W. M. OWENS, Sparks Quarry.

At the annual election of the school board, of the Board of Mt. Vernon, the following were elected. President, C. C. Williams.

Vice-President, J. T. Adams; cashier, W. L. Richards, directors, A. T. Fish, Geo. Livesey, S. H. Martin, Rod Perry (Gallatin county) and J. E. Houk.

IMPORTANT DEAL.—U. G. Baker has purchased of Fritz Krueger the brick store room, which adjoins his property. This is a very important deal for Mt. Vernon, as the result of it will be a department store by Mr. Baker and the erection of another brick business house by Mr. Krueger. It is indeed worth much to a town, to have in it two such enterprising business men as these.

The sad accident of last Monday, in which Tommy Taylor lost his life, calls forth a statement, which should mean much to the parents of the younger boys and even some of the small girls. Hardly a day passes that some of the little boys do not jam across the track in front of the passenger trains and should they happen to fall in nine cases out of ten, would be killed before they could get out of the way.

KILLED.—Tommy Taylor, age 13, the boy who drove J. Fish's delivery wagon, was struck by a freight train at the crossing north of the depot Monday morning. The effect of which he died about midnight Monday night. It is a very dangerous crossing especially with a wagon, as the noise of the wagon will counteract that of the train and with trains coming from the south will train is cut off by reason of the hotel and section house until they are right on the crossings. Several persons saw the terrible accident and in the wagon with Tommy, was one of Rev. T. D. Mullins' little boys who saved himself only by jumping and by the fact the engine was nearly to the foot house, when they started over the track, which would be only a few feet away and while the engineer put on his air in the emergency and stopped as soon as it was possible, yet wagon, horse and driver had been hit some three or four times and knocked some fifty feet or twenty feet on the track. The wagon was completely demolished, the horse so bruised up that he will doubtless ever recover and the faithful driver bruised, mangled and unconscious, living only a few hours. Whether the boy saw the light and was trying to beat it, or was so frightened he failed to see the train until it was right on him is a question, but from what we have been able to gather, it seems that it was one of those sad accidents which often comes, almost inexplicably and for which no one is wholly to blame.

The Louisville & Nashville Railroad Company has begun the construction of steel bridges to replace the old wooden bridges on the Kentucky Central division of the line. It is estimated that the company will expend \$2,000,000 in improvements of the Kentucky Central division this year, in cutting out the curves and straightening the track. During the last six months of last year the company had heavy steel trais laid on this line of the track and this work is being continued on through to Knoxville. There is a line of road now tramped out of Knoxville to Atlanta, and when it is completed the company will have a direct line from Cincinnati to Florida.—Register.

The following from one of our exchanges, we trust will be read several times by many of our subscribers: "There never was a paper in any locality that gave all the news. Persons often come and go that the reporter does not see. It often happens that a family is missed several times. They get the impression that the paper does not care to mention them, it is a mistake. The paper has no ill feeling, nor spite nor enmity against any body. Do not be afraid to give any leads of interest. Perhaps you think the paper shows partiality, but try and see if it doesn't treat you well if given a chance. If you don't see us to tell us of any happenings or news item at your home, use the telephone or drop it in the postoffice, but don't fail to give your name so there will be no mistake about it."

COLLEGE NEWS.

The Institute has enrolled thirty pupils, as of September. Seventy-three of these have been in attendance this week. As there were but seventeen enrolled Sept. 19, the outlook is hopeful.

The readiness with which the new students have fallen into line and their evident desire to make the most of their time is a source of satisfaction to the faculty. It is to be regretted that there is so little money with which to help worthy students who are willing to earn their way through. Miss Taylor, during the holidays, after taking all the "for aitory" would accommodate, was obliged to refuse work to thirteen boys and girls.

Ret. (Pastor) is a new member of the faculty. He is also Pastor of the Presbyterian church, and will hold services there and at 4th Sunday of each month.

Tuesday morning we had a not interesting talk on China by Mr. Marshall, of Livingston, who was eight years a missionary in that country.
