Gov. Wilson is surprised at the interest shown by the people in the presidential race, while the Taft men are equally surprised at the lack of interest.

Arrangements had been made at Lexington last Saturday night when Senator Bradley filed the opening gun of the Taft campaign in Kentucky, for overflow meetings but it is noted that the opera house was amply sufficient to accommodate everybody that came and that the amount of enthusiasm was also somewhat limited. The Senator took his text almost exclusively upon the Big Bull Moose and his new party, forgetting for the time being his own enemy, the Democratic party, and saying among other things he fired at the Colowd that "the last threat of a glittering dagger into the bosom of his old political mother, and that he wanted to boss the whole of the United States and the world at large."

The question now confronting our people is of the greatest moment, that is good roads. Everyone should study the situation over carefully and put themselves before thinking of casting a vote to throw away one of Rockcastle's greatest opportunities of advancement. Work and vote and advise others to vote for the bond issue.

Marriage license were granted at Mauch Chunk, Pa., to a polished bar named Simonczek Agonetskivestaskigio and Neventrevitaiskaska Dinoworsterzaskisko. The appellations properly broken up and well appended should give some hints towards building good roads.

John D. White, former Congressman from the 11th district, was claiming Harvard as his home, is after the Bull Moose nomination for Congress from the 10th district.

REPORTS from throughout the State indicate that Taft will get 90,000 votes and Roosevelt 110,000. The Bull Moose being especially strong in the 11th district.

They'd ask a dealer if his goods are fresh. This question has been asked 10,000 times daily and has never been answered in the negative yet.

Teddy has lost hope? Not on your life. His only hope was to beat Taft.

Franklin S. Allison, Alias J. F. Allen, who was arrested in Mt. Vernon this week and taken to Danville, came to Rockcastle county in March, 1912, from Bristol, Tennessee, locating at Wesley Mink's on Skaggs Creek seven miles south of Mt. Vernon. He usually dressed in ordinary working clothes and came to town often and didn't appear to be dodging. He seemed to be high spirits and indicated no evidence of worry. He visited Bristol, Knoxville and other cities frequently.

Some two years ago a reporter asked him if he was not the Allen of Danville-Scottville railway notoriety. He replied that he was not but said that he was acquainted with Allen and knew him to have been a badly treated man. Allison put in good time as a laborer, earning sufficient funds with which to support himself, and some surplus which he spent in leasing coal and mineral rights. He worked diligently at the leasing business for more than two years and in the meantime got others interested in the project until he had secured something like 70,000 acres prior to May, 1910.

Prominent lawyers pronounce

the deeds, conveyances, leases and papers secured on these lands to be legally perfect and the owners of the property still expect to realize from \$3 to \$5 per acre on these rich coal and mineral rights, much of which can be reached by a seven mile railroad. The arrest of Allison, or Allen, will cause but little delay, if any, in the negotiations which are on with eastern and southern parties who have been here more than once to look over the grounds.

The business end of the matter was touched over by Allen several months ago to interested parties and since that time he has been acting as agents in securing more leases, completing deeds and abstracts.

THE MEN WHO SUCCEEDED as heads of large enterprises are men of great energy. Success today demands health. To all it is said. It's better to be a man to endure a week, run down, half alive condition when Electric Bitters will put him right on his feet in short order. "Electric Bitters did me more real good than any other medicine I ever took," writes Chas. B. Allen, Sylvania, Ga. "After years of suffering with rheumatism, liver troubles, stomach disorders, and deranged kidneys, I am again, thanks to Electric Bitters, sound and well." Try them. Only 50 cents at Chas. C. Davis.

