VOES OF THE RICH

(Special Commercial Appeal) The poor, of course, knows what to do with their scanty supply of money. There are clothes to buy and meat and bread to get, and flour to secure. The average man wants something to eat, something with which to clothe himself and something with which he may keep comfortable. These modest wants are supplied without any unusual difficulty. Of course there are certain subsidiary wants that go to make life worth living, and these may be rather costly. The man of family, for instance, has some relations with the doctor which he must consult. His children must be educated. He and his family must be entertained, and there is the theater in winter and the parks and baseball game in summer. Many persons are content and they are fairly well satisfied if they can get a few magazines and weeklies and an occasional book. To supply all the wants of the poor is not a very hard proposition.

But the woes of the rich are beyond computation. The great trouble with the millionaire is not that he can't supply his actual desires, but he wants something that nobody else has.

Mr. Rockefeller is perhaps the wealthiest man in the world. But happiness has never been his. The collections of the men he has ruined, the men he has driven to suicide or the insane asylum, the women and orphans he has trampled upon, can hardly be a source of satisfaction to him. Even his great wealth has not been able to save the lives of relatives who were dear to him. He cannot enjoy even the creature comforts that the humblest workman can have. He can eat little or nothing, and the pleasures of the table are not for him. The crimson vests and lilacs would be no pleasure to him. He can only wear a certain amount of clothes. He can't get any more comfort out of \$5 shirt than he can get out of a 79-cent affair. The plain citizen can get more pleasure out of a public art gallery or library than Rockefeller can get out of his own.

The multi-millionaire has two great cares, namely: How to keep what he has and how to dispose of what he has so that he may keep it. He wakes in the morning in fear that somebody robs him. He is worried to devise some new means of robbing the other fellow. Russell Sage was "broke" 28 years ago. He died a pauper and left about \$50,000 behind him. E. H. Harriman owns a controlling interest in \$1,500,000,000 worth of railroads and is interested in \$1,000,000,000 more. Happy? Well, if a nervous wreck is happy, he is. No millionaire can be happy unless he has the satisfaction of knowing that he has made more out of his money than any other persons having.

The woes of the poor are often acute enough, but for the most part they lead quiet, orderly and virtuous lives, while the woes of the rich are simply beyond computation.

The true happiness of this world is to be found in contentment with one's lot, no matter how humble or how exalted it may be. A dispatch from Nashville, Tenn., says: President Milton H. Smith is to resign the presidency of the Louisville & Nashville system March 1st, according to a well authenticated railroad report which was received in this city Friday. A gentleman high up in railroad circles, commenting upon the above article said: "The story is seventy-six years old while the President is only sixty-six." Commenting further they he said: "President Smith already has more work outlined than he will be able to carry into effect in the next five years and concluded by saying that the report is wholly without foundation.

Former Gov. W. O. Bradley says in so state of case that he can divide for Governor. The Gov knows what's what.

GRIFFINS MILL

(Delayed letter.)

News scarce as hen's teeth. Farmers here has been shut in for the past two weeks on account of the cold weather and rain. Who remembers seeing as much rain since the drought was broken in Nov. 1904, in the same length of time. -Uncle John Hurst, who has been serious ill for some time, is slowly improving. -Married, Mr. Geo. Long and Miss Caroline Cummins were married the 6th. The groom is the youngest son of Mrs. Sally A. Long and the bride is the daughter of Mrs. Mary Cummins. May they live long and happy. -Owing to the inclemency of the weather on the 23rd, the dedication of the new Baptist church was postponed until Sunday after the Second Saturday in May 1907. -W. H. Brown and family have been visiting friends and relatives in Pulaski county the past week. -Walter Stephens and family of Walnut Grove, were the guests of H. N. Denney and family during the holidays. The public school at this place will close Friday Jan. 11th. -J. M. Craig and family, of Quail, and Joe Brown and family, of Brown, were visiting Mr. and Mrs. J. W. Brown during Christmas. -The family of Samuel Purcell, of Ottawa, and Mrs. Nelse Griffin, of Hill, visited at the mill of W. C. Cummins Saturday. -If we all had our barns filled with fine timothy and clover hay, we would not have to wade the mud knee deep to the field and drag out stock fodder such weather as this, and oh, how much better would be the products of our live stock. Say, brother farmer, we can have the hay, so, why not? And thereby greatly improve our land as well as to our leading in the shelter these rainy winter evenings. -In conclusion I wish to say that I was greatly surprised to note the many improvements that have been made in old Mt. Vernon since my last visit there which was about the middle of October 1906, among which we might note the surprise that reaches out from the depot up the town hill, the pump-house and the new works at the spring and the beloved old court house; the screening walks that are being seen in various parts of the town, and last, but not least, the beautiful concrete buildings that are being erected by Messrs. Fish and Johnson. -It would seem to one that Mt. Vernon will come to the front yet; every kind of business seems to be moving on successfully. The Professor, merchant, banker, lawyer, druggist, physician, liverymen, factormen, carpenter, office men, butcher, barber, photographers and newspaper men were all in the best of duty and seemed to be pushing their work to perfection.

"Some Rockcastle History of First Things and Occurrences Within the County," a remarkable article, the first portion of which appeared in last issue of the SIGNAL, and concluded in today's paper, is worth-while being filed away in your scrapbook for future reference.

Mr. Maret devoted considerable time and patience in securing data and information to enable him to write this condensed history, and everyone who has read it, pronounces it a remarkably valuable record of past doings in old Rockcastle.

