LANGDON MEMORIAL SCHOOL.

Miss Sadie Abernathy, of Pitkin, Tenn., arrived Saturday to take charge of the music at Langdon Memorial School. Among Miss Abernathy's recommendations are the following: W. R. Harrison, Pres. of the Alabama Teachers Association, of Union Springs Ala., wife of Miss Abernathy. "She has served as Piano teacher in our school for the past two years. I take pleasure in recommending her as a lady, and as a teacher. So satisfactory has been her work with us, that she was offered the place for another year." Barney Thompson, President of Tusculooa College and Conservatory of music, Tusculooa, Ala., in writing of Miss Abernathy who taught both piano and voice in the college, states: "I will say without any sort of hesitation that I have never had a teacher who gave better satisfaction." Emil Lieblimy, of Chicago, under whom she studied piano says: "I am pleased to recommend her service as teacher of the piano. She is a performer of advanced merit and familiar with modern methods of instruction."

We bespeak for Miss Abernathy the patronage of the people of Mt. Vernon.

The new children enrolled in the Kindergarten this week are Cepha Davis, Ronnie Cummins Elizabeth and Robert Sparks, and Carl Leo Thompson. Those who have returned after absence are the six students are Lucile Albright, Louise Moore and Jack Hurd.

The mid-winter plan for the kindergarten included the making of doll houses and furniture characteristic of each room. In addition to this the bedroom had the decorative features. The houses were completed this week.

Dr. Lock, of Barbourville gave an interesting and instructive talk to the student body, upon the value of fresh air.

The cooking classes have not met in regular session during the absence of Miss Wanser, but each one has been required to prepare a comprehensive paper of at least five hundred words, covering the history and values of the following foods: sweet potatoes, Irish potatoes, coffee, cheese, milk, breakfast cereals, and breads. These papers not only are good practice in writing but makes it necessary for the girls to become familiar with these foods.

The primary grades will begin their woodwork with hampers and nails in a few days.

This is not only a month of holidays for the children, but also for several of the students of Langdon Memorial. The birth days of Bertha Litton, Edith Moore and Edith Baker were celebrated by their tables with special decorations and merriment. Washington's birthday was celebrated in chapel this (Friday) morning.

The chapel of the Graded school building was filled to its capacity last Friday evening to witness the play, "A Regular Feller" which is pronounced by all to be the best thing of the kind ever given in the town. So decidedly was the success, that the same play will be given again this evening in the same room. If you did not see the play last Friday evening be sure and go tonight. The price of admission will be 10 and 20 cts. Reserved seats 25 cts.

BE A BOOSTER.

By HOMER CLARK BENNETT, M. D., LIMA, OHIO.

Do you know there's lots o' people, Sittin' round in every town, Growin' like a broody chicken, Kookin' every good thing down, Don't you be that kind o' cawle, 'Cause they ain't no use on earth. You just be a booster rooster, 'Cause 'er boost for all yer town.

If your town needs boostin', boost 'er. Don't hold back an' wait to see If some other feller's willin'. Sall right in this country's free No one's got a mortgage on it. It's just your 'acc as much as his, If your town is shy on boosters, 'Cause you get in the boostin' biz. If things don't just seem to suit you 'An' the world seems kinder wrong, What's the matter with a 'peppin' Just to help the thing along, 'Cause if things should stop a goin' 'We'd be in sorry plight. You just keep that horn a blowin' 'Boost 'er up with all your might. If you see some feller tryin' For to make some project go, You can boost it up a trifle, That's your cue to let him know That you're not goin' to back it. Just because it ain't your 'accout' But with your 'accout' a little 'Cause he's got 'the best thing' out. If you know some feller's willin', Just forget 'em, 'cause you know That same feller's got some good points, Them's the ones you want to show; 'Cast your leaves out; out on the waters, They'll come back,' 's a sayin' true, Mebbe they will come back, 'but When some feller boosts for you. DEAFNESS CANNOT BE CURED.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, unless it is cured by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

S. F. BOWMAN

In placing myself before the people for re-election to the office of County Court Clerk subject to the action of the Republican primary in August, I wish to say that as an officer I have tried my very best to serve the people faithfully, and to fulfill every pledge and obligation made to the people before election. I feel that I am better qualified and more able to serve the people if re-elected than I have been during this administration. I do not promise to try harder or to treat the people with more courtesy, but the fact that I have four years of experience makes me better qualified. I promised the people I would keep a sober, clean office, the people who have been in my office are my judges. I invite you when you are in town to come to the office and see if I have been living up to my obligations.

