"Uncle" Horace Newcomb, colored, who was a playmate of many of our older citizens, dozens of whom have passed over, died at his residence in Louisville, on Preston street on Friday afternoon, August about 85. He went from Mt. Vernon to Louisville with the family of W. P. Newcomb in 1870 and remained in their service until the family returned so Rockcastle. Since that time until his death he was engaged in the livery stable business. He was the son of honor and was universally respected by all who knew him. He was a hard worker and charitable to a remarkable degree. He leaves a nice little fortune. Amanda Modell, his only near relative here, attended the burial which took place on Monday, being postponed one day awaiting her arrival.

A new device for delivering orders to passenger and freight trains on the Pennsylvania is being operated at noon today. To obviate the necessity for stopping trains the trainmen will receive their orders while going top speed. The order will be attached to hoops placed on poles outside the telegraph towers and has the train engine or conductor will run his arm through the hoop containing his orders and take it along. The hoops are to be turned into the round house at the rate—EX.

The above mentioned device was used by railroad agent at Mt. Vernon nearly two weeks ago to deliver message to trainmen without stopping train. James Maret was the inventor.

**BIG ENTERPRISE:** A deal which is now on, if consummated will mean a big enterprise for Mt. Vernon. On last Friday W. J. Sparks and S. W. Davis took a thirty days option on the farm of R. B. Mullis, better known as the old Adams farm. It is the purpose of Messrs. Sparks and Davis to put in a crusher and lime kiln near the cut, a short distance this side of No. 1 tunnel. While it is known that the rock suitable for ballast purpose is there in abundance, yet the question to decide is whether or not the rock is suitable for use, which will be thoroughly tested and if so found to be, this work will be started at once which will mean much for Mt. Vernon. Later information says that the deal will be a go and the rock crusher installed whether the rock is suitable for use or not but as we did not get this direct, do not give it as altogether reliable.

**DIED:** Last Friday morning August 23rd, at 5:05 o'clock, death visited the home of Mr. and Mrs. David Hysinger, selected for its victim their beautiful daughter, Ada, aged twenty. She was a victim of that awful disease consumption having been sick about 15 months before her suffering without a moment's respite. She was cheerful, greeting her friends with a smile the day she died.

She leaves a father, mother, three sisters and six brothers, S. D. Wren, Jack, Wade, Briggs, Roscoe, Misses Carrie and Louise and Mrs. Annie Rogers and a host of friends to mourn her loss. She became a member of the Christian church at Rose Hill five years ago and has been a faithful member always in her place in church and Sunday school.

The funeral services were conducted by Revs. M. G. Fish and A. E. Pike at her suffering without a moment's respite. A large number of her sorrowing friends followed her remains to their last resting place in the cemetery on Monday evening at the church.

The family has the deepest sympathy of the whole community in their bereavement.

There are those who can look back to their childhood day and recall the pie that afterwards, when after attendance at church and Sunday school, mother would gather the children together and tell them some of those beautiful old Bible stories—old yet always new. To do it is different. Sunday day is the day of amusement and sports, excursions, picnics, baseball etc.

We are living in a materialistic age and it is crowding the finer and nobler things out of our national and individual lives. The influx of foreigners to our shores, and the high religion of which so many of those in our great cities live, is given as the reason for the change in our observance of the Sabbath day.

While that may be true of the cities, it certainly does not hold good here. Here is a portion where there are no foreigners but all Americans of the purest stock. Furthermore, to a large extent the population is pastoral and rural, so the excuse, working from early morn to late at night with no time for recreation that is made in our cities does not hold good here.

Livingston, Ky., Aug. 27th 1907  
Editor Signal:

The man who settled this country, was of a strong religious character, whether we take the Puritans of New England, the Quakers and Scotch Irish of Pennsylvania, the Catholics of Maryland, the Cavaliers of Virginia, or the Huguenots of the Carolinas. They have left their impress on the achievements of our country and we of today would do well to follow in their illustrious footsteps.

While tending their hearthstones and times they did not fail to erect their family altars, and along with the labor of tilling their lands they built the schoolhouse and church. They feared God and kept his commandments. Realizing they were laying the foundations of a Republic they recognized God in everything. Toiling hard six days in the week blazing their way through the wilderness they remembered the Sabbath day to keep it holy.

Of course men of such strong convictions and holding principals such as our forefathers held were bound to be faults, yet their virtues far out weighed the faults, so that looking back upon them we can to their faults be blind and to their virtues "near blind."

Men to do rail about the blue laws of New England and Cotton Mather. Mr. Henry Watterson, the distinguished orator and journalist had considerable to say in criticism of these laws and the men who enforce them in his address "Lexington a few weeks ago."

We of this generation are fast getting away from the old things and in our drifting it seems we are losing some of the best things in the life of our country.

## Nerve Sick

If weak, worn-out, nervous, cannot sleep, have indigestion, headache, neuralgia or periodic pains, it is because your nerves are weak. It is the lack of nerve force that makes the stomach, heart, lungs, etc., work imperfectly, become sick, Dr. Miller's Nerve cures the sick when it restores nerve strength, and puts the power behind the organs to do their work.

