The opera "Sylvia" under the direction of Miss Abernathy will be given in Mt. Vernon some time in the near future. It promises to be of unusual interest from the fact that there will be about fifty in the cast.

The Kentucky Portland Cement and Coal Co., have spent more than \$100,000 on material and labor at their Pine Hill plant and new mill now reaches \$7,000 per month.

It is gratifying to her host of friends here to learn that Mrs. Cleo Brown, of Mt. Vernon, will get the appointment of Post mistress at that place. Senator James recommended her appointment Saturday, which will be made in due time.—Lancaster Record.

COMMERCIAL CLUB—At its meeting last Tuesday night the Club decided to accept the proposition of the Columbia Slag & Tree Co., for establishing a factory and an electric lighting plant at this place. Contracts will be closed within next ten days and work begun soon.

Arch Allen, Albert Allen, T. K. Mullins (Tom Mod), Jim Cummins and several other wide-awake citizens of the East side of the county are running a telephone line from Livingston thru Mullins Station to Johnetta a distance of about 15 miles. They already have the poles in the ground and expect to be connected with Livingston exchange in a week or two.

The progressive firm of J. Fish & Son have added very much to the beauty and convenience of their store by having a twenty foot wall case installed for the display of mens, boys and children's hats. S. T. Proctor did the work and it certainly shows the skill of the workman. This with other improvements they are planning will make this one of the finest equipped clothing stores in South Eastern Kentucky.

There are various opinions as to the effect of the Webb law forbidding the shipment liquor in to prohibition territory. Some claim it will cause the small moonshiners still to start up others say not. We heard one citizen remark that "make no more deliveries of whisky but return to the coarser". Mr. Webb is a very unpopular personage with some people while with others is extremely popular. There is some question whether or not the bill will stand but it is to be hoped that those seven wise heads, who will soon be called upon to pass upon the constitutional question, will be able to say "Well done thou good and faithful servant (Mr. Webb) enter thou into the joys of thy Lord.

How to Live. Worry less and work more, smile to see and walk more, frown less and laugh more, eat less and chew more, preach less and practice more.

A dispatch from Washington says that Senator Olie M. James has decided to recommend M. C. Williams Brown for postmaster at Mt. Vernon, Ky., in Representative Pomeroy's district. The announcement followed a conference he had with Judge C. C. Williams, of Mt. Vernon, who is Mrs. Brown's brother. Mrs. Williams is very well known and popular in Stanford.—Interior Journal.

Pistol and gun firing as a fire alarm was quite in evidence during Sunday night fire, when the Welch-Morrow school building was lost. Reports from firemen, ranging in size from a 22 to 12, cannot be very numerous all over town and a mile into the country, in fact it seemed that every household contained something to shoot with and for a time it appeared as if a battle was raging between Mexican regulars and insurgents. We hardly believe the yarn about the regulars keeping "the biggest racket" with their 44's, during the excitement.

One of our clerks says men and women are alike when it comes to purchasing tobacco or spool thread. The first when calling for tobacco, nine times out of ten, doesn't state the kind or what quantity he wishes but leaves that for the clerk to inquire into. The second desiring spool thread falls to mention color or number. They are nearly all alike alike the time when they call in of telephone from toll stations and private phones out on the line, they most always fail to name the place from which they are calling, tho it is more than likely they are told of its importance a thousand times, more or less.

WOMAN'S CLUB

Mrs. H. W. Watson, Miss Rebecca Watson, Miss John Brown and Mrs. Edd Gentry proved themselves among the most entertaining hostesses of the year at the open meeting of the Woman's Club held at the Presbyterian Manse on Friday evening, March twenty-first.

A suffragette play, read by Mrs. Watson and her daughter illustrated by tableaux, caused a great deal of merriment at the time. Later in the evening it provoked considerable discussion both humorous and serious upon the question of Woman Suffrage.

Miss Abernathy sang a song apropos of the subject. The hostesses were assisted in serving their guests by Misses Sadie Richards and Sallie Reynolds.

The writer was over to Stanford Tuesday and Wednesday for the first time in some years. His first sight of the new depot and court house was taken on this trip. While visiting the city by the raging St. Asaph (and it surely was on a rampage Tuesday night) we had the pleasure of meeting Mr. B. S. Salm, cashier State Bank and Trust Co., and his efficient assistant Henry Field. Both business hustlers for a very long institution. Rockcastle claims the Fields boys as natives. Oppie Brown another Rockcastle boy we found at Shugars drug store looking after business generally and the soda fountain and young ladies in particular. We found our friend Editor Saults with our kodak picturing the flooded districts, pushing things at the plant of the cheapest and best. Lazzy persons avoid that office. Too much work going on. Didn't get to see Frank Row Wednesday morning. He was water bound out at the ice plant near his boat's oar than Dix river.

