspepsia should use it." Sold by Mt. Vernon Drug Co.

"A fine thing," replied the owner. "There is nothing else for a lady to be found anywhere, and there is but one thing he's afraid of."

"He is awfully afraid," answered the conscientious owner, "that someone will say 'whoa' and he won't hear it."

The New York Times compares the attendance and finances of the St. Louis and Chicago fairs in the following editorial:

It seems that, in round numbers, the Chicago Fair cost its proprietor, about \$28,000,000 and took in, in admissions and concessions, about half of that amount.

The decision of the New York Court of Appeals declaring unconstitutional the state law which prohibits a contractor from employing his men more than eight hours a day on State or municipal work is far-reaching in its consequences and causes great excitement.

We are now told that Mrs. Chadwick, the Oberlin operator, cannot be convicted of forgery, because, although she signed Mrs. Carnegie's name to notes amounting to \$13,750,000 she did not negotiate them within the meaning of law.

POLITICS AND POLITICIANS

The Hunter-Edwards congressional contest will be taken up by the House this week.

Mrs. Lucy Cole was elected Assessor on the Republican ticket in the county.

It is said that Win. Henry Jones, Republican, who was beaten for Congress by J. M. Richardson, Democrat, in the Third District, and J. N. Kehoe, Democrat, who was beaten by Judge Bennett, Republican, in the Ninth District, will not contest the elections of the successful opponents.

A special dispatch from Norfolk, Va., to the Washington Post says that the leading republicans of Virginia and other southern states want John W. Yerkes in the cabinet as the south's representative.

The special says that no republican in the south is regarded as higher than the Kentuckian and the President could not make a better selection.

In pursuance of President Roosevelt's policy in opposition to Government employes banding together to secure increased salaries, J. C. Keller, president of the National Letter Carriers' Association, and Frank Cunningham, president of the Rural Carriers' Association, has been dismissed from office.

There are still some notes in the national subtreasury. The largest and most troublesome of these is the Treasury deficit. During the campaign the fact of a growing deficit was frequently pointed out, only to be turned down by the Republicans with a laugh.

Governor Boutwell, of Massachusetts, said in a speech last week: "If a vote could be taken Massachusetts would denounce the Philippine policy of McKinley and Roosevelt by a majority of three to one."

Whereupon the Boston Congressionalist remarks that "we ought to regret the policy of Mr. McKinley for he will be near the capital of God. Governor Boutwell should be careful."

Senator Hopkins, of Illinois, declared in a loud voice that "unless the Republicans revise the tariff now I do not see how they can afford to go into the next campaign and discuss it." Representative McCall of Massachusetts said about a hundred other Republicans of the present congress earnestly say "Amen." There's a heap of trouble ahead.

It is worthy of remark, in passing, that the three principal Republican newspapers of the United States, the New York Tribune, the Chicago Tribune and the Philadelphia Press, have all joined the tariff revision chorus and announce that if the party refuses to revise the tariff the people will revise the party.

The President is now very anxious to visit the Southern States, declaring that he has been "greatly misinformed." The whites and the blacks of North and South will watch with undisguised impatience to hear the new interpretation of it.

The Atlantic Journal earnestly advises him not to come.

The Signal does not do the fighting for its subscribers, a plenty of trouble of its own to look after. "Please discontinue my paper," was the response, we received this week, to a refusal to publish a scathing article, which one of our subscribers had written, relative to some parties who had mistreated him. To this, all we have to say is, we will fight our own battles and you must do the same.

To our list of prominent business and professional men there are many others we would have been glad to have added had we been able to secure a cut. Without a more complete representation of the splendid business men of Brodhead we feel very greatly the incompleteness of our efforts, for it is in this thriving town that Brodhead can look for some of its most enterprising and up-to-date business men.

Was buried in the Oak Hill cemetery in the presence of a large crowd of sorrowing friends and relatives Wednesday at 12 o'clock. Rev. A. J. Pike preached the funeral sermon from the text in Job; "If a man die shall he live again." Bro. Pike said in his sermon, that he had never preached the funeral of any man, whose life he could recommend as an epitome to be read and exemplified by men, that would surpass the life and characteristics found in the deceased. He was a warm hearted Christian and true husband and a loving father. He leaves a widow wife and one son. They both, with all the bereaved relatives, have the deep sympathy of us all. Their loss is Heaven's gain.

Mr. Preraud Hlatt, aged 70, Rockcastle's most beloved and respected citizens, who lived three miles East of Brodhead, passed quietly out of this life last Monday night. Was buried in the Oak Hill cemetery in the presence of a large crowd of sorrowing friends and relatives Wednesday at 12 o'clock. Rev. A. J. Pike preached the funeral sermon from the text in Job; "If a man die shall he live again." Bro. Pike said in his sermon, that he had never preached the funeral of any man, whose life he could recommend as an epitome to be read and exemplified by men, that would surpass the life and characteristics found in the deceased. He was a warm hearted Christian and true husband and a loving father. He leaves a widow wife and one son. They both, with all the bereaved relatives, have the deep sympathy of us all. Their loss is Heaven's gain.

