LANGDON MEMORIAL CLOSURE.

A WEEK OF SELIGNDID ENTERTAINMENT

Last Friday began the closing or Commencement exercises of the third year of the Langdon Memorial Industrial school at the Friday morning the Kindergarten had open house, which was witnessed by the parents of all the little tots and many friends, and of course it is useless to say that every move made by them was enjoyed.

Friday evening was the music recital by Miss Abernathy's pupils each number rendered both vocal and at the piano brought a hearty applause. Sunday was the Haccalocatee sermon preached by Rev. George S. Watson was heard by a crowded house. Monday afternoon on the lawn of the Langdon Memorial Campus was presented "Alice in Wonderland" by the Kindergarten, primary and all the first grade pupils. This was followed by a few of the choruses from the opera Sylvia, which were produced in honor of Mrs. Langdon, the lady who by her generous gift has made possible the present high standing and usefulness of the Langdon Memorial school.

Monday evening was the Commencement proper. The program as presented was a piano duet, Midsummer Nights' Dream by Misses Abernathy and Rowlee, Prayer by Rev. George S. Watson. The three graduates, Miss Martha Huff, essay, "The Rights of the Country Child," Miss Rae Hunt, "The Religion of the Kindergarten" to the Children and Miss Bertha Linton, "The Value of Industrial Education to girls"; acquitted themselves with honor and credit to the institution from which they were about to receive their diplomas of graduation.

"Elencans" was artistically rendered by Miss Frances Sparks and loudly applauded. The solos of Miss Abernathy and Mr. Michel were greatly appreciated, as they are by Mt. Vernon people, who have long since learned to look forward with great pleasure when either of them is to sing. The class address was delivered by the Rev. W. Frances Irwin, D. D. of Louisville, subject "Happiness and Power", which was one of power and wisdom forcibly presented and will no doubt serve as a great inspiration to the large and appreciative audience who heard him. The presentation of the diplomas by Mrs. Langdon in a few but appropriate remarks and the benediction by Dr. Cheek, brought to a close a most successful year's work of the Langdon Memorial school.

Thos. F. and Andrew J. Williams, Automobile dealers of Big Stone Gap, Va., passed through here Monday evening on their way to New York at cars from the factory at Flint, Mich. They have been posing the Boone Way in their country, and we feel pretty sure they will keep it up after they get their machines home over this proposed National Highway.

A friend told us that on Monday the first day of Circuit Court, he shook hands with fourteen men, inside of ten minutes, and that twelve out of the fourteen were candidates for county offices: London Echo.

We know that Laurel has plenty of candidates, but Laurel is not one two three compared with Rockcastle when you talk about candidates and especially for the jailer's office. On one street corner in Mt. Vernon a few days since, were seen ten candidates all for the same office of jailer, and when the thirteen were missing seven candidates who are also aspiring for that most important office.

On Monday evening the Women's club entertained with a reception in honor of Mrs. Langdon of Baltimore, at the porch.

Mrs. W. J. Sparks, the porch was lighted with Japanese lanterns and at one end punch was served. There was no regular program but the music by Miss Sparks, Mr. Michel and the girls chorus, added to the pleasure of the guests in the dining room ice cream and strawberries with individual cakelets and minis and fruit were served. The last open meeting of the season, was thoroughly enjoyed both by the Mt. Vernon people and the out of town guests.

E. and A. K. of Livingston, G. D. North of Paducah, Oregon, and J. A., who died some years ago. Mrs. Neal Parrett and Mrs. W. H. Green, of Mt. He was laid to rest with Masonic honors in the Ripwold cemetery at Mt. Vernon. He had been a member of the Baptist church for years. Peace be to his slumbering dust glory to his immortal Soul.

A very sad accident occurred Sunday night at the home of Mr. K. B. Mullins when the two year old baby of Mrs. Hiram Hurd fell down a flight of steps, striking the back of his head, rendering the little fellow unconscious, causing partial paralysis and which the doctors pronounce a fatal injury; although the child may live for several days. The mother who was making her home at the Mullins residence had started up stairs with the little one to retire. The baby was in front and the mother following only a few steps behind and on reaching the topstep turned to look for its mother when it lost its balance and fell to the first landing, receiving an injury which will probably be fatal. It was a very sad affair and no one feels the shock more than Mr. and Mrs. Mullins in so much that the accident occurred in their home. It has only been a short time since the father, was killed by a locomotive near Sparks Quarry, leaving a wife and five children in the most destitute circumstances. Three of the children were sent to the orphan home, one is being kept by Mr. W. A. Falin, and the little one which was not two years old until last Wednesday, would have been taken to the orphan home tomorrow.

HOT FLASHES.

Women in middle age often complain of hot flashes. They are at that stage of life—when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them. Many women suffer not only from dizziness and headache, but from morbidness to old age—with backache, dizziness and headache. A woman often becomes sleepless, nervous, "broken-down," irritable and tired from morning to night. When pains and aches rack the womanly system at frequent intervals, and your neighbor about

Doctor Pierce's Favorite Prescription.

Mrs. J. Taylor, of 212 E. Boston Street, Baltimore, Md., says: "I was about nine months ago, 42 years of age. I have a fair complexion—the weight and normal condition. I had a very good appetite and the strongest of them all. My regular work was in a mill. I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's 'Smart-Wind.' I never had a week before I took your medicine. I was surprised how well I felt—could not—was always hungry, and never had a sick stomach. The nurse who was with me said I was making wonderful progress because I got along so nicely after having had so much trouble before. She intended to recommend it to all her other patients. Everybody in the household is now because I only needed 75 pills before and now I am strong. I have had several bottles since we were about Dr. Pierce's medicine. I am willing to recommend it to all my friends and want both. If any want information I will be glad to give it to them."

