PERSONAL

Bill Ballard was over from Big Hill Monday. Dr. James Pennington was here from Blanche Monday. J. E. Cummins, of Walnut Grove, was in town Monday. Mr. and Mrs. Joe McKee were in Lancaster last week. Mrs. Cain has been very sick for the past week or ten days. Ed and Claude Cox were in Louisville Wednesday buying new goods. John Stricker's prominent farmer of the Quail Section was here yesterday. Miss Clyde Watson is with her sister, Mrs. F. L. Durham, on Westwood Ave. Miss Cico Hayes has been very sick with measles at the home of James McKee. Miss Polly Tuggle of Monticello has been the attractive guest of Miss Willie Francis. Frank McClary was here Tuesday from Jessamine county visiting his uncle, A. C. Hitt. U. G. Baker spent most of the week in Louisville having goods for his mammoth store. A. H. McFerron and daughter, Miss Georgia, of "Breezy Hill" are with Mrs. R. B. Cox. Mr. and Mrs. Roscoe Griffin left Tuesday for St. Louis where they will make their future home. Rosal Proctor is in St. Louis at Liberal, Mo., visiting his uncle Jack Ping and seeing the sights of the West. Chas. Robert W. Cole, a prominent citizen and banker of Barbourville was a delegate to the Presbytery this week. Miss Josephine Plummer, of the Graded School faculty, was called to Georgetown last night on account of the illness of her mother. Mrs. E. H. Thompson and Mrs. R. L. Collier, of Crab Orchard, were guests of Mrs. Thompson's mother, Mrs. W. M. Poynter Wednesday and yesterday. Mrs. D. N. Williams underwent an operation in Cincinnati Wednesday, which was very successful and the family feel much encouraged, that the seat of her trouble has been reached. R. L. Smith, of Hatt has been elected to represent Rockcastle Woodmen at the State Camp of America which convenes at Bowling Green May 3. F. L. Thompson Jr. was elected alternate.

Just before going to press we received from the Bureau of the Census the official count of the 1910 census of Mt. Vernon and other Rockcastle towns. Mt. Vernon has 930 as compared with 472 in 1900, nearly 100 per cent. gain. Livingston has 605 as compared with 405 in 1900, and Brookwood, which showed 337 in 1900, has 472. Total population for Rockcastle county 12473.

PLEASANT AND PROFITABLE MEETING OF TRANSYLVANIA PRESBYTERY HELD IN MT. VERNON.

Presbyterians gathered from all directions to the number of about fifty. Many of them were from Mt. Vernon for the first time and expressed themselves as being struck with the hospitality and enterprise of the people here.

Tuesday afternoon the delegates enjoyed exercises of the Kindergarten under the able teacher, Miss Maxwell. The little ones entered into the spirit of the occasion.

First meetings were held on Tuesday evening. The Women's Presbyterial Missionary Society met in the Baptist church at 6:45 for a short session, adjourning for the popular meeting held in the Presbyterian church at 7:45 o'clock. President F. W. Hitt, of Central Union delivered a strong and appealing address on "The Bible, the college and the citizen". Presbytery was then convened and Rev. J. Rockwell Smith, of Lebanon, was elected moderator. Immediately following this the delegates with their hosts and hostesses adjourned to the Langdon Dormitory where a most delightful reception was held. Here the delegates quickly met one another and enjoyed a brief social hour under the hospitable roof of Langdon Dormitory with Miss McCord as hostess where they had opportunity to see something of the ways of the school.

Business sessions were held by both the men and the women on Wednesday morning. Presbytery being addressed by Mr. M. J. Patterson, of St. Louis, who spoke on church finances. An instructive review of the missions of Presbytery was given by Dr. Frank Cheek and the afternoon session closed with a vesper service when Rev. Michael the retiring moderator, preached a fine sermon.

Among other attractive features of the Women's meeting Wednesday afternoon was the conducting of a Model Mission Study class by Mrs. J. O. A. McDowell, a recognized authority on the subject, and two delightful aspects of the Jubilee meeting held in Louisville given by Mrs. C. R. McDowell and the other of the Synodical meeting held in Harrodsburg given by Mrs. Curry, Mrs. C. C. Brown, of Lancaster, spoke on the "Parish Abroad" which led the body to take action that they would support the Presbytery in its efforts to raise \$2000 for the support of a pastor and his wife on the foreign field. Many people out in town who could not entertain delegates on account of sickness and other reasons had a part in the snapper that was provided for all delegates at the Dormitory Wednesday evening which was one of the most enjoyable occasions of the meeting.

