The citizens of the town are beginning to inquire why the boards of trustees are not making some of the improvements on the streets. They have the money and the people want to see some results. Since the present board took control there has been but very little kicking, everybody paid their taxes so far as we know, and if they have not it is the duty of the marshal to see that they do pay, the stock was all taken off the streets without a murmur, and in fact, every order of the board has been obeyed and it is now time for the trustees to begin making a little showing. If something is not done in the way of improving the streets we believe the citizens are justifiable in entering a strong protest against the collection of taxes without any benefits. Winter will soon be here and the time for making improvements will be gone, and by next spring all the money will be spent for marshaling and paying of old claims, which are growing more numerous every hour in the day. A more business like administration is what the people want, what they have a right to demand and nothing less will satisfy them.

Bell Telephone Monopoly at Harrodsburg.

[From Harrodsburg, Democrat.]

The City Council says that nobody can have the telephone franchise but the East Tennessee monopoly.

The City Council says that it will not consider a bid coming from any other source!

The City Council says that the people must pay the E. T. its rates and pour \$2,700 a year extra money into its purse!

The City Council defies the will of the people and complies with every wish of the big corporation!

The City Council refuses to consider the bid of local capitalists, made to protect the people from exorbitant charges, and stands stubbornly for corporate power and corporate greed!

The City Council says it has had no deal or understanding with the E. T. Company, but—

It is willing to give it a practical monopoly at 40 per cent. more than the same service is offered, for, refuses to consider anyone else holds caucuses with its representatives, determines in advance and in secret what it will do for the corporation, turns a deaf ear to the demands and the appeals of the people, and—

The corporation without a franchise, in the face of the fact that it is a trespasser and another has purchased the right, proceeds to bring in carloads of poles and cross-arms, puts up new lines and distant instruments, defies the law and ignores popular right and finally prepares and flings at the Council for passage an outrageous and insulting contract with high rates and monopolistic provisions.

Such, in concrete form, is the situation in Harrodsburg. The City Council at its meeting Tuesday night, repudiated the purchase of the telephone franchise by Mr. F. P. James and other loyal capitalists and stood boldly for a monopoly of the East Tennessee Telephone Company and for the high rates demanded by it. How far it will go in yielding to the dictates of the big corporation remains to be seen.

Although it was a regular meeting of the City Council, the decision was made Tuesday morning at a secret caucus that the franchise sale would be "turned down" and that no meeting would be held that night. At least it was so given out on the streets. If the object was to mislead the people and keep them from attending the council meeting it failed. The people have learned that eternal vigilance is indeed the price of liberty hereabouts and they were at the council meeting good and strong. Mr. Hall, from Louisville, manager of the East Tennessee Telephone Company, was on hand, too, seeming to

have been kept better advised than the people here at home.

After the routine business was gone through with Mr. F. P. James brought to the attention of the Council the fact that he had purchased the telephone franchise at auction Monday, and exhibited his receipt for the purchase price paid to the City Treasurer, and offered his bond for the fulfillment of the contract. He suggested that if there were any objections or questions as to the value of the bond he would have names added to make it good for a quarter million dollars. Mayor Thompson said that there was no question as to the sufficiency of the bond or the responsibility or character of the purchasers.

Councilman F. P. McGarvey moved that the sale to Mr. James and his associates be approved. Although several times called for by the Mayor, there was no second to the motion. However, Councilman J. M. Board, Sr., took the floor to say that he was opposed to letting the franchise to the home people, asserting that "you ain't got nothing to sell."

Mr. McGarvey made a warm plea for his motion, saying that the Council had offered the franchise for sale, it had been bought in good faith by citizens amply able to carry out their contract and worthy of every consideration, and he could not conceive of how the Council could stultify itself by repudiating its own acts and turning down its home people.

Mr. McGarvey said that no deal could be made with the Company, that he had repeatedly tried to get them to do the fair thing by the people; that Mr. Hall had flatly refused to make any concessions; that the bid offered was not accepted or else a complete surrender be made to the corporation.

Immediately upon the announcement of the vote rejecting the bid, Manager Chatham offered for the E. T. Company an ordinance providing for the sale of the franchise for twenty years.

Mr. Chas. A. Hardin denounced the measure offered by the E. T. Company as an outrage upon the people and an insult to the intelligence and patriotism of the City Council. He spoke with great fervor and eloquence and appealed to the Councilmen to consider their own duty and honor and the welfare of the people, and to fling back the insult into the face of the grasping corporation. At the conclusion of his remarks there was a written storm of applause.

Mr. Hall practically admitted Mr. Hardin in sharp opposition to such a franchise. They will get satisfaction. They will find a means of protecting themselves. They are still hoping that the City Council will do them justice and give them a fair deal.

