## Stomach Blood and Liver Troubles

Much sickness starts with weak stomach and consequent poor, rich, red blood. Their stomachs are not strong for after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the Great Stomach, Blood Purifier and Blood Cleanser.

You can't afford to accept any medicine of mediocre condition as a substitute for "Golden Medical Discovery," which is a medicine of superior composition, having a complete list of ingredients in plain English on its box wrapper, none being withheld as a secret under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

## CROP CONDITIONS LOOKING UP

June Report More Encouraging Than May.

### TOBACCO ABOUT SIXTY PER CENT

Oats Almost a Complete Failure, Not Tall Enough to Cut in Many Places.

Frankfort.—Commissioner Rankin in his report says that the farmers who took his advice and used pure bred seed in plant beds and in the fields were better prepared to stand the drought than the farmers who used the inferior seed. Especially is this true of corn.

The tobacco crop shows a better condition than had been expected, and while not more than 45 per cent crop, taking the state as a whole, the farmers will fare better than the report for May indicated.

The average condition of corn over the state is better than was shown by the report of May. The average condition compared with last year is 83 per cent for the entire state. Last month the average condition was 78 per cent, thus showing an increase of 5 per cent in the condition of this crop.

Wheat is still in good condition, but there has not been as much of the crop threshed to give any accurate report as to the yield.

The oat crop is very inferior, in many places not growing tall enough to cut.

The hay crop will be very short in Kentucky this year. Alfalfa is a very valuable crop for the farmer, as it withstands drought much better than ordinary clover. This department for the past year has been encouraging the farmers of Kentucky to raise more of this valuable forage crop, which has been the source of so much profit to the farmers of other states. As yet there has not been very much raised in the state, but each year more farmers are seeing its value and raising same.

In many sections of the state the question of pasturage was getting to be very serious before the rains came at the latter part of the month, and in some sections stock water was reported to be getting scarce.

### GREAT DAMAGE.

Deluge Falls on Hardin County and Crops Are Practically Ruined.

Elizabethtown.—Reports regarding the deluge which flooded Hardin county are to the effect that there were about 100,000 bushels of wheat, and 100,000 bushels of corn, and that the consequent damage to the crops will be about \$1,000,000.

Oats in many localities were beaten to the ground and lost. The wheat was not able to harvest their crops. The corn growing along the creek banks was washed away and ruined. Wheat fields were submerged along the creeks and in many sections the wheat about water was washed away. Fences were also destroyed, culverts washed away and the roads, which were recently graded, badly damaged.

### ANOTHER NEW CITY.

Chesapeake & Ohio Will Build Up Town For Employees.

Silver Grove.—President George W. Stevens, of the Chesapeake & Ohio railroad, announced that his company will found a model town at Silver Grove, which is situated on the Chesapeake & Ohio just above Newport. The company has just completed plans, says president Stevens, for the extensive improvement of its terminal facilities there and desires to build up a community among its employees that they may live near their work. The Chesapeake & Ohio owns considerable property at Silver Grove and this will be cut up into lots and sold to men who desire to live there.

### GOV. LOST THE DERBY.

Louisville.—The Hildren entry finished the winner of the Kentucky derby in Zeus, which beat Gov. Gray out of a nose. The latter came from behind in the stretch and, closing strongly, would have won in another stride. Meridian showed good speed for a while, then stopped.

Uniontown.—A new and splendid liver wagon of the J. B. Beckman Grocery Co. ran away and threw Will Harraville, the driver, to the ground fracturing his skull, from which he died in a few hours.

July.—Fire, supposed to have been caused by a defective fire, totally destroyed the frame country house of Will F. Henry. All of the contents were burned and the bill will reach \$2,000, with insurance of \$1,000.

Carlisle.—A clearing of the business men and farmers of Carlisle and Nicholas county was held to hear the report of the jury in the case against the proposed bank law which was to be established here.

Clarksville.—Stuart K. Lupton, co-senator of the United States at Clarksville, where he has been attending for some time, is home on leave of absence.

