TELE OF FRENCH SUBMARINE BOAT ENDS FATALLY.

Fourteen Men Perish on African Coast in the Lutin, Which Lies at the Bottom of the Sea.

Briset, Tunis, Oct. 17--Near the spot where, a little more than a year ago, the French submarine boat No. 102 went down with 14 men, who met an awful death, a similar fate overtook her sister ship, the Lutin. A remarkable coincidence is that the Lutin also sank in a gulf of the sea. The Lutin took to the deep under command of Lieut. Phouren for plunging experiments. It was believed that she could easily remain submerged for ten hours, but when just approached and nothing was heard from her, there was consternation among naval men here and two torpedo boats and three tugs were at once sent out in search of the boat, which was a single-crewed.

CLERK IN SUPERINTENDENT PUNISHES OFFICE.

He has learned the clerical duties of the office well, and all say he is a most capable and energetic man. But this race is not a popularity contest between clerks. It is a contest between candidates for state superintendent, whose duties are widely different from those of a clerk and very much more exacting. Excellent superintendents are the ones who are the best.

I HAVE TAUGHT IN SCHOOLS RANGING FROM THE COMMON SCHOOL IN THE BUSH WOODS TO THE LOWER CLASSES IN ONE OF OUR LEADING COLLEGES.

For more than 20 years I have been attending the State Teachers' association and have been president of that honorable body. The published proceedings and addresses show that I was active in all movements for the betterment of public schools, originating some of them. This is particularly true as to the agitation for normal schools, longer school terms, better school houses, etc.

AS CHAIRMAN OF A CONFERENCE APPOINTED BY THE KENTUCKY EDUCATIONAL BOARD.

I have been a member of the assembly of state normal schools, and have been instrumental in securing the passage of the act creating the Kentucky Educational Board. I have been a member of the assembly of state normal schools, and have been instrumental in securing the passage of the act creating the Kentucky Educational Board.

I AM THE AUTHOR OF THE PLAN BY WHICH SHORT-COURSE SCHOOLS WERE ESTABLISHED.

THE STATEMENTS I HAVE MADE OFFERED TO THE PUBLIC WITH SOME TENDENCY TO BE SPECULATED UPON.

However, they seem necessary in order to show that by experience and service I have a special fitness for the most honorable office the people can bestow--the state superintendency.

E. A. GULLION, Candidate for Supt. Public Instruction.

WRITES OPEN LETTER.

Hon. James H. Fuqua to the Democrats of Kentucky: I am writing you in the interest of Mr. E. A. Gullion of Henry county, who is a candidate for superintendent of public instruction. It has been my pleasure to know Mr. Gullion during his long career in the public schools of Carroll county and as editor of a paper at New Castle. In both positions he has shown a high degree of improved education, in latter years using the columns of his paper as a medium for the cause of our schools.

During my term of office many improvements have been made in education.

Two normal schools have been established; the term increased from five to seven months; the salary increased to \$3,300, the largest in the history of the state. I have done much other work that will greatly redound to the benefit of the schools of this state. I have been a member of the assembly of state normal schools, and have been instrumental in securing the passage of the act creating the Kentucky Educational Board.

What Others Say.

Other job school men have written in regard to Mr. Gullion's candidacy, as follows: J. T. English, Harrods Creek, Ky., a widely known teacher: "We need somebody at the head of the state who has had the most of doing things; of getting on; of the time-worn trial. You are unquestionably the man for the job."

What Others Say.

Z. F. Smith, formerly superintendent of the state normal school at Frankfort: "I have known Mr. Gullion for many years, and I can say that he is a man of high character and high ability. He is a man who has done much for the state, and I believe he is the best man for the job."

What Others Say.

Prof. W. H. Bartholomew, principal of the High School, Louisville: "I have known Mr. Gullion for many years, and I can say that he is a man of high character and high ability. He is a man who has done much for the state, and I believe he is the best man for the job."

What Others Say.

President Jas. K. Patterson, State College, Lexington: "I say without reservation, that Mr. Gullion is a man of high character and high ability. He is a man who has done much for the state, and I believe he is the best man for the job."

will not be hampered in their convictions, because of a little job, is what our country mostly needs. There are entirely too many men, or at least being asked that they be of the same mind as the man who will sell their right to think, speak or act for a little mess of pottage, no matter whether it be great or small.

Mr. HAGER and some of his officials claim that Gen. Hayes is a candidate for the Democrat nomination for Governor is stacking the Democratic party in his exposures of the "machine" at Frankfort, which is run, operated and controlled by Beckham and Hager. Who ever heard of J. C. W. Beckham or Sam Hager being the Democratic party in Kentucky? Is not this an assumption of greatness and power heretofore unheard of? We knew that Hager was a purse proud aristocrat and very showy on dress, parade, but never before had we known that he was the whole Democratic party in Kentucky. We knew that Beckham and Hager had built up a great and dangerous political "machine" but we never were aware before that they called that "machine" the Democratic party.

EVERY man should give to every other man the same right which he claims for himself. He has the right to think and speak his sentiments; however, there are some who are so narrow between the eyes as to believe there is only one side to any question—the way they see it—and are ready to find fault with those who take the opposite view. Mr. Vernon Signal, And yet in the same paper you raise Cain with us for being for Gov. Beckham. Oh consistency! Thou art a jewel. Bret Albright seems never to have heard of—Interior Journal.

