LOCAL

POSTAGE FUND—Prof. T. A. Houston, of Shelbyville remembers the Boone War postage fund to the amount of \$1.

Lee Proctor, a brother of Co. Assessor James Proctor, aged about 24 died at his home near Pine Hill Tuesday of typhoid fever. His remains were laid to rest at the Cove burying ground Wednesday.

Alfred Mason at Pine Hill last Sunday fell and injured one of his eyes so badly that it was found necessary for the doctors to remove it. The patient was taken to Stanford by Dr. Chestnut where Drs. Brown and Southard assisted in the operation.

Dock Winn has sold his farm of about 200 acres known as the Stone place near Conway, to a Mr. Lewis, of Harlan county for \$7,000.00. This farm sold about fifteen years ago for \$1,200.00 and again about two years ago for \$4,000.00. About twenty-five years ago Berea College owned this farm and valued it at \$500.00.

There is a Straw Hat for you in the style you like at Fish's.

If people could only give their faults as others see them, there are some who might have a little different opinion of themselves.

A small child of Frank Farmer died Sunday. Its mother, who was a daughter of Dick Sowder, died when the baby was only a few days old.

Regular services at the Baptist church Sunday June 1st. Sunday School at 10 a.m. Preaching at 11 a.m. again at 7:30 p.m. public cordially invited to attend each service.

James Winstead came into town Tuesday morning on his return from a fourteen days trip over the county. Jim says that he has been in every precinct and has seen a majority of the Republicans of the county.

On June 10th. The Tom Thumb wedding will be given in the Graded School building by fifty or sixty of our little people. Further announcements given next week. This has been a very different towns all over the state and is a decided hit wherever presented.

We would suggest to our Marshall that there are some hog pens, on our streets which need attention. On the streets in a town is not the place to raise hogs and the chance of causing everyone living or located in the community of one of those filthy hog pens, is too great for it to be permitted.

I. O. O. F. MEMORIAL DAY.

Tuesday June 10th. will be observed as Memorial day by Mt. Vernon Lodge No. 319 I. O. O. F. All members are requested to be present and members of sister lodges are cordially invited to come and participate.

W. T. DAVIS, SECRETARY.

The Eighth Grade and Grammar Grade programs rendered by the students of the Graded school were well executed, each one acquiring himself or herself with credit. The exhibition of the year's work which was displayed the last days of the closing exercises, showed conclusively that the school year had been one of hard work, not only with the teachers but the pupils as well.

Are you in arrears for your paper, if so now you please pay it. We expect every one who receives the paper to pay for it, we are not giving it to you. If it is not worth paying for, then stop taking it, but please pay up before you quit. It costs money and takes a lot of mighty hard work to get out a newspaper, and those who get that paper should expect to pay for it just the same as the merchant whose goods you buy.

Secretary J. W. Kincer of the Rockcastle County Fair is busy getting the catalogue in readiness for the next event which will be Aug. 13-14 and 15. While Rockcastle has two fairs there is no reason why both of them should not have good show rings and displays and above all a good attendance. It is up to the people to help and make both the Brodhead and Mt. Vernon fairs a success. There is nothing to be gained by doing that which will injure one for the benefit of the other. Speak a good word for both institutions on every occasion and the result will prove the greatest benefit to all concerned.

COMMERCIAL CLUB—At the Tuesday meeting the club carried out its delayed programs. A large and enthusiastic number were present. Various important subjects were discussed among them the question of paving Main street with vitrified brick from 1st. street on the East to railroad and putting on its accompanying improvements. The Mt. Vernon Fair received considerable attention. It was voted to give some special premiums by the club one of \$15, and every member pledged himself to continue boosting the exhibition. The electric light plant which will be brought in some definite conclusion by next meeting. The next regular meeting was postponed from next Tuesday evening to June 10th. on account of Langdon School commencement exercises taking place next week. Program will be given in next issue of SIGNAL.

The Rockchiton News of Rockchiton Oklahoma publishes the following local concerning Mr. F. M. Lutes, a former Rockcastle citizen, who is now city Judge and one of the prosperous and enterprising citizens of Rockchiton. The article reads:

Never was there a better time for our people to set all kinds of plants—especially of sweet potato slips. Judge Lutes is one who took advantage of the opportunity. He set out 1600 potato plants Monday, together with many cabbages and tomatoes. Every housekeeper should at once put out all the plants possible.

