WADDELL DEARDRICK: Our last Wednesday morning at Langdon Dormitory was solemnized one of the prettiest weddings it has ever been our privilege to witness, when Mr. Chas. Deardrick of Alabama, and Miss Lena Waddell of Tennessee, were united in the holy bonds of matrimony. At the appointed hour the strains of the Lehighrin wedding march, played by Miss Dodson, the groom was met at the altar by the bride, who was given away by Miss McCord. The ceremony which was performed by Rev. Geo. S. Watson, was very impressive, and especially beautiful was the prayer just following the ring ceremony. Under the canopy the bride with wild roses and palms the marriage was solemnized. The bride wore a traveling suit of pale gray and carried Marshall Niel roses. Miss McCord's gown was of gray chiffon over pink. Immediately after the ceremony followed an informal reception when light refreshments were served. After the departure of the guests a delightful wedding breakfast was served to the bridal party, in which were Mr. and Mrs. Deardrick, Miss McCord, Rev. Watson, Miss Maxwell, Miss Kefauver, Miss Dodson, Mrs. Cleo Brown and Miss Keys. The happy couple, accompanied by Miss Clarkson, a relative of the groom, on the 11:41 train for Knoxville, where they will spend a few days, after which they will be at home at Unaka Springs, Tenn.

Mrs. Katie Catron, aged 83 years of the Level Green section, died Monday night after an illness of three months of the infirmities of old age. She was the widow of the late William Catron and was the mother of Henry, James and Ben Catron, and Mrs. Amanda Dehon, of Level Green, Mrs. Viola Woodward, of London, and Mrs. Lizzie Young of High land, Lincoln county. The burial took place at the family burying ground near the old home, after impressive funeral services conducted by Rev. George S. Watson.

The Judge put a quietus on some of the Livingston boys yesterday Fred Eakin charged with stealing some watches and money from George Murphy and who was caught in Cincinnati was held under a \$150 bond which he failed to give. He had the watches on him. He with several other boys, including Walter Rich, Bob McClure and James Deigh are charged with breaking into Buck Crockett, A. Oliver and the R. M. & Florie Cox's store. Deigh and McClure were sent to the school of Reform. Rich was discharged.

On last Saturday night June 7th The Jr. United, American Mechanics gave an entertainment to the members, their families and friends, which was well attended. We had special music furnished by Messrs. Ed Langford and the Carpenter Brothers from Mt. Vernon which was enjoyed by all.

One of the special features of the occasion was a talk made by Rev. H. L. Ponder, of Oakley Ky., on the Subject of Secret Orders and Their Object and he did not least ice cream and cake were served to the satisfaction of all. On Sunday, the next day the members met at the Ball, marched to the cemetery, and decorated the graves of the deceased members.

We wish to thank all who were present on Saturday night for their kindness and good behavior. The Council.

Work on the new building of the Brown Memorial school will soon begin and the people of Mt. Vernon are rejoicing that the board have decided to make the school a permanent institution. It is hard to estimate the benefit this school has been to our town and what the benefits of the future will be.

Here the opportunity is offered to the girls who would otherwise be deprived of the advantages of a splendid high school education under the very best Christian influences and the advantages of a good high school course can not be more forcibly presented, than in the county teachers examinations when put to a rigid test, they are in this county, under our splendid Superintendent of schools. The only two to make first class certificates at the last county examination of the thirty one applicants were high school pupils of the Brown Memorial school. The importance of high school work is too often underestimated, but with our two splendid schools Mt. Vernon will in the future be prepared to give to boys and girls, who desire it a thorough and complete high school education second to none in the state.

"I am something of an Indian in my mental make-up. When some one does me a wrong I do not often forget it," remarked a man somewhat complacently.

"Then I hope you have the other side of the trait, and are as faithful in remembering kindness as the Indians are said to be," was the reply. It was a wise hint, for many persons who have a strange pride in checking injuries have a tendency to forget in regard to favors received.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a humming sound or imperfect hearing, and if when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. P. I. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

APPEAL FOR IMPROVEMENTS.

Conway, Kentucky, June 12, 1911.

Dear Mr. Editor:—The people of Rockcastle should be interested in your fight for better roads, for every County is poor which is burdened with bad roads. There is no way to prosper except through good roads. They are the foundation of every school house, and as I am very much interested in education, and morally, I am very much in favor of having better roads.