The stockholders of the Bank of Mt. Vernon, announced by the call met Monday and re-elected the same officers and directors as follows: C. C. Williams, President; T. Adams, Vice President; and W. L. Richards, Cashier. Directors: G. S. Livesey, S. H. Martin, R. E. Fish, Rod Perry, C. C. Williams, W. L. Richards, P. Benton. He expects to issue his first number about March the first, or sooner if he can get everything in readiness. With the resources of Whitley county and Williamsburg, with its two splendid institutions of learning, we firmly believe that Whitley's metropolis will soon be the best town in all Southeastern Kentucky and that his reputation of that place will stand in its readiness. FISH'S CASH STORE, MT. VERNON, KY.

Who is the best merchant? He is the man who helps pay for the streets upon which you walk; for the schools in which your children are (and perhaps you were) educated; he helps support the church in which you worship; he is the man who builds a home which enhances the value of your property; every subscriber to paper that is passed around his place is in it; he is the one who can't afford to swindle you, he carries his share of the burden of good government, and stays with you in sunshine and in darkness, in diversity and prosperity. But there are but a few of the reasons why your patronage should be given to the home merchant.—E. K.

LAND, STOCK AND CROP. Sheep are now in greater demand for mutton than in many years, therefore the southern farmer should prepare to shelter and keep their flocks in the best physical condition for the winter market. There is profit in sheep growing. The complaint is the dog in the way, but if a dozen sheep owners will employ the shagreen and stand together, the dog fear will be removed. There few farmers who could not profitably keep a few sheep. The difficulties that stand in the way can be overcome. Surely no one will admit they are too dull to learn—how to raise them. A sheepight fence can easily be bought or constructed.

WISE COUNCIL FROM THE SOUTH. "I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blankenship of Beck's Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles, I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Mr. Vernon Collegiate Institute was organized on July 20, 1889. James Hook, J. J. Williams, M. Bowers, D. N. Williams, Dr. A. G. Lovell and J. W. Brown, director. C. C. Williams, president. The institution is now known as the Brown Memorial School. It is under the patronage of the church of that name of Baltimore. The school has progressed since its inception and improves as the years pass along, in educational facilities. The school is now in charge of Miss Ida M. Taylor, the most energetic principal ever of the school's affairs.

Langdon Dormitory was built (1905) from funds furnished by an enterprising and philanthropic lady of Baltimore, Mrs. Joan P. Langdon. In the erection of this dormitory Miss Ida M. Taylor had entire charge in planning, supervising, etc., and paying of the builders and workmen. Miss Taylor is endowed with remarkable executive ability as is evidenced by her superior and successful management of the Brown Memorial School and the discharge of other manifold duties.

 Alfred Owens and Calloway Mullins were two unique characters. They were splendid specimens of the early settlers and good men. Both lived to be quite aged, dying after 1880. These men were "chums" as boys and men, always lived near each other until the grim reaper took them away over the mountain. They were everlastingly playing planks upon each other as well as their neighbors. Ten piers the size of the Stenal would scarcely hold the tales told of them. In 1833 when the "stars fell," everybody was terribly wrought up and excited over the rain of stars when it appeared the end of the world was at hand. Many were trying, others were laughing and sneering. Alfred Owens remarked to the distracted people as he pointed toward the moon, "Just keep your eye on the main fragment, if the stars, to hell we go in a hand basket."

SOME ROCKCASTLE HISTORY

Of First Things and Occurrences within the County.

By JAMES MARET.

[CONTINUED FROM LAST WEEK.]

Party to start to California during gold excitement in 1850. J. R. Lawless, Oscar and J. J. Williams, Elijah Terrill, and Harry Smith, colored. After reaching Missouri it was discovered that a sufficient quantity of provision had not been provided for the trip. Lots were cast to determine which of the party should turn back. It fell to J. Williams who reluctantly returned. Three months later the party landed in California. Oscar Williams was stricken with typhoid fever and died within three months after their arrival. D. N. Williams was in his possession the letter written by Elijah Terrill notifying him of Oscar's death. All the members of above party have passed over. The last to go was Elijah Terrill, three years since somewhere in Arizona. Mrs. Terrill his wife, died on the same day in Texas.

The old man and wife both bordered on dementia about 1890. He by mistake gave an overdose of medicine from which she died. Allen later went to Ft. Myers, Fla., then back to Winchester where he dropped dead while following his calling of cabinet workman.

Blue army overcoats seen for years after close of war. The last one in use, in the recollection of the writer, was owned by Nebemiah Bloomer three years since. It was in use nearly forty years.

When coal oil lamps were a new thing most every body was afraid of them and some were ever lighted until all the children were sent from the room, after it was lighted the kids were allowed to return. Coal oil was 50 to 75 cts per gallon. Mrs. E. H. Kirtley, mother of Mrs. W. M. Poynter, owned the first oil lamp brought to Mt. Vernon. She sent it to Lexington by Dr. Robert Repp for it while he was attending school there.

First monument was erected by Jonathan S. Langford on a lot in Mt. Vernon cemetery. This lot was decided to posterity by Mr. Langford for the use of his relatives. The monument is made from Rockcastle's freestone and is in a remarkable state of preservation. All the lettering can be plainly read yet. The inscription shows that Mr. Langford was a lawyer and had been a member of the Legislature, and that he died in 1839.

His remains do not rest by this monument but in Madison county where he had lived a number of years. He was the grandfather of the late M. P. Newsum and many of his descendants are living in this county. The old "Lan" is a County Fair, Brodhead, October 1896.