Mr. Verber Graded School closed Friday May 23 the third year and from what the patrons have to say, it has done a great work. Prof. J. S. Irvine and able assistants, Mrs. A. Fishback, Misses McFerguson, Waters and Clark have spared neither time nor energy in placing Mt. Verber Graded School on a higher educational plane.

We want to commend the untiring school board for the faithful service rendered, in helping to steer this school to its present high standing. Let every one lend his help that it may extend its influence as an uplift to education throughout the whole county. May we all as patrons of the school citizens of the town lend a shore helping hand to this great work and help hold up the hands of those that are doing the work. We understand the board has secured the service of Prof. Irvine and as many of his teachers as possible for next year and we want to say again that to make the school grow and keep on growing we must join more heartily in the work. Let us, each one say at the close of next year that I helped somebody to succeed.

Judge H. J. Methrum, of Sonersville who has been in Louisville since January 19, most of which time was spent in a hospital where he underwent two surgical operations, and who is now recuperating, is on the advice of his physician, playing golf daily on the links in Cherokee Park. One day last week his two brothers, one of whom conducts a farm in Rockcastle county, came to Louisville to see him, and that afternoon they journeyed to Cherokee to witness the judicial member of the family. "He off" and widely swinging the sticks in frantic efforts to send the ball along from one hole to another. It was explained to the brothers by the Judge that the exercise he was getting was so beneficial to his health and was fast building him up to the weight and health he enjoyed before the operations. This was to much for the farmer brother. He immediately stopped the game temporarily and said a few things.

"Exercise is what you are looking for," he said, "you just pack your things and hike to your old home in Rockcastle county. The farming season is in full blast and hands are scarce there even known before in that section of the State. If I find following a plow will give you more and better exercise than that exercise these little rubber pellets four and six miles a day."

With this out of his system the younger Bethrum started for the city to catch a train for home and looking back over his shoulders he took a parting shot at the Judge by wishing to know when the folks at home could expect him. "After getting for a short time the Judge announced to his physician and friends that he would be leaving Louisville for Rockcastle county Thursday of this week to try the prescription of his former brother—Louisville Times.

HERE'S TO THE REPUBLICANS OF ROCKCASTLE COUNTY!

May you Live as long as you want to, and Vote the Republican Ticket till the Angel of the Lord shall stand on the earth and on the sea and declare that Time shall be no more.

I take this means of announcing myself as a candidate for the office of Jailer, of Rockcastle County, subject to the vote of the Republican voters in the primary, on the first Saturday of August, next.

MY REPUBLICANISM I have shown my faith by my works. Born in a log cabin have never left home.

PROMISE YOU That, when nominated and elected I shall make you a sober and efficient officer. I will keep your county jail clean, and in good order, and I will have three square meals a day and clean beds to sleep on. I would not have you believe for a moment that our present jail and past jailers have not done all I promise to do, because I believe they have. But one thing sure, I purpose to keep the high standard up and make you an officer that you will not be ashamed of.

I believe in the Abe Lincoln type of Republicanism, the kind that Grant, Garfield and McKinley stood for.

Should I be your next Jailer, I will sure entertain my friends, whether inside the jail, or outside with all of that good old Kentucky hospitality, for which our people are noted.

Should I be your nominee, I promise you now to do my full part in keeping the good, old Republican Banner high in the air, and to never let her trail in the dust. Should some other good Republican of your choice, depend on me to help him keep the old flag up through thick and thin.

With kindest regards and best wishes for all. I beg to remain, Your friend, BILLIE BAKER.

OUR NATURAL RESOURCES.

AN ADDRESS BY DR. A. G. LOVELL

Before Mt. Vernon Commercial Club.

Mr. President: The subject assigned me is one that I delight to discuss, though some of my audience may think me visionary or dreamy. Indeed I plead guilty to the charge at the indictment. But don't forget that many ancient worthies were thus accused, and honored later for their foreknowledge. That for these dreams foreshadowed, coming events as true as Joseph's of old, is evidenced by the budding interest in the stone, lime and cement industries of our country.

The Government's report on the soils of Rockcastle show it to be a fair average agricultural county, and need only modern methods to be made a valuable asset.

