PERSONAL

Mr. and Mrs. T. J. Gentry are here for a few days.

John D. Henderson is home from Eastern State Normal School at Richmond.

Frank Cartron left Monday morning for Lewisport, Tenn., to build concrete forms for Frank Longmire.

Miss Bessie Flinchum, of London, was the attractive guest of Dr. and Mrs. R. W. Dyche Sunday and Monday.

Mr. and Mrs. Hugh Miller returned from Louisville Sunday and have gone to house keeping on Newcomb Ave.

Mrs. M. Pennington was here first of the week to bring a daughter of "Bub" Turpin to place her in Brown Memorial school. She was the guest of Mr. and Mrs. S. C. Franklin while here.

Frank Longmire and family left for Tennessee Monday morning, where they expect to live until Jan. 1st, when they will return to Mt. Vernon. Atty. and Mrs. R. R. Gentry will live in Mr. Longmire's home until that time.

Dr. R. W. Dyche was in London Wednesday to see about an office preparatory to moving to that town. London is the Doctors old home and he has a longing to return to his native nest. We shall regret to lose the Dr. and his wife, and trust that he will yet decide to remain in Mt. Vernon.

FOR SALE—One nearly new 18 hp boiler and engine and band saw complete. Will sell worth the money. K. J. McKINNEY, Apr. 5-7. Mt. Vernon, Ky.

Dr. Cornelius of Berea, was here Wednesday to go before the Fiscal Court, and ask the court to build a bridge across Roundstone creek near Sinks, guaranteeing that in event the county built the bridge that he would contribute as soon as possible the construction of a 14 foot dam across the creek just above Sinks and the erection of a flour mill of 500 bushels capacity.

Doctor said that \$25,000 or \$30,000 would be expended. He made a personal donation of \$100 toward the erection of the bridge. The Fiscal Court read the request of Dr. Cornelius and a number of citizens from the East side of the county, and placed an order for a bridge, a reproduction of the one at Orlando, which will be ready for use inside of ninety days. This means much to the people of that side of the county to say nothing of what such an enterprise as Dr. Cornelius proposes to establish, will mean to the county.

There's no bigger gamble than relying on your best friend.

Marriage is a thing to be thought over very carefully beforehand, and that's why everybody does it afterward.

Prof. S. Hillwell, a brother of J. H. Stillwell, of London, the proprietor of the Catching Hotel was here Monday to make application for the principalship of the Graded School.

The Fiscal Court met Wednesday and fixed the levy for 1912 as follows: General purposes 2 1/2%

and \$1.00 poll; road and pike 2 1/2 cts. school taxes and 50 cts. poll and for bridge across Roundstone near Sinks, gets. This makes the levy 5 cts less than last year and the poll for school purposes 50 cts. less than for 1911.

To the Fiscal is due much praise and credit for their efforts to improve, and as far as possible meet the demands and wishes of the people. In the first place it must be remembered that Rockcastle is one of the worst paper counties in the state and that it takes money to do things. The county does not have the wealth it should have and in the second place tax payers try to get their property listed just as low as possible so as to avoid payment of taxes. Notwithstanding all this, within the last three or four years, the county has made improvement which means much to future developments. At Orlando a bridge was built, the value of which is inestimable to the people of that section, at a cost of \$2500; the three miles of pike now about finished is a blessing to the people of the Southern part and the bridge ordered across Roundstone near Sinks is not only a help to the people of that section but brings an industry to the county which will be worth much to future advancement. It is easy to talk about what can or should be done but doing a thing is another proposition. The men who compose the Fiscal court have proven themselves to be progressive men and the public servant who places himself in that position of trying to do without sufficient means to do with and the battles of the knuckers and soreheads turned loose upon him, is certainly due all credit and praise for his efforts. So we say that the present Fiscal Court, composed of Judge Bethrum, Judge Lewis and the five magistrates, J. H. Lambert, Hardin Moore, C. S. Armstrong, J. L. Arnold and Logan Arpold deserve the praise of Rockcastle people for their efforts to meet some of the needed and pressing demands of the people.

