Representative Helm, and the Democratic members of the Committee of which he is Chairman, are smiling broadly over the "first blood" in the general democratic fight against the monumental extravagances of the republican administration of affairs in Washington. His Committee on Expenditures in the War Department has been quiet and unostentatiously at work since the beginning of the year. He has been diligent in the affairs of the War Department, and he result of what they had found was given in two speeches in the House by Mr. Helm just before the holiday adjournment. What Mr. Helm told the House about the annual waste in the War Department made the members, especially the members of the new Committee on Military Affairs, sit up and take notice. He told them that for years the wool had been pulled over the Military Affairs Committee, which had annually recommended, and Congress had appropriated every year, from ten to thirty million dollars more than was necessary for an economical, businesslike support of the Army. A special froth Washington to the Cincinnati Enquirer, December 27th, stated that the Military Affairs Committee has now decided to report an Army appropriation bill carrying from seven to ten million dollars less than the last year's bill. The Louisville Times of December 28, also states that the saving announced as already decided upon will be principally in the abandonment of many of the large number of Army Posts, more concentration of the army and the administration of its affairs. Mr. Helm's Committee in exposing the extravagance that the Department has heretofore put over the Committee and the House, has paved the way for nearly as great savings in several other business features of the Department, and they are naturally gratified that their investigation of the big Department is to so soon bear concrete results—results that mean the saving of many millions annually to the Treasury.

Senator Aldrich stated on the floor of the Senate that three hundred millions could be saved annually by proper management of the Government's business. Mr. Helm's Committee has found several large sized leaks in the War Department alone, which will be stopped. It is work of this character that talks and can be truthfully said of Mr. Helm that he is earning his salary.

The Democratic Central Committee of Hamilton county, Ohio, of which Cincinnati is the county seat, at a recent meeting unanimously indorsed Gov. Harmon for president. This is the Democratic organization which assisted Mayor-elect Henry T. Hunt to defeat the city ticket put forth by the notorious Republican Boss, Geo. R. C. Thompson, in Cincinnati.

The Enquirer, Cincinnati (Ohio), carried the following report of the meeting: "A special meeting of the Hamilton County Democratic Central Committee held at the Grand Hotel of a former Gov. Judson Harmon as the Democratic candidate for president, and presented him the united support of the party in this county. All but three of the forty-five commissioners were present, with Chairman George Dwyer and Secretary Chas. Collins at their heads."

"The resolution indorsing Gov. Harmon reads as follows: 'Be It Resolved by the Democratic Central Committee of the City of Cincinnati and Hamilton County, Ohio, that we be united in favor of the candidacy of Judson Harmon for President of the United States.'"

"The exposure of the former unbusinesslike, rotten and fraudulent methods at the Capital of the State of Ohio and their reform; the establishment of a state tax commission, and the compelling of the public service and other corporations to pay taxes upon the actual value of their properties; the reduction of taxes from rates averaging 2 1/2 per cent to a uniform 1 per cent, throughout Ohio; the establishment of a public utility commission; the non-partisan election of the judiciary; the nomination of U. S. Senators by direct vote of the people; the establishing of the initiative and referendum in all municipalities; the enactment of a law providing for the compensation of the grand jury, and the prevention of negligence, by a state fund subscribed to by employers and employees; the non-partisan state constitutional convention; the limiting of the working hours for women; the establishment of a women's reformatory; the regulation of agriculture in the schools; the strict regulation of elections, and the corrupt practices and the ratification of the proposed income tax amendment to the Federal Constitution."

We submit the foregoing as a record of administrative and legislative accomplishment of rare equality in the annals of this or any other state. We also recall with pride the record of Judson Harmon as lawyer, Attorney-General of the United States and private citizen.

"When to the foregoing is added the fact that he has carried the State of Ohio on plain Jeffersonian Democratic principles to two elections, at the second of which he received the largest majority ever recorded a Democrat in the state of Ohio, we confidently claim that he is not only the best but the ideal Democratic candidate for President."

Mr. Vernon, by January 3, 1912

RECOR Mr. VERNON—S. O. I observe in an issue of your valuable and appreciated paper that Judge T. Z. Morrow had sent you a copy of his unique "Classica Booklet." As this time Democratic mass meeting at Lexington, my sentiment was to the merits of the book accord with yours and my experience in reading the book is just as you say the man who complains reading the book will want to finish it here he quits and then he wants to re-read it again, and even to the third time. Judge Morrow will do the most useful pen of any writer in Kentucky or anywhere else. He is the ablest Black-stonian lawyer between the two oceans, perfectly at home in the elements, maxims and the principle of the law, the finest, most eloquent and most U. S. -istic orator that ever adorned the Kentucky Bar and the first of the three lawyers and orators that the great Reader, Death, that mows the bearded grass and the flowers between, has suffered to remain in the bloom of manhood and oratory. His book has revived my somewhat flagging ambition, and I am now determined to make myself worthy of falling behind in preceptor and be a deal.

His old pupil and admiring friend
