George Hellard was taken very sick Monday but is better now.—Dr. Webb has purchased a fine horse from H. M. Mink for \$240.—S. E. Pennington was in Mt. Vernon Saturday. What do you say about that John?—Miss Ida Chewning returned to her home at Paris Monday.—Mrs. R. A. Whitehead and Mrs. J. P. E. Drummond will in London Monday to see Mrs. R. J. Lemons who has undergone a surgical operation but we are pleased to say will soon be able to come home.

Section Foreman Sam McHargue was in London Sunday.—It has often been said that a mother's love for her children was the greatest love of the human family. In the last week we have had cause to dispute this. In some cases we have seen a mother will go farther for her child and do more and even go into the very shadow of death, yet there are some exceptions. A certain woman, the mother of three bright babies, their father and her husband, being where he could not come back for a while, she voluntarily walked off and left them. There is a cause for all this but no remedy. In the beginning God created man in His Own Image, but only look what that image is doing. It is a shame and a disgrace. There are a certain lot of boys roaming over the country that should be taught a lesson and put to work and then they would not have so much time to study mischief. This is straight talk but plain English.

Oh, if it were so lucky as to ever possess one of those lovely creatures called a wife! But I see no other alternative only to travel life's rough road alone.—W. M. Hicks and myself held a matrimonial caucus the other day. Hicks says has played his last trump that he has advertised for a wife and used all honorable means, but when the time he is ready to announce the wedding some other fellow shows up or she changes her mind. So he says that if he does not get married in this year, 1911, that he will not be a candidate for matrimony any longer.—Mrs. W. T. E. Cullough left for Crab Orchard, Tenn., last Thursday for a week's visit.—Born to the wife of W. M. Jones was in London Saturday.—Ed Woodall, of London, was in our town Tuesday.—W. O. Dilly, of Lebanon Junction, Master of Trains of the L. B. Division, was in Livingston Monday.

Dodd, the singing school teacher who came to this county from North Carolina several years ago will soon take his family and return to the place of his childhood. Williams, of Nepton, is with home folks.

### SCHOOL NEWS.

The schools of the county in rural districts being closed for the year, so no notice of what has been done the past year might prove of interest to those interested in education.

In district No. 19 Division 1, some very interesting things may be mentioned regarding the location of the school house.

In the first place location of the school house, 5 1/2 miles from Mt. Vernon, is on the margin of a never failing stream, fed by numerous clear, cold brooks, gushing out on either side of the channel from its source, and beyond the School house.

"East fork" of Skegg's creek is the channel through which drainage of the upper levels find an outlet into Rockcastle River.

The school building, distance embraces, probably 2 1/2 miles up and down, the creek from the school house, along the rocky slopes of the inflowing streams, (usually dry) behind the "Spurs", and over the adjacent ridges, lives a school population of 73 as shown by 1910 census. This being in the Eastern base of the "Covener limestone region" of Ky. makes it of unusual interest from a geological standpoint.

It accounts for the unusual number of clear cold springs of pure water, since they are natural outlets of drainage from the upper levels any the valley itself is one of interesting study of the mighty forces of Erosion. But we digress from our subject.

As before stated, the school house is situated on the margin of the stream, protected from Summer heat by a high ridge of the South wooded to the very water's edge. The ground itself being the entire level, is a tantalizing contrast to the dusty "barfooted boy" or girl in the Summer months, and as tantalizing refuses to become sufficiently coated with ice, to afford skating in the winter months. To this ideal spot came boys and girls part of the time, fifty and over some days forty and upwards for many days dropping into the "shirts and later to twenty and below, yet no month lower than an average of twenty out, and as high as forty-plus, for one month at that considering the rainy season, and the impassable condition of the creek roads or road creeks the average is not so bad. In passing one of two things is imperative for this section. More the roads out of the creeks or the creeks out of the roads, and abolish the custom of fording the streams and creeks.