On Wednesday evening the Presbyterian church was taxed to its utmost capacity to accommodate those who had come out to hear the address of Acheson's address on "The Conservation of the Boy". Seldom have we listened to a more thrilling address. Mr. Acheson went to the heart of the boy question and laid bare the facts showing the too oft neglected responsibility of the home and the school for the saving of the boy.

The closing sessions were held on Thursday morning. Adjournment taking place at 12 o'clock. At all of the sessions most delightful music has been rendered, under the direction of Miss Dodson the efficient music teacher.

Indeed at every turn the delegates found evidences of thought taken for their comfort and pleasure.

We need not know that both of these bodies look upon their first meeting here as successful in point of numbers, in business accomplished and in the greetings and hospitality of the people of Mt. Vernon. We would also say that we have made new friends, we have enjoyed the meetings and we have warmly welcomed Transylvania Presbytery into our midst again.

The delegates were delighted with their visit to Mt. Vernon and we were delighted to have them as our guests. Miss McCord, of the Brown Memorial, and Rev. W. C. Cheek, of Lebanon, were especially highly praised for their efficient work.

In speaking with our telephone manager, he said it was a good idea for people when leaving home on a trip to leave their telephone address, giving name of persons or hotel, through whose telephones they are reached. People moving from county should advise their friends how they can be reached in case of emergencies and sickness. A case in view was in the death of a Skeggs creek citizen last week when the friends wanted to notify a near relative at Williamsburg a native of Rockcastle of the dangerous condition of the patient. The party had changed his location but had failed to advise how he could be reached by telephone, so failed to get the message. Many cases of similar nature are met with by telephone people which could have been avoided by a little forethought of the persons wanted.

MT. VERNON, KY.

P. H. Shutts Suggests a Way to Get Roads.

Bromo-Ky. April 8th 1911.

Dear Editor:— Some time ago I promised another article, giving my plans how to build pike roads in Rockcastle.

The Mr. Citizen writing to your paper seems to think that there has been enough road building done on paper and time for some real work to be done. I will admit that there should be more real work going on in building dirt pike roads than what is, but from the amount of preaching of the gospel of Christ every man, woman and child should be saved but are they? Now from all writing that has been done on this subject but little of the real pike work has been gathered, but it is on the first maturing that is from a Kentucky road point.

However some of our sister counties are doing something already. We do not want it said that Rockcastle is a barrier in the way of the other mountain counties having an outlet to the business counties and some of them can't have a direct route unless they get through this county. But can we do it? Let these other counties get ahead of us. It would be a good idea for this county to have a delegate to attend the road convention at Pineville see them build the 300 feet of pike during the session of the convention also get their plans, if they are better than we can devise, adopt them for if they can have good roads I know we can. The people throughout the State have formulated a bill to be presented to the next General assembly and if it becomes a law the several counties must come to the requirements of the law before they can get any state aid. My plan would put Rockcastle in a position to meet the requirements of the law and if it fails to become a law it is just what we need any way.

Under the amendment to the constitution Rockcastle could issue about \$100,000.00 bonds for road purposes. Now my plan is to petition the county judge asking him to hold a special election, to be held any time that the people may ask other than the regular November election for the purpose of voting on a bond issue for the building of turn pike roads allowing the fiscal court to sell as much as \$100,000.00 worth of the bonds a year or enough to build all the pike roads that the people want to build in any part or parts of the county in any distance of 3 or more miles in one continuous piece of pike where the people will subscribe a sum equal to 20 per cent of the cost of said road.

Also giving the fiscal court right to buy road machinery of modern type, such as Graders steam roller and crusher, for making dirt pike roads. These roads to be built on a stipulated specification even if a new right of way has to be secured by condemning and assessing the value of same. But I shall think any person with rational mind and any spirit of enterprise about him should be perfectly willing to give right of way if they can't afford to give more in way of labor or money.

