WHEN you pull down the town in which is your home, you are pulling down yourself, and when you build up your town you are building up yourself and your neighbor. The town and banish from your mind the mistaken idea that all good things are away off in some other locality. Give your town all the praise it can legitimately bear. It certainly will do you no harm and will cost you nothing, and above all paragonize your home institutions—including the printing office.

THERE is a habit and a delusion among a large number of our people to go to some nearby town or city to shop, believing that they can purchase cheaper. We think these good people may be deceived by their own thought. Please reckon your carfare and time, if the latter is worth anything. If our town merchants try to "soak" you or have not what you want, of course, you are justified to go elsewhere. But first find out by getting prices and see what your home merchants have.

TEXT OF NILES BILL.

The full text of the Niles bill is as follows:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. That Chapter 1 of the Acts of the 1906, entitled "an act to amend Section 2560 of the Kentucky Statutes," being a portion of Article 1 of Chapter 1 of the Kentucky Statutes, entitled "liquors intoxicating," be amended by striking from Subsection A the following words: "Except the four of the first, second, third and fourth classes may hold an election on the same day on which an election for the entire county is held" so that said act as amended reads as follows:

Section 2. That Section 2560 of the Kentucky Statutes, it being a portion of Article 1 of Chapter 1 of the Kentucky Statutes, entitled "liquors intoxicating," be amended by striking from Subsection A the following words: "Except the four of the first, second, third and fourth classes may hold an election on the same day on which an election for the entire county is held" so that said act as amended reads as follows:

That Section 2560 of the Kentucky Statutes, it being a portion of Article 1 of Chapter 1 of the Kentucky Statutes, entitled "liquors intoxicating," be amended by striking from Subsection A the following words: "Except the four of the first, second, third and fourth classes may hold an election on the same day on which an election for the entire county is held" so that said act as amended reads as follows:

Section 2. No election shall be held in any precinct under this act on the same day on which an election is held for the district or city of which the precinct is a part. If in an election held for such an entire district or city a majority of legal voters shall be in favor of the sale, barter or loan of spirituous, vinous or other intoxicating liquors, then it shall not be lawful to sell, barter or loan any such liquors in any portion of the county. If, at such an election for the entire county, the majority of the legal voters cast an election are against the sale, barter or loan of spirituous, vinous or other intoxicating liquors, then it shall not be lawful to sell, barter or loan any such liquors in any portion of the county. If, at such an election for the entire county, the majority of the legal voters cast an election are in favor of the sale, barter or loan of any such liquors, then it shall not be lawful to sell, barter or loan any such liquors in any portion of the county.

CAUTION

It has come to the attention of the Bureau of Explosives, American Railway Association, that many of the users of explosives—especially miners who are not conversant with the English language or the requirements of the federal law, are in the habit of including packages of explosives in their baggage, shipped in the usual way on a passenger train and in packages of household furniture shipped in the usual way by freight.

The federal law strictly forbids a concealed shipment of explosives or the transportation of explosives on passenger trains even when inclosed. Packages of explosives must be packed in their regular shipping containers properly sealed and accompanied by shipping orders of the usual form. The penalty provided for violations of the federal law are severe and may exceed a fine not to exceed \$2,000, with or without imprisonment, not to exceed 18 months.

Many violations of the kind described above have been reported and in all such cases where the evidence was sufficient to warrant conviction prosecutions have been started. Guilty parties even when their action was due to ignorance have been fined and imprisoned, and this is no excuse for a violation of this kind.

As examples, it may be stated that minors and other parties have taken kegs of blasting powder and even packages of loose sticks of dynamite mixed with blasting caps into smoking cars of passenger trains. In other cases wash tubs and barrels supposed to contain only household goods have been found to contain loose powder and sticks of dynamite.

This is a matter that affects public safety and this information should be used not only by parties to prevent their own practice from being in violation of the law, but each person should on all his powers to spread this information in the interests of public safety and to prevent violations by all parties.

Public spirited citizens willing to assist in promoting the safety of the public in this respect and possessing information or suggestions thereon would be valuable if they would be correspond with or call on Colonel R. W. Dunn, Chief Inspector, 30 Vesey St., New York City.

Very respectfully,
R. W. Dunn,
Chief Inspector

WILDIE

A man who has made a happy home for his wife and children, no matter what he has done in the way of achieving wealth and honor, if he has done that is a grand success. It has not to do with it, and it is his own fault, though it is the highest in the land, he by most public failure.—We wonder how many men in a mad pursuit of gold, which characterizes this age, realize that there is no fortune which can be left to their families as great as the memory of a happy home.

The truest, best and sweetest taste of the girl of today, does not come from the home of wealth, she steps out from the house where is comfort rather than luxury. She belongs to the great middle class that class which has given us the best wifehood, the forest men of our time which teaches its daughters the true meaning of love, which teaches the manner of the drawing room and the practical life.

of the kitchen as well as to see that all the responsibilities of a life and the greatness of work is done.

Even he who imagines he can dodge enemies by trying to please everybody, is sure to fail. A man who never succeeds, pass him by, for he may have one to look at his mortal remains ere he is taken away for surely this earth cannot be his abiding place. Now would not rather that one would be going through this world with a good beam to knock and a hammer to beat with, than to be a man who is disputing every man's opinion, fighting an everlasting and crowding all who differ from him. That, again, is another extreme. Other people have their opinions, but have you. Don't fall into the error of an opinion which will respect you more, for turning your coat every day, to match the color of their.