Children Cry FOR FLETCHER'S CASTORIA

There will be preaching services morning and evening at the Presbyterian Church next Sunday. At the morning service the sacrament of the Lord's Supper will be observed. A preparatory service will be held on Saturday evening at 7 o'clock. Everybody welcome.

FOR SALE—Some double iron beds. Apply at London Dormitory.

THE WOMAN'S MISSIONARY SOCIETY.

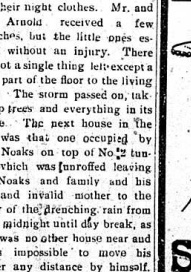

The Woman's Missionary Society of the Presbyterian Church was very hospitably entertained by Mrs. Richards, at its regular March meeting. Miss Lewis, as leader, added to the interest of the program by her supplementary remarks upon the subject. The current news from mission fields was given by Miss Rowle. The social hour was an important feature of the program and all present felt that the afternoon was one of pleasure as well as profit.

The worst windstorm that ever visited this locality, passed through just south of Mt. Vernon, Tuesday night. The path traveled by the storm was not more than a quarter of a mile wide, but total destruction followed the narrow path that it traveled. James Arould, who lives about two miles south of town was awakened about 1 o'clock Wednesday morning to find his house moving away, and only a few of the planks and some few articles of household goods is all that has been found. Mr. Arould, his wife and two small children traveled through water nearly a quarter of a mile to the home of Sam McClure with nothing to protect them except their night clothes. Mr. and Mrs. Arould received a few scratches, but the little ones escaped without an injury. There was not a single thing left except a small part of the floor to the living room. The storm passed on, taking up trees and everything in its course. The next house on the path was that one occupied by John Noaks on top of No. 2 tunnel, which was uninjured leaving Mr. Noaks and family and his aged and invalid mother to the mercy of the drenching rain from about midnight until day break, as there was no other house near and it was impossible to move his mother any distance by himself. The line house at Sparks' Quarry was blown down and the smoke stack to the big boiler was twisted to one side.

FOR SALE—Some double iron beds. Apply at London Dormitory.

MISS TEMPEST WARD.

The last week's issue of the Mt. Vernon Signal contained the announcement of Miss Tempst Ward as a candidate for the office of County School Superintendent of Rockcastle county. Miss Ward is a daughter of J. H. Ward, formerly of Sonora, and for the past five years has taught in the Rural schools of Hardin county. She taught the Tunnel Hill school last fall and gave entire satisfaction. Miss Ward ranked as one of the very best teachers in this county and her many friends wish her success. She holds a State certificate and is highly qualified for the position. Rockcastle county will make no mistake in electing her to the position.

POSSIBLY THE Louisville Commercial Club is so busily engaged in making its preparations for sending out another train of Boosters into South Eastern Kentucky that it failed to remember and reply to the mountain's appeal asking for fair play and justice sent to it more than a month since by the Mt. Vernon Commercial Club. Common courtesy demands a reply to any communication received. The Louisville Commercial Club doesn't think so. Its members will probably have another thought or so coming to them before they hear the last say from the misrepresented and maligned Mountaineers who in their righteous wrath will eventually play that Goliath (hogginess), so prominently put forward in most of the city's acts) with the stone of truth hurled from the sling of that fearless little giant killer, the SIGNAL. "There were giants in those days" and there are many Davids in South Eastern Kentucky today more than ready, willing and anxious to do battle for fair play and justice for the people of the mountains. "The Trail of the Lonesome Pine and the Wilds of The Little Shepherd of Kingdom Come."

THERE were giants, in those days and numberless swine roamed the wilds of the Earth even unto and beyond the Falls. Lo when the evil spirit was commanded to depart from the body of the man whom it sorely tormented, it was permitted to enter these herds of swine, great numbers of which fled to the Falls and were drowned in the waters thereof. But a few sidespeered the general destruction and concealed themselves for many days, yea months even years, in the Beargrass afterward they multiplied, waxed strong in numbers and founded a city by the Falls which they called 'Soo'ville' and unto this day is known by that name though pronounced by many as if spelled Louisville—Louisville, the fallen city' neighboring provinces, not speaking the hog language, and refusing to be taught therein, call the place Swinville.

Mountains for desiring government aid for a road so that its citizens may do some hauling and travel out into the sunlight beyond the shadows of these everlasting hills? Hogging. Gives unasked for advice to the mountaineers saying "if you want roads dig 'em up" Swinville. But two really great editors. However are awfully "set in their ways" and were never known to agree upon any subject except in the one instance, just a short time since when as though in box car letters they let it be known "all for us mountaineers for the mountains, they ain't civilized up there and don't need nothin' nohow?" Barrowville. Losing its grip in South East Kentucky? Boeville. Doesn't know "the word reciprocity? Bristolville. Eternally on the hog? Soo'ville, by the Falls."

