Solomons Temple was not so large as many have imagined it to be. It was 60 cubits long 30 cubits wide and 30 cubits high. The cubit being 18 inches gives the dimensions in feet as follows: 90 feet long, 30 feet wide and 45 feet high. Its cost is supposed to have been millions upon millions of dollars.

If anybody told you that deaf people were enjoying long telegraphic conversations about nothing in particular like the rest of us would you believe it? It's a fact though. TO THE VOTERS OF ROCKCASTLE COUNTY.

As promised in the last issue of this paper, we submit statistics to show the value of our property...

In case the proposition to change the system of constructing and maintaining roads meets with the approval of the voters of the county at the special election called for Oct. 23rd...

Under the present system of working the roads, all able bodied male persons between the ages of 18 and 50, not citizens of incorporated towns or licensed Ministers of the Gospel...

Attention is specially called to these three classes, for the reason that it has been argued inaccurately that if the proposed system prevails they would be oppressed because of increased taxation...

There are 208 taxpayers who pay on amounts in the excess of \$300. These are the owners of the railroad, the corporation of the county...

Valuation of property of the county, \$13,763,055.00

Table listing valuations for Louisville and Nashville R. R. Co., Western Union Telegraph Co., Alabama Express Company, Three Banks, and The Telephone Companies.

By a recent decision of the State Board of Assessment and Valuation, the franchise valuation of the Railroad Company was increased in this county by \$633,790.

There is no guessing about these figures. They are taken from the recapitulation sheets and the certified values of the franchisees of the various corporations...

Now, if the proposition to issue bonds carries, how can we, under the law, pay for them? Paragraph 20, Acts of 1912, page 319, reads:

"If bonds are sold to enable the Fiscal Court to build or construct or reconstruct or maintain roads, the Fiscal Court shall levy a tax not exceeding one cent on the hundred of the assessed valuation of said county, which shall be collected on the 1st day of January next following the date of the sale of the bonds..."

"If bonds are sold to enable the Fiscal Court to build or construct or reconstruct or maintain roads, the Fiscal Court shall levy a tax not exceeding one cent on the hundred of the assessed valuation of said county..."

the bonds. There is no provision of law that will authorize the payment to the sheriff of any per cent or amount, whatever, for collecting the cents with which the bonds are paid.

We have examined the sheriff's settlements from 1900 to the present, covering a period of 12 years, and find that there has been actually spent in cash on the roads of this county, to say nothing of the fractional, \$61,000.19.

The question has also been asked how will these bonds be sold. Already the County Clerk and Fiscal Court have been receiving inquiries from banks, trust companies and other moneyed institutions as to the sale of the bonds.

The question may be asked, how much pike road can be built with the money realized from the bonds. It is claimed by experienced pike builders that pike can be where a large contract is given, at a much lower price, estimated by them from twelve to sixteen hundred dollars per mile.

THE SCOURGE OF THE HOG CHOLERA. Cost the hog raiser millions of dollars last year and nothing short of vaccination seemed to offer the slightest promise of a cure. Prevention, however, is the logical solution of the question. Dr. Hess, (M.D., D.V.S.) has always maintained that by giving Dr. Hess Stock Tonic to tone up and strengthen every organ in the system, to regulate the bowels, liver and kidneys, expel worms; and also thoroughly disinfect the premises, sleeping quarters and runs with Dr. Hess Dip and Disinfectant, would prevent an outbreak of this disease. Read what one of the big hog raisers in the country says: We fed Dr. Hess Stock Tonic, and only lost two head out of a herd of two hundred and ten. -Alex. Nevius, Modest, Ill. Also note what bulletin No. 182 of the Kansas State College says about preventing Hog Cholera: When we recall the conditions which favor the disease and the manner in which its infection takes place, it will be seen that the best and surest way of preventing the disease is to keep the vitality of the hog and in this way many of all kinds are warranted. To aid digestion and circulation and to prevent worms, the bulletin recommends a formula of Wood Charcoal, Sulphur, Salt, Sodium Bicarbonate, Sodium Sulphate, Sodium Hypophosphate and Black Anthracite. This formula, given in tablespoonful doses would undoubtedly be beneficial but would cost the hog raiser about 10c per head. Now compare this with the formula for Dr. Hess Stock Tonic which is vastly superior and has stood the test of 20 years. QUASIA, Digestive & General Tonic. EXPELLS WORMS. SULPHATE OF IRON, Blood Builder & Expels Worms. FERROUS SALTS, Expels Worms. NITRATE OF POTASH, Acts upon the Kidneys. FERRUGINEOUS Tonic, Expels Worms. This Preparation is compounded by Dr. Hess, (M.D., D.V.S.) and sold to you on a written guarantee and only costs 3c per month for the average hog. The definition of the ingredients are taken from the United States Dispensatory and noted medical authorities. Feed your hogs. Dr. Hess Stock Tonic to prevent diseases and expel worms. Dr. Hess Dip and Disinfectant to prevent the spread of the disease and sleeping quarters with a solution of Dr. Hess Dip and Disinfectant. Do not permit dirt, greasy disinfectants known. Also dip your hogs with this solution together with parent, and you will have no loss from disease. 25c in Pail. - 50c. 10c lbs. - \$3.00. JAS MCKENZIE, DEALER MT VERNON, KY