\$50,000 A YEAR FIVE CENT MEAL SQUANDERED??? SOLVED PROBLEM

"Teachers to Teach Teachers" Needed Today.
HEARD AT COUNTRY STORE.

Two Old Times Express Their Views on Up to Date Educational Methods and Expenses of State Normal School.

"Say, did you ever notice how easy it is to spend the state's money? That school, the one they call the normal school, cost \$50,000 a year. I hear, that \$50,000 is for just the normal school in this part of the state too."

"Mighty different what we were boys. Bill, we didn't have to have teachers to teach teachers to teach."

"You get a number of trained teachers, and so do the other counties."

"How much of the \$50,000 does the county pay?"

"I don't know, one of the magistrates."

"Well, I do," stepped the youth. "A little less than \$20, that's all."

"Well, what do we get for the \$30,000?"

"An' what do the other counties do for the state get for what money they put in?"

"They get a number of trained teachers, and so do the other counties."

"We don't need 'em. The 'ol fashioned kind are good enough."

"Hold on a moment! Think! When you men were boys a bright youngster could go into any doctor's office for a couple of years, then hang out his shingle and practice medicine. He had the best lot of 'em, but you wouldn't think of having that sort of physician for your family today."

"I'd like to know what's got to do with teachers' school."

"Just this—your ideas about school and teaching are about 15 years behind the times. If in some of you have a trained man to look after your child, he can probably give you a better trained man or woman to look after the child's mind."

"I get mighty tired of you youngsters with all your new-fangled ideas for spending money. I tell you what, you're tryin' to dunder too fast."

"There," snapped the young man again. "I told you you didn't stop to think. Two years ago in front of this very store I heard both of you cussin' the Boys' Corn club movement. You said that nobody could possibly grow 100 bushels of corn on an acre of land in this neighborhood or in the state of Kentucky for the thirtieth year."

"Well?"

"In this state during the past summer fifty-six boys in the country schools, boys yet under eighteen, grew 100 bushels or more better. Do you two men know that this movement has been handled by this very school you are fussing about? Four thousand boys in this state grew an acre of corn, and you were saying that nobody would have earned it more than they had."

"Well, then, 4,000 boys earning \$10 each makes \$40,000 of that \$50,000 the state is spending in that school, don't it? Seems to me as if it is rather good investment for the state if it does nothing to be unprofitable."

Children Cry FOR FLETCHER'S CASTOR

CHARLES B. ANDERSON,

To the Voters of Rockcastle county—

Upon the solicitation of many friends from various parts of the county I have decided to announce my candidacy for the office of Superintendent of schools to be voted for in the primary Aug. 2, 1913.

I am a son of W. F. Anderson, a grandson of George Anderson and Harrison Reams, native of the county, and have always been affiliated with the Republican party. I have served five years as teacher in the rural schools, and two years and four years as examiner and have finished the academy, high school and four years in the normal training course for teachers and am now classed junior in the collegiate department of Berea college. I feel that I am thoroughly qualified to take care of the problems that come to the office of Superintendent of schools.

Four years ago I was asked to make the race but refused because I felt that I was not broad enough to handle the schools on an educational basis as they should be conducted, and now I feel that I am better prepared to take charge of the schools than if I had had four years of experience and less training in school work. I hope to be able to talk the matter over with each of you before the primary.

I promise you, if elected, not only to impartially discharge the duties of the office and not doing only what is required by law and no more, but to secure for the county in whatever way that I might be of some benefit to the cause of education. I am your friend now and after the election; and your best friend to education.

Thanking you in advance for any support you may give me, I remain, Your friend, C. B. ANDERSON.

AN INTERESTING LETTER FROM PROF. T. A. HOUSTON

Shelbyville, Ky. May 27, 1913.

Dear Mr. Albright:— I have long been intending to write to you. I have been reading the SIGNAL with much interest. I was much interested in the vote for the bond issue for building roads in Rockcastle and was much disappointed when I learned that the bond issue was lost.

I have been much interested also in the movement for the Boone Highway. It seems to me one of the most commendable projects the National Government could undertake. It would be a much better memorial for Abraham Lincoln than that great pile of marble that is being built to his memory.

To show my interest in these things I inclose my check for a small amount. Out of this I wish you would take the amount of my subscription to the SIGNAL for one year and turn the remainder into the postage fund for boosting the Boone Highway.

I have very pleasant work here and quite enough to keep me busy. Only two weeks ago we closed a Graded School tournament here. With four schools contesting Shelby Graded School won seventeen contests out of a total of sixteen in high school work and three out of seven in track and three out of ten in track athletics and besides that we won the ball pennant. Our friend Ben Fishback begged the ball behind the bat in the critical game.

I will inclose a program of the tournament and mark the medals you want so that you may see what we have been doing.

We now have on hands the proposition of voting a bond issue of \$4000 for a new High School building. The election is

set for June 28. The outcome is doubtful but I hope that the issue will carry. We certainly need a new building. The one we have is not large enough for the grades and the high school also and besides it was built at least fifty or sixty years ago.

Give my regards to my Mt. Vernon friends and pass the Boone Highway. Best, T. A. HOUSTON.

DRAPNESS CANNOT BE CURED

By local application, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it causes the drum to become tight and sound is imperforated, hearing is then entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; since cases out of ten are caused by Catarrh of which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. J. P. Drugg & Co., Toledo, Ohio. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.