The gentlemen who have led the fight for a square deal and fair rates are not moved by any selfish motives. They are not engaged in engaging in the telephone business. They are simply desiring to protect the people. They have offered to give a present of the franchise purchase to Mr. Hall and his company if they will accept and carry out its provisions—parish phones at \$1 for residences and \$2 for business houses etc.—and to lose the money if it is not.

Mr. Hall has refused to make any concessions but on the contrary has tightened his grip and made more rigorous his demands. It is a fight for self-preservation.

is charging many people fifty percent more than the price allowed by franchise. In this connection it should be noted that no provision to protect the patronage in the county, either on price of service, is made. On the contrary, the Company reserves its arbitrary power to serve or not under the provision, "relative to the care of instruments, payments of rents, etc."

If the subscriber complains that he "cut out" at will under the rules "relative to care of instruments, payments of rents, etc." so on and so on.

Next follows the "maximum" rate of \$1.50 for private residence phones and \$2.50 for all others. This clause authorizes the Company to charge that rate, but allows the Company to fix any rate in any unusual case of competition from other company. It provides that the Company may establish pay stations within the city and force people to pay five cents per message, and limits the Council's power to regulate rates to eight percent profit on the Company's watered stock.

Then take a look at the provision which allows the Company to "cut out" any and all telephone service will for a term of three months, and twenty-nine days without forfeiting its franchise. The Council is powerless to forfeit the franchise of another company until four months' grace expired. The people who are afraid of losing telephone service should ponder this provision. We will have to be content with our telephone service may be cut out, though, and we left without connection with the outside world, even as Mr. Caldwell threatened to do a few weeks ago.

And then followed what some people have called a suggestion of bible to a community. In spite of the Constitution and statutory provisions against exclusive privileges, the Company offers to pay three percent to the city "so long as it is the only person, firm or corporation authorized to transact telephone business in Harrodsburg. But this is only on receipts of the local exchange. Is this an effort to get out the now existing telephone line? We believe the company pay the city a cent more than clause so long as the Home Company has a wire here and transacts telephone business in Harrodsburg. It is a serious and subtle proposition.

The people of Harrodsburg are unanimous (excepting the City Council) in their opposition to such a franchise. They will get satisfaction. They will find a means of protecting themselves. They are still hoping that the City Council will do them justice and give them a fair deal.

The gentlemen who have led the fight for a square deal and fair rates are not moved by any selfish motives. They are not engaged in engaging in the telephone business. ### LOCAL

AUCTIONEER—H. C. Jones has secured license as auctioneer for Rockcastle county and is ready to serve the people in that capacity at all times. Mr. Jones is a splendid auctioneer and always gives general satisfaction.

Don't fail to read the telephone news from Harrodsburg in this issue and see what the octopus does for the people whenever it once gets its tentacles fastened upon them, it never lets go until it is chopped loose by the axe of the writ of community.

Mr. William Gentry, a brother of Messrs. H. C. and George Gentry, died at his home in the southern part of the county Saturday night, after several weeks sickness. Mr. Gentry was a splendid citizen and a good man, and we regret very much to learn of his death.

President Roosevelt has declared for "simplified spelling" and will use it in all correspondence emanating from the White House.

He brushed the dust from his desk, picked up a telegraph blank, rapidly pushed his pencil over its surface, and addressed his message to the "Spelling Board," No. 1 Madison Ave., New York, which furnishes all documents and information free of charge.

The special term of Circuit Court begins next Monday and continues three weeks.

When the mercury was up to 90 in Louisville a few days since, registered 87 in Mt. Vernon.

An electric light plant will be put in at Sparks Quarry so as to enable the running of the plant day and night.

W. J. Sparks, contractor at tunnel No. 5, has finished excavating, which was begun Tuesday and will require about two months to finish.

Articles received at this office for publication, which do not bear the name of the contributor, will not be published. When desired the name will be omitted from the paper, but must be on the main script.

Some few people in Mt. Vernon, who intend to go to the London fair, abandoned the idea, after they heard of Rev. Jones' dream that a cry over present at the fair on the third day would be destroyed by a white storm. The third day of the fair's over and no one was hurt.

We understand that Rev. Jones does not give out any such reports, if he had it does seem that a intelligent people should know better to give a moments thought to such bosh and the party or parties responsible for circulating the report which was due purely for the purpose of injuring the fair, should be punished, if there is any law for doing so.

BURIAL ASSOCIATION—In our last issue we stated that an answer would be given this week to what would be done with the Burial Association. We regret very much to say that as yet no definite decision has been reached, but we can say that within the next week, letters explaining the situation and submitting a proposition will be mailed to every member of the Association. If the members are sufficiently interested and feel the benefits of the Association sufficiently to be willing to share a small portion of the expense in having the Association incorporated and paying the State taxes, then the Association will continue, otherwise, it will necessarily be forced to the wall, because of the unreasonable expense placed upon such corporations by an act of the last Legislature. The profit is so small that no one can afford to go to keep the Association going and also bear all the expense. We are authorized to say that these letters will be mailed out in the next few days and the members themselves can say whether the Association shall go or not.

