Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of love or shame, but the secrets of suffering, and they have been confided to Dr. J. B. Pierce in the hope of obtaining relief and help. That few of these women have been disappointed in their expectations is proved by the fact that almost 80 per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the same result were numbered by hundreds only. But when that record applies to the treatment of more than half a million women, in a practice of over 40 years, it is phenomenal and entitled Dr. Pierce to the greatest reputation in the world as the first specialist in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear to without cost to Dr. J. B. Pierce, Medical Dispensary, 153 N. 2nd St., Buffalo, N. Y.

NOTES FROM THE MEADOW FARM

By William Pitt

Remove the orchard litter.
 Sweet clover is very drought-resistant.
 Plan for an orchard this year, if you ever got one.
 The cow is the final judge as to the value of silage.
 Hay straw is of very little use on a farm except for bedding.
 A row should be dried off for a few weeks before the calving period.
 Keeping records of the cows is often the first step toward success in raising a large amount of green feed.

Chickens are always considered one or less of a side-line on the farm.
 Plenty of oat-corn mixture and oak straw will insure a crop of vigor a lamb.
 Regularly in milking helps the flow of the udder and all subsequent lactations.
 Good drainage to a cow stable is absolutely necessary, and a constant flow of water is good to good advantage.
 Keep your chicks on dry ground, where they can get no red worms, if they are not likely to have gaps in their feet.
 Street when pigs are small, two shovels of warm slop feed per pig, morning and evening, is sufficient.
 The best root crops are the turnip, rutabaga, and the potato. These are well as the rutabaga.
 The season has arrived when farm-ers should begin testing sets to determine their power of resistance.

There will be no danger of white ticks, or black spots, either, in the case if the animal is stabled into barns.
 The sooner anyone gets rid of "milk rock" the better, as he has a favorable opportunity because it is well to take advantage of it.
 A row that is run down or side head, the result of faulty digestion with assimilation, needs a tonic if it is to be of any use.
 Many of the troubles experienced at milking time are the result of rough handling and treatment during the period of pregnancy.
 The farmer's family is fortunate in having an abundance of good food at all seasons of the year, but this is especially true in the winter.

Every farmer can have plenty of eggs and chickens for himself and for market if he will only turn a little of his energy toward the hen house.
 Are there not some places about the farm where evergreens ought to be planted? They make a splendid wind-break about the barn and yard.
 In heating manure, use wood or other slow work about the farm where a team stands a good share of the time, the use of blankets to be recommended.
 You must keep track of your hens and know what they are doing if you are going to keep them at all, and they top can have as large a flock as you can manage.
 There is no danger of cattle chills, or of shivering, if you are doing it the same as they before they attempt to swallow it and it goes down their throats as easily.

Someone who has not been asleep all the time during recent years has said: "Concent and alfalfa are going to make western farmers the most independent people on earth."
 Before the appearance of blossoms and while the soil is still cold, wash the insects with the lime-sulphur wash or kerosene emulsion. No fruit trees can prosper where insects, which wash trees unless he uses sprays and washes.
 Given plenty of good roughage and a light grain ration of, wholesome farm feed supplemented with a little alfalfa and some root crops or corn, silage for succulence the ewes should have the best of health conditions at milking time.
ALLEN QUARTERMAN
 My horse, Allen Quarterman, will be T. N. N. Stable, one mile west of Mt. Vernon, every Wednesday and Saturday, and the rest of the week will be at my stable west of the T. N. N. He will make the trip for \$1.00. He will make a living call.

My Doctor Said

"Try Cardui," writes Mrs. Z. V. Spell, of Hayne, N. C. "I was in a very low state of health, and was not able to be up and tend to my duties. I did try Cardui, and soon began to feel better. I got able to be up and help do my housework. I continued to take the medicine, and now I am able to do my housework and to care for my children, and I feel as though I could never praise Cardui enough for the benefits I have received."

