**Nerve Sick**

If weak, worn-out, nervous, cannot sleep; have indigestion, headache, neuralgia, or periodic pains, it is because your nerves are weak. It is the lack of nerve force that makes the stomach, heart, lungs, etc., work imperfectly—becoming sick. Dr. Miles' Nerve Tonic restores the nerve strength, and puts the power behind the organs to do their work.

"Almost three years I suffered from indigestion and nervousness. I could not eat or sleep without suffering. Although I was in a bad condition, my doctor did not seem to do me any good. I had tried many remedies that I did not have much hope of any of them doing me any good. I had heard of Dr. Miles' Nerve Tonic from the first, and after a few days I felt like a new man. It not only relieved my heart and nerves, but also improved my appetite. I have not had a single day since I have taken it that I have not felt better. I have had no return of my old troubles."

Dr. Miles' Nerve Tonic is sold by your druggist, or by mail, and the first bottle will benefit. If it fails, he will refund your money. Write to Dr. J. C. Miles Medical Co., Elkhart, Ind.

**Stomach Muscles in Old Age**

People should be more and more careful, as age advances, to see that their bowels move regularly. In this way they can keep themselves in good health and prolong life. The bowels are not so active in middle and old age as they are in youth, and with the majority there is a tendency to constipation of a chronic and obstinate nature.

"To ward off the possibility of serious disease one of Dr. Caldwell's Syrup Puffs, the great herb-gentle compound, is especially suited to the use of elderly people because it is prompt but gentle in action, and does not irritate the bowels. As to the case with male, purgative waters and cathartics have been used, but without success. I have been troubled by constipation for many years, and have used many cathartics, but without success. I have used Dr. Caldwell's Syrup Puffs, and have found it to be the best medicine I have ever used. It is so gentle and so effective that I can use it as often as I wish, and it never fails to give me relief. I feel like a new man after I use it. I have had no return of my old troubles."

Farmers Institute.

The Farmers' Institute for Rockcastle county will be held in the court house in Mt. Vernon on Tuesday and Wednesday, September 10 and 11th. For this work the Legislature of the State has appropriated \$1500.00, which amount is expended for lecturers, who are conducting these Institutes in every county in the State. The men selected for this work, were chosen because of their extensive knowledge and experience in the line of farm work, which they discuss. The three lecturers, who will be here to conduct the Institute are: Hon. R. C. Crenshaw, Assistant Commissioner of Agriculture, E. C. Martindale, of Wilkinson, Ind. and W. T. Kane, of Fallsburg, Ky. practical farmers and men who have devoted their lives to farm work. Following are the subjects to be discussed by each: By Mr. Crenshaw: 1. Restoration of Worn Lands to a State of Productiveness. 2. Necessity of Conserving Soil Moisture. 3. Leguminous Plants. 4. Alfalfa—its value and How to Grow. 5. Sheep—The Friend to the Man on a Poor Farm. 6. Tobacco Breeding for Quality and Type. 7. Wheat—Preparation of Soil and Seeding. 8. Seed Corn Selection and Testing. 9. Family Partnership or Family Corporation. 10. The Girl on the Farm. By Mr. Kane, 1. Alfalfa. 2. Breeding and Development of Swine and Their Diseases. 3. Sheep. 4. Goats. 5. Pastures on Hill Lands. 6. Pure Seed. 7. Maintaining Soil Fertility on Hill Lands. 8. Beautifying the home. By Mr. Martindale,

- 1. The Care and Management of Beef Cattle. 2. Buying and Rearing Cattle to Feed. 3. The Farmer's Horse, his Care and Training. 4. How to Get a Good Stand of Clover. 5. How to Handle the Clover Crop. 6. How Clover Improves the Soil. 7. Good Pastures. 8. The Drainage, Why and How. 9. Improving the Soil. 10. The Land Owner and Tenant. 11. An Agricultural Education. 12. The Farm Fence. 13. The Home and Its Influence. 14. The Boy. 15. Selection, Care and Testing Seed Corn. 16. Preparations of Soil, Planting and Tillage of Corn.

We earnestly urge upon the farmers the importance of attending this meeting. What our farmers are, is what our country will be and the farming interests of this county certainly deserve more attention than they have heretofore been receiving. Farmers who are helping pay the expense of holding this institute and when this plan of instructing the farmers in better farming, better stock raising and better everything connected with the farm and when the Kentucky Legislature appropriated the \$1500.00 yearly for the carrying on of this work it was one of the best days' work ever done, for the State. When the time comes that our farmers study the conditions and needs of the different soil and exchange ideas get the plans and changes of farming which those who have been most successful have passed.

Every farmer in the county owes it to himself, to his family and to his county to be present at this meeting. Its for your benefit and you are the one to prosper from its results. Reports from every other county in the State where the Institutes have been held show great interest manifested on the part of the farmers, and we can truly trust that our farmers will do their part towards making the one in Mt. Vernon next week equal to that of any other county. We cannot urge too strongly the importance of being present at this meeting; it means too much for the farmers for them not to get the full benefit of it. The time has come when more attention must be paid to the farms and to stock raising in this county. With farming as with every other business the farmer must improve as other businesses advance. There is a much difference between the old time farmer and the present up-to-date farmer as there is between the common school teacher of fifty years ago and the teacher of today. To conclusion let us again urge upon every farmer who wants to improve his farm, raise better corn, more wheat and better stock to be present next Tuesday and Wednesday at the Rockcastle Co. Farmers Institute. If you think it possible to be present both days then come on Tuesday, the first day, and we will guarantee that you will come early the second day that you may get a good seat. Resident G. S. Guinn and Secretary M. J. G. Fish makes an earnest plea for a large attendance.