Last Friday morning a few gentlemen feeling the needs of better roads in the county, began circulating among the voters of the county, petitions asking the County Judge to call an election for this fall, to give the people an opportunity to say whether or not they would have better roads, by voting 700 worth of bonds for road purposes. In less than twenty-four hours after the petitions were begun being circulated, over 700 laborers, farmers, professional and business men had signed the petitions, and remarkably so they had been signed by a great many of the best of the county.

When Mr. Jones refused to sign the petition only a few refused and only 3 out of the 700 had been absolutely against the issuing of bonds. The petitions are ready, bearing nearly 300 names than necessary to authorize the County Judge to call the election. The election will be called and it is up to the people to say whether you want better roads or not, whether you want to enhance the value of your property, whether you want roads, that when the products of your labor are ready for market, that you can deliver to the market with some degree of comfort and ease, if so, then go to work for the success of the bond issue.

HENRY PENNINGTON ON THE WAR PATH.

The Boyle County Herald prints the following concerning W. H. Pennington, a former Rockcastle citizen, who has been located in Danville for the past year in his sewing machine business.

Jailer W. S. Fitzgerald left this morning for Cincinnati and will carry a telegram, rapidly pushed his pencil over its surface, and addressed his message to the "Spelling Board," No. 1 Madison Ave., New York, which furnishes all documents and information free of charge.

work done under Keeper Frank Timoney's.

The case is one of the most complicated, and at the same time the most sensational and unusual, that has ever been brought to the attention of officers in Boyle county.

To bridge with separation and daring, which seem to have been actuated by a spirit to harass and tantalize Mr. Chappell in his hour of great trouble.

Jailer Fitzgerald has been very active on the case in a quiet way and has made numerous long trips in an effort to approach the alleged desperado and thief.

SHIPS POSITION.

William Henry Pennington arrived from Mt. Vernon on Tuesday and applied to Mr. H. C. Flowers for a position as salesman for the Singer Sewing Machine Company.

He talked with intelligence as a good talker, and Mr. Flowers being in need of a man to give him a position, He let a work and made a success. A few weeks later he moved his wife and two bright little children to Danville, and the family appeared to be living happily together until a short time ago.

Mrs. Pennington took consumption and has been gradually growing weaker, and about a month ago her husband took her and their children to Rockcastle county and left them with relatives there. It is said that he told his wife that he would support Mrs. Chappell and that he would not again return to her.

Pennington returned to Danville and is alleged to have taken the Sunday excursion with Mrs. Chappell three weeks ago for parts unknown.

\*WRITES SENSATIONAL LETTER.

Three days after Pennington and Mrs. Chappell left Danville, Pennington wrote the starting letter to Mrs. Chappell, of this city, which he immediately placed in the hands of the office, after swearing out a warrant before Judge Reed S. Nichols for the arrest of Pennington on the charge of housebreaking and stealing.

Harris, Ohio, August 1, 1906.

Dear Mrs. Chappell, Danville, Ky.

## FOLEY'S MONEY AND LAND RENT PAYS FOR THE LAND.

FERTILE SECTIONS OF THE SOUTHWEST, WHERE LAND SELLS FOR \$15 AND RENTS FOR \$5 PER ACRE.

One of the remarkable things about Eastern Arkansas and Northern Louisiana is the fact that 625,000 acres of land for \$5 per acre could be bought for \$750 to \$15 per acre. It costs \$5 to \$10 an acre to clear, and other improvements necessary are slight and inexpensive.

The soil is rich alluvial, or made. It produces a bale of cotton per acre worth \$45 to \$50. This accounts for its high rental value. Other crops such as corn small grains, grasses, vegetables and fruits thrive as well.

Alfalfa yields 4 to 6 cuttings, a ton a cutting and brings \$10 to \$16 per ton.

In other sections of these states, and in Texas as well, the other hill-land is especially adapted to stock raising and fruit growing. Land is very cheap, \$5 to \$10; improved farms \$10 to \$25 per acre.

The New White River country offers many opportunities for settlers. High rental value, the water is naturally adapted to stock and fruit raising. Can be bought as low as \$5 per acre.

See this great country for yourself and send for a ton of descriptive literature, with maps, free on request.

The Missouri Pacific Iron Mountain and System Lines sell reduced rate roundtrip tickets on first and third Tuesdays of each month, to points in the West and Southwest, good returning at days with stopovers.

For descriptive literature, time tables, etc., write to R. T. G. MATTHEWS, Traveling Passenger Agent, Louisville, Ky., or H. C. TOWNSEND, General Passenger & Ticket Agent, St. Louis, Mo.

CHURNING OFFICE—Until further notice we will furnish the Signal and Weekly Courier Journal for \$1.00 a year, or the Signal and Louisville Courier for \$2.00 a year. Cash must accompany all orders under this arrangement.