If such a bond issue is voted and a man along a proposed piece of pike wants to subscribe a certain amount in labor instead of cash, let such person make bond to county treasurer for amount to be paid at a given date either in labor or money, and in this way it would be possible to make a larger subscription list and by so doing make a larger road fund. By having a special election for this purpose only, every good road advocate will be free to take part in the campaign without getting politics mixed in it. Also by demanding a 20 per cent subscription along the proposed pikes it does not give any section or town the advantage of getting all the benefit, and by selling the bonds as we use the money it saves paying unnecessary interest and they could be sold on large payments.

Now if this meets the approval

of any of the business of the county let us know by dropping a postal or a letter to the SIGNER, stating what you think of it, then we will know whether it will be of any use to go further with it. If it is all right let us get together and do something. United we stand, divided we fall. Now before I quit I want to say I have been thinking on some other subjects and possibly write an article on the importance of Ferguson Institute and what the people are missing by not attending them and will try to devise a plan to have better attendance than we had at one recently held in Mt. Vernon and another point I may write on in this of taxation before the next legislative meets, a subject much needed of just a thing that would be greatly improved, especially the thing to be assessed the value of property.

Now if any person has a better plan than I have submitted for it out and it will be paid with much interest by at least one person.

Yours,
P. H. SHUTTS.

The American Civic Association tells us that "Flies kill a greater number of human beings than all the beasts of prey with all the poisonous serpents added. They spread disease which slays thousands, while big powerful beasts kill singly as victims. The common house fly is known to be the typhoid fly. He wipes his feet on the food you eat, on the lips of your sleeping children and does more to spread typhoid fever and cholera infantum and other intestinal diseases than any other cause. All abominable microbes fasten themselves on the spongy feet of the fly; watch him as he starts on the lump of sugar industriously wiping his feet. He is wiping off the disease germs on the sugar that you are going to eat. The house fly could not exist if everything were kept perfectly clean and sanitary.

Clean up your premises inside and out as much as possible; see that others do the same. [E. X.]

The meeting held at Harborsburg by Kentucky good roads advocates proved a success. Over 500 delegates attended from counties through which the old Louisville and Nashville turnpike passes. Committees were appointed to plan and provide ways and means to improve that road into a modern highway. The one day plan seemed to be most favored, and August 15 was suggested as the probable date of building.

...know this, and with full for con-
 spon Clarence Funk
 nger of the National
 camplave, came forward
 the committee that he
 given the facts to Kohlsaat;
 he had been asked by Edward
 Hines, millionaire lumber dealer
 and lobbyist, to be one of ten to
 contribute \$10,000 each to this fund
 and that Hines named Edward
 Tilden, one of the leading figures
 in the Mead trust, as the treasurer
 of this fund.

Hines' relations to the lumber
 schedule of the Payne act, his
 leadership in the financing of the
 Lorimer election, and his activities
 in defense of Lorimer's right to
 his seat, were perfectly understood
 by the Senate Committee on
 Privileges and Elections. This
 whole "slush fund" story has been
 known for months past in Wash-
 ington and Chicago. Without
 doubt, the Senate committee could
 have developed the legal proofs,
 but it did not seek them. Its
 whole procedure suggested desire
 to avoid such discoveries.

Instead of going after the full
 facts that might have been had
 and that are now coming out the
 Senate took the preposterous
 ground that men who told of
 receiving bribes were perjuring
 themselves; that a bribe-taker could
 not be believed when, after con-
 fessing his guilt, he implicated
 others in the same crime! In the
 light of things now developing,
 and the substance of which was
 known last session to a moral
 certainty, the whole procedure of
 the Senate and its Elections Com-
 mittee appears utterly puerile and
 insane.

Senator Crawford told the plain
 truth when he declared that the
 whole atmosphere surrounding the
 Lorimer election was charged
 with the suggestion of corruption.
 It is well at this time to recall
 the names of the Senators who
 composed the Elections Committee
 that made this precious "investi-
 gation," and recommended the
 whitewash of Lorimer. They
 were Burrows of Michigan, Dewey
 of New York, Beveridge of Indi-
 ana, Dillingham of Vermont,
 Gamble of South Dakota, Heyburn
 of Idaho, Berkeley of Connecticut,
 Republicans; Bailey of Texas,
 Frazier of Tennessee, Paynter of
 Kentucky, Johnston of Alabama,
 and Fletcher of Florida. Beveridge
 and Frazier constituted the minority
 which protested against the
 whitewash, and Beveridge, with
 Frazier's indorsement, introduced
 the resolution to exclude Lorimer.