A GIRL'S WILD MIDNIGHT RIDE

To ward people of a fearful forest fire in the "Outkitts" a young girl rode horseback at midnight and saved many lives. Her deed was glorious but lives are often saved by Dr. King's New Discovery in coping lung trouble, coughs and colds, which might have ended in consumption or pneumonia. It cured me of a dreadful cough and lungs disease," writes W. R. Peterson, Wellington, Tex. "After four in our family had died with consumption, and I gained 57 pounds. Nothing so safe and sure for all throat and lung trouble. Price 50c and \$1.00. Trial bottle free. Guaranteed by Chas. C. Davis.

To make a boy into a pure man a mother must do more than pray. She must live with him in the sense of complete and closest friend. She must stand by him in time of temptation as the pilot sticks to the wheel when rapids are around. She must never desert him to go off to superfluous outside duties any more than the engineer deserts his post and goes into a baggage car to read up engineering when his train is puffing across the country at forty miles an hour.

The Rockcastle County Fair Association at Brodhead have elected officers for this year and work has begun in earnest to make this the banner year of the association. A number of new and special attractions have already been booked for the season. With the present management the fair this year will no doubt be a great success. The officers are Granville Owens, President, R. H. Hamm, Vice President, A. M. Hatt, Secretary and A. E. Albright, Treasurer. The board of directors are, Dr. W. E. Crawford, A. J. Fagan and J. B. Livesay. The date for holding fair for 1912 is August 14, 15 and 16.

The Interior Journal makes this observation: "Lincoln County went into the list of pauper counties of Kentucky last year, the expenditures for conducting the business of the county exceeding the revenues by \$772.21. This is a reversal from 1910 when Lincoln paid \$708.14 into the treasury. Out of 119 counties in the state there are only 34 that are self-supporting. Among our neighbors Boyle county paid \$15,000 into the treasury above the expenditures. Casey is a pauper to the amount of \$16,000. Garrard paid \$5,000 into the treasury on the right side of the ledger. Laurel cost the state \$24,000, Madison \$15,000, Mercer paid \$13,000, Rockcastle cost the state \$22,000, Wayne cost the state \$14,000 and Whitley \$9,000 and Palaski paid in \$37,000."

"Some of the very best counties in the state are in the 'pauper' class, however, so that its not such a disgrace after all as bad as it looks."

One of the most enthusiastic meetings of Mt. Vernon and Rockcastle County men was held at the Court House Tuesday night when the plans were perfected for organization of the Mt. Vernon Fair Association. The capital stock at first was to be \$1,000.00 divided into one hundred shares of ten dollars each but it was decided to raise the capital stock to \$500.00, which amount was almost all subscribed at that time. The following gentlemen were elected Officers for this, the first year: Chas. C. Davis, President; John W. Parsons, Vice Pres.; J. H. Hatt, Treasurer and H. R. Gearty, Secretary. These nine gentlemen were elected Directors, W. M. Bullock, W. G. Hysinger, Gus Slaverson, F. L. Thompson, Sr., Wm. Poyant, T. J. Nixey, Richard Moore, G. S. Griffin and J. P. E. Drummond.

The Articles of Incorporation have been drawn in the proper form and all seen stockholders are requested to call within the next day or two at the office of County Clerk S. F. Bowman and sign these articles of Incorporation. The Officers and Board of Directors were directed to select a suitable sign for the fair and take up signs on same and make report at the next meeting which will be held at the Court House Tuesday night, Feb. 6th at which meeting all stockholders are requested to be present. At the next meeting will be opened the dates for the holding of the fair and all other plans perfected for putting the wheels in motion.

The dates for the Mt. Vernon Fair will be August 7, 8 and 9, and this is about the same time as the adjoining counties. However it is possible that some day the last of

STARTING WORK ON PANAMA THE NATION'S BIG EXPOSITION Composite Fleet of Navies of the World to Pass Through Panama Canal and Enter San Francisco Harbor: What the 'Great Fair' Will Be Like.

Every Country on Earth to Be Represented at the Greatest World's Fair in History. Eighty Million Dollars to Be Expended on National Celebration.

WITHIN a few weeks' time thousands of men and teams will be engaged in leveling the grounds of the Panama-Pacific International exposition site in San Francisco, and it is estimated that within six months 10,000 men will be employed in the construction of the waterway of the great exposition at which the United States of America will celebrate the opening of the Panama canal. Responses to invitations to participate and offers of co-operation from every part of the world are flooding the exposition management, and President T. C. Moore and his thirty directors, who represent every important interest on the coast and \$1,000,000 in invested capital, are working night and day to keep up with the avalanche of duties that pour in upon them.

Responses of foreign countries appear almost anticipations of the exposition management. Every civilized nation on earth, every land within the sweep of both shores of the Pacific ocean and every state in the Union will be represented by the finest assemblage of displays the world has ever seen. "San Francisco," says President Moore, "as hostess for the nation will entertain the world in 1915 with the most comprehensive exposition in history, a jubilee of nations, a splendid commemorative celebration, which shall include not only the finest features of all former world's exhibitions in recording the progress of the world, but yet in magnificence, its diversity, its distinctive color of the west, of the orient and of all the countries bordering upon the Pacific ocean will stand alone. The nations of the world will see the finest American displays yet shown at the Panama-Pacific International exposition. "The plans of the people of the west for the Panama-Pacific International exposition are being undertaken upon a scale of world education and literature and the exposition is the subject of enthusiastic co-operation in every