A PEEK INTO HIS POCKET.—Buckley's Amica Sells It. S. Loper, a carpenter of Mill, N. Y. always carries "I have never had a cut-worm, bring it to me it would not go on." he writes. "I have a number of brands all the time. I have a number of brands all the time. I have a number of brands all the time."

## KENTUCKY TEACHERS IN ANNUAL MEETING

Purging Addresses Delivered and Papers Read Which Urge Greater Activity in School Matters.

Overseas.—The fourth annual session of the Kentucky Educational association came to a close. Officers were elected: President, Mrs. Cora Wilson Stewart, Morehead; first vice president, James Spigel, Louisville; second vice president, James G. Galt, Guthrie; third vice president, W. D. Dooda, Mayfield; treasurer, G. M. Deary, Glasgow.

The time and place of the next meeting were not fixed, being left to a committee, which will meet in December.

The following resolution, introduced by Mrs. Deana Breckenridge, of Lexington, was unanimously adopted:

"Resolved, That the Kentucky Educational association recommend school surveys of women and urge upon the next session of the legislature that they grant it."

Overseas.—That Kentucky is on the eve of the greatest educational awakening in its history is manifest at the meeting of the Kentucky Educational association. The second day's meeting was replete with brilliant addresses, showing progress, but the keynote being "better rural schools for Kentucky." The attendance was surprising, there being nearly 500 educators in the auditorium representing every section of Kentucky.

Dr. E. P. Kelly, superintendent of the Normal School at Lexington, Regan was on the program. He spoke earnestly of "The Relation of the Rural School to the Economic, Social and Spiritual Welfare of the State." He declared that a great impetus to city children would have better schools than country child and plea for equal rights for the rural school.

Prof. E. P. Kelly, assistant superintendent of the Normal school, gave an excellent address in which he declared in favor of county bonds for raising funds for school purposes.

### GREATER LOUISVILLE DAY.

Louisville.—It was decided at the meeting of the Advertisers' club that the celebration of Greater Louisville day, on the 10th of August, at Postoffice Park, should be conducted on a thoroughly dignified basis.

It also was decided to use the proceeds of the celebration to send a delegation to the national convention to be held in Boston the first week in August.

### ONE BY ONE.

Fifty-two of the Old Settlers Passed Away Last Year.

Carlisle.—The fortieth annual meeting of the "Old Settlers" of Nicholas county was held here with a fair attendance. Upon the roll call it was found that 1,200 members of the association had died since the meeting one year ago. The following officers were elected for the ensuing year: President, former Representative C. S. Tompkins, Morehead; vice president, I. B. Rowan, secretary, Col. Green R. Keller; chaplain, the Rev. Dr. H. M. Scudder; organist, Miss J. Howard.

### MORGAN REUNION AT OLD PLACE.

Carlisle.—Morgan's men are coming to Park's Hill this year, and the annual reunion will be held just after the close of the Park's Hill assembly in August. It was proposed some time ago that the annual reunion be held at the home of the late Mr. Morgan, but it was found that the fact that the home would be a great meeting of Morgan's men in Lexington, when the Morgan monument had just been dedicated, was a protest was made by many of the veterans against abandoning the reunion at Park's Hill.

### BOY KILLS HIS UNCLE.

St. Sterling.—A quarrel in Meelfee county, between David Proff, Meelfee, and his nephew, Sam Proff, since resulted in the instant death of the elder Proff. He was shot with a revolver. I. B. Rowan, secretary, Col. Green R. Keller; chaplain, the Rev. Dr. H. M. Scudder; organist, Miss J. Howard.

### 820 PER ACRE FOR FARM.

Verallies.—The Boggs Bonita stock farm, 750 miles north, on the Midway turnpike, containing 156 acres, the property of the late Mrs. George H. Winters, was being offered to John H. Harris, the breeder and farmer, at \$100 per acre. This is a beautiful country place, known as the home of Gen. Abraham Buford.