TAKE THE CARDUI Women's Tonic

Cardui is successful, because it is made especially for women, and acts specifically on the womanly constitution. Cardui does one thing, and does it well. That explains the great success which it has had, during the past 50 years, in helping thousands of weak and ailing women back to health and happiness.
 If you are a woman, feel tired, dull, and are nervous, cross and irritable, it is because you need a tonic. Why not try Cardui? Cardui builds strength, restores, and gets in every way a special, tonic remedy for women. Test it for yourself. Your druggist sells Cardui. Ask him.

Campbell, of the Christian church, after which the audience went to the Cemetery and scattered flowers over a great many of the graves.—At an early hour Tuesday brakeman Grover Smith, on returning from a frog hunt and just before alighting from his buggy, carelessly threw down the reins when his horse took fright and ran away throwing him out and hurting him severely about the face and head. John Newies, who had been with Smith in the hunt had just got out of the buggy.—Prof. C. W. Campbell, who has been principal of the school here for two years, informs us that five of his pupils took examination for county teachers this year and four out of the five won first class certificates, while the fifth, who had not been attending school but a short while, came within two percent of a first class certificate. This speaks much for Prof. Campbell, who is also known as Elder Campbell, and who was Pastor of Brodhead Christian church two

A FEW KINDLY EXPRESSIONS FROM THE LOUISVILLE BOOSTERS.

17th, May 1911.

My Dear Mr. Albright: My heartiest congratulations are rendered upon your special edition in welcome to the Louisville Boosters. The enterprise is admirable and there is a snap and sparkle about all of it that denotes the guiding hand of genius. The best of success to you.

Sincerely,
R. W. BROWN,

Dear Sir:

Thank you for copies of the SIGNAL, Mt. Vernon, Ky., which evidently was inspired by you and others to do its part in making welcome the business men of Louisville on their recent trip through Eastern Kentucky. I trust everything goes well with you in Rockcastle county.

Very truly yours,
Geo. G. HALL,
District Superintendent,
East Tennessee Telephone Co.

Mr. James Maret,
General Manager Rockcastle House Telephone Co.

Mt. Vernon, Ky.

My dear Mr. Maret: I was very much gratified to receive your esteemed favor of the 27th inst., and, in behalf of the Louisville Commercial Club, thank you for your kindly expressions. Our visit to your beautiful, little city was one of the most enjoyable in our itinerary. Your cordial welcome and the sweet remembrance of your children will long remain a most pleasant recollection; while the push and enterprise displayed by your newspaper and the citizens generally are still the subject of most favorable comment, and are but arguements of your future

progress and prosperity. Whenever the Louisville Commercial Club can help the good people of Mt. Vernon, call on us and you shall have a prompt and hearty response. Hoping that our visit will bring about a better understanding of our mutual interests and mutual dependence in the great work of developing and upbuilding Kentucky, I am, with assurances of personal esteem.

Yours very truly,
THOS. C. TIMBERLAKE
President,
Louisville Commercial Club, Louisville, Ky.

Washington, D. C. May 30—Like the Standard Oil Company, the American Tobacco Company has been declared to be a trust in a recent decision of the Supreme Court. It is in a state of trade and gives some six or eight months to think up some manner wherein it may conform to the requirements of the Sherman Anti-Trust Law.

In an opinion bristling with pungent adjectives and declarations that the Supreme Court is attempting to usurp the law making powers exclusively vested in Congress by the Constitution and amend the Sherman anti-trust law, Mr. Justice Harlan yesterday dissected in part from the decree of the court in the American Tobacco Company case. He agrees that the company and its copartners are a combination in restraint of trade and should be dissolved, but most emphatically resents the remaining order to the lower court by which the dissolved elements of the trust are to be reformed "legally" into smaller combinations.

His dissent, as expressed from the bench, centered around two points. First, he took issue with the court for sending the case back to the lower court. "I have found nothing in the record," he said, "which makes me at all anxious to perpetuate any new combination among these companies which the court concedes had at all times exhibited a conscious wrong doing."

In the second place he reiterated the objections he expressed in the Standard Oil decision of two weeks ago to the adoption of the "rule of reason" as a standard for ascertaining what restraints of trade violated the Sherman anti-trust law.

