GOV. HANLY ON "BOOZE."
In a speech before the republican convention of Indianapolis, Gov. Hanley spoke in favor of endorsing the County Unit Bill and said: "Personally, I have seen so much of the evils of the whisky traffic in the last four years, so much of its physical ruin, so much of its mental blight, so much of its tears and heart-ache, that I have come to regard the business as one that must be held and controlled by strong and effective laws. I bear no malice toward those engaged in the business, but I hate the traffic. I hate its every phase. I hate it for its intolerance. I hate it for its arrogance. I hate it for its cant and craft and false pretenses. I hate it for its commercialism. I hate it for its greed and avarice. I hate it for its sordid love of gain at any price. I hate it for its domination in politics. I hate it for corrupting influence in civic affairs. I hate it for its incessant effort to debauch the suffrage of the county; for the cowardice it makes of public men. I hate it for its utter disregard of law. I hate it for its reckless trampling of the solemn compact of State constitutions. I hate it for the lead it straps to labor's back; for the palsied hands it gives to toil; for its wounds of genius; for the tragedies of its might-have-beens. I hate it for the human wrecks it has caused; I hate it for the almshouses it peoples; for the prisons it fills; for the insanity it creates; for the countless graves in pauper's fields. I hate it for the moral degradation it imposes upon its victims; for its spiritual blight; for its moral degradation. I hate it for the crimes it has committed. I hate it for the homes it has destroyed. I hate it for hearts it has broken. I hate it for the malice it has planted in the hearts of men; for its poison, for its bitterness, for the dead sea fruit with which it poisons their souls."

ANNOUNCEMENTS We are authorized to announce HON. HARVEY BILM...

We are authorized to announce G. T. JOHNSON as a candidate for Clerk of Court...

We are authorized to announce F. L. BOWMAN as a candidate for County Court Clerk...

The following which we clip from an exchange will be of interest to our teachers:

Prof. J. C. Crabbe, Superintendent of Public Instruction, is a stickler for accuracy in complying with school laws...

Prof. Crabbe will also insist that the examinations be conducted by the County Board of Examiners and not by various persons...

Superintendent Crabbe has also decided that the applicant for a county certificate must be eighteen years old at the time of the application...

Another rule established by Superintendent Crabbe will go a long way towards rectifying errors that have cost the State possibly many thousands of dollars...

Possibly the most important decision of the new State Superintendent is that all matters of difference and doubt touching the administrative duties of the officers and teachers of the district in graded common schools...

The new superintendent needs to place a high value on the aid that the county press can give to the common school cause...

The grand jury recommended that the Fiscal court make such necessary improvements as on jail and court house such as painting both buildings, repairing of the roof of jail and the building of a kitchen for the jail. All is very necessary and especially the latter. It is a shame that it has gone as long as it has with the present old kitchen, which would hardly make a kitchen, and would hardly make a kitchen, and would hardly make a kitchen.

John Robins, Secretary of the Rockcastle County Fair Association, was in to see us yesterday and left an order for this year stationery for the association. Mr. Robins says he intends to have out his catalogues much earlier this year, than it has been the custom to get them out heretofore. Besides this, some important changes will be made in the general set up of the catalogue. This is Mr. Robins' second year as secretary and the success of last year's exhibition speaks the fitness of Mr. Robins for the place. The dates of the fair for 1908 are Aug. 18, 19 and 20.

The Fiscal court met here Tuesday and let a contract to the Champion Bridge Co., of Wilmington, O., for a steel bridge across Roundabout creek at Orlando.

The new bridge complete, outside of the abutments, which the citizens of that section of the county have agreed to build is \$2500, which amount the county pays. The contracts have been signed and the bridge is a sure go, with but one single exception, and that is, that the citizens of Orlando will fill their part of the obligation.

It is something that is badly needed, and the very thing the SIGNAL has been fighting to get for years and we do certainly hope that nothing will hinder to come in the way, which will in the least hinder the progress of this much needed improvement. During the last two or three weeks the necessity of a bridge at Orlando, has been fully realized, as many men, who had important business here, had matters in court which needed their attention, were unable to get here, because of the bad water. Three cheers for the bridge across Roundabout creek.

A thief set of thieves, entered the store of Jonas McKenzie & Son, on last Friday night, taking from the safe about \$30 in money and one pair of shoes, so far as Mr. McKenzie was able to tell. An entrance was gained through the front door, by use of a chisel prying the lock, which was an ordinary night lock. Mr. McKenzie in closing up had failed to turn on the night lock and hence, there being nothing but the day lock on it was an easy matter to enter the store.

JOHNSON Adj. BROWN MEMORIAL SCHOOL. Owing to Mr. McDonald's illness and the inclement weather, the Sunday afternoon service was given at the dormitory instead of the school. The subject of next Sunday's talk will be "Isiah, the Prophet and Poet." The usual annual program will be rendered. The second concert of the term will be given this afternoon at 8 o'clock. All friends and relatives of the school are cordially invited. The first of the pupils' recitals will be given May 15th. Now is the time when the spirit is willing but the flesh is weak and heaving; when the desire for activity is great, but the body calls for "A little more sleep, a little more slumber, a little more folding of the hands to sleep." The only remedy worth trying is to take all the fresh air possible, and to set about carrying out the plans made while we sat around the fire in January. From "Self-Help" by Samuel Smiles: "Dalton, the chemist, repudiated the notion of his being 'a genius,' attributing everything which he had accomplished to simple industry and accumulation. John Hunter said of himself: 'My mind is like a bee hive, but full as it is of buzz and apparent confusion, it is yet full of order and regularity, and food collected with incessant industry from the choicest of nature.' We have indeed but to glance at the biographies of great men to find that the most distinguished inventors, artists, thinkers and workers of all kinds, owe their success, in a great measure, to their indefatigable industry and application. They were men who turned all things to good—even time itself. Dismiss the elder child that the secret of success consisted in being master of your subject, such mastery being attainable only through continuous application and study. Hence it happens that the men who have most moved the world have not been so much men of genius, strictly so called, as men of intense mediocre abilities, and unflinching perseverance, not so often the gifted of nature, bright and shining qualities as those who have applied themselves diligently to their work, in whatsoever line that might be. 'Alas!' said the widow, speaking to her brilliant but careless son, 'he has not the gift of continuance.'" Waiting in perseverance, such volatile natures are outstripped in the race of life by the diligent and even the dull. 'Che va piano, va lontano, e vince,' says the Italian proverb 'Who goes slowly, goes long, and goes far.' The tolling of the church bell at Freedom was heard for the first time last Sunday which called a large crowd through the rain. —E. R.