Those who attended school every day of the term are Viola Kirby, Otie Rash, Clara Harmon and Opie Adams, all of whom were promoted to higher grades and are well advanced for a second promotion. Special mentions of many of the pupils might be made but space will forbid all. It may be said, however that most strenuous efforts were put forth to advance the primary and intermediate grades in Spelling, reading and number work. The result was in a high degree satisfactory in most cases. The contrast between those who come regularly and those who did not was very noticeable and this alone (irregularity) amounting to non attendance in many individuals, is one of the crying evils of our system.

Part of the attention made of the following mentioned, are: Virginia B. Harmon, Corinna, Lillie, Elmer, John Harmon and Willie Logsdon sixth grade pupils, did however eighth grade work in some studies. In fourth and fifth combined studies, Maude Stokes, Flora Pittman, Ola Roberts, Ellen Kirby, Martha Stewart and Leonard Hines may be mentioned for their regular and good deportment. In third and fourth combined grades were Viola Kirby, Eliza Sewder, Frank Harmon, Ed Fletcher, Clifford Pittman, Fred Gearty, Mary Harmon, Hugh Robbins, Dan Robbins, Osa and Willie Sewder, that made honorable mention in spelling, reading and number work.

### DEATH IN HOARING FIRE

It is not possible to say how many people were present at the hoaring fire which broke out in the early part of the night of January 26th, at the residence of Mrs. M. V. Watson, in the city of London, Ky. The fire was caused by a gas stove which had become overheated and had caused a gas leak. The fire spread rapidly and in a few minutes the entire building was in flames. The firemen arrived in a few minutes and succeeded in extinguishing the fire, but the damage was considerable. Mrs. Watson and her family were saved, but the loss of the building and its contents was a heavy one.

### LANGFORD

Mr. James Hearnolds and little daughter, Viola, are very sick.—Last Friday morning at ten o'clock the fifteen year old daughter of Mr. D. L. Carter departed this life with that dread disease consumption. She had been a sufferer for more than a year and seemed to be getting along better. She was a sweet girl and loved by all who knew her. She was laid to rest Saturday in the family burying ground near Mr. Carter's home.

There will be services at Hummel Grove church the first Saturday night and Sunday in February, conducted by Rev. Jones of Laurel county, Ky. Miss Ella Adams, daughter of Mr. and Mrs. Frank Adams, is sick.—Miss Ellen Wild is getting along nicely with her school.—Joe Doolley's children have whooping cough. The child of Louis McGoldire have whooping cough.—T. A. and C. W. Coffey visited their uncle, Eli Coffey, on Clear creek, last Sunday.—W. T. Sharp has moved to the farm of Uncle Asa Proctor.—James Carter was here from Berea Saturday to attend the burial of his sister.—Mrs. Della Baker has put in a list of groceries and expects in the near future to add a little of dry goods, notions and millinery.

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a man. When a woman has this power, she has the power to make a man's life a joy and a blessing. She has the power to make a man's life a dream and a vision. She has the power to make a man's life a reality and a truth. She has the power to make a man's life a success and a triumph. Every man, woman and child in Rockcastle should adopt the following resolutions and keep them daily before them.

I will work for the improvement of Mt. Vernon.

I shall strive to give my family more comfortable and beautiful surroundings.

I will take more active interest in our schools.

I will be kind to every man, woman and child with whom I come in contact.

I will advocate better roads in Rockcastle.

I will trust in God and bravely face the future.

Can this out and pin them up where you see them often.

J. PAUL DALRY was given an exonerating trial in Police Court yesterday on the charge of libeling John H. Whalen and James P. Whalen and held to await the action of the grand jury following the waving of further proceedings in the examining trial. He gave bond in the sum of \$500. Representatives of the Louisville Herald declared that Daley did not cause

the publication of the alleged 1861. The Whalen brothers desired the charges in the published story false. -Courier-Journal. If Daley formulated a story that really constitutes a libel in this particular instance then he must be a glorious liar.

KENTUCKY POLITICS.

