The speech of notification was delivered by Theodore Bell, and addresses were made by Mr. Kern, William J. Bryan and Thomas R. Marshall, the Democratic nominee for Governor of Indiana. The meeting was held in the elaborately decorated Coliseum at the State Fair grounds, and was attended by many thousands of people regardless of party. Mr. Bryan and Mr. Kern received ovations when they appeared to speak.

KENTUCKY STATE FAIR RACES.

The racing, always an attraction at State Fair, and now especially at the exhibition held under Southern conditions, will be featured more than ever by previous State Fair. The new half-mile track, now in process of construction, when completed will be one of the fastest half-mile courses in the country, and there is every indication of a first-class harness race meeting this fall. Four stales, five purses, and three gentlemen's road races have been announced. In addition to these there will be two running races each day, so the Kentuckian who thinks that his day's visit at a fair is incomplete without seeing a first-class horse race will not be disappointed at this year's State Fair. Among the early closing events are the Kentucky Breeders' Association stake for 2:20 trotters, the Louisville Hotel Merchants' Association stake for 2:30 trotters, and the Louisville Commercial Club stake for 2:18 pacers. Stake entries closed July 14th; purse entries closed Sept. 7th, and entries for the cup races at 12 o'clock five days before the race. The stake races will be contested on the three in five heat plan, with a five-minute rest between heats, and the two in three heat plan. It is the ultimate intention of the State Fair management to build a full mile track, embracing the present half-mile course, which if the hopes of those in charge of the racing program are realized, will compare favorably with the best State Fair mile tracks in the country, and will undoubtedly become one of the most popular racing grounds in the country.

SPECIAL NIGHTS AT THE KENTUCKY STATE FAIR.

J. V. Deeken, manager of the Retail Merchants' Association of Louisville, the general chairman of the Special Nights Committee, and has been usually engaged for several weeks in arranging the most attractive night programs possible. Monday night will be School Children's Night, Tuesday, the National Night, Wednesday, the National Night, Thursday, the National Night, Friday, the National Night, Saturday, the National Night, and Sunday, the National Night.

The show rings on Saturday will be an interesting feature of the fair. The various horse championships being awarded that day.

MACHINERY EXHIBITS AT THE STATE FAIR.

An unusually large exhibit of farm implements and machinery is in prospect. (owing to the incompleteness of the State Fair the exhibitors of this department do not share the same advantages afforded them by some of the other exhibitors in the way of large crowds, but every effort will be made to attract attention to their exhibits.) Commodious space will be assigned to this department, and all the latest and most improved machines, harvesting machines, hay-making machines, plows, and every other kind of machinery. The farmer who wishes to be instructed in the use of better methods and better machinery will have a great opportunity before him at this Fair.

COLLIE DOGS AT THE STATE FAIR.

The collie dog exhibit at the Kentucky State Fair promises to be a greater attraction than ever before. A new departure, and one of the original, and the first ever held in this section will be a sheep trial given by an expert exhibitor who shows a magnificent collie to the farmer. A creditable show of this nature will appeal to every collie fancier. The sheep trial will be given by the American Kennel Club. It is expected that this year's show will bring out 100 collies, including many famous Eastern dogs. The sheep trial will be started by expert judges, as well as a program of collie training to train up his dogs along this line and qua compete, will be eligible.

STUDENTS' JUDGING CONTEST.

Following a plan devised by the older state fair institutions of the country and one that has proved eminently successful at all the great Western fairs, as well as a program of collie training to train up his dogs along this line and qua compete, will be eligible. The Kentucky State Fair management has arranged a fine amusement program which alone is well worth the price of admission.

The Rockcastle County Farmers Institute which met here last Friday and Saturday although not as largely attended as it should have been and as it was hoped would yet it was a great success, and the farmers who took advantage of this splendid opportunity to improve their modes of farming and stock raising feel doubly paid for the time spent. The men sent out by the State to conduct these institutes, are men thoroughly versed in their line and men who have made a success. If they are needed, why can't others adopt their methods and do likewise. The farmers institute is a permanent organization and will accomplish much for the good of the farmers and the state at large. Those who look upon these meetings with but little consideration will in time see the wisdom of their way and it to be regretted that so many farmers do not take more interest than they do.

HAD AN AWFUL TIME.

BUT CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY CURED HIM.

It is with pleasure I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the mucus settled in my stomach and bowels. I had an awful time and had not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I could not possibly live but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and shall always speak a good word for this remedy.—SAM H. GORD, Concord, Ga. For sale by Chas. C. Davis.

CONVENTIONS AND EXCURSIONS.

