LOCAL

Straw hats cheap at Fish's, Saturday.

The hot wave that has had the country in its grasp for past week or more has caused many deaths throughout the northern states that is not so severe here in the mountains. The hottest day in Mt. Vernon this summer was last Sunday when a government standardized thermometer registered one hundred and one. The weather has been ranging between 80 and 88 for several days, with cool nights. Compared with other localities it shows that our country is a good summer resort and had we good roads there would be a large number of visitors by rail and auto every summer.

Everybody and the cook will be at the fair

\$20.00 suits for \$12.95, at Sutton & Mcbee.

Some big telephone poles are being hauled into this place for shipment.

Three big days of fun and amusement at Mt. Vernon, Aug. 7-9 and 9, 1912.

MT. VERNON FAIR ASSO.

We have been assured of several nice strings of horses, from out of county people.

C. H. MULLINS

FROM HOT SALTS—I desire to sell my farm of about 200 acres, with good houses, and in good state of cultivation, located four miles south of Mt. Vernon, near Wadsworth office. A desirable place and if sold at once will sell at a bargain. R. P. NORTON, July 5, 31. Wadsworth, Ky.

H. J. Mullins is losing sleep at night, on account of the incessant racket, kept up by his Irish potatoes "scragging" over room in which to grow. He says they are really crowded and probably it may prove a similar case, to "Carter and his oats" when his crop was so prolific, he was obliged to rent extra ground, from his neighbors on which to stack part of his crop, after using up all of his own land for that purpose.

"The Kentucky Society of Texas" was organized at Fort Worth, Texas, June 1st 1912 with 75 charter members. Rockcastle furnishing one member in the person of W. J. Newcomb. The new organization of Kentuckians has an other object in view in addition to social work. They have ambitious plans, and hope to increase the membership, to five or six thousand Kentuckians in Texas enrolled as members of the society. They expect to charter special trains, to come back to Kentucky for a home visit, to establish a home for destitute Kentuckians, and it will be the aim of the society to see that no Kentuckian is neglected, in the state. On June 27th the society held a night picnic, at Lake Como park, in which, Kentuckians to the number of over a hundred mingled and mixed and swapped everything from yards to jack knives. It was a regular Kentucky picnic. There were neither frills nor furbelows, but a plenty of eat, brought in baskets. All the Kentucky products were there, from horse talk and hospitality to fried chicken and biscuits. The hot, gave out after awhile, but the hospitality and the fried chicken and biscuits lasted throughout the night. Each member wore a light blue ribbon, with the name and seal of the society printed thereon. The seal is made up of combination of the state seals of Kentucky and Texas.

The meeting was well attended and closed with "my Old Kentucky Home." There were other songs also. Every Kentuckian now knows a lot more Kentuckians in Fort Worth, than he did before.

Among the charter members appear the names of W. F. Meritt of Garrard county, Miss Ella Smith daughter of the late John W. Smith of Point Lick, also J. B. Burnside of Bryantville, who runs an extensive hardware business in Fort Worth. A Kentucky barbecue will take place in September. W. F. Newcomb, whose address is Route 4, Box 65 G. Fort Worth, Texas, is desirous of obtaining the address of every native of Rockcastle now residing in Texas, so he may send them application blanks to become members of the new society. Any of our people who know these addresses will confer a favor by notifying Mr. Newcomb. For more convenient advice manager of the enterprise. Mr. Newcomb, who will forward the information promptly.

County teachers institute begins July 29.

The Standard Oil Co., will locate tanks at this place.

White Buck Pumps, for 85 cents, Sutton & Mcbee.

Don't fail to see Mary-go-around at the Mt. Vernon Fair, Aug. 7, 8 and 9.

WANTED—Blackberries, will pay 10 cents per gallon, Mrs. M. Hartz, Mareburg.

M. J. Miller will erect a brick store house, on lot where old store was burned last February.

Preaching at the Livingston Presbyterian Church, by the pastor, next Sunday morning and evening.

Election officers who have keys and seals in their possession are requested to deliver same to county clerk at once.

Women's Stude and Cravenette Pumps, great clean-up sale at 75 cents, including \$3.00 grades, Sutton & Mcbee.

It is not only the men that are working for the Mt. Vernon fair, but the ladies as well. Come and see them at the fair grounds.

CARD OF THANKS—I desire to express to the good people of Mt. Vernon and vicinity my sincere thanks for the many kindnesses shown me and my dear husband during his sickness and after death. Mrs. ELLEN HIATT.

Because a telephone operator told a caller that it was "storming" at London, a few days ago, a report was spread that a hurricane had visited that place. It was simply a thunder storm and it's not very pleasant to do telephoning when lightning is snapping and popping over the wires.

LOST—At L. & N. depot, at Mt. Vernon, in the afternoon on Friday July 12th, a new black leather traveling bag, containing among several other articles, a white lined dress, with embroidered initials "J. I. G." on wrist. Liberal reward for its return or information, leading to it. Mrs. E. R. GENTRY, Mt. Vernon, Ky.