The assertion that much of the lands in and around Mt. Vernon contains millions of tons of merchantable material may sound "fishy" to many people; never, the less, this is a simple statement of fact. Think of it; carbonates and silicates stacked in stratified form, one upon the other, hundreds of feet high, with a railroad at the foot, where everything may be carried by gravitation, even to the loading of the cars. There is enough fire clay and gaultier here to supply all the coke ovens, blast furnaces glass factories and kindred industries of Kentucky and a adjoining states for a century. Enough high grade clays of different varieties to support the manufactures of any succeeding generations.

There is no room for rest at a table set with many plates; then she is invited to have some wine and hold there isn't any. The Dutchess throws her a baby to nurse and after singing it to sleep she finds it only a pig.

In the last act Alice is called in court to testify against the Knave of Hearts who has stolen the Queen's tarts. The Queen orders the executioner to cut off her head but Alice is saved by the fairies.

RHEUMATISM QUICKLY CURED

"My sister's husband had an attack of rheumatism in his arm," writes a well known resident of Newton Iowa. "I gave him a bottle of Chamberlain's Liniment which he applied to his arm and on the next morning the rheumatism was gone." For chronic muscular rheumatism you will find nothing better than Chamberlain's Liniment. Sold by all druggists.

**Nature's Way Is The Best.**

Buried deep in our American forest we find bloodroot, queen's root, man-drake and stone root, golden seal, Oregon grape root and cherry bark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Mucilage Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Mucilage strengthens the stomach-pits in its shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, debilitated condition which so many people experience at the time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."

"More than a week ago I was suffering with an awful cold, my head, throat, breast and body," writes Dr. J. S. G. Kelly, of 710 L. Street, S. E., Washington, D. C. "My doctor called it a Grippe, some pneumonia. I was advised by a friend to try a bottle of your 'Golden Mucilage Discovery.' I tried a bottle and it did me much good. That I feel now in saying it is the greatest and best medicine that I ever used. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

**PRIMARY ELECTION LAWS.**

Primary elections under this law will always be held the first Saturday in August, between 6 a. m. and 4 p. m.

All political parties who cast at least twenty per cent of the vote at the last preceding election for the President must nominate their candidates at this primary.

The candidate must file a petition stating his name, age, sex, office address, political affiliation and the other legal qualifications of the candidate for the particular office.

The nominating petition of the candidate must state his name, residence, office for which he is to be nominated and the date of the primary.

All such petitions must be filed with the County Clerk at least thirty days before the primary, except when the office is more than one county, in which case the petition must be filed at least forty days before the primary. It cannot be circulated prior to sixty days before the date when it is required to be filed.

Voters can sign only one petition for each office, except where more than one office of the same kind are to be filled at the same election. The signer must declare that he intends to support the candidate named in the petition, must sign his own name, residence and street number and date of signing. No signature shall be counted unless it has been signed and bears date within sixty days prior to the time for filing.

All signers of each separate sheet must live in the same precinct. The signers must be qualified voters and members of a party making its nomination at the primary and with which they are registered voters, if they live in a precinct where registration is required.

For office of one county or a portion thereof, the nomination paper shall be signed by at least three per cent and not more than ten per cent of the total vote of the last preceding Presidential election of the party of the candidate in the county or district in which he is to be elected; if more than one county and less than the entire State, not less than two per cent and not more than ten per cent in each of at least ten counties in the State.

The order in which the names are to be placed on the ballot shall be determined at a public drawing in the county clerk's office twenty five days before the primary election at 2 p. m.

Separate ballot boxes shall be supplied for each party, but a ballot shall not be disqualified if placed in wrong ballot box.

The same qualification of voters shall apply in primary elections under this law as are required in regular elections. Said qualifications shall be determined as of the date of the primary, without regard to the qualifications or disqualifications as they may exist at the succeeding regular election. Each voter can only vote if his ballot of that party with which he is affiliated.

A special registration for those who were unable to register for the last regular election is held at the County Clerk's office to precede the primary and at the same time and place transfers from one precinct to another can be obtained. No registration or transfers are permitted on the day of the primary.

Primary election officers are appointed by the regular election commissioners, but by filing candidates have the privilege of designating a proportion of such officers.

Each party is entitled to two challengers and two inspectors appointed by the election commissioners. Candidates have the same privilege of appointing these officers with the other officers. Primary returns are made to the county clerk.

All expenses of primary are paid by the State. Nomination papers shall not be circulated prior to sixty days before the date by which such papers are required to be filed, and no signature will be counted unless it has been signed to such nomination paper and bears date within sixty days prior to the time for filing.

