EXCITING RUNAWAY.—While driving to church here Sunday morning, Mrs. W. K. Shugars, wife of the well-known druggist, had a narrow escape from death or serious injury when the pony she was driving ran away with her and dashed into the window of J. C. McClary's harness store on Main street, was brought to a stop suddenly that she was thrown through the hole which had been made by the little steed's head in the plate glass. Her little son, W. K. Shugars, Jr., who was with her, tumbled out of the rig when it was brought to a stop, without a scratch. Mrs. Shugars was shaken up considerably, but beyond a rent in her coat, came out of the exciting affair unscathed. She had driven with her little son from McKinesy, and once or twice on the road over the Shelton pony they were driving had shown an inclination to balk. As they came to the Cemetery Hill he seemed to take the bit to his teeth, and came through town on a dead run with Mrs. Shugars gamely tugging at the lines, but unable to restrain him. Several men and boys dashed out in an effort to stop the little steed as he passed the court house, but they did not catch him and he attempted to dash into Bowler's stable at full speed. He didn't turn quick enough and struck the iron railing in front of McClary's window and smashed out the glass, the impact throwing Mrs. Shugars over his head as if from a cannon. He was quickly rescued and taken to the stable where he was kept until he was brought home. Mrs. Shugars was warmly congratulated upon her narrow escape and urged to master the little steed.—Hester, Hester.

HAMLIN-MARSHBACKS.—Mr. F. M. Marshback, of North Carolina and Miss Maggie Hamlin, the attractive daughter of Mr. and Mrs. A. H. Hamlin, were married last Sunday at the home of the brides parents, the Rev. W. C. Metcalf officiating. Mr. and Mrs. Marshback will likely remain in Rockcastle, if Mr. Marshback can find a suitable location otherwise they will go to Ashville to make their home. The SIGNAL extend hearty congratulations, to this splendid young couple.

Hon. Harvey Hslin, twice Congressman from this district, will be justly honored the third time by an appreciative constituency. In an interview in the papers Sunday, Hon. William Jennings Price, of Danville, the only prospective candidate against the last incumbent of the St. Asaph, announces that he will not waive the race for the democratic nomination before the primary to be held April 30, but prices expresses more of satisfaction over the action of the district committee which met at Nicholasville, but his friends believe that he is too good a democrat to let that effect his course, and they are sure he will be found with the united democracy of the district behind Mr. Hslin at the election in November. With no other candidate in sight, the committee will meet on the date set for the primary, call it off and formally declare Mr. Hslin the nominee of the party.—Interior Journal.

After three years effort S. E. Franklin, Secretary of Asaland Lodge No. 640, F. & A. M. of this town has perfected a members register, which is the second, one to be made in the State of Kentucky. The book is indexed and shows the name and date of initiation, and much other information regarding every member of above lodge from its organization in the year 1847 down to the year 1910. This work is of remarkable interest to all masons who have traveled the Eastern road through the halls of old Ashland. Among the names of charter members of year, 1847 appear the following:  
J. C. Williams, Henry Friedrich, R. G. Williams, A. C. Dysart, Alfred Smith, David N. Lewis, M. R. Moore, Charles and W. H. Kirtley, William McClure, B. K. Behrman, M. J. Miller, James L. Joplin, Willis and Thomas K. Adams, and others. With the exception of J. C. Williams, now of Carthage, Illinois and J. L. Joplin of Harrodsburg, Ky., all have passed over the dark river and to the Grand Lodge on high.

A Watch Is Made to Keep Time  
Of what use is a watch if it will not tell correct time? When we repair a watch we want it to keep correct time. We not only repair watches, but we adjust and time them. There is a difference in simply repairing a watch and adjusting it. A mechanic can often repair a watch, but it requires art and skill to adjust and time a watch after the repairing is done. When we repair a watch we do the adjusting and timing FREE. The accurate adjusting and timing we give a watch is what makes our repairing satisfactory.

From Hugh—I have a fine mare body wants to see a high headed horse—She's a good weight in a full and complete description of this mare below. New I can't want you to worry or tax your mind too heavily by studying about this fine mare after you have thoroughly gone to the description that I am giving you in my feeble way. So please don't worry yourself by thinking too much about this mare. I'll give you a few lines about her. The color of this mare is kinder like a blue John color. This mare is a well made animal, and she is fat as mud—she has fine saddle qualities trot fine under the saddle, and you can make her legs. To stand off her, she looks like an old master. This mare is somewhat similar to the one I advertised last summer. She has a legs one on each corner, and every one of them are sound as a dollar. The two hind legs seem to have a tendency to lean a little toward the north especially if her head was turned toward the South—her front legs seem to be perpendicular as best I can tell, and she is like most other animals of the horse kind, she has a joint at one end and a head at the other, that of course makes her a little different from the elephant who has a tail at both ends. She holds a high head too. But they all say she takes that after her mother, which is a very fine trait, as every

### Remedies are Needed

When we eat, when we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indigestion, which has done on from the very age, through various generations, remedies are needed to aid Nature in correcting her inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is no better medicine so good as Dr. Fiero's Medical Discovery, a glyceric compound, extracted from active medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Headaches, Bad Breath, Belching, Flatulency, Constipation, and other intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known contents, not even though the urgent dealer may falsely make a little better road.