In view of the great amount being expended by the BROOD-HEAD FAIR, this season, for FREE attractions, the association has decided to sell NO EXCHANGE TICKETS to advertisers and others, as has been the custom to do. The association knows that they will be able to give to every one attending; the worth of its twenty five cents, and it being such a little matter, and the attractions being so expensive, the committee will not issue any complimentary whatever.

The locomotive for use in and around the (Kaypee) Kentucky Grand Cement and Coal Co.'s works at Pine Hill, has arrived. The company has a movement on foot looking toward making arrangements for having this engine make daily trips, between Pine Hill and Mt. Vernon, for the accommodation of the company's employees in the use of their work in this place. The Kaypee folks are showing a liberal spirit; in its efforts to extend accommodations and conveniences to its workers.

The I. X. L. Wild West show laded in town last Saturday on schedule time. A fairly good crowd had gathered to witness the performance but just before the appointed hour to start, there was a great commotion inside the tent, when the reserved seats department gave way, throwing all the occupants to the ground. For a time, it seemed, from the screams of women, crying of children and groans of men and boys that every one who had gone down were injured more or less, but fortunately, all escaped, without any serious injury, save a severe jolting up, except two, R. B. Mullins, who suffered a mass of the ankle and leg, and little Panny McPerron, daughter of R. L. McPerron a slight fracture of one of the bones of lower limbs. Both are doing very nicely. Failing to elect a compromise with Mr. Mullins, he filed suit against the show people for \$2000 damages and an attachment was placed upon the entire outfit, but investigation proved that the show was under condition that there was little chance of recovering money for an attachment was refused, as the show went on its way. The suit is still pending and will be tried at the August term of circuit court.

Mr. A. C. Hiatt died last Sunday morning at his home on West Main street after an illness of only a few hours. For several years Mr. Hiatt had been afflicted with epilepsy and it was while in one of these attacks that the end came. He leaves a wife, an aged mother and three daughters. Burial took place at Oak Hill Sunday afternoon after short services conducted at the Oak Hill church by Rev. Geo. S. Watson.

The Double Springs farm to be sold at front door of Mt. Vernon court house, on Monday July 22nd at 10 o'clock. This is the farm on which S. H. Martin lived for a number of years, now owned by heirs, of the late T. G. Taylor and 3 1/2 of the best small farms (50 1/2 acres) in the county, watered by the famous double springs, a two story, 9 room house in first class condition; beautifully located across a little valley from the railroad, with magnificent shade trees about the yard and lots. One of the best orchards, of varied fruits, in the county. On building and fencing in fair condition and is an all around desirable farm and home. LIVINGSTON, KY.

In compliance with the desire of a devoted father and mother, to their first born, we pen these few lines in memory of that young life, which came to bless the home of Dr. and Mrs. Lee Chestnut, but which so soon went out. The in-laws suffering which the mother endured, for weeks when her life seemed to be held only by a brittle cord, was alleviated in a measure by that hope of what the future would bring. Although it was only an earthly angel soul to join the angels on high, yet, to that father and mother, the loss is irreparable. Only those who have had the experience can know the extent of such a loss. R. G. Gentry

Special to Mt. Vernon, Signal. WILLIAMSBURG Ky., July 18 The Roosevelt Republicans of Whitley and adjoining counties are urging opposition to Congressman Caleb Powers. The two men most prominently mentioned are Roosevelt candidates are A. T. Siler, former Railroad Commissioner, and J. C. Bird, County Attorney of Whitley County. Mr Bird is regarded here as the most available man to make the race. He is young and aggressive and is expected to be one of the best campaigners in this section of the State. He was one of the leaders of the Roosevelt movement in the Eleventh District for the Republican nomination and it was largely due to his management and influence and efforts that Roosevelt carried Whitley County almost unanimously in the mass convention. Mr. Bird is well and favorably known in nearly all the counties in the District, and if he should accept the nomination on the Roosevelt ticket, there would certainly be something going in the Old Eleventh. He is personally known to Roosevelt and no doubt his candidacy would be looked upon with favor by the Colonel.

Kokrine's Alaska June, 2d 1912.
EDITOR, MT. VERNON SIGNAL.

MT. VERNON, KENTUCKY.

DEAR MR. ALBRIGHT:—
Having been asked by some of the readers of your paper to write through it columns, concerning Alaska, and it's nature, which is a very interesting subject to write on, by a person capable of same. But I will try a very short letter, hoping it escapes the waste basket. I am a member of the United States Signal Corps, which maintains, and operates the Washington Alaska Military Cable & Telegraph System, which consists of 2655 miles of submarine cable, 11725 miles of land line, and 9 wireless stations.

