BEST MEDICINE FOR COLD

When a druggist recommends a remedy for colds, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, Druggist, of Marion, Ohio, writes of Dr. King's New Discovery is the best throat and lung medicine I used. It cured my wife of a severe bronchial cold after all other remedies failed. It will do the same for you if you are suffering with cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. If a home doctor. Price 50c and \$1.00. Guaranteed by Chas. C. Davis.

PLANS BIG FUND FOR GOOD ROAD

FORMER SENATOR BOURNE WOULD SPEND \$3,000,000 TO IMPROVE HIGHWAYS

Washington, April 30.—An expenditure of \$3,000,000,000 for good roads—\$1,000,000,000 being construction and \$2,000,000,000 for maintenance—the investment extending over a period of fifty years, was proposed today in a plan submitted to the joint congressional committee on Federal aid in the construction of post roads by former Senator Bourne of Oregon.

Mr. Bourne's plan provides for Federal and State co-operation. He also suggests the establishment of national schools of highway and bridge engineering from which trained specialists in road building would be supplied to the various States. The billion dollar construction fund, according to Mr. Bourne's plans, would be apportioned among the States upon the basis of area, population, assessed valuation and road mileage.

The States would be required to deposit in the United States Treasury fifty year 4 per cent bonds for the amount due them. The Government would then loan the States the par value thereof for road construction, the Government insuring its fund by the sale of fifty-year non-taxable 3 per cent bonds.

By crediting each State every year with the excess 1 per cent interest paid on the State bonds and allowing 3 per cent interest on the amount compounded annually, a sinking fund would be established, it is estimated, from which the Government would pay off the bonds at the end of fifty years and the States would be relieved of the payment of principal on its bonds.

"So energized are most people in the pursuit of their private ends that they forget they have a soul."

CAN CIRCULATE PETITION TOMORROW

CANDIDATES FOR COUNTY OFFICE MUST HAVE CORRECT PAPERS TO GET ON BALLOT TOMORROW.

On and after Saturday next, May 3rd, candidates for county officers will get busy with petitions to get on the ballot. The petitions necessary under the operations of the new State primary law for candidates seeking party nominations, may be circulated on and after May 3, and must be filed with the County Clerk not later than July 3. Any nominating petition circulated by a candidate before May 3 will be worthless and disqualify him from getting on the primary ballots. Candidates for county offices are required to have on their petitions the signatures of not less than 3 per cent, and not an excess of 10 per cent, of the voters of the party in which they seek the nomination.

This is, based on the vote for the party's candidate for president at the last regular election, and the democratic vote in Rockcastle county for Woodrow Wilson was 89, candidates to get on the democratic ballot must have not less than 26 and not more than 86 names on each petition. The republican vote for Taft was 1082 so that republican candidates must get not less than 31 and not more than 108 names on their petitions. As the Progressive polled 559 votes for Roosevelt, they must get not less than 16 and not more than 56 votes on their petitions.

The primary election law says that no candidate can get his name upon the ballot of his party unless he has filed his petition, stating the office for which he is a candidate, his name, age, postoffice address, political affiliations, and all other legal qualifications, and pledging himself. If nominated, not to withdraw, and, if elected, to qualify for the office.

Along with his petition each candidate must file a nominating petition, signed by electors of his city, county or district each of whom must declare in writing to support the candidate for whom they sign, and none of whom shall sign any other such paper for another seeking the same office. In addition to his name each signer must give the location of his residence—street number if it be in a city—and the date of signing.

No person can sign the nominating petition of any candidate in any political party other than that of which the signer is a member, that is to say, any man who is registered as a Progressive, or who is known to have voted as a Progressive, cannot sign the petition of a Republican or a Democrat or vice versa.

Candidates for county offices can secure names from any precinct they wish, or all from one precinct but the names from each precinct must not be fixed—in other words the names from each precinct must appear on separate sheets, with the name of the precinct at the top of the sheet.

Candidates for office should be certain to secure over 3 per cent of their party vote in the last presidential election. Otherwise their petitions will be thrown out. More than ten per cent is equally as fatal as less than three per cent.

Every candidate from Sheriff to Constable will have to have a nominating petition.

PETIT JURY No. 2

S. B. Ramsey, Raymond Dowell, Josiah Cummins, W. M. Payne, Bill Sams, Joe Roberts, Nylvan James, Albert Allen, Jarvis Noe, Borden Brock, Coleman Burdette, W. M. Meadows.

Some few weeks ago the store house and the goods of James W. Brown at Ottawa, this county, was burned. On the building and 2000 there was \$8000 insurance, which was promptly paid by the Citizens Fire Insurance Company. Later it developed that Brown had quite a lot of goods supposed to be those taken from the store, stored away in his dwelling. The matter was reported to the State fire marshal, who immediately sent Peol and Evans, assistants from state fire marshal's office to investigate, and searching the house found between \$200, and \$300, in merchandise and about \$75 worth of U. S. stamps, which are supposed to belong to the postoffice, which Brown kept in the building and which, with all the stamps was reported to have been burned.