A new special committee has been created this year by the State Fair management known as the Committee on Excursion and Conventions, with Mr. Smith T. Bailey as chairman. Already a number of annual meetings for state organizations have been arranged. Included in the Kentucky Beef Cattle Association, the Kentucky Dairy Cattle Club, the Swiss Breeders' Association, the State Horticultural Society, the Good Roads Association and various others of a kindred nature.

A suitable convention hall will be provided underneath the grandstand with every accommodation and convenience possible for the visiting organizations. Chairman Bailey hopes to have many other meetings listed before the opening day and is arranging for a large number of excursion trains from all sections of the state. In other words, it is his intention to make it a convention week on the latter week in the history of the Falls City for the largest number of out-of-town visitors.

THE NEW STATE FAIR GROUND.

The new Kentucky State Fair grounds, where the 1908 annual exhibition will be held, is easily one of the most admirably arranged, best equipped in the country. From an aesthetic point of view the graceful lines of the buildings harmonize with the surrounding scenery. The lines will extend into the grounds so that one may step directly from the entrance of the Fair to the entrance of the Livestock Pavilion, Grandstand and other departments will be located directly to the Livestock Pavilion. Grass plots with rows of trees will divide stock pens and other departments to border it on the sides. In front of the Livestock Pavilion will be an attractive fountain located in the center of a large flower bed.

The track and grandstand are located in the eastern part of the grounds, some 600 feet from the pavilion. The surface of the track has been smoothed with exceptionally fine clay. The stable and cooling shed, for horses are located just south of the track. The architecture of all the buildings will be along the lines of the Spanish Mission style, with white color and red tile roofs, tiled eaves and style of architecture will harmonize with the building grounds and beautiful drives which are adorned with hedges and plants and give it a most pleasing appearance.

\$100,000 LIVESTOCK PAVILION.

It is with much pride that the State Fair management will open to the public in September what it has every reason to believe is the finest livestock pavilion in the world. While one may think similar to other great State Fair pavilions, it is quite different from any other and contains the highest point of all of them. It will be 315 feet long and 400 feet high, with an interior floor constructed 115 by 300 feet. A fifteen-foot promenade will extend entirely around the outside of the arena. The main entrance are arranged in four to twelve, one at each corner of the building, to give an abundance of space for entrance and exit. The construction is of the most permanent character, being largely concrete and steel. All horses and cattle will be exhibiting in this building, a great improvement over the hot dusty show rings and the inconvenient stony tents used in the past.

WEBER'S BAND

Webber's Prize Band of America, one of the finest concert organizations in the West, will furnish the music for the State Fair. Each of Webber's programs will be three hours long and be made up entirely of popular music. A number of soloists will be heard. Mr. Webber has felt the public should know enough to know what is wanted, and to say it is unsurpassed and has personally selected and splendid leading powers, soloists of known ability, and it is hard to see how the State Fair management could have secured a bigger attraction in the way of a band.

THE HORSE SHOW AT KENTUCKY STATE FAIR.

With the largest prize ever offered for horses at a Kentucky Fair, the greatest exhibit of equine flesh in the history of the Blue Grass State is confidently expected. For the first time exhibitors and spectators will have the pleasure of seeing a first-class horse show in a large, commodious arena, completely under shelter, without feeling the effect of the burning sun or being exposed to damp and chilly weather and undergoing the inconvenience of a water-soaked show ring.

Turnouts to be used at the Kentucky State Fair.

The Kentucky State Fair has provided the most approved list of animals to be used at each entrance to the State Fair. Neither the sky nor the fair can have a trouble in passing through them. They are equipped with registers which can tell at any instant just how many persons have passed through.

For catalogue, entry blanks or other information, write J. W. Newman, Secretary, 229 Paul Jones Building, Louisville, Ky.

SIX GREAT DAYS AT THE KENTUCKY STATE FAIR.

The Special Days program has been announced, with Fred W. Ketcher, President of the Louisville Commercial Club, as general chairman, and the Special Days committee. The first day will be known as Governor's Day and School Children's Day. It will mark the dedication of the new 500,000 Live Stock Pavilion, which is now nearing completion, and which when finished will be one of the largest exhibition halls in America. It is a building which will reflect credit not only on the fair management, but on the State itself. The Governor will include an address by Governor Wilson and will be admitted a number of other distinguished speakers will be present on that occasion. School children will be admitted free for 10 cents, and Prof. H. C. McKee, President of the Kentucky State Educational Association, who is chairman of the first day's program is endeavoring to get out the largest attendance of children ever seen on a fairground in a single day.

