The farmer trying to farm who never takes or reads a paper, nor even a good farm journal, is like the lawyer trying to practice law who never saw a law book. His work is grudgingly done and his income very small. A little intelligence required on the farm as well as any other business or profession, if any great success is attained.

The directors of the Rockcastle County Fair Association have again decided not to change any entrance fee, or retain any part of the premiums offered, in this year's premium list of the Great Rockcastle County Fair.

It cost the people nothing whatever to exhibit their stock in any ring, this should be very pleasing to all the patrons of the Fair.

The Spring shoppers were out in full force and effect Wednesday to attend the millinery opening of Mrs. Brown and Mrs. Hendrickson not withstanding the inclemency of the weather. Mrs. Hiatt will have her opening tomorrow.

A fairly good crowd of Representative farmers were present last Saturday to see the Agricultural special which stopped at this place for two hours. Not a single one of the number, who were present went away feeling that he had not been greatly benefited, and many made it plain that their solemn vows to do more and better farming and on more scientific plans, than ever before. We certainly trust that the result of 79 better, which was based on evidence on that day will prevail for all time to come, and if such is the case, we will see that the more thrifty farmers than Rockcastle has ever had in the past.

Mrs. John Ramsey died last Monday at her home on Rentree creek, after an illness of several weeks. There has never come under our observation, a more sadder death, than that of Mrs. Ramsey. Some five or six weeks ago she gave birth to twin babies from which she never recovered. Besides the twins, she leaves two other small children. The burial took place at the Marengo grave yard, having been 2900 paces from Tuesday on account of high water. The husband and relatives have the sympathy of the community in their hour of sad affliction.

YOU CAN SKIN THE CAT IN 'PERFECTION' CLOTHES—PETE

That lad of yours. You want him to have all the fun he can.

The livelier he is the better you like it. Yet oftentimes when you see ripped seams and lost buttons you wish he would tame down just a bit.

It is not all his fault if his clothes don't hold together. Perhaps they were not made quite right to begin with.

Next time he is ready for a suit, come here and look at the best boys clothes.

See how much better they are than the ordinary kind, yet they cost no more.

If you want the best—you want the best boys clothes.

WHEN PRIDE IS JUSTIFIED

For too many husbands are vain and self-satisfied because of such temporary mercenary advantages, and in their eagerness to display that advantage at every opportunity often destroy their greatest blessing, the physical counterpart of sunshine, which is their own health. Neglected colds, irritable meals, overloaded stomachs, might reverly result in shattering nerves, depressed vigor and fat gu all of which invite decline and disease.

Each person stands sentimentally at the portals of his own health and he who guards, protects and maintains it, builds up rugged constitution is justified in pride and find therein his own recompense the capacity to enjoy the fullness of life.

The strain of modern commercial and social living takes strength and energy and vitality from the system, and such pressure should not only cultivate deep breathing, out of door exercise, regularity and temperance in all things, but study the greatest of all physical power-creators which is body nourishment. In this, alcoholic preparations should be carefully abandoned and such properly digested nutriment as Scott's Emulsion which enriches the blood and creates vigility by build ing, healing and strengthening, should be selected.

Scott's Emulsion is scientifically prepared and is best for teaching children, nursing mothers, growing children, the aged and infirm. It contains no wine or stimulant, but is wholesome and pure and has helped millions to regain health and sustain it. Worthless substitutes are sometimes offered, but Scott's Emulsion is the genuine pure food-medicine.

KENTUCKY SPRING CLEANING.

An effort to have the entire State observe April 15-20 for spring cleaning is being made, and the Governor has asked to cooperate in having this done. Louisville has already adopted these days. The chairman of Clean up Days for the Federation, Mrs. John A. Stratton, is using her influence to have every Kentucky city, village, crossroads and back yard clean at the same time. Let us all go to it in earnest and attain unto that state which is next to godliness. Texas and Louisiana have adopted this "simultaneously clean" plan and while we have not had the distinction of leading in the idea, let us follow gratefully. THE WISE FARMER.