Dr. Fiero's Pleasant Tablets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

PUTTING THEM ON RECORD

The Alabama Good Roads Convention in session at Montgomery this week, meeting the candidates for Governor and Lieutenant Governor to appear and deliver themselves with respect to the movement for improved highways.

The good roads advocates have done well in bringing up the candidates and getting an expression of those who are entitled to be committed to improvement, and there will not be much chance of a misunderstanding. The plan would be a good one to pursue in the election of members of the Legislature. All Legislators do not stand hitched, and some committing themselves, but some think it is well for the people who elect them to know their view on questions of public policy before they are elected.

The people of Alabama recently adopted a constitutional amendment providing that the State money from the sales of State contracts be expended on the roads. Legislation will be required to amend the constitution to a desired that a State Good Roads Commission be organized. With all the candidates the State officers pledged to help along the movement the prospect of securing the needed legislation is greatly enhanced.

It requires a lot of hard work to carry a good roads campaign to a successful finish, as we in Ken-

tucky have reasons to know. The Alabama people, however, seem to be going about it in the right way and with a determination that recognizes no chance of failure.—Contra JOURNAL.

A little friend whom I had missed for four months past greeted me day before yesterday with his flute-like and welcome voice. I had begun to think that perhaps he had fallen a victim to some small boy with a gum-sling, or had succumbed to the grim reaper for want of food during the terribly long and cold winter through which we have just passed. Perched in the topmost branches of a beautiful holly tree which stands in the yard of one of my neighbors, and which he has made his favorite resort for several seasons, he was caroling to himself in a subdued and minor key, dreaming, perhaps, of the coming of the springtime and the little mate who should keep him company and dispel his loneliness. He, what a lesson of cheerfulness and hope was breathed in that song from the tiny feathered throat putting to shame growling, grunting humanity, with a more direct appeal than a thousand sermons from human lips! And was this little mocking bird's dream of spring to come to its full fruition and the horning bud and bloom of springtime, and the hand of the despoiling small boy never reach the nest where he and his mate may rear their fledglings!

"Do you know the prisoner we?" asked the attorney.

"Never knew him sick," replied the witness.

"No levity," said the lawyer, sternly. "Now, sir, did you ever see the prisoner at the bar?"

"Took many a drink with 'em at the bar."

"Answer my question, sir," yelled the lawyer. "How long have you known the prisoner?"

"From two feet up to five feet ten inches."

"Will the Court make the—"

"I have, Judge," said the witness, interrupting the lawyer. "I have answered the question. I knowed the prisoner when he was about two feet long and a man five feet ten."

"Your honor—"

The lawyer arose, placed both hands on the table in front of him spread his legs apart, leaned his body over the table and said:

"Will you tell the Court what you know about this case?"

"That ain't his name," replied the witness.

"What ain't his name?"

"Who said it was?"

"You did. You wanted to know what I knew about this case. His name's Smith."

"Your Honor" howled an attorney, plucking his beard out by the roots, "will you make this man answer?"

"Witness," said the Judge, "you must answer the questions put to you."

"Land o' Goshen, Judge, hain't I been doing it? Let him fire away. I'm all ready."

"Then," said the lawyer, "don't beat about the bush any more. You and the prisoner have been friends?"

"Never," promptly responded the witness.

"What! Wasn't summoned here as a friend?"

"No sir; I was summoned here as a Presbyterian. Nary one of us was ever friends. He's an old line Baptist without a drop of Quaker in him."

Farmers should eat more oatmeal.

Although the farmer of today is able to buy almost anything that he wants to eat he is not paying enough attention to food values when it comes to his own table.

If he has been watching the extensive researches and experiments on the question of the best human food for muscle and brain he will heed the advice from all sides to "eat more Quaker Oats."

Quaker Oats is mentioned because it is recognized as the best human food. Feeding farm hands on Quaker Oats means getting more work out of them than if you feed them on anything else.

For hot climates it is packed in hermetically sealed tins; regular size package 10c, 6c.