BROWN MEMORIAL

The second of a series of luncheons was given on Friday the eleventh by the High School Cooking Class. The purpose of these luncheons is to give the girls practice in preparing a complete meal for a limited number of persons. Following to the size of the Dormitory family, this is prohibited in the regular school work. Misses Marie Litton and Elizabeth Gentry were hostesses; Mesdames Franklin, Loyell, Crawford, Misses McCord, Dodson and Kefauver were guests. The following menu, prepared by the girls was served: Mock veal loaf, tomato sauce, Bananas sauté, Duchesse Potatoes, Parker House Rolls, Coffee

Sliced Pineapple Nabisco

Through the generosity of Judge R. G. Williams the Woman's Club of Mt. Vernon will again be able to offer prizes for best looking premises.

Details as to requirements, etc., will be decided at the open meeting of the club, April 26th, and full particulars will be published. We appreciate Judge Williams continued interest in his old home BROWN MEMORIAL SCHOOL

Owing to conflict with the public school commencement the Brown Memorial exercise will begin on Thursday, May 23rd closing on Tuesday May 28th. The nature of the four different exercises will be announced later.

Celia Turpin, of Berea, is a new seventh grade student at the dormitory.

Last week was observed as the Week of Prayer at the dormitory and prayer meetings were held each day from 12-12:15 for those who cared to attend.

On Saturday evening Mr. Michel of Harlan, gave a brief song recital which was much appreciated by the girls.

Today and tomorrow are clean-up days. Who is he who will not respond to the call?

AS YE SOW, SO SHALL YE REAP!

SHALL YE REAP!

For a Quarter of a Century

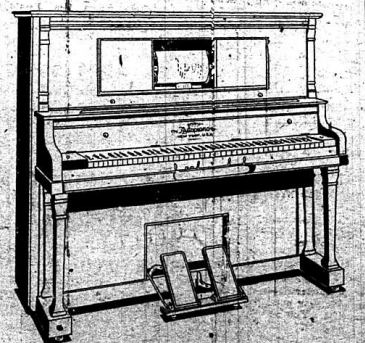

It has been my earnest endeavor and always will be, to sow seeds of satisfaction, in the firm belief that such a policy can result in a harvest of business that will make this the most reliable clothing and furnishing establishment in this country.

No matter what price you pay me for your SUITS, your absolute satisfaction is considered above everything. This is the "Shop of Satisfaction." No reasonable man is permitted to leave here unsatisfied.

It is my honest conviction that if I could sit down and talk for just one-half hour, to every man in this country personally, I could convince you that I could save you from \$2 to \$5 on each suit you buy. I could show you how my coats made with concave shoulders will fit you closely at the collar and give you a broad-shouldered appearance. I could point out to you that the fronts of my coats cannot break down or crumple, because they are made with a special, unbreakable construction—stayed and strengthened where the strain comes. You would understand why "Fish" can beat all other stores to a frazzle on prices. You would realize why other stores with a burden of charge accounts on their books are obliged to make a stiff profit in order to make good the bad bills they can't collect. You would realize that "Fish" selling more suits in one week than the average merchant does in a year—can very well cut down the profit and still make enough to keep the wolf off the door. Why not come in to see me to-day or the first time you are in town, and let me tell you my story face to face? You'll understand it better than if I tried to tell you here in printer's ink.

Don't Deny Yourself The Pleasure of Having Good Piano Music in Your Own Home

The piano is the greatest of all pleasure instruments for the home and it is no longer necessary to be an accomplished musician in order to play it.

Hinton Longmire has made it possible for anyone to play a piano by means of perforated music rolls—thus eliminating years of tedious practice—and placing the responsibility of correct playing on the piano rather than on the pianist.

The AUTOPIANO

Has every device necessary to make the piano "Autopiano" but you will realize this only when you hear it played. Get it with no cost, you'll let us demonstrate "The Autopiano." We're not going to hear some great pianist play—only there is no kind of charge.

Miss Lizzie Howard is the hello girl at the exchange this week. Wade Graves, of Sand Springs, is here this week repairing the telephone line. Willie Bustle, of the river bank, was here Monday. Well, as well as riches among the effects of passengers. Vice President Franklin, of the International Mercantile Marine Company, thought Titanic carried too many life boats, and helped from fifty to sixty persons each. Wireless reports received by White Star Line today indicated that male passengers had been saved, as well as the women, as is ever the case in such disasters. The unwritten law of the sea prevailed—women, children and helples were first carried to safety, while Captain and his crew remained behind. The wireless operator stuck to his post to the last.