Sec. 175 of the Kentucky Statute gives the Governor the right to employ special counsel and limit the compensation for such employment as follows: "But the compensation or fee agreed to be paid attorney or attorneys shall not exceed THREE THOUSAND DOLLARS in any case of prosecution. The State in one case Gov. Beckham allowed McQuown and Brown, the legal props of the "machine," a FIVE THOUSAND DOLLAR fee, and subsequent to that allowed Bennett Young and William Lindsay a TEN THOUSAND DOLLAR fee. Both fees were paid by Hager out of the people's money. How can Beckham and Hager receive the amount of these allowances with the law? They have been asked time and again to explain but to this good hour they open not their mouths upon this subject. The tax money from all over Kentucky would like to hear from the two candidates.

Before State Insurance Commissioner Prewitt, at Frankfort, Tuesday, President Charles A. Peabody of the Mutual Life Insurance Company of New York, appeared and answered charges against his administration resulting from the recent dismissal of Col. Biscoe Hindman as agent for Kentucky. He defended himself in the body of the latter by stating that an agent could represent the company in getting new business and at the same time be hostile to its management. Col. Hindman and another deposed agent took the stand and gave the other side of the matter. Commissioner Prewitt will receive the stenographic report of the testimony by to-day, and stated that he would make a prompt announcement of his ruling in the matter. More news like Col. Hindman's and the news to speak that "What they believe to be right and

The Beckham-Hager and "Miss" Perc. Haley machine has done much to disrupt the democratic party in Kentucky. Only two weeks ago this machine discovered that one of the guards at the penitentiary was against Beckham for the United States Senate. Although a faithful employe, the machine had to guard discharged and a Beckhamite immediately put in his place. Is this democratic? Is it right when the democrats of Kentucky have elected Beckham, for him to turn upon a fellow democrat who helped elect him and throw him out of employment because that democrat has the manhood to assert his own right to think and vote for whom he pleases? Are we demagogues or slaves? A jury of splendid democratic voters will render their verdict upon such offenses against democracy on the 6th day of next month.

Sixty condolences have been sent to Uncle Joe Cannon because he says the Democrat campaign book lied about him. But think what trouble the campaign might have gotten into with the postal authorities if it had told the truth about him.

JOINING COUNTESS

The city council of Richmond, the birth place of ex-Gov. of Missouri David R. Francis, wants to put a bas-relief of Mr. Francis on the fountain which he presented to the town, but has been balked by the exposition president himself. Mr. Francis, who posed unashamed for some "statues" thousands of photographs during the world's fair, draws the line on putting his likeness in imperishable bronze on his own fountain. He intimates that the Kentucky Solons can do what the people about the mediation or mediation after the fashion of the day order—but before then. You can be for yourself," says Governor Francis, "but I wouldn't look well for me to consent to that. I didn't even order an inscription set in the fountain to show my gratitude to a noble looking man who gave it to advise myself. After it becomes the proper of Richmond the city council can do as it pleases."

About the work fire ever experienced in London, visited that town last Tuesday night, destroyed property the value of which was estimated at thousands of pounds. The fire losses are £2,000,000. Grocery store; J. E. Feltz, shoe store; J. A. Gregory, restaurant and grocery; Mrs. E. J. Williams, real estate office; Frank Wyatt, restaurant and residence; A. J. Howard, restaurant; more and more names of property destroyed. The general store, Methodist Episcopal church is a handsome brick building. There were all on Main street. Stillmitty street was burned out on the west side to Broadway, including N. Watkins' store; E. J. Feltz, office; James Hagan's barber shop; C. C. Bowman's barber shop; and several other small stores.

POLITICS AND POLITICIANS

In addition to his Louisville speech on Oct. 25th it is expected that Representative John Sharp Williams will also address the people of Bowling Green the following day. Democrats are reported to be circulating with considerable effect in Ohio Congressional districts copies of an old speech made by James A. Campbell in 1873, when he was debating on the tariff question with "Big Iron" Kelley, of Pennsylvania. Senator Hemenway, State Chairman Goodrich and nearly all the republican candidates for State officers in Indiana went to Terre Haute Tuesday to try to put some life into what is represented as having been a listless campaign.

OLD HICKORY CHIPS.

The work of Representative John Wesley Gains on the democratic campaign text book is of the highest order. His masterly handling of the subject of the tariff ought to convince his many voters who did not care for the subject before the arrival of the crisis of a fair tariff and the recent sale of tariff reform.

The republican office seeker will proceed to explain to his audience that it is absolutely necessary for them to see him safely landed in the particular place he desires. If they want to show their approval of any of the acts of Mr. Roosevelt.

A glance at the figures in the election last fall for mayor of New York City shows that Hearst's chances of being elected Governor in the fusion ticket are very bright. Tammany's vote will this year be cast for the young editor, while last year it went largely to McClellan. Moreover, Hearst has a host of followers all over the state.

Charles E. Hughes has been to Washington to get some pointers from the president on how to run his campaign for Governor of New York. It is not known whether Mr. Roosevelt advised him to start out by attempting to revise the pronunciation of ordinary English words, or to try to simplify the Arabic notation.

Senator Tillman said to an audience of his neighbors down in South Carolina, that he was going north for awhile and tell some of his political enemies that he thought of them and make them pay him a good round sum for giving them the chance to listen to him. Well, he went and talked to them for two nights at \$250 a night. Reports say that the people were so well pleased with him that they want him to come again on the same terms.
