

LA GRIPE - PNEUMONIA

So many people who have apparently recovered from an attack of La Grippe are stricken with Pneumonia. This is due to the fact that the Bronchial Tubes and Lungs are left weakened and unable to resist disease.

FOLEY'S HONEY AND TAR

not only cures La Grippe Coughs, and prevents Pneumonia, but strengthens the Lungs so they will not be susceptible to the development of serious lung troubles. Do not take chances with some unknown preparation that may contain some harmful drug when FOLEY'S HONEY AND TAR costs you no more and is safe and sure. Contains no opiates.

I had a bad case of La Grippe about ten years ago which left my Lungs so weak that I have troubled more or less every winter since I used FOLEY'S HONEY AND TAR, which cured me completely and I have had no longer trouble since. B. W. CRITCH, 415 E. 12th St., Chicago.

G. VACHER, 157 Ogden St., Chicago, says: "My wife had a very severe case of La Grippe, and I left her with a very bad cough. She tried a bottle of FOLEY'S HONEY AND TAR and it gave immediate relief."

CONGRESS BEGINS

Assembling of Members of Their First Session Marked by No Unusual Incidents.

CROWDS OF SPECTATORS PRESENT

House was in Session Over Three Hours and a Large Number of Bills Were Introduced.

A Noticeable Feature of the Opening Was Absence of Flowers, which Heretofore Has Been Common in Both Chambers.

Washington, Dec. 5.—The assembling of the fifty-ninth congress for their first session was marked by no unusual incidents, but it attracted the capitol crowds of spectators, who took a lively interest in the proceedings. In the senate the proceedings were brief. The house was in session for more than three hours, and while the proceedings followed the program that has marked the opening of congress for many years, there was enough of interest to attract an exceptionally large audience during the entire time.

A large number of bills and joint resolutions were introduced in the house. They cover a large variety of subjects, including Philippine tariff, statehood, pensions, regulations of the hours of employment in the executive branch, increasing the number of members of the cabinet, providing for the increase of salaries of vice president and members of the cabinet, providing for the increase of salaries of the executive branch, increasing the powers of the interstate commerce commission, investigating of canal funds, of official expenditures on the Panama canal, of insurance companies doing an interstate business, of cotton reports, and of the conditions of child labor; provision for a six-year term for the president and the election of senators by a direct vote of the people.

Senators Allison and Morgan were appointed by Vice President Fairbanks as a committee to notify the president that congress was ready for any communication he desired to make. The senate was in session only 20 minutes. Senator Aldrich (R., Conn.), Wagner (Mo.), and Pranger (Iowa), took the oath of office and an address was made by the speaker in respect to the late Senator Platt of Connecticut.

The preliminary steps to organization were taken by the house. Joseph C. Cannon, of Illinois, was the elected speaker. All members of the house took the oath of office. Officers and members of the body were sworn in. The rules of the house were adopted, and members were sworn through the formality of drawing for seats, all of which was conducted with the assistance of the clerks in the galleries, the salutation of the speaker of the house members and the speaker of the house. On opening days the display had been so great that this exhibition alone would have been sufficient to draw great crowds, and the absence of formal tributes, due to a resolution adopted immediately by the house, and to an order of the speaker in the house, robbed the occasion of much of its picturesque quality.

A committee was appointed to act with the senate in committee in notifying President Taft of the opening of congress, was ready to transact business. The rules committee and the committee on privileges were appointed. The house adjourned after a session which lasted three and a half hours, in compliance with resolution announced and the death of Senator Pitt (R.), and Representative March (Ill.).

Washington, Dec. 5.—Representative Williams, of Mississippi, the leader of the minority in the house, introduced a number of bills and resolutions affecting the tariff and campaign contributions.

The Case of Senator Smoot. Washington, Dec. 5.—Chairman Bryan of the senate committee on privileges and elections says that no action will be taken in the case of Senator Smoot of Utah, until the secretary of the committee is filed which will be over until after the holiday season.