In considering my candidacy give me credit for what I deserve. If I deserve anything overlook my short comings and mistakes as we are all subject to mistakes. I pledge myself if appointed and elected to continue to give the people the same kind of service. Thinking you for the future shows me in the past, I beg to remain to you as ever, your obedient servant.

attended the meeting. Dell M. Potter, of Clifton, Arizona, first president of the Southern National Highway Association, was re-elected at this meeting as well as first secretary and treasurer. A vice president was elected for each of the States. James Maret, secretary of Boone Way Booster Band No. 1, at Mt. Vernon, Ky. was made vice president from Kentucky with power to appoint a State organizer. Mr. Maret has requested Jackson Morris, a local wire road man, of Pineville, to accept the position.

Mr. Maret, who carried Governor's commission designating him a delegate from Kentucky to the Asheville meeting was not idle in pushing the cause of Boone Way at the convention. He got the promise of the support of California, New Mexico, Arizona, Tennessee, Virginia, North Carolina and other Southern States, when our bill is up before Congress for action.

The Congressman Warburton, the father of the National Highway bill, told Mr. Maret he would gladly assist in every way to push Boone Way interests and advised our delegate to have Mr. Helm introduce our road bill as an amendment to his general bill on the subject. Hon. Warburton further volunteered to confer with Hon. Harvey Helm, upon his return to Washington, an arrangement to work together on the proposition. The Hon. Warburton was impressed with the movement of the projected link "On to Cumberland Gap", and believes that its historical and inter-State interests will go far toward securing the much desired appropriation for its construction. The delegates heartily approved the Boone Way movement. A number of delegates remained one day after the meeting and accepted the hospitality of the Board of Trade of Asheville. An automobile trip over the roads in and around that bustling city of 23,000 population in the "Land of the sky", to Baltimore and away over the mountains by splendid turnpikes requires a more facile pen than yours later to adequately describe. More later.

BOONE WAY.

"ON TO CUMBERLAND GAP" A paper by JAMES MARET, MT. VERNON, KENTUCKY. Read at the Meeting of the SOUTHERN NATIONAL HIGHWAY ASSOCIATION, At Asheville, N. C., Feb. 12, 1913.

"Boone Way" is the name suggested for a proposed national highway to be built between Cumberland Gap and Crab Orchard, Ky., a distance of 98 miles. The originators of the present movement (members of Mt. Vernon, Commercial Club and the "Boone Way Booster Band" of Mt. Vernon, Ky.) will have Representative Harvey Helm, of the Eighth Kentucky District, introduce a bill at the extra session of Congress in April, asking for an appropriation of a sufficient amount of funds to pay for the construction of the proposed highway. Any objection offered by Congressmen not directly interested in the movement is thought may not come, on account of the historic and interstate features of the undertaking if properly presented. The route over which Boone Way would be constructed follows the "Trail" route, which that famous and venerated frontiersman, the great Daniel Boone, came, after entering the "dark and bloody ground" at Cumberland Gap, (which was made famous during the war between the States) and over that is generally known as the Old Wilderness Turnpike. But why it was called a "turnpike" is beyond our ken, as there probably was never a half mile of macadam put on the whole route. The proposed highway would, if the plans of those back of it carry, start out from Middlesboro, there being already built one of the finest highways south of the Ohio between Cumberland Gap and Middlesboro; thence through Pineville, Barbourville, Corbin, London, Livingston, Pine Hill, Mt. Vernon, Brodhead, to Crab Orchard, where connection can be made with Kentucky's fine system of turnpikes.

"Boone Way" would, in addition to being an enduring monument to that illustrious frontiersman, who left the Yacklin Falls in North Carolina and made a "trail" for

into the wilderness of Kentucky, confer vast benefits upon hundreds of thousands of people along its line, and those living to the north and southeast of us who would use this "connecting link" in passing between the north and south portions of our country. The time is near at hand when the people will ask Congress to switch at least a portion of the appropriated millions from harbor improvements, lock and damming rivers, etc., to the purpose of highway construction. During the past three or four years a marked advance in that direction has developed in public sentiment. As a matter of justice we see no reason why our government appropriations for travel routes should go to the waterways and nothing to the highways. It does seem that the land lubber is entitled to some of the benefits from appropriations made with a munificent hand by the Government. The burdens and benefits thereon are equitably between the people. For instance, \$154,000,000 of Kentucky revenues was used last year towards paying the municipal expenses of the city of Washington; for schools, streets, sewers, watermains, police, improvements and repairs, salaries and health interest on sinking fund, lighting, fire department, etc. If this sum should be diverted to Boone Way for three years, the work of construction could be done and paid for. Tennessee, Virginia, North Carolina, and all the other states pay their proportion of these yearly donations for the support of the Washington City municipality.