### FIRST COTTON BOLL.

Hokman.—The first cotton blossom seen this year was brought in this week by A. E. Hokman. The plant is a specimen of the "Black Sea" variety, which is supposed to be about as good as the plant brought in by Hokman.

### RAIN RAINED.

Shelby.—A heavy rain, belonging to James Arnold, was struck by lightning and burned to the ground. The rain was about 1,000 acres, but the loss is only partly covered by insurance.

## Gave Up Hope

"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chadbourn, N. C. "They grew worse, till I would faint away. I could not walk at all, and I had an awful hurting in my side; also a headache and a backache. I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used, I could do all my work. All the people around here said I would die, but Cardui relieved me."

## TAKE THE CARDUI Woman's Tonic

For more than 50 years, Cardui has been relieving woman's sufferings, and making weak women strong and well. During this time, thousands of women have written, like Mrs. McPherson, to tell of the really surprising results they obtained by the use of this purely vegetable, tonic remedy for women.

Cardui strengthens, builds, restores, and relieves or prevents nervous action and suffering from womanly troubles. If you are a woman, begin taking Cardui, today.

**BEAUTIFUL FREE BOOK.**

Board of Trade of Asheville, North Carolina, issues a Beautiful and Valuable Publication for Free Distribution.

It is a rare coincidence that a particular locality in the United States where the climatic diversity is usually so pronounced, should be favored with a continuous rounds of sunshine and refreshing days, both above the humid and sultry atmosphere characteristic of the summer months in low sections and at the same time free from the severe cold of winter.

At certain seasons the southern country is especially delightful, but when the hot days come, those who can afford it journey northward where again pleasant weather takes full sway for a brief time. But in the mountains of Western North Carolina, the people are doubly blessed for they have a charming climate the year around. In winter it never gets too hot and the sun shines so regularly every day in the year that this country has been very appropriately de nominated the Land of the Sky.

In the picturesque Blue Ridge Mountains of this remarkable Western North Carolina, standing upon the topmost part of a stretch ing plateau that towers twenty two hundred feet above sea level, is delightful Asheville, the most popular all the year around resort in the land of perpetual good weather. Thousands of people flock that way every month in the year, for every month has charm all its own, unsurpassed any where

in the nation.

In July and August, Asheville enjoys the cool, invigorating at mosphere of the north but totally lacks that humidity which is so disagreeable elsewhere. In fact Asheville has no equal when it comes to pure, exhilarating air every day in the year.

As Asheville is a modern metropoli tan center, composed of people of a socially very cosmopolitan type, and has a population of 30,000. Elegantly equipped hotels, ranking favorably with the best in the country, have materially helped to make Asheville the lead ing year around resort on this continent.

The Board of Trade has just issued a beautiful booklet, pro viously illustrated with pictures of the numerous hotels, points of interest and picturesque scenes, combined with a well written sketch of the land of the sky, including hotel rates and much other valuable information that should be in the hands of every tourist.

A postal card addressed to Mr. N. Buckner, Secretary, Asheville North Carolina, will bring you one of those artistic publications free of charge.

**BROWN MEMORIAL INDUSTRIAL SCHOOL**

WILL OPEN THE SECOND WEDNESDAY IN SEPTEMBER.

Langdon Dormitory, already one of the most attractive homes to be found in any school, is to be enlarged so as to accommodate girls boarding pupils. This dormitory furnishes a safe home for girls under the best Christian influences.

The school stands for earnest, thorough work, and strong Christian character.

A strong corps of teachers who have had the best college and professional training are entrusted with the work of instruction. Miss Dodson will again have charge of the Department of Music. Her work needs no recommendation to the people of Mt. Ver non.

Miss Marion D. Oskamp from the Domestic Science Training School connected with the University of Cincinnati, will have charge of Domestic Science. Industrial training in this department is an important part of a girl's education, and is a marked feature of the institution.

Announcement as to other members of the faculty will be re ally soon.

Work on the addition to the dormitory will be begun as soon as plans and specifications can be agreed upon, and will be pushed as rapidly as possible.