—**Murray Gazette:** A suggestion of an economical way of graveling public roads was made by Supervisor Hargrove at the last meeting of the Fiscal Court that should have the approval of every citizen of the county and the backing of the fiscal officers. Mr. Hargrove said that if he was empowered to have every roadhand work six days this year on their respective roads and be allowed to secure teams to haul gravel at \$1 per day he could gravel more road at less expense than was ever done and the citizens generally are still the subject of most favorable comment, and are but arguements of your future

BE A BOOSTER.

Do you know there's lots of people 'Settin' round in ever' town, Growin' like a broody chicken, Knockin' every good thing down? Don't be that kind o' cattle, 'Cause they ain't no use on earth, You just be a booster rooster, Crow and boost for all your crowd.

If your town needs boostin' boost 'em. Don't hold back and wait to see. If some other fellow's willin' — Sail right in this country's free; No one's got a marriage on you, It's just yours as much as his, If your town's shy on boosters, You get in the boostin' biz.

If things just don't seem to suit you, And the world seems kinder wrong.

What's the matter with a boostin' Just to help the thing along; 'Cause if things should stop agoin' We'd be in a sorry plight, You just keep that horn a blowin' Boost 'er up with all your might. If you know some feller's fallin' 'I've forgot 'em, cause you know That same feller's got some good points, Them's the ones you want to show, 'Cast your loaves out on the waters They'll come back' 's a sayin' true.

Maybe they'll come back "battered" When some fellow boosts for you.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and if it is not treated, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

John W. Gates, who appeared as a witness before the Special House Committee investigating the steel trust Saturday, declared that the accommodation by the Trust Company of America of New York in 1907, of a great block of the collateral of the Tennessee Coal & Iron Company made possible the acquisition of that company by the United States Steel Corporation.

Mexico's new President, Francisco de la Barra, Saturday devoted his first official duties to the final disposition of the insurrecto army and to plans for payment of the costs of the revolution. Diplomats estimated that the war in Mexico has cost not less than \$20,000,000 in gold and that one-tenth of that amount was due to losses sustained by foreigners.

What was probably the most enthusiastic good roads meet ever had in Western Kentucky was held Saturday at Glasgow where more than 1,000 delegates were gathered to discuss the proposed central route from Louisville to the Lincoln farm. It is said that assurances of aid were received from every point between here and Glasgow.

In the Tennessee Senate Saturday a resolution was offered by A. A. Adams, of Wilson county, regular Democrat, providing for a committee of five, to confer with Gov. Hooper and Senator Lea, for the fusionists looking to some settlement of Tennessee's legislative troubles.

Negotiations looking to a final adjustment of the controversy between the Southern Railway and its 2,400 firemen, caused by the demands of the latter for a 20 per cent. increase in wages will begin early next week before mediators under the Erdman act.

Champion Ad Wolgast gave Frankie Burns such a beating that the second threw up the sponge in the seventeenth round.

"I Suffered Intense Pains in My Left Side."

Do you realize it is better to be safe than sorry, that it is the best policy to lock the stable door before the horse is stolen?
Dr. Miller's Heart Remedy cured Mrs. C. C. Gokey, of a sub-chronic case of heart disease, such as thousands are now suffering with. Read what she says:

"Before I began taking Dr. Miller's Heart Remedy I had been suffering from heart trouble for over five years. I had grown so weak that it was impossible for me to do thirty minutes work in a whole day. I suffered intense pains in my stomach and under the left shoulder blade. I could not breathe, the left side of my chest was so sore that I could not breathe again. The least exertion would set me on the verge of fainting. I had scarcely taken a full bottle of the Heart Remedy before I could see a marked change in my condition. I began to sleep well, had a good appetite, and I could see that when I had taken ten bottles I was completely cured. I am now as well as ever."
MRS. C. C. GOKEY, Northfield, Va.

If you have any of the symptoms Mrs. Gokey mentions, it is your duty to protect yourself.

Dr. Miller's Heart Remedy is what you need. Write first before you fail to benefit, your money is returned. Ask your druggist, **WILEY MEDICAL CO., Newark, N.J.**