The system of campaign adopted by the "Boone Way Boosters Band" reaches out to all states where Kentuckians are found, to whom literature on the project is furnished, advising and requesting them to get into communication with the Congressmen of their adopted state and get them interested in our move. Kentuckians are hustlers wherever found. Our Band also gets its literature to all native Kentuckians who are now Representatives in Congress from other states, as well as to Governors, Judges, and all down to justices of the Peace, constables, and private citizens, native Kentuckians now living in other states. All are appealed to as true Kentuckians and requested to remember the place of their nativity and to work for Boone Way. Our various Kentucky Clubs, working along these lines, are reaching hundreds, most of whom are becoming enthusiastic Boosters. Our Band appears to North Carolina and Asheville in particular, to organize and work after these plans-of course get the endorsement and cooperation of the Congressmen of your State in the meantime. The inter-state interests connected with the proposed highway is our reason for asking these state's active aid and support.

Our people are enthusiastic and hopeful of securing what is hoped out after. We have many strong and flattering endorsements from Congressmen, Governors, Judges and many leading and influential men. Hon. Champ Clark, Speaker of the house in writing to the President of our Boone Way Booster Band No. 1, at Mt. Vernon, says "I have your letter of the 1st instant and will be glad to confer with Mr. Helm (Representative, Eighth Kentucky District) about the bill, and I can assure you now that I look upon the matter with a very favorable eye." Senator-elect Ollie M. James, of Kentucky, says: "I shall be glad to co-operate with Congressman Helm, Cantrill and Sherley, and others, in the matter you write about." Hon. A. D. Stanley, of Kentucky says: "I have been, and am, in favor of the building of good roads, and believe that the Federal Government should, in so far as it has a constitutional warrant, aid in every way in this laudable cause". Hon. J. C. Cantrill, 7th Kentucky District, writes: "You can count on me to stand by you in this project. The Cumberland Gap road will be of great mutual benefit to the mountains and the blue grass sections". Gov. Jas. B. McCreary, of Kentucky, advises: "I am very decidedly with you in your efforts to secure a highway between the Ohio River through southeastern Kentucky, to Tennessee, Virginia and North Carolina, and I am ready to do anything that is proper and likely to have this important project

built, which would be of such benefit to Kentucky, Tennessee, Virginia and North Carolina. If properly presented, I believe Congress will act promptly in furnishing aid." The Governor has sent a personal letter to the seven Governors of our bordering states, requesting them to use their good offices in furthering the movement of "On to Cumberland Gap". Boone Way would prove the greatest and most generally used automobile route between the north and southeast.

The only possible drawback to its establishment, that we have been mentioned was voiced by "Jar Head" Thompson, an old Rockcastle County resident, when he remarked that he feared many good corn crops would fail to materialize on account of the tillers of the soil along the route; putting in their time roosting on fences, viewing the procession of innumerable passing automobiles. The Mt. Vernon Commercial Club, and all those of Kentucky, earnestly request the endorsement of the Southern National Highway Association, by suitable resolutions at this meeting, of the Boone Way movement.

(The delegates heartily endorsed the proposition.)

BOOSTING THE BOONE WAY

(W. P. Walton.) In the Lexington Herald.

The Mt. Vernon Commercial Club has resolved itself into a Boone Way Booster Band for the purpose of pushing, through Congress a bill to appropriate a sufficient amount to construct a national highway from Cumberland Gap to Crab Orchard, a distance of ninety-eight miles over Boone's track or the old Wilderness Way. It has already secured the promise of aid from Senator-elect James, Congressman-Harvey Helm, J. C. Cantrill and Swagar Sherley, together with the speaker of the House, Champ Clark. Governor McCreary endorses the movement and says he is ready to do everything proper and right to have the important highway built, which will not only beautify Kentucky, but Tennessee, Virginia and North Carolina. The Booster Band issues a weekly booklet, through the courtesy of the MT. VERNON SIGNAL, setting forth the advantages from the building of the road and urging everybody to get behind the project and commercial clubs to organize Boone Way Booster Bands. Congressmen, natives of Kentucky and representing other constituencies, will be appealed to and Tennessee and Virginia will be organized as it is supposed that Kentucky shall be.

It is a great prospect and we earnestly trust it will be carried to success. Congressmen could not appropriate the country's money for a better object or one that will pay so handsomely in the development of a rich territory, which is seeking outlet to the commercial world, and whose people are not themselves able to expand the money necessary.

Former editor James Maret is secretary of the Boone Way Booster Band, with office at Mt. Vernon, and those who feel interested can write to him there for further information.
