Most "everybody is doing" the right thing by being fitted with the big new bi-focal spectacles at S. C. Franklin's new shop.

A Christmas cantata will be rendered at the Presbyterian church next Sunday evening. Morning worship at 11 o'clock. Everybody welcome.

A movement is on foot here looking to the establishment of a first class electric moving picture show. Will probably be ready for exhibiting by Christmas or not later than New Year.

Mrs. Roy Rader, who used to be Miss Linda Ballard, a sister to our townsman, G. M. Ballard, died Sunday afternoon of consumption, at the home of her mother on the Big Hill. Mrs. Rader had been in declining health for two years or more. The burial took place Monday at the family burying ground near her old home.

Milton Rash, a good citizen of the Scaggs Creek section, broke his leg last week. He was driving along a very rough section of the road with one foot hanging down from the running gear of his wagon when his leg struck a large rock and broke the bone. Mr. Rash had white swelling a few years ago, and this leg had been of no use to him for some years and he has used a crutch a long while. Mr. Rash will have the leg amputated.

There is but one Western Union telegraph office maintained in a railroad station between Louisville and Middlesboro and that is at Pine Hill in this county. By some oversight the agent at that point failed to get notice from railroad company to turn the office supplies etc., over to the telephone people on Oct. 21st, the date on which a majority of the offices were transferred or discontinued. There are suits pending in U. S. court at Louisville between the telegraph and railroad companies over the right-of-way. This court, it is said, has directed that such offices that have not been transferred or discontinued must continue transacting business until further orders of the court. Telegrams from Brush Creek, Livingston and Mt. Vernon are sent and received by telephone through Mt. Vernon and put on telegraph wires at London.

The Courier Journal mentions celery raising in Christian and Warren counties, this state. It mentions a half-acre raised this year by a Warren county citizen who expects to realize \$1000 or \$1200 from the half acre. It is claimed the quality is better than that of Michigan celery for which Kentuckians pay thousands of dollars for every year. S. O. Franklin and Dr. Lovell have raised this fine vegetable for past several years right here in town. H. C. Gentz has a nice crop of it on hands now.

### \$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh of the Bladder. This is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
