Affectionately yours, T. J. PENNINGTON AND WIFE. BURNED TO DEATH.—An eight year old child of Wm. Croucher near Disputanta was burned to death Saturday. The mother was in an adjoining room and hearing the child scream ran in and found the child's clothing in a blaze. The mother immediately put the child in a running stream of water in a running stream of water near by but too late to save his life.

Allen Barnett, of near Ottawa, this county, and star of the Mt. Vernon Base Ball Team, has passed an examination which makes him eligible to be examined for a Rhodes scholarship to Oxford University in England. His many friends will like to know this. Allen is a bright young man of good character and he no doubt will pass the other examination which is required to get the scholarship.

Don't fail to read W. J. Sparks letter in this issue. We sincerely hope it may be instrumental in producing the desired result. Our business men are the ones who should be most interested in the construction of the Mt. Vernon Pike, but we regret to say that it seems they are not and yet the merchants more than all other classes would be most benefited, in the building of pikes. Now is the one great opportunity for Mt. Vernon and if we lose now we fear we have lost for many years to come. The farmers along the line have made up their mind and now is Mt. Vernon going to turn them down and say to them we do not propose to offer you an inducement to give us your trade or assist you in building roads that you may come to us with your business. Fellow townsmen it is out of the question for us not to do our part and even more and if we don't, we will and ought to suffer the consequences.

Harve Pitman, aged about 53 years, was found dead in bed at his home, at Laugford's Quarry, Monday morning. Heart trouble is supposed to have caused the death. He leaves a young widow and two children and many relatives to mourn his death.

Brodhead Graded School No. 1 has many reasons this year for special thanksgiving, for almost unopposed success has rewarded the united efforts of the community for the upbuilding of the first graded school in the county. Hazony, steady advancement, and prosperity have been ours in the last measure. We have a right however to the support of those who are personally interested but it came not only as a delightful surprise but as a source of deepest gratification that a former citizen of Rockcastle, one who from motives necessarily disinterested, remembers us in our struggle up and in our efforts to upbuild the cause of education in this county. On Thanksgiving morning the expressman delivered to the school a handsome oil painting for its new chapel. The painting is the gift of Judge R. G. Williams of Covington. Although Judge Williams has been away from his native county for years he still retains a warm spot in his heart for home and he may always be counted upon to do the thing by any movement that has for its end the advancement of Rockcastle.

The picture is in itself a beauty and is the most attractive ornament in the new school building. In behalf of the faculty, the trustees the patrons, and the pupils of the school I wish to thank Judge Williams for his valuable gift, also for the cash donation which was used in designating and brought an honor's pleasure to a number of us.

We can not help but have nothing better for our people than that they may make an excellent men and women through all the coming year. We are glad to see that Judge Williams has always been.

Your truly, W. J. SPARKS, IDA MAY ADAMS, Pres.

Dear Editor: Will you please find space in your paper for a few remarks in connection with Mr. Taxpayer in your last issue. I heartily agree with Mr. Taxpayer. The lights and waterworks are needed in Mt. Vernon very badly. So why not more of us get interested and go to work. While I am weak financially, I can work and talk as much as anyone. If the business men of Mt. Vernon will make up their minds, we can have improvements that will be worth something to us. As one of your town board, I intend to put forth every effort to improve the streets and the general upbuilding of the town, and I have the assurance of help to carry out the work. I want to see every dollar spent in the right place. It depends largely on the way money is distributed that adds to the improvement of things.

Why should the town drag back ward? There are industrious people and people who want to be up in front, why not make the beginning at once for a general upbuilding of the town? Go after your lights and water, and we as trustees will do the rest in the town, limits I wish to see every street in town and all the sidewalks in accordance with specifications as fast as can be done. I am aware of the fact it takes money to improve, yet a small amount of money well spent goes a long way.

Please allow me to say one other thing. The churches and Sunday schools are being given the least attention of anything in town, while all of the lodge meetings are well attended, and it doesn't get too cold or wet for the members to attend. Yet our church houses are empty every Sunday morning and the Sunday schools also. Please, let us have many more people. What kind of success are we going to put up to the Master? None that will save our souls. I want you all to do all we can for the right thing and pull together for good. Your friend,

W. H. COTTENGIN

L. G. Fain and family will leave for Livingston to make their future home. Chas Jackson will succeed Mr. Fain as agent at Pine Hill. We regret very much to lose Mr. Fain and family. But our loss is Livingston's gain. David Cottengin and family will leave for Hamilton, Ohio Monday to make a their home. Mr. B. H. Hutchcraft of the new coal at Pine Hill is still here. Mr. Hutchcraft says that he expects work to begin the first of the year 1910 is earnest and that Pine Hill will be her self once more working some where between 500 to 800 men.