Tuesday, Sept. 15th, will be College Day, when the various colleges and Anderson of the State University; Lexington, is chairman, and Charles B. Nease, president of the State University, for that day. On account of the very low railroad rates a much larger attendance is expected than usual. The usual is expected, and Prof. Anderson is actively working for large delegations from all the various colleges and institutions in the state. All the fraternal organizations of Louisville and other cities and towns of the state are invited to join in an effort to make this one of the biggest days of the Fair. On this day the Judicial and other departments will be open, and cattle awards will be made in the new show building, while all other livestock, poultry and other departments will be judged in areas especially prepared for that purpose.

Wednesday, Sept. 16th, will be Louisville Day and Southern Indiana Day. Mayor James P. Grimstead of Louisville will be chairman, and Jacob Beer, mayor of New Albany, and E. N. Fizz, mayor of Jeffersonville, vice chairman. The various cities and towns of this area will issue a half-dozen proclamations. In addition to the many acts of kindness, the various cities of this area will issue a half-dozen proclamations. In addition to the many acts of kindness, the various cities of this area will issue a half-dozen proclamations.

Thursday, always the largest in attendance of the week, will be known as Kentucky Day and Press Day. On no single day or event in the year are more people present at the State Fair than on this day. The program of the day is so arranged that it has named for his associates a number of the most widely known and respected names of the State. The plans do not miscarry it will prove a genuine reunion of the faithful.

Friday, Sept. 18th, has been designated as Equity Day and Grand Day. J. Campbell, Chairman of Good Roads, president of the Kentucky Branch American Society of Equity, has been named as chairman, and R. P. Wolcott of Covington, Ky., Master of the Kentucky State Grange, vice chairman. Arrangements are being made to focus attention on the members of the Society of Equity, composed of the many tobacco growers in both the day-park and the better districts, through the streets of Louisville that day. This powerful organization, assisted by the noble band of eighteenth century farmers known as the Patrons of Industry, are making their own way, making their own way, making their own way.

Saturday, the last day, will be Everybody's Day. Any one may attend any other day, but only one day will be included in this.

Fair Time-keepers Progress.

President McKinley in his last speech made upon the grounds of the Buffalo Exposition, said among other things that time and energy were the priceless things which mark the progress of nations, and every fair, great or small, has helped in some way progress.

The Kentucky branch of livestock owners having their stock before the public is entitled to better than by taking a premium at the Kentucky State Fair.

NEW VARIETY OF WHEAT.

From the Chattanooga Times we learn that Abraham Adams, an aged farmer of Julietta, Idaho, has produced a variety of wheat, which turns out as much as 200 bushels per acre.

It seems to be something wonderful and we give the following statement as we get them for benefit of our farmers.

A brief history of this almost miraculous seed is given in few words by its originator, a plain man who has in his plain way, but who all his life, until old age, has lived with and for his wheat and has finally given the world the greatest gift any one man has ever been responsible for.

Mr. Adams' first perfect head of wheat came to realization in 1904 from an experimental plot of the spring of that year. This one head he planted that fall as winter wheat, and the next year he secured seven pounds of seed from that planting. From the seven pounds planted in the spring of 1908, he harvested 1,545 pounds an increase of over 222 times or a basis principle 222 bushels to the acre.

Here comes another remarkable story of this wonderful wheat. The 1,545 pounds were sowed in the fall, and that summer there were terrific hail storms which put the club and blue stem wheat so much to the bad that many fields were never harvested, yet from the Alaska wheat plants there were gathered a crop, which threshed out 43,000 lbs. This when all other wheat was rendered practically worthless.—Somerset Republican.

BIG SUM LOST TO SCHOOL FUND.

Auditor Frank P. James has made the rather startling discovery that the school fund has not received all the money to which that fund was entitled during the last eight years, and \$240,000 in round numbers is due from the general expenditure fund. Whether or not the school fund can recover this amount for the last eight years is a question which will be passed up to the Attorney General. If the courts decide that the money must be taken from the general expenditure fund and paid into the school fund it would leave the treasury in a dilapidated condition, as there is not enough money now to meet the warrants which have already been drawn on the general expenditure fund.

The error which Mr. James discovered is merely one of book-keeping, and entirely by an oversight. No one is accused of doing anything wrong. When a Sheriff makes his settlements he always has rebates and reductions allowed him and these have always been charged to school fund, but that fund has never been credited with the amount with the amount with which the Sheriff originally was charged. Mr. James figures that if the school fund is to be charged with the amount deducted from the Sheriff's charges that fund should be credited with the amount which the Sheriff is charged with, instead of, as at present, crediting the school fund only with its portion of the amount actually paid in by the Sheriff.