House Makes a New Record. Washington, Dec. 5.—Records for introduction of bills were broken by the house. Two hundred and thirty-one bills were introduced.

PAPER IS TORN

COMMISSIONER'S RAVE FUND UNREASONABLE.

Judge Bethea's recent decision in the United States Circuit Court at Chicago, by which he dismissed an order of the Interstate Commerce Commission to compel the railroads carrying the stock here in the Missouri river and Chicago to lower their rates, is of great interest not only to the cattle shippers but to all persons interested in the question. The judge found as fact that the rates in controversy are reasonable in themselves and were made as the result of competition between the twenty railroads interested. He also found that it costs more to carry live stock than dressed beef. It is estimated that the Commission had the power to enforce its order last January (as under the Bach-Turner bill it would have had), the loss to the railroads therefrom, their losses on live stock traffic at Chicago would have aggregated at least a million and a half dollars. This amount represents the difference between the rates now in effect charged by the railway companies which Judge Bethea held unreasonable, and the rates which they would have charged had the order of the Commission been in effect.

Baron (Hans), General Solicitor of the Chicago, Milwaukee & St. Paul Railway, who with Frank P. Kellogg, of the Chicago Great Western Company, tried the case before the Interstate Commerce Commission, says: "This case illustrates the injustice of a law which would compel the railway companies to sell with an order of the Commission reducing their rates, pending judicial review. There is no more reason or justice in having the order of the Commission subject to effect at once, pending appeal to the courts, than that the courts generally should be compelled to pay judgment against the railway companies on the basis of the condition of their rates, pending such judgments as may be made by appellate courts. (There does not appear to be any good reason for shippers should be placed in a more favorable position in the courts than other litigants.)"

Special attention is also being called to the fact that the rate decided by the Commission was unreasonable one; and the query is: "If the Commission's own rates are not reasonable rates how can it be trusted to decide whether the rates made by the railroads themselves are reasonable or not?" The general opinion among those interested that Judge Bethea's decision is the most "important" evidence yet seen of the insufficiency of putting more power into the hands of a body which seems not able to properly exercise the power it already has.

Mr. R. G. Chase, a mail carrier of Canton Center, Conn., who has been in the U. S. service for a few sixteen years, says: "We have tried many rough remedies for coughs and colds, giving certain amounts and leaving no bad after-effects. We are never without it in the house." For sale by Cass C. Davis the leading druggist.

The argument on the appeal of William R. Hearst, who is contesting New York's majority election was begun Tuesday in the appellate division of the Supreme Court.

A gentleman who was a Brodhead a few days ago writes: Uncle-Fallen Francisco is one of the well known gentlemen who is thoroughly posted as to Rockcastle's history and he frequently tells tales—all hardships subside that half of which the following is a fair sample. "When I lived on Sledge's Creek some years ago," said Mr. Francisco, "my cows in dry time would wade out and stand in water almost deep enough to swim them. Sometimes after doing so they would give but little milk and I did not know how to account for it. One evening I got in my skiff and rowed out into the deep water with my arms tied behind my back to drive my cows out of the river, and when I reached the banks the skiff was full of big fish of the sucker variety. My cows gave but little milk that night and when I scalded the fish and was preparing them for the skiff I found that each of the big suckers was full up on milk having pulled out cows the same time. I lived 223 long the banks of the river sometimes after that when the cows went into the water and it was very amusing to me to see the suckers, after getting taste of milk from the cows, put their round mouths up to the surface of the water, as if to draw a long breath, and then smack their lips about as loud as a Fryer's Pan in a kitchen. I was just about the time he was 16, and on the morning following the evening that he had delivered a fine and pretty girl and called the lad Oscar. He was working on a farm. It is supposed that that was the

SHERIFF H. L. TATE.