This system is maintained and operated under the direction of the Chief Signal Officer of the Army, by the officer in charge, who is stationed at Seattle, Washington. For purposes of administration and supply, the station is divided into four sections, with officers of the Signal Corps in charge. This system was built by the United States government, for the opening, and advancement of Alaska. Communications can be had with any part of Alaska of any importance.

It is Uncle Sam's intention to keep men on this duty, two years, relieving half the force each year and replacing new men. This gives the system, a sufficient amount of old men to break in the new men each year.

Alaska has several gold mining camps, which has proved to be very rich, viz: Fairbanks, Rampart, Nome, Iditarod, Ruby City, and several others. Dawson, which is in British Columbia, on the waters of the Yukon river, is one of the richest camps ever struck in this country, it is known as the Klondike region. Ruby City, being a very new camp, where gold was discovered in the early spring of 1911. The camp now has a population of approximately 3000 inhabitants.

We have the Indians, known as the "Siwash", who are very peculiar in their way of living. During the winter months, they live in little log cabins, well chinked with moss, and covered with dirt. These cabins are very seldom used during the summer months, as they begin to leak as soon as the thaw comes in the early summer, and the Indian leaves his winter quarters and finds some little side stream, where he can catch enough fish to keep him in subsistence during the breakup of the rivers, which is very dangerous to be on the river, except on a very high point, on account of ice jamming and piling up, which generally carries out a portion of their villages. After all danger of ice is past, they resume their summers fishing parties on the river, where the squaw catches the supply of fish, by means of a wheel, which the current keeps revolving. This wheel has basket-like devices, which pick the fish out of the water and when elevated to a certain height, drops them in a box on either side of the wheel. The fishing season lasts about three months, when the tribe is compelled to return to their winter quarters. The whole tribe is together during the winter months in a small village of cabins. In the early winter, they have great, pot-latches, where all the neighboring tribes gather, and where they bring their collection of blankets to distribute to the different tribes. When a member of the family of one of these tribes die, he has to get a large collection of blankets and food, which he pot-latches to the dead one, which he is supposed to get somewhere, in the new hunt.

ing and fishing grounds where he has recently moved. These visiting tribes usually stay until all the grub is gone and return home hungry. From this time on until fishing season opens, they live on rabbits and wild chickens, and occasionally one of the bucks picks up enough ambition to go out and kill a bear or moose, but starvation generally drives him to this.

Alaska is noted for it's extreme cold winters. The thermometer registers as low as 80 and 93 degrees below zero.

The rivers generally freeze up in the early part of October, and are frozen solid until the general thaw in latter part of May, giving us about four months of summer, and about eight of winter, during this eight months there are no steam boats, or other transportation, other than the dog teams. All supplies are transported to this country during the summer months, especially in the central and northern part while on the southern coast, there are three short rail roads, possibly a hundred miles in length. They also have the "Bakimos", who are similar to the "Siwash".

Alaska exports some of the very best furs obtainable. The Signal is sure appreciated by me, away here in the jungles, as it brings the news from my "Old Kentucky Home", and hope that it will not be the only one who is taking the Signal north of B.

Yours very respectfully,
C. G. MULLINS

I BUY AT HOME

Because my interests are here,
Because the community which is good enough for me to live in is good enough for me to buy in;

Because I believe in transacting business with my friends,
Because I want to see the goods;

Because I want to get what I buy when I pay for it,
Because my homemaker "carries me when I run short";

Because every dollar I spend at home stays at home and works for the community in which I live,
Because the man I buy from stands back of the goods;

Because the man I buy from pays his part of the town, county and State taxes,
Because the man I buy from helps to support my schools, my church, my lodge, my home;

Because, when all luck, misfortune or bereavement comes, the man I buy from is here with his kindly greeting, his words of cheer and his pocket-book, if need it.
Here I live and here I buy.—EX-

MAIL CARRIERS WILL FLY.

This is an age of great discoveries. Progress rides on the air soon as we may see Uncle Sam's mail carrier flying in all direct, back, transatlantic mail. People take a wonderful interest in a discovery that benefits them. That's why Dr. King's New Discovery for Coughs, Colds and other throat and lung diseases is the most popular medicine in America. "I can't get of dreadful cough, writes Mrs. J. F. Davis, St. Charles, Mo., after doctor's treatment and other remedies had failed." For coughs, colds or any bronchial affection its unequalled. Price 50c and \$1.00. Trial bottle free at Chas. C. Davis.

Cleaner, drier, repairing and pressing. All work guaranteed. Our motto, you must be satisfied or your money back.

Persons require careful treatment keep quiet and apply Chamberlain's Liniment freely. It will relieve the soreness and quickly restore the parts to a healthy condition. For sale by Chas. C. Davis.

Call McClure says he will enter the mule races, at the various fairs. He doesn't state whether he will run these or have a rider, to prevent his running into the fence. It will probably require a curb bit to hold Call down, as he is rather fractious when excited.