**BULLETIN**

1. The Act of 1912 requires all candidates for the office of County Superintendent, except those who are now in office, to hold a State Certificate issued by the State Board of Examiners which does not expire during the anticipated term of office.

2. The applicant may qualify by taking a special examination, or be held in the Department of Education, Frankfort, Ky. May 30 and 31, and June 27 and 28. This examination is in all respects equivalent to the examination for the regular State Certificate.

3. The applicant may qualify by taking the regular State Examination, June 29 and 30, either in the county in which the applicant resides or in Frankfort, before the State Board of Examiners.

4. Applicants may qualify after nominations are made in the August Primary. However, there is only one chance after the Primary, and that is in the regular State Examination in August.

5. Incumbents in office, under the law, are qualified by virtue of their past tenure of office, or their re-election without further examination.

6. The 1912 law prescribes that all candidates who are not incumbents in office, must either have a certificate as hereby described, or take this special examination, which is in all respects the equivalent of a State Certificate. Therefore, all such candidates must have taught two years, the time required by law to secure a State Certificate.

BEST MEDICINE FOR COLIC. When a druggist recommends a remedy for colic, throat and lung troubles, you can feel sure that he knows what he is talking about. O. Lower, Druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I find. It cured my wife of a severe bronchial cold, after all other remedies failed." It will do the same for you if you are suffering with a cold or croup, bronchial, throat or lung cough. Keep a bottle on hand all the time for use in the family to take. If it's a home doctor, Price 50c and \$1.00. Guaranteed by Chas. C. Davis.

**TO THE VOTERS OF ROCKCASTLE-**

I want to add just a few more words to my race for sheriff. I have a new deputy which gives me two, Mr. R. H. Long and Mr. Wade Livesey. Mr. Livesey lives about four miles west of Mt. Vernon, and is a farmer. Now I have nothing to say about my opponents as all. They are good men, but I see Mr. Mullins is scattering pamphlets over the county saying I am a liar; that I have been talking about him. I have made nothing and told on him. I see he is a good man but I see he is trying to down me in every way. I am not the man who told what he has heard. It has been some of his friends who are trying to get me down I have seen Mr. Mullins and had a talk with him. I only want the people to see this. I told Mr. Mullins that I had heard the talk but I did not start it. So I can't see why he puts to accuse me of being a liar. I never harm anyone so I want the people to think the matter over. I am only asking for the office one time and I am nominated, Mr. R. H. Long and Mr. Wade Livesey will be my deputies.

T. S. BRANNAMAN.

**FOREST NURSERIES**

Two nurseries for the growth of forest tree seedlings and transplants will be started in the near future, one near Frankfort, Ky. and the other on twenty-five acres of land belonging to the State Fair at Louisville. The State Board of Forestry at its quarterly meeting on April 21 made arrangements to undertake this work. It will cost about \$750 each to establish the nurseries and the stock from them will be furnished to the people of the State at cost in order to encourage the reforesting of cut-over areas and waste lands. These nurseries are projects which will be of great benefit to the people of the State and within a very short time will be self-supporting.

Is it possible we are going to let the electric light proposition slide? If we do it seems to us that it is time to just lock up shop and quit. There are over 200 people without an electric light plant, simply says to the world that there is something lacking among its citizens. That the Coleman proposition is lost seems to be a certainty and to let the whole truth, it looks like there is some back water and cold feet all the way round.

**HEALTH A FACTOR IN SUCCESS**

The largest factor contributing to man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the system. They are sold by all dealers.

**HUSBAND RESCUED DESPAIRING WIFE**

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Up to Rescue. Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side. The doctor was called in, and his treatment relieved me for a while, but it was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair. At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without my sitting me, and am doing all my work." If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. ern portion of the State sending a special train to State fair with a delegation of 500 back scratchers... This needs the fact that thru the arbitrariness and malfeasance of the Fair's Secretary last year our corn club's boy representative was deprived of making the trip to fair while those from every one of the other 118 counties were accorded that privilege.

RESOLUTION will soon be introduced in Congress providing for the formation of a Roads Committee of twenty one members. The big cities and those interested in river and public building appropriations are dead against it. But victory in rules committee is a step in advance for rural congressmen, and to their constituents in agricultural states like Kentucky it means much.