ALMOST A MIRACLE. One of the most startling changes ever seen in any man, according to W. B. Holshaw, Clarendon, Tex., was effected very recently in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's new discovery, and was completely cured by ten bottles. Now he is sound and well, and weighs 218 pounds. For many years our family has used this wonderful remedy for Coughs and colds with excellent results. It's quick, safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at Chas. C. Davis.

Two miles beneath the surface of the deep of the 6000 Ocean Bottoms of Newfoundland lies the White Star Liner, Titanic, which went down early Tuesday morning—approximately three o'clock—after having rammed an iceberg at 5:25 p. m. on Monday. The great vessel, which was the largest afloat on her maiden voyage to New York City, had carried, besides a crew of 500, some 2,000 passengers. The number of souls believed to have perished is estimated at from 1,200 to 1,500. It is known that a large number of the passengers and crew were picked up by the Canadian steamer, Carpathia, or other ships. Among those reported to be men of great wealth and distinction. The list includes Col. John Jacob Astor, Wm. T. Stead, the great English newspaper and Magazine writer, and others. The Titanic was carrying 2,200 souls.

ACQUIRING A GOOD WILL

Speaking of the high cost of getting a start in business, a friend in a near by town tells us that the sum of \$5,000 is asked for the "good will" of a certain small concern, exclusive of stock and fixtures. The business is supposed to pay \$2,000 a year in cash to owner's salary.

It costs so much to buy out an established business, unless the same is forced on the market, that starting a new concern commonly seems more hopeful. But if in the old time way, a man simply hangs out his shingle and waits for trade to come, the prime of life may be gone before he gets it.

The same result can be had in a fifth the time by efficient advertising.

Enterprise and truth telling are the qualities that draw trade. To prove that he has enterprise, and is wide awake enough to protect the customer's interest, a merchant must take the initiative and make a vigorous push for business.

A newspaper advertisement can be placed in every home for 1 per cent of the cost of personal solicitation. It is read when people are at their leisure, in a mood to listen to what the merchant has to say.

Good advertising gives an impression that the merchant is alert and energetic in meeting public needs, and a public impression of that kind is a "good will," having a large cash value. It is like money on interest in the bank.

Returning to our starting point it instead of paying \$5,000 a year for that business, a man should spend \$500 a year for two years in advertising, he would have \$4,000 in his pocket and a better business standing.

Through two crevasses in the Mississippi River another in its swiftly rampant tributary, the Arkansas great volumes of muddy water are today rushing out over the lowlands on the west side of the big stream, destined to cover a large section of Northeast Louisiana and a portion of the extreme southeastern part of Arkansas.

For the next eight or ten days the raging waters, which late Friday tore their way through the restraining levees, will move southward through the Texas Valley of Louisiana, and finally return to the Mississippi at the intersection of the Red River, more than 100 miles by land from the upper crevasse and nearly 135 miles from the lower breach in the levee.

Not less than twelve large parishes in Louisiana and two in Arkansas counties will have felt the effects of the flood waters before they again get back within the Mississippi's levees. Millions of acres of land will be inundated, although, for the most part, the overflowed territory will embrace unutilized swamps.

No lives have been lost according to reports received here, arising from two score of towns in the path of the flooded district. The levee authorities and municipal officials in the affected territory express the belief that no lives will be lost. The property loss will be heavy, it is admitted. Many thousands of head of cattle already have been drowned, according to Saturday night reports, and more will be claimed by the flood waters as they continue southward.

The destructive breaks in the Mississippi River at Butler Forest, Ark. and near Booneville, La., will have little effect upon the crest of the flood waters in the big river from Vicksburg, south-

according to Westport Bureau forecast and the Government and State engineers cannot for several weeks yet afford to relax their vigilance in the fight to control the floods further down toward the gulf. Capt. C. O. Sherrill, chief engineer in charge of the river work from Vicksburg south to the mouth of the river admitted Saturday that it was a fight that depended largely upon weather conditions.

"We probably will win if weather conditions are favorable," he declared. But the weather conditions were not favorable Friday and Saturday, when rainfall was general over a large part of the Mississippi Valley, with more than two inches recorded in places.