There was a man in our town And he was wondrous wise He knew that if he wanted crops He'd have to fertilize. Its nitrogen that makes things green Said this man of active things And potash makes the good strong straw. And phosphate plumps the grain But its clearly wrong to waste plant food. On a wet and soggy field; I'll surely have to put in drains If I'd increase the yield. And after I have drained the land I must plow it deep, all over; And even then I'll not succeed, Unless it will grow clover. Now seed soils will not produce A clover sod that's prime. I'll have to put on lime. And after doing all these things, To make success more sure, I'll try my very best to keep From wasting the manure. So I'll drain, and lime, and cultivate. With all that that implores; And when I've done that thoroughly I'll manure and fertilize.

COLLEGE OF AGRICULTURE, OHIO STATE UNIVERSITY.

ALMOST A MIRACLE. One of the most startling changes ever seen in any man, according to W. B. Halsley, Clarendon, Tex., was effected years ago in his brother. Now he is sound and well and weighs 218 pounds." For many years our family has used this wonderful remedy for Coughs and Colds with excellent results. It's quick, safe, reliable and guaranteed. April 1, 1912. Mr. VERNON SIGNAL, Mt. Vernon, Ky. Mr. Editor: As this is all 'fools day, I decided to write you another love letter. It is about the time of year for all animals to shed their last year's coat and to prepare for another just like the old one, but as the highest species of animal, the human, we should surpass that. Why should we not 'shed off' all our filthy, tight-fisted and narrow minded ideas, and change ourselves (I mean more and more of us) into 'Bromo-Ky' with the 'kick of progress, ope up our hearts and pocket books, limber up our tongues and hands and show to the world that we are not merely sipping space, but that when life's journey shall be ended, with us that the world shall be bettered by us having lived in it. If it were our usefulness? Why not every man and woman make for themselves a monument somewhere in Rockcastle, that after death the world can inscribe on it the inscription: "Well done thou good and faithful servant." If not some of our living friends may cause Mr. George Owsen to carve on a marble slab, which marks that "six foot of earth" that we would hardly be entitled to an inscription, that would be an injustice to the world. Now as the Agricultural educational fringe has run let me solve to turn my shoulders to the progressive wheel and grind it a little one turn in my life. I will admit of some progress but not as much as we might have made. Life is short at its longest and if we don't keep at work all the time our monuments may not reach beyond the skies. While we live let us live to the full. We are here to live, to be progressive, to be useful, to be all that the one day, let us get it all, other good things will follow. I want to suggest a plan by which I think a great deal of good can be accomplished.

among our people and I want to solicit the help of all the good ladies of the county in giving it a trial. If you will cooperate with us it will inspire the few more that are making a fight for improvements in Rockcastle. I do not want to criticize but I thought for the good ladies of Mt. Vernon to consider. I would not your reward be just a little greater if you would turn your attention to the wants and needs of Rockcastle and her underserved and ignorant people? than to give your attention to Japan or some other foreign country. We need plenty of work at home. Under Judge Williams' administration this county purchased two road graders, but having to draw them by horses at that time almost prove a failure, but we can do better now. About all of the Western half of the county and a large part of the eastern half could very easily be graded, and if properly done, would be a good road at least nine months in the year and not very bad at any time. My plan is to have a Good Roads and Domestic Science. Basket dinner people, in each magisterial district in a suitable place to make a demonstration. Hire a traction engine hitch to a grader, and let the crew in the front have cleared the right of way of trees, stumps and rocks, grade about 3/4 mile of road while the ladies were holding a session of Domestic Science. At 12 o'clock have a basket dinner. After which have speech making by Judge L. W. Babberson, Atty. S. D. Lewis and other members of the Fiscal court, and so many others as would say something to encourage improvement. Then inspect new piece of road and part, better prepared to fight for the right. A prearranged program published in Signal a few weeks before such meeting would be a good idea, naming all the speakers. Now Mr. Editor if this plan has any endorsement by you or any of the readers of your paper, let me hear it through your paper.

Yours very truly, An April Fool, P. H. Saurts

BIG BLAZING STAR

Signaled Opening of the "World In Cincinnati."

Great Religious Spectacle and Missionary Exposition In Attracting Thousands to Cincinnati.