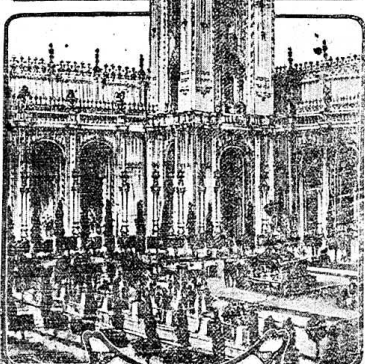

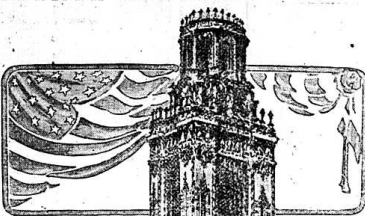

Brown at first denied that the goods were in the house but, later admitted that his son-in-law, Cash brought the goods there. Because of certain reports that are being circulated relative to conduct of Cash, a brother of Brown's and his wife, which if true deserves the severest criticism, grand juries have been convened and with all the stamps reported to have been burned.

Peel and Evans were before the grand jury Tuesday trying to secure indictments against Brown and his wife, with Cash as one of the prosecuting witnesses. Visually, Brown appeared before the same body, claiming his innocence and placing the burden on Cash. As yet no indictments have been returned and from the best information obtainable it looks like that Brown and his wife and Cash will all have to prove their innocence before a Jury. Peel and Evans left Mt. Vernon, on the 5 o'clock train Wednesday for Richwood where they appeared before the Federal court yesterday to secure indictments on the post office charges. Whatever the situation may be, it is a pretty nasty state of affairs from start to finish, and 'Let it be the truth or a lie it will be mighty hard to reconcile.'

Capt Peol and Evans are doing great work hunting down the horse burners in Kentucky and in little over one year have put several in the pen and I have a dozen or more on the road. There are mighty few crooked fire occur that the people don't know it but being unable to prove it, the matter passes by without any airing in the courts, and the result the burning of houses for the insurance has become a very profitable business with some in Kentucky which has about the worst fire record of any state in the union.

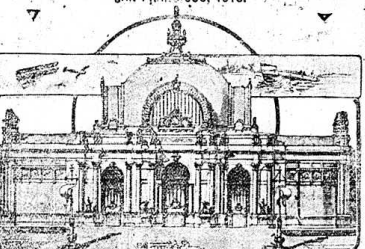

The Pango post office has been discontinued, but at yet no instructions have been given as to where the mail for people of that locality should be sent. We take it that Cedarville is the closest office.

Copyright, 1912, by Panama-Pacific International Exposition. A echo tower in the Festival East Court. At night the East Court, with its pavements of gold, its great banks of flowers, and its lofty palms, will assemble upon the floors of the court, in the Festival Court, the visitors will behold a vision surpassing the richest dreams of Oriental or Mexican architecture. The floors of this court will be in tessellated pavements of gold, in the center of the court will be great groups of Oriental or Mexican dancing nymphs and satyrs. There will be great fountains with fountains of light which will play at night and at night this mystic court, as all others will be, will be a glow of indirect light which will contain a bright moonlight. At the south end of the court will be a huge tower 270 feet in height, which will be a great organ with echo organs in smaller towers of the court. From the amusement center, which will come away from the pavements, from the more serious phases of the exposition.

This structure will be one of the largest of the exposition places, approximately 275 feet long by 330 feet deep, covering about 210,000 square feet or more than five acres. The dome, which surmounts the center of the front portion of the building, is 120 feet high and surmounted with a turret composed of the prisms of modern motor boats, each carrying a searchlight. This point will be used by Mr. Evans the chief of illumination of the exposition for the purpose of lighting up the grounds and adjacent buildings. Other groups at the base of the building will convey, allegorically, the uses of electricity and other mechanical devices which compose the motor. Its grandeur is in harmony with the nature of the exhibits which it will house, presenting the attributes of the groups of industry surrounding the automobile. The main group of the automobile will be allegorically carried out to typify the triumph of the motor over the ages typifying the conquest over the land. On the sides will be sections of the motor boat and the aeroplane, respectively, typifying the victory over the sea and air. The other side of the entire length of the building there will be a library 10 feet high in base relief, giving the history of transportation from the very first cart up to the most modern development of the automobile.

When a man gets so overvaluing his selfish that he is not willing to help on any public enterprise but wants the other fellow to do all the labor and humility escaped in doing, and him get his portion of the proceeds, that kind of a man is worth but little to a community. Fortunately those of that class are sooner or later spotted and placed in the class to which they properly belong.

J. E. Howard, of Crab Orchard Ky., whose record from the cradle till now has been one of unsurpassed worth and nobility and humility escaped in doing, and him get his portion of the proceeds, that kind of a man is worth but little to a community. Fortunately those of that class are sooner or later spotted and placed in the class to which they properly belong.

Ballard's Snow Liniment. Is a Healing Remedy for All Ailments of the Flesh of Man and Beast. The meet with which this splendid liniment heals up a bad wound or sore has surprised and pleased those who have resorted to this power and uncertain effect of less powerful remedies. It makes the greatest relief quickly than any other little time from work, in relieving rheumatic pains, neuralgic, sciatic, it has done and is doing a wonderful work. Many chronic victims of these diseases have found to their great satisfaction relief in a fraction of the time required by the ordinary treatment. It is equally effective in the death ailments of animals. Owners of blooded stock value it highly for two reasons: It heals sores and wounds quickly, and leaves no disagreeable odor. This remedy is needed in every home. If its great power and efficacy were generally known, no family would be without it. Price 25c, 50c and \$1.00 per Bottle. JAMES F. BALLARD, PROPRIETOR, ST. LOUIS, MO. Stephens Eye Salve is a safe and speedy remedy for Sore Eyes.