The country, and particularly the
 States they misrepresent, needs to
 keep its eyes on these Senators
 when they come forward for re-
 election. Several have already
 retired, others are now candidates
 for re-election. Their record in
 the Lorimer case ought to be
 kept constantly before their con-
 stituents.

CLEAN UP THE LORIMER SCANDAL AT ONCE

The United States Senate cannot too quickly undo the discredit work of last session in connection with the Lorimer case. It was plain from the very beginning of the investigation by the Burrows committee that there was no prospect of seriously going after the truth.

The honor of the whole Senate is involved in this performance of the Committee on Privileges and Elections. It is the more seriously involved because the Senate gave a majority vote in favor of retaining Lorimer.

One of two conclusions must be accepted. Either the committee did not want to know about the disgraceful corruption back of the Lorimer election, or else it was childishly incompetent for its task. The former explanation is obviously correct.

Such contempt of public opinion such caldous system such reckless disregard of consequence, as were displayed by the committee and by the Senate majority that favored Lorimer, rarely pass comprehension.

Sensational revelations have been brought out by a committee of the Illinois State senate. Editor Kohlsaat of the Chicago Record-Herald, has told of receiving information that a \$100,000 fund was used to elect Lorimer. Kohlsaat declined to tell the legislative com-

Never mind about the brand of hat of your Uncle Jim McCreary, or what he said or did not say in his opening speech at Hopkinsville, all the copulation that has been connected so far has been "ill-advised," and don't you forget it. Even if the pioneer did meet a black-haired youth out in the wilds when they came over the mountains from the Yaxkin, and he told them his name was Jim McCreary and that he was a candidate for magistrate in his district at that time, experience is going to count for great deal and a seasoned "boss" is mighty hard to beat. So the criticisms of McCreary—why they simply make us weary.

ELECTRIC SIGN.

Distinguishes the "Carolina Special" from the Rest of the Modern Trains on the Queen & Crescent Route.

An electric sign bearing the words "Carolina Special," has been placed on the rear end of the popular train of that name which operates between Cincinnati, Ohio and Charleston, South Carolina, over the Southern Railway and Queen and Crescent Routes. An electric sign of this character on a train is quite unusual. In fact this is the first one that has ever been seen in Kentucky or Tenu. The sign is so made that it looks just as good in day time when the light is shut off. The "Carolina Special" passes through the famous Land of the Sky and Sapphire country. The train winds around the Blue Ridge Mountains and reaches a high at Asheville, North Carolina, of 2,500 feet above sea level. In this section it is not an uncommon sight for the train to be gliding over the picturesque mountains with a clear sky above and rain falling from a cloud below.

Leaving Cincinnati every evening at 6:30 o'clock, the "Carolina Special," which is one of the most elegantly equipped trains in the country, passes over the Queen and Crescent Route in Harrison, Tennessee, thence over the Southern Railway via Knoxville, Asheville, Spartanburg and Columbia to Charleston. Through Pullman sleepers, dining and library observation cars, are carried.

The total toll of death in the disaster at Throop, near Scranton was seventy-six. All have been recovered. Of the victims forty-five were married and 117 orphans are left. A thorough investigation of the causes of the fire has been started.

Documentary evidence to corroborate the testimony of Clarence S. Funk, general manager of the International Harvest Company, concerning the alleged \$100,000 "slush fund" used in the election of Senator Lorimer, will be produced, Mr. Funk declares, before the Springfield investigating committee.

The Courier-Journal will prove a welcome addition to the breakfast course in many homes in Central Kentucky this morning. A special automobile delivery service just established puts this paper at far as Lexington by 8 o'clock in the morning.

Doctors Said Health Gone

Suffered with Throat Trouble

Mr. E. W. D. Barnes writes: "I had a throat trouble and a headache three days, and was unable to eat or sleep. I bought a bottle of Chamberlain's Cough Remedy and after taking four bottles I was cured. I am free of my trouble so that I can do my farm work again. I can heartily recommend this medicine to any one who suffers with this annoying complaint and believe that they will obtain good results."