Attorney General Garnett, Saturday, in answer to a number of inquiries concerning the construction of the State Primary Law, decided that names of candidates cannot be written on the ballots in the primary. The voters in the primary must indicate with the "X" the list of candidates for whom he desires to vote. The decision was made in answer to the inquiry if Republicans could vote for Democrats or Democrats vote for Republicans candidates by writing the names on the ballots. The Attorney General also held that in county races the candidates were not required to get a specified number of signatures to the petition in any precinct. For the past week the country has been devastated by cyclones and floods as seldom, if ever before in its history. The culminating disaster was the outbreak for the levee at Dayton, Ohio, where 5,000 people were drowned and 25,000 rendered homeless. Great damage done along the Ohio valley and many lives lost. At Peru, Ind., the loss of life and property was great.

CHRONIC STOMACH TROUBLE CURED. There is nothing more discouraging than a chronic disorder of the stomach. Is it not surprising that many suffer for years with such a ailment when a permanent cure is within their reach and may be had for a trifle? "About one year ago," says P. H. Beck, of Wake, Mich., "I bought a package of Chamberlain's Tablets, and since using them I have felt perfectly well. I had previously used any number of different medicines, but none of them were of lasting benefit." For sale by C. C. Davis

On Friday and Saturday of next week, the citizens of Mt. Vernon are to have an opportunity worth while at the moving picture show. Owens and Son have made arrangements to present on these dates the world famous Passion Play. The Passion Play is a religious drama, representing the "passion" or suffering of Christ during the last week before death, which opened with his triumphal entry into Jerusalem and closed with his crucifixion.

The first Passion Play dates back to the fourth century, A. D., and was given by the Greeks. In 1633, the village of Oberammergau in southern Germany, was visited by a terrible pestilence. Those who survived the play, "met together and made a solemn vow before God that if the plague was taken away they would enact their play of the Passion of their Redeemer every ten years with the most skill and devotion of which they were capable. Their vow was heard and the plague was stayed." Only three times since the plague have the villagers been hindered in the performance of their vow, war being the cause each time. The best presentation of the Passion Play should be of great interest from a religious and educational standpoint, and it is hoped that the Christian people of the community will show their appreciation of this kind of an attraction by liberal patronage.

ERECTING HIS OWN MONUMENT.

How Lester Bryant, the Boy Champion Corn Grower of Kentucky, Will Buy His Own Memorial With His Record Crop of Corn.

One very frequently hears the remark, "That fellow is erecting his own monument." No one in the Rockfield neighborhood last summer ever thought that Lester Bryant's record crop of corn would be the means of building him a memorial. No one watching a vigorous youngster put his life and soul into the work as he did could have foreseen such an event, and yet it

the plans of the Hon. J. W. Newman carry, and they are sure to, the boy will have erected his own memorial. At the funeral of Lester Bryant a few days after his tragic death at Washington Mr. Newman outlined his plan to a few close friends. The plan was so unique and so easy of handling that it was soon after decided upon. Mr. Newman has bought Lester Bryant's crop of the Kentucky tested, Boone County White seed corn from the boy's father and had Dr. Mutchler, the government expert in charge of the Boys' Corn club movement, pick out fifty bushels of extra seed corn. This carefully selected stock seed corn will be offered for sale as the Lester Bryant Strain of Boone County White. It will be sold at 81 per ear. All the money realized from the sale of this remarkable corn will be placed in bank at Frankfort to the credit of the Les-

ter Bryant memorial fund. As there will probably be at least 3,500 ears in the first hundred bushels of the memorial monument is sure to rise in the Bowling Green cemetery, where the boy is buried. All orders for the corn should be sent direct to Mr. Newman's Frankfort office. The corn will be shipped to those ordering from Bowling Green.

Kentucky's Boys' Corn Clubs. The Boys' Corn club movement is only two years old in this state, and yet big things have been accomplished. The Corn club boys, several thousand of them, are enthusiastic; but better than enthusiasm are the results that have come from the work. When the state champions met in Washington this winter with the experts who had charge of the work in the various states, there was naturally a feeling of intense rivalry. Twelve of the southern states had been making the Boys' Corn club idea for several years, had records of 442 bushels that grew in 1912. Kentucky, Alabama and Georgia each had over 100 boys with this record to their credit, but both of these states had been organized for club work for the past eight years. It is very gratifying to be able to write that Kentucky, with an organization of only two years, made a splendid record. Fifty-seven boys in Kentucky this past season grew one 100 bushels of corn to the acre. How many adult farmers did that well?