We have heard a good deal of talk about the Fiscal Court doing something to improve our highways. Why don't they get the proper machines and go at it in the right way. It would be the best thing they could possibly do. We only have two bridges in the entire county, when we ought to have at least fifteen or twenty. Other counties all around us have been building them for years and yet our legislators, as well as our people have taken very little interest in the construction of roads, culverts and bridges.

One reason that the school attendance in this county is so poor is due to the fact that we have such bad roads and it will continue this way until we have better ones. We must fight for better education, pure lives and better morals. We must take a stand for what is right and all these things will help the County and State. I am for higher education, for better roads, more industry and purer lives, so that Christianity may grow and prosper.

Very truly,
S. B. McCLURE.

HON. H. M. BOSWORTH, OF PAYETTE COUNTY, CANDIDATE FOR STATE AUDITOR.

The foregoing improvements as stated, answer the present demands fully, as to the latter, there will be no relaxation in the efforts of the past to satisfy the most exacting guests. It is now generally understood that Crab Orchard Springs and the Keeley Institute were purchased outright by Messrs Joe B. Willis and John Robinson. Mr. Willis has been for ten years the efficient manager assisted by his secretary, Miss Alice Robinson.

CRAB ORCHARD SPRINGS.

The thousands of patrons of famous old Crab Orchard Springs would hardly recognize that resort now, so extensive are the improvements recently made by the new owners. Every bed room on the vast place has been thoroughly cleaned, whitened, painted, furnished and put in tip top order. The furniture has all been refreshed and repaired or replaced, and new matings, carpets, etc., added.

But the most notable and necessary alterations have occurred in the sanitary and bath departments. Entire new plumbing, both cold, shower baths, and closets have been installed in all ladies and gents departments, which alone would have satisfied the public demands. New robes to the buildings, repainted porches, windows, doors etc., a resurfaced lawn, a flower garden, a new auto garage, and a constant supply of hot water by a big hydraulic ram.

The foregoing improvements as stated, answer the present demands fully, as to the latter, there will be no relaxation in the efforts of the past to satisfy the most exacting guests. It is now generally understood that Crab Orchard Springs and the Keeley Institute were purchased outright by Messrs Joe B. Willis and John Robinson. Mr. Willis has been for ten years the efficient manager assisted by his secretary, Miss Alice Robinson.

THINGS THAT WERE NOT AND WERE IN 1877 AND SOME THAT ARE TO-DAY. (By J. M.)

Calloway Mulling the oldest philosopher was living then and after related, to admiring through, the early experiences of Alfred Owens, his partner and himself. Same were hair raising to the limit, for there were beast and

"painters" in those days. Owens was the man who in referring to the moon in 1833, called it the "man fulgument". He was also the original user of the word "mate" that is often heard today in the conversation of his descendants and relatives when relating anecdotes. Reapers and self binders were not in evidence. The scythe, reep hook and cradle were mostly used. Machinery in this line began to come in the early 90s. Mowing machines were few and far between. Cutting box machinery was scarce. Blade cutters were in evidence to some extent. But few mowers evaporators were in the land, though some metal bottomed boxes or pans were used but mostly kites were in service. A sausage grinder usually did service for a whole neighborhood or community; public property as it were. When one was ready to make up sausage it sometimes required a day or more to locate the mill. "Grinder, grinder who has the grinder" Livingston and Broadhead had no dairies nor have they today any colored citizens. Conway, White, Langford, Orlando, Mullins Station, Barr, Sparks Quarry had not sprung into being. There was but one telegraph wire and it terminated at Livingston. Prohibition was voted in near this date. The "five o'city a c' soon followed. There were no county road bridges. The old jail consisted of two rooms, one above the other constructed of wood 2 by 12 inch planks spiked together flatwise with iron cells in lower room. The same cells were used in new jail built in 1887. (Continued on last page)

(By J. W.)

(Continued from last page)

Elisha Terrill, Tandy Dowell, Charles Jones, George Severance, — Pickens and many other men of note had either moved to other states or passed over the river. It is related that a stranger once entered Pickens barber shop took a seat in the shop chair and ordered a shave. Pickens became angered at the stranger's abruptness, proceeded to spit into shaving mug, seized the lather, whetted his razor on the sole of his boot and went to work on the man's face. Protests from the victim had no effect on the barber until the job was completed. It is unnecessary to say that man didn't patronize Pickens shop again. Said he was glad to escape with his life.

George Sambrook and Dick Oresham were running hotels at Livingston.

All South eastern Kentucky were hauling their goods by wagon from Livingston.

Livingston at that time was about the hottest stuff on the map not excepting "Joefield" where Woodhine is now located all classes and all conditions were found there and roughness was there in great

gobs.