Who passed into the great beyond Wednesday afternoon after three weeks serious illness. For many months Mr. Tate had been in very poor health, having had several severe attacks of stomach trouble, but it would only last a few days and he would go about his business again. About four weeks ago he was again attacked and on the day of the stroke when resting in bed, he died, and was buried in the county.

Eight years ago he began riding as deputy sheriff under Henry Catron and four years ago was elected sheriff.

Mr. Tate was fifty one years of age and 22 years ago was married to Miss Alice Wallin, a daughter of the late Frank Wallin. To this union were born three children, Victor, Miss Annie and Shirley. But few men could claim a greater number of friends than he and never did he forsake a friend. His kindness and liberality to all mankind has worked many a hardship on him. The remains were laid to rest yesterday afternoon in the Mt. Vernon cemetery, with Masonic honors, after services in the Christian church conducted by Rev. A. J. Pike, during which there were few dry eyes in the house.

To his heartbroken companions and children we extend our heartfelt sympathy in their hour of bereavement.

THE FIFTY-NINTH CONGRESS

AS SPUN BY OUR WASHINGTON CORRESPONDENT.

The Fifty-ninth Congress opened with the expectation of meetings that have marked recent sessions of this body, but with the prospect of being a more important meeting than that has preceded it for many years...

The Senate Committee has set its foot down on the custom of decorating members desks with flowers so the House was not turned into a conservatory as usual.

The Senate adjourned almost immediately after swearing in the new members as a mark of respect to the late Senator Platt of Connecticut. Thus the desks were cleared for business on the first day without any thing of untidily being done.

The war old-timers have it figured out as is Rate Legislation, the Panama Canal, the Philippines, the Santo Domingo Treaty and the Ship Subsidy Bill in the order named.

There will be a fierce fight for precedence. The Townsend rate bill which is the amended form of the Beck Townsend Bill is said to stand the best chance of consideration and is said to more clearly embody the ideas of the President than any other of the numerous bills.

Senator Elkins on the other side of the house has a bill and Senator Foraker is credited with another bill. Senator Newlands, of Nevada, has a plan, but it is too radical in its probability to get through the Senate let alone stand a chance of passing.

The amendment of the bill of the Interior and Commerce Commission sent to the Senate request when the rate having was on last May, and there are several other bills any one of which may come to the front in the present conflict.

POLITICS AND POLITICIANS

Republican Senators held a caucus Tuesday at Washington and authorized Senator Allison to select a steering committee.

H. E. Wolfok was elected mayor of Danville Tuesday night, after S. W. Wences, now of Illinois, had been elected and resigned.

Gov. LaFollette, of Wisconsin, in addressing the Legislature of his State Tuesday, announced that he would accept the United States Senatorship.

WHAT THE PRESIDENT WANTS Regulation of railway rates by a sovereign power. To keep the highways open to all on equal terms.

To abolish rebates. Uniform regulation of insurance. A stable revenue.

Economy of administration and appropriation. An efficient army and navy. To dig speedily the Panama Canal.

An elastic currency. War only when peace and righteousness are assailed. American ships for American trade.

The right kind of immigrants, and lots of them. To admit the four territories as two States.

To make citizens of the Porto Ricans. To give Alaska a delegate in Congress. To fortify Hawaii.

CONWAY

The cold snap reminds us of old winter time again. Rankin Alexander who has been in the wild West for years returned home Sunday.

The work on the spot mill is well at a stand still on account of the R. J. Company and the Roundstone Land Co., both claiming the lot on which it is being built.

J. E. Rooford of Richmond, has accepted a position with the Roundstone Land Co., here. He and his family will move into the Sigmon property.

The Thanksgiving entertainment given by Miss Maria Jones at the school house last week was very much enjoyed by the attendance.

Mr. J. M. Nave was so badly frightened that he missed his course and ran by home and was out in the woods and cold the remainder of the night.

Mr. Nave thinks the courts ought to take some steps for peace of Conway, but he is unable to advise where to begin to give the little village justice.
