

NO ONE STRONGER THAN HIS STOMACH.
The celebrated Dr. Abernethy of London was once of the greatest of doctors of the stomach were the most prominent of his disciples. In a recent medical writer says: "Every feeling, emotion and affection reports its seat to the vital center of the body." He continues: "No one may be said to live (thrive) on the stomach." It goes on to show that the stomach is the vital center of the body. For weeks stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than

WAG FOR THE FOR WOODROW WILSON
Rank and File of the Party in That Great Section Recognize His Worth.

HAS REDEEMED HIS PLEDGES
His Actions as Chief Executive of the State of New Jersey Show His Political Ability and Integrity—Loyal to People.

BY CHARLES G. HEIFNER, Chairman of Democratic State Committee of Washington.
I know pretty accurately the sentiment of the rank and file of the Democrats of the West. They are strongly in favor of Woodrow Wilson for our Presidential nominee next year. I feel sure that the sentiment will hold good in every state west of the Mississippi River. I recently spent some time in the east on business that brought me in touch with a number of influential business men. Incidentally I have conversed with those men and I am glad to say that, regarding the many advantages of checking accounts, you will always have a receipt which can never be disputed. The endorsed check, which will be returned to you is an indisputable proof of the payment of the bill. Your money is a safe investment in this bank to your credit. Confidence in Taft Lost
Removal of Present Chief Executive Will Mean That Progressive Republicans Will Turn to New Jersey Statesman.
BY HON. FRANK G. CANYON, Former United States Senator from Colorado.
I have traveled in ten states since leaving Colorado a month ago. The cry of the Progressives in these states—Texas, Oklahoma, Kansas, Nebraska, South Dakota, Wisconsin, Iowa, Illinois, Indiana and even Missouri—is for La Follette and Wilson. The Progressive Democrats want the Republican party to nominate Robert La Follette for the presidency; so that if the Democratic party shall lose the people will win.
Add Progressive Republicans want a Democratic party to nominate Woodrow Wilson; so that if the Republican party shall lose—the people will win.
You will observe that the Progressives have an increased wisdom on that wily old Serpent, the system whose favorite plan has been a variety of change of leadership. The Progressive Democrats want the Republican party to nominate Robert La Follette for the presidency; so that if the Democratic party shall lose—the people will win.

IMPROVING TO HARD BOOKS
All studies about the hundreds of thousands of dollars were put into the hands of the people by two hundred and fifty million copies of the other day. Following a quarrel, a negro, Henry Lewis, was shot four times in the head at a range of less than five feet. After penetrating the head the bullets flattened and dropped to the floor. The man was taken to hospital, but was soon permitted to go to his home. His assailant escaped. Another colored man, William Puffen, while harassing a mule was kicked on the head and knocked down. Getting to his feet, he discovered the mule lying on the ground. Examination showed that its leg was broken. Puffen was taken to the Germantown hospital, where six stitches were put in his scalp—Philadelphia Ledger.

Bad Spells
"I suffered, during girlhood, from womanly weakness," writes Mrs. Mollie Navy, of Walnut, N. C. "At last, I was almost bed-ridden, and had to give up. We had three doctors. All the time I was getting worse. I had bad spells, that lasted from 1 to 28 days. In one week, after I gave Cardui a trial, I could eat, sleep, and joke, as well as anybody. In 8 weeks, I was well. I had been an invalid for 3 weary years! Cardui relieved me, when everything else failed."

TAKE CARDUI The Women's Tonic
If you are weak and ailing, think what it would mean, to you, to recover as quickly as Mrs. Navy did. For more than 50 years, this purely vegetable, tonic remedy for women, has been used by thousands of weak and ailing sufferers. They found it of real value in relieving their aches and pains. Why suffer longer? A remedy that has relieved and helped so many, is ready, at the nearest drug store, for use, at once, by you. Try it, today.