All applications for admission should be in the hands of the Principal by July 15th.

Girls who were in school last year and who expect to return should make definite arrangements at once, as no place will be re served after the above date, but will be given to those who first apply.

Terms are as follows:

Board and Tuition in Langdon Dormitory, \$100 per year.

Tuition in High School, \$3.25 per Mo.

" " Grades, 2.50 "

" " Kindergarten, 2.00 "

" " Music, 32.00 per year (5 mo.)

A few scholarships are available, but only to those who need and deserve them, and apply in time.

Arrangement will be made to provide stable room at reasonable rate for horses of those who ride in from the country.

The Principal will be at Langdon Dormitory during July and will be glad to see any who wish to investigate the claims of the school to be the best place to send the girls of Rockcastle and adjoining counties.

If you can not come to Mt. Vernon ask those who know about our work, and if Brown Memorial Industrial School appeals to you as one worthy of your patronage, address for information and for application blanks,

(Miss) ROSIE McCORD, Principal, Mt. Vernon, Ky.

Democratic Nominee for Superintendency of Public Instruction.

McCreary carried nine congressional districts, including Adams's own leaving the Harrison county man with a majority in but two districts.

Incomplete returns indicate the nomination of those named above.

But one contest is in doubt and an other questioned. The nomination for auditor is in doubt, and the victory of E. J. McDerriott for lieutenant gov ernor is questioned.

Henry Bosworth, of Lexington, will likely get the nomination for auditor, McDerriott fighting.

IMPORTANT ELECTION.

Every man, woman and child should be deeply interested in the election of School Trustees throughout Rockcastle county, on Saturday the 8th day of August. The kind of Trustees selected will test the real interest the parents have in the advancement of our schools and how carefully they watch over the education of their children. The welfare of the pupils, the improvement of the family, the growth and prosperity of the county and state are all directly involved in the building up of the district schools. Hence, it is of the gravest importance that earnest, brave and public spirited men be chosen on that day: men who want to do vital service for their community; men with strong hearts and who can and will say, "Give us better teachers that our children may be better trained; better and more comfortable school houses where our children can feel happy and respectable." We have been niggery with our money and time: out the hour is at hand when the people are waking up to the absolute necessity of working harder and giving more liberally toward the education of our boys and girls.

No man should be too busy in his store, on his farm, in his office or at his trade, to help improve the community in which he lives. The greatest difficulty is the indifference of the parents, the lack of proper realization of the duty and obligation they owe to their offspring.

Remember the election of School Trustees on Saturday, the 8th of next month. Call upon the best and most aggressive man to run for this important office and even with enthusiastic support at election. Rally to the support of the schools and with enthusiasm, strive earnestly to advance this great cause, which is getting nearer and nearer to the hearts of us all.

ONE of the most important elections confronting the people of Kentucky in a decade will be that of next November. There are problems of the utmost importance that must be solved by the next Legislature and the State Administration, and every Democratic voter should lay aside his personal feeling and work for the best interest of the Commonwealth, by helping to elect the splendid ticket that has been chosen in the primary. Let party fections and party bickerings be relegated to the rear and the success of those who will be the standard-bearers of the party of the people be paramount, for they are worthy to be trusted and the confidence reposed in them will never be abused. The most of them have been tried and never found wanting and recreant to the best interests of the people, and those who have not held office heretofore have proven in the private walks of life that the public interests will be conserved at their hands. No ticket that can possibly be nominated by the Republicans can surpass the one chosen on last Saturday in competency and ability, and if it receives the endorsement that it deserves in November then the reasonable hope may be indulged that the Commonwealth will join the vanguard in the march of progress and keep abreast with her sister States by the elimination of the peual and charitable institutions from paritizan politics, by a revision of her antiquated tax system, by the building of better roads, and by all the much-needed and imperative reforms and policies that will be beneficial to the whole people. Let the accident of the Republican administration be not again repeated, and help by your voice and your vote to prevent such a thing at the November election.—Danville Advocate.

