The siding of freight trains between this point and Rowland has been of no little worry to the railroad company and officials, but since the railroad employees have exerted every effort possible, it began to look like the stopping point will only come when the last siding at Rowland has done its duty. There were too much of this and at times has been practiced by some so would least be expected.

A South Missouri editor had trouble with his gasoline engine and was blowing through a siphon into a gasoline tank when it began to work and filled his lungs with the inflammable stuff. The editor was so badly hurt that he did not dare to go on with the "match" for fear of an explosion. The printers attached him to the gasoline engine and pumped him out gradually. He furnished power enough to run off the regular edition and a bunch of job work.

MY BEST FRIEND.
Alexander Benton, who lives on Rural Route 1, Fort Edward, N.Y., says: "Dr. King's New Discovery is my best friend. It cured me of asthma six years ago. It has also performed a wonderful cure of my infant, consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms came one by one, until she was perfectly well."