Our Pine Hill merchant, W. H. Carole's is doing a good business at present, buying cross ties, cord wood and etc. You can't keep a good man down.—Frank Cottengin and Tom Gearty have taken a contract of logging on Redfish creek.

W. H. Cottengin bought of W. Barrow one milk cow. Fries sold 800 lbs. of butter. Robert went a nice bunch of young cattle to the fair.

Miss Lottie Carmicle, of this place, visited relatives at Mt. Vernon, on Thanksgiving and reports a good time.—James McHargue and wife, of Blanche, Bell county, visited relatives of Orlando and Pine Hill last week. Returning home Monday.—Our excellent teacher, Joe D. McFerron with a number of his pupils, assisted Miss Nell McFerron in Thanksgiving exercises at Caloway, quite a large crowd all report a nice time.—Mrs. Nannie Harp, of Mt Vernon is visiting her brother, W. H. Carmical at this place.—Mrs. W. H. Cottengin and two boys, Edgar and Morris and Miss Sallie Cottengin have been visiting at Mullins Station for a vicinity last week. They also attended the Old Fellows big blowout at Union where there was a big dinner spread. The wish him the greatest success.

Horace Bntoon had his examining trial at St. Louis Monday, charged with stabbing Health Willis, about one month ago, which caused young Willis' death, and was promptly discharged. Atty. C. C. Williams defended Bntoon.

The Anti-Tuberculosis stamp will be placed on sale here next week. This stamp is a beauty and is printed by the government; Everyone should purchase some of these stamps to aid in the stamping out of this dread disease. If you are interested in helping the cause of humanity ask for stamps. They cost but little.

Hon. Harvey Helm, who recently paid our town a visit, spoke of the new Stanford court house and said it was a beauty paying contractor F. Krueger a handsome compliment for the workman like manner in which he was erecting the building. He said: "Mr. Krueger is giving Lincoln all that is coming". The building will be completed by Jan. 1st.

Tip Langford has rented C. Johnson's property and bought his stock of goods, which were invoiced this week. Mr. Johnson goes on a farm near Berea and we certainly wish him the greatest success.

L. O. F. at that place are making a fine progress in their new hall. A large crowd was present.—Mrs. Berry is visiting in Corbin this week.—Rev. A. J. Pike, of Brodhead, visited his brothers, Mat and Jess Pike this week at and near Pine Hill.

Better Not Get Dyspepsia

If you can help it, Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have been troubled with indigestion, have been sorry for it when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally, and just as easily as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), dizziness, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary peppy "dyspepsia tablets" physicians, etc., are not likely to be of much benefit to you, in digestive ailments. Peppin is only in digestive ailments.

BERNSTADT.

Perhaps some one from Rockcastle would like to know what is going on in our little county, (as the Swiss term it), as I often read letters in the London Democrat from Rockcastle, so if the Editor will give me space I will write a few items from here. But I must first say that there is no mail enters my door that gives me much more pleasure than to receive the Mr. VERNON SIGNAL, for by so doing I can hear from many of my old Rockcastle friends and relatives, as the paper is printed at the happy home of my birth, and where I always lived until recently.

Bernstadt is a little village situated in Laurel county on the Somerset and London road six miles west of London and is situated in a beautiful place. The inhabitants are composed of Swiss, German, and English.—We have had several weddings in this vicinity during the autumn.

Among them were Mr. John Skierer, Shelbyville, and Miss L'ezze Schatoh, of this place. Mr. Charley Braughten and Miss Mary Vaughn. Mr. Evert Action, son of Dr. J. A. Action and Miss Eliza Adams, both of this place.

The Debating Society is the order of the day. The most interesting debate we have had recently was "Resolved that money has more influence over mankind than love." Affirmatives, Dr. J. A. Action, G. A. Jones, Will Adams and Reed Cromer. Negative, L. N. Grabel, Thank Jones, Fred Gimble and Reed Cromer. The verdict was given in favor of the negatives.