William Henry Jones, one of the "elder statesmen" of the third district, doesn't think much of the "Young Republican" movement. His paper, the Glasgow Republican says: "We note in the list given the names of some who have been heard long and loud in conventions for almost a generation and among them some chronic office seekers and holders, and some who might find difficulty in being sent as a representative from their county, much less the congressional district which they were there selected to represent. I would be well for these men to reiterate themselves before spreading over so much territory."

Democratic members of the Senate Committee on Privileges and Elections have taken the position that the presence of the fifteen Republican members of the upper branch of the West Virginia Legislature is not necessary to elect two members of the United States Senate.

Senator Carter, of Montana, speaking in opposition to the proposed amendment to provide direct election of United States Senators, charged the Northerners with ignorance and the Southerners with a scheme to prevent the negroes from reaching the polls.

A majority of the congressional committee considering the proposal to reward Commander Peary with the nation's thanks and promotion to the rank of Rear Admiral, retired, decided that the explorer came so close to the North Pole that he is entitled to the honor.

A call has been issued for a conference of the National League of Democratic Clubs at Indianapolis April 12 and 13.

Chairman Prewitz has changed the date for the Democratic State Committee meeting in Louisville to February 4.

In a speech at the Pennsylvania Society banquet in New York, President Taft defended the administration's policy in regard to the fortification of the Panama Canal. He said the work would cost \$12,000,000 instead of \$50,000,000 as stated.

The Seventeenth Senatorial District Republican Committee met at Corbin and issued a call for a primary to be held on Saturday, March 4th, to nominate a Republican candidate to make the race this fall to succeed Senator Joseph F. Bosworth, who is at present the only candidate.

The American Steel and Wire Company has advanced the price of all wire and wire products \$1 a ton.

Declaring that sun spots indicate weather conditions, scientists at the Carnegie Institution predict a hot season will be possible in the forecast with absolute certainty the atmospheric conditions to come, days at end.

Mayfield Messenger: It has been hinted at in some of the papers that the Hon. Hal said Jake Corbett will be candidates next time for Congress in this district to succeed the Hon. Ollie James. This we cannot believe, because they are both Democrats, but in the event one was a Democrat and the other a Republican these two distinguished brothers might undertake to Corbettize this district as Tennessee has been Taylorized in the past. Of course we believe all such talk is booby, but in reality there is a likelihood of Mr. Jake Corbett being a candidate.

OLD SOLDIER TORTURED.

"For years I suffered unpeakable torture from indigestion, and the position that I held in the Republican members of the upper branch of the West Virginia Legislature is not necessary to elect two members of the United States Senate."

The Somerset Journal, independent in politics in recent years, is heretofore to "preach straight from the shoulder. The democracy" under the editorial management of G. J. Hammett.

Bardwell News: The removal of Dr. J. M. Peck from the county will make the position as chairman of the Republican County Committee vacant. It is likely that his successor will be elected by the committee before a great while and the matter is being discussed by some at present. Wm. L. Ellistop of this city, is being lavishly mentioned for the place.

Winchester News: Gentlemen candidates, Democrats and Republicans, you who want the State offices: "Where are you" at on the live question?

Elkton Times: We hope Judge Breathitt won't run on the Republican ticket for Governor. He's a clever, shrewd gentleman and we don't care to see him slaughtered.

When given as soon as the group appears, Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by Chas. C. Davis.

John C. C. Mayo, who is in Charleston, W. Va., said Saturday night that he was not a candidate for United States Senator from Kentucky and was not expecting to be. Mr. Mayo said he had his choice, but he would not give the name of his man.

GO TO HIGH PLACE.

Kentucky Much Interested in National Ways and Means Committee.

Frankfort—Three members of the Ways and Means Committee of the house are well known to Kentuckians—Ollie James, Cordell Hull, of Tennessee, and Lincoln Dixon, of Indiana. Ollie James little need be told. He is rounding out his eighth year of service in the house, and has been elected for his fifth term.

In this connection it is interesting to note that the new chairman of the committee, Hon. Oscar Underwood, of Alabama, is a former resident of Louisville.