Cincinnati.—The great Missionary Exposition called "The World In Cincinnati" the second of its kind to be held in the United States, was opened, when President Taft pressed a button, illuminating a huge electric star. At the same moment a huge American

mountain cabin, in Mountain People scene.

flag was unfurled and the spectators which packed Paganal hall to the tops, arose and sang the national anthem. Large crowds visited the main auditorium for the first time and crowds that tax the capacity of Music hall are daily thronging the big ballroom and into the

Extraordinary interest shown in the exposition. Here and here through the life like scenes, groups of people are daily listening to the explanations of the costumed attendants or stewards in charge of the various exhibits. Every section has its quota of missionaries, who are mostly home on furlough from countries everywhere in the world, to give men and women a more tangible experience to relate, many strange lands to describe, much to say about their work, and their earnestness makes them interesting talkers.

In the exhibition halls are booths representing China, Japan, Korea, India, etc. There one meets pretty American misses garbed in Turkish costumes, also beautiful women with their faces concealed, all but the eyes. The colony of real American in-

God House and Prairie Schooner scene, which so staidly mind their own business of making bed ornaments and other goods monopolized only by Poor Lo, attracted much curiosity. James G. Gold, the ex-cowboy, also comes with great attention. Gold takes pleasure in starting the small boy by passing him, and many kids deserted their parents to "paleontologist" wander near the fringe and be honored by a real palman.

There are a number of halls where special features of the Exposition are in progress. A Hall of Methods, showing missionary educational work, where gifted story-tellers and young people in simple dramatizations, provide instructive entertainment. The Meaux Hall and Moving Pictures Hall are just what their names imply. The Meaux in costumes, little plays, and many thousand feet of picture films are special attractions to the crowds.

THE EXPOSITION PLEASURES

Necessary to Repeat Demonstrations, Crowds Are Large.—Some demonstrations at "The World In Cincinnati" street scene, crowds that they have to be repeated more times than those scheduled to satisfy the visitors. At the same time under one roof, walls in the "Hall of the Homeless" things are moving at the same rate. One of the most picturesque demonstrations this week is that of the immigrants clad in the costumes of different countries as they land at Ellis Island, led by G. W. Dunton, who march through the halls before going through the medical examination and other requirements of those who come to our shores.

SEVERAL HUNDRED ASSISTANTS.—The most notable part of this great Missionary Exposition is the immense number of persons assisting voluntarily in one way or another. Working with the crowds and peopling the scenes from foreign lands are men and women from various churches, wearing the native dress of every land under the sun.

BURR.
Quite a number from here attended the Fifth-Sunday meeting at Pine Hill, Sunday.—Mr. and Mrs. John W. Spokes were called here Friday on account of illness of Mrs. Spokes' father, Mr. John Cox.—Mr. and Mrs. Ed Owens, of Withers, visited friends and relatives here Saturday and Sunday.—Mrs. L. C. Bell, who has been on the sick list for some

time is better.—J. A. Owens was in Mt. Vernon, Tuesday, on business and went into convulsions until noon.—The three-year-old child of Mrs. Green Cox died Sunday of brain fever.—Luther Manus and wife, of Mt. Vernon were the guests of their daughter, Mrs. G. F. Thomas, on Sunday.—Mrs. Angel of Richmond, is visiting her daughter, Mrs. James F. Seebrook, at Albert Cromer, and wife, of Pine Hill visited the family of George Smith, Saturday and Sunday.—Miss Zella Owens visited her sister, Mrs. Sam Rowe, last week.—Mr. John Cox died at his home Saturday at one o'clock.—Mr. Cox was a member of the Church of Christ and a faithful Christian man. He was liked by all who knew him, always speaking a kind word to everyone, and will be sadly missed by his many friends and family. He leaves a wife and eight children to mourn the loss of a kind husband and father. He was laid to rest Sunday afternoon in the Owens' Grave Yard, near his home. We await the call of the last great day.

DON'T ABUSE YOUR WATCH

YOU do not run your buggy, automobile or other machinery till it squeaks and grinds and cuts itself to pieces. You clean and oil it often.

You should be as careful of your watch. It is small and light and can not speak loud when it is dry and needs cleaning and oiling. So it is liable to get out of order and need attention before you know it. You may not know it till the watch is completely ruined and stops.

Bring your watch to us and let us examine it with our strong glass to see its condition accurately. We will show you and explain the exact condition.

Every watch should be thoroughly cleaned and re-oiled and adjusted once in each year. Take proper care of your watch and it will last you a lifetime.

Consult us on all WATCH DISEASES.