Regardless, however, of the result of the great and costly fight being made by Federal and State Government along the swollen stream, it is believed there can be no great loss of life in any event. The people in the territory endangered by the highest waters in the history of the Mississippi, from Vicksburg on the south, have been given adequate warning. The property damage, too, will be largely confined to the drowning of cattle. The cities where the flood crest is yet to be recorded are not apprehensive.

Many Americans are emerging from Mexico just now quite well satisfied to get out with a complete skin.

A few years, reckoning ore and crops at their value on this side of the line, it was easy to figure out a "get rich quick" profit on paper.

The trouble with a lot of these schemes was that the assets were not worth much if any dark skinned tramp can come along and burn them up. Even now towns on the frontier have an underlying conviction of law and order that as a whole is about 11. Mexico.

If all the money put into hazardous Mexico undertakings could have been kept at home, every state in the union would have seen new enterprises start on its own soil.

Before sending money out of the country, investors should not look only at physical resources. They should also consider the laws, social institutions, and popular habits that are needed to make resources valuable. Four per cent in a home bank, backed by courts and public opinion is better than 40 per cent, if it is protected only by your guns.

James J. Hill, chairman of the Board of Directors of the Great Northern Railway and one of the country's railroad leaders, will retire in a few weeks, according to a statement published in Chicago Saturday.

At a dinner given at the Waldorf-Astoria in New York in celebration of the anniversary of the birth of Thomas Jefferson, the speakers included W. J. Bryan, Gov. John A. Dix, Senator James A. O'Gorman, Gov. Wilson and Mayor William J. Gaynor.

Tax returns of President Taft filed Saturday show he is much wealthier than he was twelve months ago.

DON'T ABUSE YOUR WATCH

YOU do not run your buggy, automobile or other machinery till it squeaks and grinds and cuts itself to pieces. You clean and oil it often.

You should be as careful of your watch. It is small and light and can not speak loud when it is dry and needs cleaning and oiling so it is liable to cut and wear and need attention before you know it. You can only know it till the watch is completely ruined and stops.

Bring your watch to us and let us examine it with our strong glass to see its condition accurately. We will show you and explain the exact condition.

Every watch should be thoroughly cleaned and re-oiled and adjusted once in each year. Take proper care of your watch and it will last you a lifetime.

Consult us on all WATCH DISASTERS.

Abstract from paper read before the Rockcastle County Medical Society, April 11, 1912, by A. G. Lovell, M. D.

Tuberculosis is a contagious and infectious disease. It is indigenous to every part of the globe where man or monkey may be found. It is no respecter of persons, sex, age, station, or previous condition. Its diagnosis is easy and its prognosis is certain. Whether it be a curse or a blessing in disguise, championship among diseases goes unchallenged. It delivers over to the Angel of Death more victims than many other diseases combined.

From the Therapeutists standpoint of medication, it is neither preventable nor curable that is there is no system or medication that will cure the disease or render a person immune. From a Sanitarian's view point, it is both preventable and curable in a large measure.

We are admonished to obey the laws of health and thus ward off disease, but we bear the admonition so much that it has become only a bombastic expression that means little to the profession and less to the laity. Who knows when he is living strictly within the laws of sanitation? Caring with some diseases, seeking to barrow its deadly fangs in its flesh?

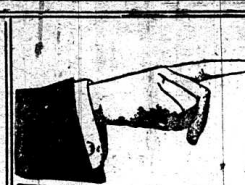

There is no subject with which the physician has to deal that is comparable to that of sanitation. Clean quarters, cleanly habits, pure air, sane or common sense dress, nourishing food, and good habits. These, all together, and in all their fullness, contain the only promise of a successful warfare against tuberculosis.

In case of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by Chas. C. Davis.

Senator Cummins, of Iowa, denounced the decree of the Federal Court in New York approving the reorganization of the American Tobacco Company. He declared it in the interest of perpetuation of monopoly.

Representative Burkey, of Ohio, introduced a bill Saturday for the coinage of three cent pieces with a hole in the middle, designed especially for the use where 3 cent street car fares are in vogue.

Experts from the State farm trust believe the phosphate deposits near Georgetown may prove of great value to Kentucky agriculture.