Almost three years I suffered from nervous debility, and palpitation of the heart. I could not eat or sleep with comfort, or walk without suffering. Altogether I was in a bad condition, and doctor after doctor failed to do me any good. Dr. Miller's Nerve was suggested. I got relief from the first and after a few days I was a new person. I got relief from my heart and nerve, and I am now enjoying my whole system, and I could not say enough in your favor. I feel sure that if I did not have your medicine, I should be a very sick man.

Mr. Norman expressed his hope of Col. Brown to have a series of drills by the uniform ranks of the different organizations.

Mr. Peter will have the active cooperation of commercial, industrial and professional organizations in making Louisville Day one that will put it in red letters on the Fair calendar.

No one will be bold enough, however, to challenge the popularity of Kentucky Day, its indication point to its being the banner day of the week. Mr. Brown has named his assistant editors of Kentucky as his associates on this committee. He is counting upon several large excursions from different points. The editors will hold a rally on the night of Kentucky Day, which is known as Pross Night and Col. Allison is expected to give an attractive program. Pross headquarters are so established at the Fair grounds.

Mr. Heimbarger is not only appointing Southern Indiana editors, but heads of commercial organizations in that section, as members of the South Indiana Day Committee.

The program for every night will be attractive. This will be especially true of Military Night, when the First Regiment will give an exhibition drill in front of the grand stand.

At a great outlay of money the State Board of Agriculture has contracted with Captain Roy Knabenshue to bring his passenger-carrying airship, the marvel of the century, to the Kentucky State Fair, September 16 to 21, an event daily nights and exhibitions which a slight tide in air goes by a searlight.

Ed. Clark of Little Rock, sold 28 head of 1250 lb. cattle to Boardman & Whaley to be delivered in Oct. at \$1.50—S. R. Barris, of Little Rock, sold 50 hogs to be delivered Sept. 10, to Boardman & Whaley at \$5.65—Mt. Sterling Advocate

Nicholasville-Court.—The Lexington Herald Bureau reports court at Nicholasville Monday as follows: County court today was well attended but little business was transacted and few sales are reported. J. B. Chambers makes the following report: 100 stock hogs were sold at 5 1/2 cts.; 9 two-year-old cattle at \$22.75; 15 extra two-year-old steers at 27.00; 200 sheep at \$6.00 per head; mutton brought from \$30.00 to \$45.00. The horse market was dull, horses selling at \$10.00 to \$25.00.

Stock sales seem to be in demand. Thomas McClintock & Sons sold 40 head to W. F. Heathman at \$6 per head, and 35 head to Alfred Clay at \$6.50 per head. The same firm sold to Tom Marshall a pair of six-year-old mares for \$350. Nearly every bunch of export cattle in the county has been sold and by the close of the month will have found their way to Eastern Markets. This is also true of lambs, but few flocks remain in the hands of farmers. Hogs have taken upward tendency, with a corresponding advance in cured meats and lard. Thomas McClintock & Sons shipped last week three double deck loads of lamps and one car of fat hogs the latter costing 5 to 6 cents.—Bourbon News

Mt. Sterling Court.—The Advocate says: A conservative estimate of the number of cattle on the market is 6,000 head. Every pen was full and a great many left in the country for want of room. Some traders would sell out their pens and then bring in more cattle some filling their pens three times during the day. Very few heavy weight steers on the market as of September and October court days

It is the time they are brought in. Trade was very brisk and the prices were busy all day weighing. The best 1,000 lb. steers at 4 1/2 cents with light weight stuff at \$3.75 to \$4.25 Yearlings at \$4 to \$4.25. Heifers were a little off and they sold at from 3 to 3 1/2 cts. Very few selling at the last named price. Cows at 2 cents to 3 cents, with bulls at 2 to 2 1/2. Very few sheep in the market. Large crowd at the pens and most of them buyers as trade was as brisk as we ever saw it. A good deal of complaint from buyers from other counties that there was no pens to be had to lot stock while they were completing their purchasing. We need some pens of this sort and some one can get a good revenue by fitting up some lots near the pens. Among the sales were the following: 8 steers, 825 lbs., at \$4; 11 heifers, 600 lbs., at \$3.25; 49 heifers, 600 lbs., at \$3.25; 10 steers 1,050 lbs., at \$4.50; 35 yearling steers, 700 lbs., at \$4.05; 11 heifers, 600 lbs., at \$3.30; 31 heifers, 700 at \$3.35; 6 steers, 700 lbs., at \$3.15 14 bulls and cows, at \$2.75; 16 yearlings, 450 lbs., at \$3.50; 13 steers 650 lbs., at \$3.75; 9 yearlings 700 lbs. at \$4; 10 yearlings 720 lbs.

**KENTUCKY STATE FAIR AT CHURCHILL DOWNS.**

Historic race courses at Louisville will be location of 1907 exhibition.