As long as a man is of a forgiving disposition a woman doesn't care a rap whether he pays his debts or not.

Husband—When we were married you confessed entire faith in my veracity, but now you don't seem to believe a word I say.
Wife—Yes, but this is a progressive age, you know, and even a confession of faith needs to be revised occasionally.

A PLEASANT PILL.
No Pill is as pleasant and positive as DeWitt's Little Early Risers are so mild and effective that children, delicate ladies and weak people enjoy their cleansing effect while strong people say they are the best liver pill sold. Sold by M. Vernon Drug Co.

PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit. The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle, the Lime and Soda make bone and brain. It is the standard scientific food for delicate children.

LEVEL GREEN

"And the Lord sendeth his rain on the just and the unjust." Yes, just as he sends "day and night, cold and heat, winter and summer, seed time and harvest, but in no special way, tho' in a general way. The Lord constructed a great machine when he made the Heavens and the Earth; the working of that machine creates or brings about all these changes; day, night, cold, heat, rain, drought, winter, summer, long days, short ones and all those different phenomena; and as "the effectual fervent prayers of the righteous as fire," and "the fervent prayer for rain is not out of order and "if it does no good it will do no harm," but we will show our faith in Him by so doing who doeth all things well, at least.

Yes, it has rained and the clergy and other christians have been praying for it for the last few months. Now if the prayers of the people brought it or the Lord sent it in a special way, why did it not come sooner? Why not before so much suffering by both man and beast for water, before so much loss of property by fire and drought? The simple reason is, the machine had not arrived at the proper even in nature wheel but when it did it rained, and this is all there is in it or to it, or of it. Our Creator is God of order as well as of justice and mercy; we should remember this.

We have no notion of general interest, and the fact is our Grape Vine Telegraph don't care, and the two old ladies, "Gossip and Rumor," have been silent for a time. They used to keep us posted to a large extent on the doings and misdoings and going to does or the Holler, such as weddings, courtships, separations, divorces, quarrels, drinks, runaways, trades, &c. &c., but those old women have had marital fever all the fall and are therefore excusable. These old ladies air twin sisters and came into the world by birth or otherwise otherwise tho' I reckon just after Noy's flud and have but on hand ever since, and to save my life I can't tell whether which is smarter than to her, or rather it should be which. They air both well posted in current events in certain circles. I tell you.

Sam our well-informed Christian brethren raised a powerful stew and fret like a lowly boss in a kitchen, because the bruter and scoundrel have an organ in the church, so I set myself to work to dig out a divine rite or a "Thus saith the Lord" pro and con. I went to David, the sweet singer of Israel, a man after God's own heart, and in the last Sam and the 3rd verse thereof we read, ves, site au you live it's right that, "praise him with trumpet sound, and with Psalter's advance. With timbrel, harp, stringed instruments, with organs and the dance"—Chap 150, verse 3. Now what do you say, brethren? Is that am I? Oh, yes, but the say: "That that in the old Bible." Well, we'll admit it, be and you cot from that old Book every time it soaks your case, don't you? and the Saviour and the Apostles quoted from it at length, and I think it's a mighty good book yet, so I do, for it says, "Fear God and keep His commandments."—Can you beat that? Well, you know Ephraim (old Bible) was found to be 100 and I reckon we all have an idol, and some of us have a dozen or more. Yes, a friend shud' bear with a friend's infirmities, and not condemn and abuse him just simply because they can't read with the same speck. But I can't for the life of me, object to the use of an organ in the church, and then turn right around and begrudge its music and joining the song accompaniments elsewhere. Consistency, tho' art indeed a jewel. I wonder who said it? This is indeed a beautiful saying we use. We needn't look for a "Thus saith the Lord" for everything true or good that we hear but we are them up by consistency—common good sense and when they fill this star'd eye they will do to work by.

Well, slav and eat seem to be the general order since Roy Velt was elected President. Did you read his message to congress? Weren't it a hamper for legth?—Well, boys, whether his message is big, long or little long, I'll bet a corn skin tall and all that Rosy will be President, if he lives, for the next four years and not a Mark Hanna Lieutenant will reign.

Our sick—Jack Tewary is using a Cincinnati Dr.'s treatment and is

improving.—John M. Hoist threatens to be a stout of man some day—so mote it be.—Mrs. Goodenator still healthy.—W. J. Wallin will sell his personal effects on the 1st Inst near Wald, and with the rest of the family are here, including the grand mother, migrate to Jesse and those in Texas. Jesse is well pleased with Texas as a health resort.

Indigestion Causes Catarrh of the Stomach.
For many years it has been supposed that Catarrh of the Stomach causes Indigestion and Spasms, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membrane lining the stomach, and expose the nerves of the stomach, thus causing the spasms across the stomach and the juices of natural digestion. This is the real cause of the Stomach.

Kodol Dyspepsia Cure
Kodol Dyspepsia Cure is the mucous membrane lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.