"Woman Suffrage" was also another interesting debate, and also "Resolved that the world is growing better." The subject for the next debate is "Resolved that Americans should have protective tariff." I must say that a debating society is one of the best things we could have in a community especially for the young, that take part in order to debate well one must think, and nothing so broadens the mind and increases the intellect as deep thinking.

The protracted meeting at the Bernshouse in District no. 64 near Bernshouse, will begin Dec. 5. Will be held by Bro. Bray one of Laurets best preachers.

The Sunday school at the same place is progressing nicely, with Bro. W. T. Adams Supt.

One of the important features of the season was the wedding of Miss Robina Bertschinger, daughter of Mr. and Mrs. H. G. Bertschinger of this place to Mr. Earnest Schaffhauser of Louisville, which took place on the eve of Oct. 24th, at the home of the brides parents. The bride wore a dress of white voile, a bridal veil with a wreath of pink and white roses, also carried a bouquet of white chrysanthemums and ferns. The groom wore a suit of black, with a white cravat. The wedding march was played by Mrs. Annie Grabel, Title, "The Sweet Old Story". As the strains of music from the parlor was heard, the bride and groom marched down the stairway followed by the brides father and mother and entered the parlor the groom dressed in peat gray, the latter in black. As the music ceased the minister entered, the parlor and proceeded with the marriage ceremony. As the ceremony was finished a quartette was sung in the hallways by Prof. and Mrs. Schoob, Mr. and Mrs. Bertie, accompanied by music on violin. After which dinner, consisting of everything good to eat, and wine to look at, was served. The wedding cake was decorated with pink and white roses and just above the center and fastened to the cake by fixtures were wedding bells. The dining room and tables were decorated with ferns, chrysanthemums and roses. The bride and groom received many beautiful presents by their many friends who were present. They are both of German descent but educated in both German and English. They will make Arkansas their future home. They have the best wishes of their many friends through the journey of life.

STUNG FOR 15 YEARS.
By J. Adgler's pain-trying many doctors and have no worth of medicine in vain. B. F. Ayscove of Inglewood, N. C. at last used Dr. King's New Life Pills, and writes that, wholly cured him. They cure Constipation, Biliousness, Sick Headache, Stomach, Liver, Biliary and Borel troubles, etc. at 25c. D. Davis.

PAINLESS SURGERY.

An operation performed at the Seaman's Hospital at Greenwich by Prof. J. J. Jones, dean of the University of Bucharest, demonstrated an anesthetic development in the application of the wonderful anesthetic stovaine.

Hitherto the drug had been confined to operations below the waist, depressing influence upon the heart excluding its employment in operations involving the upper part of the body. Now, however, it has been discovered that this disadvantage can be overcome by employing strychnine in combination with stovaine and it was to demonstrate this that Prof. J. J. Jones, in the presence of some forty London surgeons, operated to remove a mass of tuberculous glands from a man's neck.

He informed the surgeons that he had used no general anesthetic in any operation at the Bucerat Hospital in eighteen months, having in that period performed more than 700 operations of various kinds under stovaine injections.

In the present case Prof. J. J. Jones inserted a hypodermic needle into the spinal cord between two of the vertebrae at the base of the neck and injected three centigrams of stovaine and five centigrams of sulphate of strychnine dissolved in water. After a minute the patient was placed on the operating table and his head and shoulders were lowered so that the numbing fluid might spread upward.

Two minutes later the operation was tried out in the ordinary manner. No chloroform or other general anesthetic was used. The patient was perfectly conscious throughout and answered questions of the surgeons rationally.

"Do you feel any pain?" asked one.
"No," replied the man cheerfully.
"Are you quite comfortable?" he was asked.
"Yes, thank you," he replied.

There was something uncanny to the onlookers to see the patient in an unobserved manner and hear him talk while there was a gaping wound in his neck three inches long. After the bandages had been fixed, the man got off the table and walked to the next room, where a stretcher was waiting to take him to a ward.

ALONE IN SAW MILL AT MIDNIGHT.
Unmindful of dampness, draft storm or cold, W. J. Atkins was out at Night Watchman, at Burns Springs, Tenn. Such exposure gave him a severe cold that settled on his lungs. At last he had to give up work. He tried many remedies but all failed till he used Dr. King's New Discovery.

After using one bottle he writes "I want back to work as well as ever." Severe Colds, stubborn Coughs, inflamed throats and sore lungs, Hemorrhages, Croup and Whooping Cough get quick relief and prompt cure from this glorious medicine. 50c and \$1.00.