It has come to the attention of Bureau of Explosives, American Railway Association, that many of the users of explosives, and especially miners who are foreigners not conversant with the English language or the requirements of the federal law, are in the habit of including packages of explosives in their baggage checked in the usual way on a passenger train and in packages of household furniture shipped in the usual way by freight. The federal law strictly forbids a concealed shipment of explosives or the transportation of explosives on passenger trains even when declared. Packages of explosives must be packed in their regular shipping containers properly marked and accompanied by shipping orders of the usual form. The penalty provided for violations of the federal law are severe and may equal a fine not to exceed \$2,000 with or without imprisonment not to exceed 28 months. Many violations of the kind described above have been reported and in all such cases where the evidence was sufficient to warrant prosecution, prosecutions have been started. Guilty parties even when their actions was due to ignorance have been fined and imprisoned. Ignorance is no excuse for a violation of this kind. As examples, it may be stated miners and other parties have taken packages of blasting powder and even packages of loose sticks of dynamite with blasting caps, all wrapped in loose paper, and placed into the smoking cars of passenger trains. In other cases wood tubs and barrels supposed to contain only household goods have been found to contain loose powder, and sticks of dynamite. This is a matter that affects safety and this information should be used not only by parties for present information or suggestion that they own practice from being in violation of the law, but each person should do all in his power to spread this information in the interests of public safety and to prevent violations by all parties. Public spirited citizens willing to assist in promoting the safety of the public in this respect should furnish information or suggestion that they would be valuable are requested to correspond with or call on Colonel B. MEMBER OF KENTUCKY PRESS ASSOCIATION

SENATE bill No. 123 which has been introduced in the Senate by L. W. Arnett State Senator from the Covington district is another one of those onerous measures, which should have met its doom upon its first reading.

The bill provides that every person, firm or corporation engaged in the mining business in Kentucky shall pay into the State Treasury a sum equal to one cent for every ton of coal mined in the state. Another whack at the Eastern Kentucky, and the establishment of more offices with a few fat jobs for office seekers. Should a similar bill ever reach the house we certainly hope that our representative will go on record as casting his vote against this, as well as all other such injurious measures. We already have too many office creating laws and not enough business getting law, for the well fare of our state.

"A curfew law for husbands was advocated by Robert E. Glenn, former governor of North Carolina in a speech at Chicago Monday night on the subject 'The Country's Need of Sierling Men and Women'." "The man who stays away from his family at night is the most contemptible creature on earth," he said, "I wish we had a curfew law for husbands—a law that would make every husband stay at home from 8 o'clock in the evening until 6 o'clock the next morning. A man's place is at home with his wife, helping to train the children in the way they should go." There is no question but what the women would vote unanimously for such a law and in many instances is certainly needed.

BETTER ROADS FOR THE STATE.

We note that Mr. Owings, Representative from Jefferson county, one of the most industrious and useful members of the delegation—is quoted in the Courier-Journal as objecting to a specific good roads bill because it would work a hardship on Jefferson county. Mr. Owings explains that on a basis of 5 cents on \$100—assessed valuation of taxable property Jefferson would pay into the State treasury for good roads \$80,000 and could not hope to get back more than \$10,000.

We trust that Mr. Owings, in connection with Representatives from other parts of the State, will carefully consider all of the provisions of any road bill. The people of Kentucky, want better roads, they want them built in the best manner and built for all time, but this is sure ought not to bind the members of the Legislature to the necessity for anybody in the measure rigid provisions for the protection both of the State and county treasuries.

But it is no good objection to a bill to say that Jefferson county will pay more than it will get on a great deal more than it will get. That is terrible, it does not today, in connection with the common sense of the State, and it is glad to do it. Jefferson county does this because it is the wealthiest county in the State and because in this county property is more highly assessed than elsewhere.

The point in this discussion is not as to the effect the State tax will have upon the contributions the different counties will make to a common fund but it is whether the system bears with anything like equality upon the State at large and whether the bill will secure good roads at a reasonable expense under a tax rate, State and county, not too heavy for the different communities.

A good fold here double benefit. Primary it benefits the contiguous territory. Secondary, it benefits the State at large because citizens use it who do not live or do business adjoining farms or in contiguous cities.

Louisville expects to help every good citizen in the State of Kentucky, but it wishes to help in a wise way. All it asks of the Legislature is a reasonable consideration of economic laws and perfect impartiality in dealing with a public question.