In the matter of the State Fair secretary's refusal to permit Rock castle county to be represented in the boy's encampment held at the Fair during exhibition week. Every other county in the state was accorded this privilege with expenses paid by State Fair. Owing to the bungling of secretary the credentials failed to arrive here or be received by John L. Lair, the boy accredited to the encampment and who had complied with all necessary requirements. When secretary was called over telephone relative to the matter he arbitrarily, peremptorily and discourteously refused to correct his error or permit the boy to come to Louisville and be accredited to the camp. One could hardly be more than indignant; and a strong protest with the corresponding to the case will be laid before the Boosters Club and Commercial Club of Louisville to ascertain if they endorse such a shameful treatment as the secretary placed upon Rockcastle county, a county tried and supposed to have equal privileges with all others of our State. Mr. Devo, the Secretary of the Fair, will surely have reason to believe that Rockcastle county citizens will know the reason why.

CEDARVILLE. Harvesting fodder is the order of the day in this part.—Mrs. J. E. Norton is visiting her daughter in Clairfield Tenn.—G. W. Renner is having trouble with his eyes, he has been almost blind for the last two days—Hart Mink is teaching the Board school, district no. 23, and as he is using every effort to bring the scholars under control and doing his best for their good it seems as though some of the parents think he is too hard on the children, but I am glad to see Hart bent on the work, for if the other teachers had done what he is doing probably this part of the country would have been better off. Buffalo is a first class school and has been for many years and has never turned out a teacher. If Mt. Vernon school law was enforced to full extent there would be many young men and women who could read and write. But it is the object of the majority of the teachers to get the money.

The news has reached this part that the Allison R. R. has shut down for awhile. It didn't say whether it was on account of the President election or forgery.—The King of Pain man was through this part last week shaking hands and talking up his medicine.

Union School house, now Ottawa post office was enlivened by a big turnout of the people at the good roads meeting and teachers associations held there last Saturday. The teachers exercised their prerogatives till noon with an interesting program well carried out. After some good music by the Mt. Vernon band at noon a splendid dinner was spread by the good ladies in attendance.

When dinner was over and cleared away speaking began. The speaker were C. C. Davis, chairman, D. R. Gearty, C. G. Williams, Ashley Owens, E. S. Albright, Miss Rose McCord and Judge L. W. Bethuram. In the afternoon mentioned. The fact brought out in the discussion showed that the proposed bond issue could be easily paid within 30 years without any hardship upon anyone; that it was no added hardship to non-property holders; but a relief as it takes off the militia duty of six or more days and cannot add any poll tax; that the larger portion of the tax will be paid by the railroad corporations that this \$100,000, or the bigger part thereof would be expended right here at home for labor a construction of the proposed pike; that the low rate of interest, a per cent, at which these bonds can be floated, gives easy sitting in that line; that the militia system is a failure for several reasons; that when the court house was built in 1873 at a cost \$17,000 the materials were not little in excess of \$100,000 and today is at the three million mark, which shows how much easier we could handle the proposed issue of \$100,000 than could \$17,000 be taken care of when court house was built, that all progressive counties that have succeeded in procuring turnpikes have done so by bond issue; that a man today who puts in six days on the roads as the law requires, would receive \$9 for his work if the bond issue was in force. Instead of being compelled to donate his labor and board himself; that it is the duty of everyone to work and push for better roads and to throw away the words "we can't"; that the Ladies Auxiliary good roads committee with Miss Rose McCord as President and Mrs. A. E. Miller, secretary are doing valiant service in the cause. Quite a number of opponents to the proposition were found but when the matter was properly explained in many instances they became enthusiastic supporters.

JAMES MARET.

The above is a splendid likeness of our worthy townsman Mr. James Maret. He is nearly every man who knows anything of Mt. Vernon and her people the subject of this little sketch needs no introduction, as he is well and favorably known to them all. Mr. Maret was the founder of the Mt. Vernon Signal and was for many years its editor and we are proud to say that many of the very best articles which appear in its columns to-day, are from the pen of this versatile and pleasing writer.

editor of this paper, and at all times he has been one of our most loyal supporters. When we needed assistance we never hesitated to call upon him and to every call he has promptly and gladly responded and to our readers we wish to say that in the future we are confident that we will from time to time be honored with other articles from this King of the Tripod.