At the head of our editorial column will be found the Democratic nominees for the various State offices, nominated at last Saturday's primary. A better selection could not have been made. Read them over and see if they don't look like winners.

KENTUCKY POLITICS
Wheeler News: A primary held at the expense of candidates bars the poor man. Candidates should be nominated in a State primary by all parties the same day at the expense of the State.

Hopkinsville New Era: Saturday was such a busy time in Christian county that the usual a tenton could not be given to the Democratic primary election. The farmers were head over heels in work, many of them being in the midst of wheat threshing, and for this reason the county vote was especially small.

Bowling Green Times-Journal: Now that the State ticket has been nominated by a good majority, let's all get to work to elect the nominees in November by one of the biggest majorities ever given a State ticket in Kentucky. The people are tired of Republican rule and are anxious to place Kentucky again in the Democratic column.

W. P. Walton in Lexington Herald: The former model Governor will demonstrate his capacity to do so again and Kentucky will be redeemed for four years at least from Republican misrule. Senator McCray will lead the Democratic ticket to victory by at least as much majority as he beat his opponent in the primary, and a brighter day will dawn for 'Our Old Kentucky Home.'

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & Co. Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

NOTES From MEADOWBROOK FARM By William Pitt. Ducks eat many bugs. Goings must have free range. The quickest returns are from baby beef. Exercise is essential to the best growth of the foal. You have some things to learn after you get an incubator. The best time to cut the lamb's tail and castrate is at one week old. Calves make more gain with a given amount of food than does older stock. Too much emphasis cannot be laid upon the use of cover crops in our orchards. Giving water at irregular times is injurious not only to chicks, but to old fowls. It is seldom that the very early varieties of potatoes yield so early as those a little later.

Man's object in fruit growing is the production and improvement of the edible portion of the fruit. Good ventilation is essential; but it should be so arranged that the cows shall not be exposed to a draught. Everybody knows that in July weather cows give a larger amount of milk than in cold and wintry weather. Build a good shed to shelter the tools; it is doubtful if you can make 25 to 35 per cent profit in any other way.

There is a bare temperature for each individual lot of cream, but this can be determined only by experience. Are there any old apple trees in your orchard bearing undesirable fruit? Easy to graft good varieties upon them.

Keep on good terms with the ewes so that you can catch and handle them without causing undue disturbance in the pen. There is no phase of the dairy business that needs more study or more careful management than does the breeding of the cow. As the time draws near for calving, the cow should be put into a comfortable stall, having plenty of bedding to keep her dry.

The open well barrel standing by the kitchen door is a direct invitation to the spread of diphtheria and like diseases to enter the home. When live stock prices drop it is always the man who knows how to make meat at the least cost per pound who realizes the largest profit.

When the fruit buds come very thick most people take it as a sign of a big yield, but when fruit grows too thickly it must necessarily be very small. If the udder becomes hard or shows a tendency to garget, apply unsalted lard and give it a vigorous rubbing; after which give the ewe a good dose of salin.

Skim milk, which is whole milk minus part of the fat, and which costs only half as much as whole milk, furnishes protein about four times as cheaply as beef.

When the cow is comfortable and contented, she responds with a flow of milk in excess of that which she gives when she has been uncomfortable and irritated. Cherry rot or brown rot affects all stone fruits, including peach, apricots, etc. It is by far the most serious and baffling of cherry diseases to the commercial cherry grower. Never feed hay or sweep or in any way stir up dust just previous to milking time, for this will contribute to the introduction of bacteria, which contaminate and injure the quality of the milk. In dipping pigs great care must be exercised to cover every part of his body from tail to snout. If a patch as big as a thumb nail is left untouched it may contain the nucleus of a new crop. At the time of milking, if the ewes are put on an aftermath or fresh pasture, they are more apt to come in heat and take the lamb quicker and this brings your lambs in a shorter time and the lambing is over with more quietness than if they alone, in say two or three months.