Former Commissioner of Internal Revenue John W. Verke, who for years was a Republican leader in Kentucky, arrived in Louisville last night on his way from Washington to Danville on a business trip. Mr. Verke stepped out of the political fields into a law practice in the Capital City and is said to net him an income several times greater than the salary of any typical office to which he might aspire. Although too busy to give the current issue much concern he has kept in pretty close touch with the situation and expressed himself freely.

"It looks now like there will be a petition as to outcome of the Roosevelt agitation that will contain the names of at least seven, and perhaps ten, Republican Governors who will urge the Colonel to become a candidate," said Mr. Verke and it looks as though there is likelihood of his giving heed to the prayer of his sponsors. With Mr. Roosevelt in the race the outcome is problematical. On the other hand, if the term President declines to listen to the appeal of his friends, there is nothing more to it. The political leaders in Washington do not take Senator La Follette seriously and there is little to be expected of the Cummins boom. It is Roosevelt or Taft.

"As an outsider, taking no interest in the fight, other than that of a fellow Republican who desires to see the cause supported by the party succeed, I was to say that the Democratic situation, in my opinion, is almost identical. Right now it looks like there is nothing to it but Wilson, but look out for Champ Clark. He has played good politics during the campaign in Washington, and with a bitter fight between Harmon and Wilson, he is the most likely person to solve the problem of the nomination."

"A contest between Roosevelt and Harmon or Roosevelt and Wilson would be decidedly interesting. With Harmon as the Democratic standard-bearer, Roosevelt's fight on the interest and the conservatives would furnish a delightful dramatic effect. On the other hand, he could take a directly opposite position in a fight with Wilson and hammer the Progressives in a way that would make the conservatives there is no man in America now has there been one in twenty years as with a strong hold on the people, and his nomination would insure a campaign of enthusiasm that has not been equalled since the McKinley-Bryan race in 1900."

A. T. Siler, of Williamsburg, who recently went out of office as Railroad Commissioner from the Third district, is in Frankfort to do what he can to defeat the bill providing for the creation of the new county, McCreary, out of portions of Whitley, Pulaski and Wayne counties. Mr. Siler says it would be a great mistake to establish another county there. He is the Eleventh district member of the Republican State Central Committee and a power in politics in his section. Mr. Siler is prominently mentioned for one of the places as delegate from the Eleventh district to the Republican National Convention.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh, Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, getting direct upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO. Toledo, O. Sold by all druggists 75. Take Hall's Pills for constipation.

When her child is in danger a woman will risk her life to protect it. No great act of heroism or risk of life is necessary to protect a child from crons. Give Chamberlain's Cough Remedy and all danger is averted. For sale by Chas. C. Davis.

"I don't know Sam's going to vote in this election," said a campaign worker. "I've heard that he's on the fence." "He was that," replied the neighbor, "but one of the candidates let fall a dollar on the side of the fence, and Sam's decided to fall over."

Heaven help the man who indulges in dodging enemies by trying to please everybody! If such an individual ever succeeds, pass him by the way that we may have one back at his mortal enemy. The chances away for surety this earth cannot be his abiding place. Now we do not regret that one should be going through this world trying to find beams to knock and trump his head against, disputing every man's opinion, fighting and abhorring and crowing all who differ from him. That again, is another extreme! Other people have their opinions, so have you. Don't fall into the error of supposing that will respect you more. In turning your coat every day, to match the color of theirs.

BEWARE OF TOWN ROW.

"A town row is to a town what a heavy frost is to vegetation," says ex-Governor Hoch in the Marion Record. "Nothing worse to a town like a town row. Better have a cyclone or an earthquake or most any destructive visitation than have a town row, for when these calamities are over they are over, and the people, cemented together in closer fellowship by the common calamity, begin at once unitedly and bravely to repair waste places. Such a people under such conditions are invincible as a absolute master of destiny. But a town row distracts, disintegrates, destroys. It undermines the foundation of things. Its scars heal slowly. Its scars last!"

How to cure a cold is a question in which many are interested. Just now Chamberlain's Cough Remedy has won its great reputation and immense sale by its remarkable cure for colds. It can always be depended upon. For sale by C. C. DAVIS.

STILL TIME TO GET THE COMPANION FOR \$1.75