There was no living at an advanced age.

Post office cabinet was a small hand made pigeon hold affair without private boxes and had about one tenth the capacity of our present up-to-date outfit.

It was about this time that Dick Owens contemplated offering as a candidate for county judge. His platform was: "I elected I will discharge the duties right and make the laws dad sopped 'ex-puissible'." Dude Owens was one of Rockcastles brightest men was then clerking for Frank Brinkley on the corner now occupied by J. Fish's store.

It was said to be one of the Owens who on his first sight of the looking stove remarked, "The stamed thing will burst and kill you all, some day."

About this time Oliver chilled gloves and Haskers bitters were having a big run.

No roller mill. County has had two established since but the one at Mt. Vernon burned down, probably he built this year.

There were several knitting machines. Don't know of any to day.

Carding machinery was in operation but was gradually abandoned. Most wool sent to foreign factories to exchange for cloth or yarn.

The hum of the spinning wheel was still heard in the land but was soon silenced by change in conditions.

But few of the old wheels and looms remain to tell the tale of past usage and departed glory. Tow linen was quite an item in those days. There is little if any manufactured within the county now. There are many citizens of voting age who have never seen a spinning wheel or loom and they wouldn't recognize a distaff, a quill shuttle or a brooch if they met them in the road or any other old place.

Candles, candle sticks and snuffers were still used to limited extent. Today there are hundreds here who would hardly know what a candle stick is and it shown a pair of snuffers would be at sea with their guesses as to its purpose or use.

The disc barrow was absent. Dynamite was not used here. Commercial fertilizer was scarcely known.

Steam and air drills were unknown.

There was good funday schools and preaching.

No bank within the county and none established until 23 years later. To get a \$50 check cashed it was often necessary to send it to Stanford and get returns by express after two days wait.

Coal mines were in operation in Pleasant Valley, later known as Cove operated by J. W. Miller and Geo. Denny, of Lancaster. Pine Hill mines were run by Cash Crook.

Dock Dean, the great violinist, his engineer, often played here for balls.

Captain Sweeney and Suddith were the passenger conductors. Matt Dillon baggage master and George Browning engineer. Dr. W. C. Rowland was superintendent of main stem and Knoxville Division. J. C. Florence was punper at Rowland later was train dis-patcher and the present post-masiter at Stanford.

Margitang was known as Mt. Guthrie, for president Guthrie, of the L. & N.

Democrats were in charge of all the county offices.

Lawn mowers were as scarce as hen's teeth.

Not a dentist in the county.

Saw mills a plenty and the butchery of forests was at its height.

In the decade from 1869 to 1878 the average number of hogs reported annually in Kentucky was 1,850,000. In the decade from 1890 to 1908 the average number reported was 1,225,000. This is a decrease of 625,000, and it indicates that Kentucky is losing some of her prestige as a hog raising State.

The foregoing figures are taken from an agricultural graphic recently issued by the United States Department of Agriculture. While Kentucky experienced this remarkable decline in production there was a material increase shown in the neighboring States of Ohio and Indiana. In Ohio this increase was 575,000. In recent years good prices have been the rule in the hog market. Kentucky has not declined in the production of corn, and it is rather strange that there has been such a slump in hog production.

There does not seem to be any good reason why Kentucky should have fewer hogs now than she had thirty years ago.

In most other products of the farm there has been a substantial increase. Unquestionably Kentucky farmers cannot complain that they lack a market for their hogs. There is no lack of the wherewithal to feed and fatten hogs, and science has come to the aid of the farmer with adequate remedies for the serious diseases of swine. There is not so much risk now in raising hogs as there was twenty years ago, of fire that matter, ten years ago. If money could be made at the business in the past the present conditions certainly are more favorable for ample returns. Some of our Kentucky farmers appear neglecting a most important factor for agricultural prosperity.—Courier Journal.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea has made it a favorite everywhere. It can always be depended upon for sale by Chas. C. Davis.

Mrs. Babham—Do you remember what I wore when you proposed to me?

Babham—I think it must have been a mask.

The reformer Pr. sberitah Synod in session in Pittsburg Monday adopted a resolution making the maximum salary of the lowest paid minister \$900 a year instead of \$800.

A great reception for Francisco I. Madero, Jr., is being planned at Mexico City. When the rebel leader reaches the capital he will be greeted by thousands of his former enemies.

TAKEN UP—A black bore hog weight about 100 pounds came to my place one month ago. Owner can have same by paying all damages.