A strong minority in Congress has for some months been demanding a share of Government internal appropriations for roads. It wants a division of public improvement funds. The claim of this minority, of which several Kentucky Representatives are leaders is that too much already has been given for the improvement of rivers and the construction of public buildings and that the time has come to promote intercourse between farm and town by the building of roads throughout the nation.

The good roads advocates have figured that hundreds of millions of dollars have been applied by the Government... to facilitate navigation. The rivers and harbors of the country have been deepened, canals have been built, locks and dams have been constructed and shoals have been removed.

To do all this the Treasury has been depleted year by year. The "highway men" as they call themselves, find another parallel in the matter of public buildings. Fifty years ago not a city under 25,000 inhabitants, dreamed of a Federal appropriation for a post-office, but now every town of 1,000 or more people looks to its Congressman for a public building and many have been secured for towns of less than 1,000. All these public works have been generously appropriated for until the aggregate for the past half century reaches beyond the billion-dollar mark.

Representative of a large Ohio glass factory recently visited several cities seeking a new location for their plant. Among the places inspected were Ashland, Ky., and Huntington, W. Va. The last-named city finally was chosen.

In giving his reasons the other day for preferring Huntington as a location the manager of the glass factory said the booster spirit which prevailed in the West Virginia City had much to do with the company's decision. "I never saw so many boosters in one city in my life," he is quoted as saying. "The statement made by the Ashland Independent to the effect that the lack of the booster spirit in Ashland:

"We have all the natural facilities and more than those enjoyed by our neighboring cities. But we are too slow in telling the world about it. We seem to think that because we know what we have the other fellow ought to see it himself. But the stranger who is here only for a short time cannot know these things as well as we do. It is therefore important that we all join the Booster Club and boost whenever the opportunity presents itself, and then use considerable energy in creating an opportunity. If all join properly in this spirit it would not be long until strangers would say, 'I never saw so many boosters in one city in my life.' The booster spirit is not as strong as it should be in some of our Kentucky cities. It is a valuable asset to any community. No town can make much progress without it, for unless the home people take up the town's cause, visiting strangers are not likely to be impressed. If the man who is looking for a new home or for an industrial location finds in any given locality that boosters and croakets are about equally divided he will pass on, most probably, to another place where there is a smaller element of pessimism and greater degree of confidence.

Boosting does not necessarily mean over-enthusiasm or extravagant assertions. Boosting should share with facts, else it may, like vaulting ambition, overleap itself, but the cheerful and hopeful view should be in evidence. Where there is a marked preponderance of boosting sentiment, it augurs well for general progress, and it impresses the stranger favorably. Not much can be accomplished in any community where one body of citizens is trying to build up and another body is decrying the efforts that are being made. In many small towns there is much factional feeling and petty jealousy.

Co-operation and concert of action are the greatest of all factors for community advancement, and these are possible only where the booster spirit is well developed.

"Not gold, but only men can make a city great and strong. Men, who for truth and honor's sake Stand fast and suffer long Brave men who work while others sleep Who dare while others fly— They build a city's pillars deep And lift them to the sky. Blank deeds and mortgages for sale at this office."

Louisville has pulled off her threatened stunt in the best way of a booster excursion into the mountains of Eastern Kentucky. South Eastern Kentucky was luckily not included in its itinerary we therefore escaped the infliction of a visit of the wind jamming representatives of an arrogant, selfish, grasping, penurious, hog-rich, aggregation of humbug, called a city—composed principally of "back itchers" that expect the mountains to continue the scratching, in fact to increase the number in the scratching squad forces, all without cost or any expected benefits in return. All for the itchers nothing for the scratchers. It is unnecessary to state that these excursionists received good treatment in their trip back south through the mountains, that portion which, as yet, has not learned Louisville's true "inwardness" from its newspapers to its business and professional men with notable exceptions. That city will no doubt, for a time, "draw the sheeps covering over the peppers" of the Eastern Kentucky "Mountaineers" until the old South Eastern brethren discover that all is not "refined metal that throws off embellishments" that the "setaway to the South" (in small letters) is in question. Louisville is figuring on East-

LEXINGTON, which is now being seen under a commission form of government instead of the old aldermanic system, issues monthly magazine in which appears complete reports of the proceedings of its various departments as well as outlining the system of commission government. Much valuable and interesting matter is published in each issue of the publication. TRAVELING northward a column of grasshoppers five miles wide and eighteen miles long was seen last Monday passing over Northeastern New Mexico.