After three weeks of negotiations with the owners of Douglas park at Louisville, resulting in a failure to induce them to lease the grounds for the 1907 Kentucky State Fair, pending the clearing of the title to the property, and adjustment of other matters in connection with the purchase of the track and buildings as permanent location, the Kentucky State Board of Agriculture has been given the use of Churchill Downs at Louisville during the week of September 16. The Kentucky State Fair will therefore be held on the dates mentioned, at historic Churchill Downs where the fair last year was held.

Messrs. Charles F. Grainger and Matt J. Winn, representing the Churchill Downs interest have agreed to the use of these grounds and a committee representing the State Board has extended to them a vote of cordial thanks for their liberality in the matter, inasmuch as the grounds are tendered to the State Fair upon terms agreeable to the State Fair management.

Churchill Downs, while a typical race course, is considered to be the best equipped State Fair grounds in the south, with the possible exception of the Texas Fair grounds. There will be an abundance of stall room for all kinds of live stock, there is a grand stand and there are buildings suitable for the departments which must be shown indoors.

The entry list in the different departments is the history of the Kentucky State Fair. At this time, three weeks prior to the exhibition.

The State Fair management is spending over \$7,000 in expenditure and expects record breaking attendance daily. Some of the greatest amusements enterprises in the country have been contracted with for State Fair week.

**FIREWORKS NIGHTLY.**

ERUPTION OF VEVSIVUS TO BE REPRODUCED.

**PAINTS, FAMOUS PYROTECHNICS**

One of the most remarkable Amusements ever shown in the South.

Whether or not it is the promise held out to us in the rainbow that the earth will not again be destroyed by water but by fire, the interest in fire was as old as history, or at least would date back to the period when they were first introduced hundreds of years ago in China. To make a big event anything a success. It is almost necessary to add to the amusement-features a great fire works exhibition. This year the National Academy of Agriculture, under whose auspices the Kentucky State Fair is to be held in Louisville, September 16 to 21. A contract has been closed with Paine's Pyrotechnic Co. to bring from New York complete Paine's new novel pyrotechnic—"Venusius," a gigantic reproduction of Naples and Vesuvius. This is an exact picture of the mountain length 250 fifty feet high, of the modern city of Naples and of Vesuvius, from sketches and drawings by the artist by Paine's specialist-artist and reproduced by the eminent scenic artist, Messrs. Reed and Rafter, under their assistance. It is the most elaborate spectacle and summer night's fête and illumination ever attempted. It depicts the "Crater of Naples" and the eruption of Vesuvius as they occurred on the night of April 3 and 4, 1798.

The subject lends itself to the most gorgeous of scenic environment, and the most wonderful electric and pyrotechnic effects. Two immense arc are devoted to the production. The "Crater of Naples" is attended by the King and Queen of Italy, and other crowned heads. The streets of Naples are shown on a late day; the populace and visitors are in a state of terror in a feat of lightning and ball lightning, concluding with the introduction of four "Wonderful European specialties. While the carnival is at its height, a great whirl of smoke begins to ascend from Vesuvius. The storm begins and increases as the mountain rapidly belches out the lurid flames and seething lava.

The first act is concluded and the second, a magnificent calamity, is begun. Refugees crowd into the city and the King and Queen depart for a town in the mountains. There is mass in the city of Vesuvius. In tremendous detachment, speaks angrily to the inhabitants for a space of miles around; the walls of ash with rivers of lava confluence and the destruction of the city is complete.

The first spectacle is to be given nightly at the Kentucky State Fair and to be followed by Paine's wonderful work the display of which will be repeated each night.

The contract made between the Paine Pyrotechnic Co. and the County and State Board of Agriculture, calls upon the former to bring the artist Manhattan Beach, Coney Island, New York. There are 250 performers, properly and splendidly costumed. The fireworks program covers fifty numbers, consisting of all of Paine's latest novel titles.

**"YOU TAKE YOUR CHOICE."**

Race of Every Known Form at Kentucky State Fair.

It is said of the Kentuckians that half of their cantanillo is filled with brain matter and the other half with malarial germs. The ability of the cantanillo to take a Kentucky State Fair to gain enlightenment demonstrates clearly the truthfulness of the first half of the statement. The latter half of a horse race indicates that the latter half of no means an untruth. The Kentucky State Fair, which will run for six great days at Louisville, beginning September 16th holds out special incentives to every one, whether or not a Kentuckian, to poke up the horseshoes imbedged in his lazily reclined foot.

The S. F. M. Fair management has arranged its most interesting speed program for racing, trotting, pulling and running races. As the new home of the State Fair, which was Douglas Park, has the fastest trotting track in this country, and perhaps in the world, the program is expected to be a mass of exciting and exciting.

The first who have been robbed of their horses' homes are the owners of these magnificent teams which are being sent to them, while others who have turned their thoughts from things terrestrial to the things of heaven, with their desires in the balloon races.

The Kentucky State Fair has in its main part the presence of the best interests of Kentucky, a college to educate the people of the whole south to the necessities of the rate of the best parts of all kinds of live stock.

The first of the most continues for six months. Half the program in the United States is under a year of age.
