Some people evidently go upon the theory that a newspaper man works for his health. Not so with us. Paper costs and it takes money to pay printers. We need every cent that is due us and we certainly expect those who get our paper, job work or whatever it may be to pay us. If we did not expect the pay we certainly would not do the work, and when we reach the point of working just for the fun of it, then we will engage in a much easier occupation than the printing business. If you owe us please pay us. We need it.
